It is preferred that tenant identification signs on the facade of new buildings should be located in a sign bank area within the first (1st) floor level near the tenant's space and/or entrance; however, the location of such signage shall be determined during the site plan approval process and alternate sign locations may be agreed upon during that process.

No posters or other two-dimensional images should be affixed directly to the glass. Any permitted posters (i.e., not affixed directly to the glass) should occupy no more than twenty percent (20%) of the window area.

Temporary signage for site identification and information purposes or for marketing (sales, rental, leasing) and directional purposes is permitted in all subareas, subject to the approval of the Department of Planning and Development.

Any proposed moving signs, rooftop signs or projecting signs will be reviewed on a case-by-case basis. Signage for the west side of the existing building within Subarea E-2 shall be allowed to contain individual illuminated letters similar in size and details to the historic Montgomery Ward's sign, subject to review by the Commission on Chicago Landmarks.

- (viii) Facade Design: The wall of any new structure facing a public street (the "streetwall") shall be given texture and detail through the use of projections, recesses, offsets, variations to the parapet wall, variations in the type or color materials or other devices which contribute to an architectural character. A minimum of fifty percent (50%) of the streetwall at the ground level of any new structure containing retail, commercial or office uses at the ground level shall be finished with clear glass opening onto active internal uses. The remainder of that streetwall shall be architecturally compatible with adjacent structures.

- D. Satellite dishes or other electronic receiving devices must be placed in an area minimally visible from the adjacent street; provided, however, that these provisions shall not apply to the existing equipment located on the existing building in Subarea B-2. Propane tanks, garbage receptacles, et cetera, must be within the building area and screened from view. Boats and other recreational

equipment must also be stored inside and screened from view other than those allowed in the marina area.

- E. Riverwalk (at non-existing buildings): To further the goals of the Chicago Zoning Ordinance (Section 17-01-0500) and the "Chicago River Urban Design Guidelines" for the downtown corridor, the owner shall set back all new buildings and parking areas from the existing river edge as depicted on the Riverwalk Plan and Details. The publicly accessible portion of this setback area shall be improved with decorative paving and landscaping, special lighting, railings and seating. Prior to the issuance of any Part of II Approval, more specific plans for the public riverwalk shall be reviewed by the Department of Planning and Development with input from the Mayor's Office for People with Disabilities to ensure compliance with all applicable laws and regulations related to access for physically disable persons.

12. Existing Montgomery Ward Riverfront Structure.

- A. Subarea E-2. The existing structure located in Subarea E-2 has been designated a Chicago landmark by the City Council. In order to protect the historic and architectural character of this building, any proposed work on the building is subject to the review of the Commission on Chicago Landmarks, in accordance with the Chicago Landmarks Ordinance.
- B. Subareas E-1 And D. Along with the building in Subarea E-2, the existing structures in Subareas E-1 and D form the Montgomery Ward and Company Complex and are a National Historic Landmark. In order to protect the historic and architectural character of the buildings in Subareas E-1 and D, any exterior alterations and changes shall be consistent with the applicable Building Plans, Elevations and Riverwalk Sections, as set forth in statement 3 of this planned development. In particular:
 - (i) Projecting and recessed balconies shall be allowed in the locations shown on the Elevations, although recessed balconies may be substituted for projecting balconies as shown; provided, however, that as long as the total number of balconies and the basic patterns remain the same, the Applicant may change the location of the balconies as necessary by interior requirements and subject to the approval of the Department of Planning and Development. No additional balconies will be allowed. After the existing building's facades have been painted in either Subarea D or E-1, two (2) or more balconies shall be test painted in order for the Department of Planning and Development to review and approve the color selection in place.
 - (ii) Habitable and non-habitable roof-top additions shall be limited to the locations and dimensions shown on the Elevations. No additional rooftop additions will be allowed.

- (iii) Window openings shall not be added, enlarged or closed up except as shown on the Elevations. On the second (2nd) level and above, the size of all window openings and the spandrels below the windows shall be maintained, except that the spandrels may be modified to accommodate two standard-width doors per each projecting balcony for access on the existing building in Subarea E-1 and one (1) standard-width door per each projecting balcony for access on the existing building in Subarea D.
- (iv) The tower and statute of the "Spirit of Progress" on the building in Subarea D shall be preserved. The top of the tower and the statue shall have architectural accent lighting.
- