Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Housing and Economic Development hereby submits this report and

recommendation on a proposed amendment to Institutional Planned Development No. 50 for your review and recommendation to the Chicago City Council. The application for the Chicago Zoning Ordinance was introduced into the City Council on June 27, 2012. Proper legal notice of the public hearing on the application was published in the Chicago Sun-Times on, November 9, 2012. The Applicant was separately notified of this hearing.

The site is currently zoned Institutional Planned Development No. 50. This application is being submitted by the Applicant as an amendment to Institutional Planned Development No. 50 to amend the site plan, elevations and the Bulk and Data Table for the planned development. Pursuant to section, 17-8-0515-A of the Chicago Zoning Ordinance, Planned Development review and approval is required since the proposed amendment will result in a change to the approved planned development.

PROJECT BACKGROUND

The project includes a proposed amendment to Institutional Planned Development No. 50. Institutional Planned Development No. 50 (I.P.D No. 50) was originally approved in December 20, 1967. The Planned Development was last amended in 2009 and included an additional parcel (Sub Area C) to the planned development and a proposed site plan. The existing buildings in Sub area A and B shall remain and no site alterations to the buildings are proposed as part of this amendment to I.P.D No. 50.

1

SITE AND AREA DESCRIPTION

The site is located in the Lakeview neighborhood and is not in a Tax Increment Financing District or in an industrial corridor, nor the Lake Michigan and the Chicago Lakefront Protection District. The planned development boundaries are generally North Halsted Street on the east, West Oakdale Avenue on the south, West Barry Avenue on the north, and the Chicago Transit Authority Public Right of Way on the east. Sub area C is bounded on the north by West Barry Avenue, on the west by North Wilton Street, on the South by a partially vacated West Nelson Street and on the east by a five-story masonry multi-story residential building. The existing planned development consists of three sub-areas (A, B, and C) Sub area C is currently used as an interim accessory parking lot.

The area surrounding the Planned Development is developed with a variety of commercial, residential, institutional, and open space uses. One block to the east along North Halsted Street is a mix of residential, business, and commercial uses, which is comprised of B3-3, B3-2 Community Shopping Districts, and RM-5 Residential Multi-Unit District. To the south of the existing planned development boundaries along West Wellington Avenue residential area zoned RT-4 Residential Two-Flat, Townhouse, and Multi-Unit District. To the north of West Barry Avenue is a residential district zoned RM-4.5 Residential Multi-Unit District.

The site is immediately accessible via public transit from CTA's No. 8 Halsted Street bus, and No. 22 Clark bus lines. The site is also served by the Wellington Red and Brown line train station located just west of the site.

PROJECT DESCRIPTION

The current proposal would revise Sub Area C to include a proposed outpatient care pavilion in lieu

of the previously proposed Hospital. The project as proposed would be constructed as a Phase I and Phase II project. The Phase I project will be a 47-foot outpatient care center and a proposed building square footage of 129,412 square feet and include a significantly smaller building then was originally approved in the 2009 amendment. A Phase II project will consist of a proposed hospital building of similar height, scale, bulk, and density as the 2009 approval. The Phase II project is not yet designed and will be reviewed administratively via a formal site plan review. Sub area C will have a maximum floor area ratio (FAR) of 3.6. Furthermore, the applicant has agreed to present the Phase II project at a future Chicago Plan Commission public hearing for a formal vote and approval of the project.

DESIGN

The proposed outpatient care building will be compatible in terms of bulk, height and scale as the surrounding neighborhood. The building is composed of architectural metal panels, architectural masonry brick, aluminum curtain wall systems, and pre-finished aluminum framed glass windows. The building is designed to achieve basic LEED certification and provide a minimum of fifty percent 50% of the net roof area as a vegetative green roof as indicated on the attached Roof Plan.

2

ACCESS/CIRCULATION

The main vehicular entry for the proposed Phase I building is West Nelson Street and the main pedestrian entry point is located on West Berry Street. The proposed design allows for vehicular access to the building with a circular drop off and internal to the site on West Nelson Street. The applicant proposes to vacate West Nelson Street from the most eastern point of the Chicago Transit Authority elevated tracks through the remainder of the site. The existing loading berth along West Nelson Street is to remain and will not be altered. In addition to the vacation of West Nelson Street, the Applicant proposes to vacate North Wilton Street from West Barry to West Nelson Street. The portion of North Wilton Street to be vacated is to be improved with a parking lot and will provide 14 parking spaces to serve the proposed outpatient care center. The site plan also provides for two bicycle racks located at the entrance of the building with a total capacity to park 50 bicycles.

The Applicant provided to CDOT a detailed traffic study in which the impact of the outpatient care facility on numerous Lakeview intersections was analyzed.

LANDSCAPE & SUSTAINABILITY

The applicant has agreed to meet the requirements of the City of Chicago's Landscape Ordinance. The project will meet the requirements of the City of Chicago's Sustainable Matrix by achieving LEED Certification and include a 50% (25,100 square feet) green roof of the net roof area. The future phase II project will also need to comply with the City of Chicago's Sustainable Matrix.

BULK/USE/DENSITY

The Phase I project will be a 47-foot outpatient care building with a proposed building square footage of 129,412 square feet and include a significantly smaller building then was originally approved in the 2009 amendment. One block to the east along North Halsted Street is a mix of residential, business, and commercial uses, which is comprised of B3-3, B3-2 Community Shopping District, and RM-5

Residential Multi-Unit District. To the south of the existing planned development boundaries along West Wellington Avenue is a residential area zoned RT-4 Residential Two-Flat, Townhouse, and Multi-Unit District. To the north of West Barry Avenue is a higher residential district zoned RM-4.5 Residential Multi-Unit District.

RECOMMENDATION

The Department of Housing and Economic Development has reviewed the project materials submitted by the Applicant and has concluded that the proposed development would be appropriate for the site for the following reasons:

- 1) Although the overall net site area of the planned development would increase slightly, the development parameters of maximum FAR, height and bulk are not exceeded and would not be negatively impacted by the proposed amendment to the planned development.
- 2) The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy.

3

- 3) The proposed Planned Development amendment has been reviewed by the Chicago Department of Transportation's Project Review Committee and all requested changes have been made. CDOT has reviewed in detail the proposed outpatient care facility. The Applicant provided to CDOT a detailed traffic study in which the impact of the outpatient care facility on numerous Lakeview intersections was analyzed.
- 4) Copies of this application have been circulated to other City departments and agencies and no comments have been received. The project will comply with the requirements for access in case of fire and other emergencies.
- 5) The applicant has agreed to meet the requirements of the City of Chicago's Landscape Ordinance. The project will meet the requirements of the City of Chicago's Sustainable Matrix by achieving LEED Certification and include a 50% (25,100 square feet) green roof of the net roof area.

Based on the foregoing, it is the recommendation of the Department of Housing and Economic Development that the revised application for an amendment to Institutional Planned Development No. 50 be approved and the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be "As-Revised, Passage Recommended".

A Site Plan shall, at a minimum, provide the following information with respect to the proposed

improvements within the boundaries of the area to be developed:

a) building elevations and sections;

b) footprint of the improvements;

c) preliminary landscaping plan;

d) pedestrian circulation; updated traffic study

e) preliminary cross-sections of the improvements; and

f) statistical information applicable to the area, including floor area and floor area ratio,

numbers of dwelling units, uses to be established, building heights and setbacks.

A Site Plan shall include such other information as may be necessary to illustrate conformance with the

applicable provisions of this Planned Development and any City Ordinances or policies in effect at the time of

submission of the Site Plan. 13. The terms, conditions and exhibits of this Planned Development Ordinance

may be modified administratively by the Commissioner of the Department of Housing and Economic

Development, upon the application for such a modification by the Applicant and after a determination by the

Commissioner of the Department of Housing and Economic Development that such a modification is minor,

appropriate and consistent with the nature of the improvements contemplated in this Planned Development and

the purposes underlying the provisions hereof. Any such modification of the requirements of this Statement by

the Commissioner of the Department of Housing and Economic

Development shall be deemed to be a minor change in the Planned Development as contemplated by

Section 17-13-0611 of the Chicago Zoning Ordinance.

14. The Applicant acknowledges that it is in the public interest to design, construct and maintain all

buildings in a manner that promotes and maximizes the conservation of natural resources. The

Applicant shall achieve LEED Certification and maintain all new improvements and buildings located

in Sub-Area C of the Property under the Leadership in Energy and Environmental Design (LEED)

Green Building Rating System. The Applicant shall provide a vegetated ("green") roof of least fifty

percent (50%) of the net roof area (25,100 square feet) of the new buildings in Sub-Areas A and C. "Net

roof area" is defined as total roof area minus any required perimeter setbacks, roof top structures, and

roof-mounted equipment.

15. The Applicant acknowledges that it is in the public interest to design, construct and maintain the project

in a manner which promotes, enables, and maximizes universal access throughout the property. Plans

for all new buildings and improvements on the property within Sub-Areas A, B and C shall be reviewed

and approved by the Mayor's Office for People with Disabilities (MOPD) to ensure compliance with all

applicable laws and regulations related to access for persons with disabilities and to promote the highest

standard of accessibility. No approvals shall be granted pursuant to Section 17-13-0610 of the Chicago

Zoning Ordinance until the Director of MOPD has approved detailed construction drawings for each

building or improvement.

16. Notwithstanding any statement to the contrary, this Planned Development shall be

subject to the provisions of Chapter 17-11 of the Chicago Zoning Ordinance governing landscaping and

screening. In any instance where a provision of this Planned Development conflicts with landscape and

screening provisions of the Chicago Zoning Ordinance, the Chicago Zoning Ordinance shall control.

Nothing in this Planned Development is intended to waive the applicability of the landscape and

screening provisions of the Chicago Zoning Ordinance.

17. The Applicant will comply with Rules and Regulations for the Maintenance of Stockpiles promulgated

by the Commissioner of the Streets and Sanitation, the Commissioner of the Fleet and Facility

Management and the Commissioner of Buildings under Section 13-32-125 of the Municipal Code of

Chicago or any other provision of that Code.

18. Unless substantial construction of Phase I in Sub-Areas A and C has commenced within six (6) years

following adoption of this Planned Development, and unless completion is thereafter diligently pursued,

then this Planned Development shall expire. If this Planned Development expires under the provisions

of this section, then the zoning of the property within Sub-Areas A and B shall automatically revert to

the Institutional Planned Development 50, as amended March 27, 2002, and the zoning of the property

within Sub-Area C shall automatically revert to the underlying zoning of the property of the RM4.5

Residential Multi-Unit District, except for that portion of Sub-Area C bounded by West Barry Avenue;

North Wilton Avenue; West Nelson Avenue; a line 189.6 feet east of and parallel to North Sheffield

Avenue, a/k/a the east line of the Chicago Transit Authority Right of Way, shall revert back to the B1-3

Neighborhood Shopping District.

MEMORANDUM

Alderman Daniel S. Solis Chairman, City Council Committee on Zoning

Andrew Mooney/ Secretary / Chicago Plan Commission

November 28, 2012

RE: Proposed Amendment to Planned Development No. 50 for the property generally located at 857-939 West Barry Avenue, 3032-3058 North Wilton Avenue. 800-938 West Wellington, 901-939 West Wellington Avenue, 2934- 2958 North Mildred Avenue, 900-908 West Oakdale Avenue, 3000-3020 North Halsted Street. 3001-3021 North Dayton Street, and 3000-3024 North Dayton Street.

On November 27, 2012, the Chicago Plan Commission recommended approval of the proposed amendment submitted by Advocate Northside Health Network. A copy of the proposed amendment is attached. I would very much appreciate your assistance in having this introduced at the next possible City Council Committee on Zoning hearing.

Also enclosed is a copy of the staff report to the Plan Commission which includes the Department of Housing and Economic Development recommendation and a copy of the Resolution. If you have any questions in this regard, please do not hesitate to contact me at 744-5777.
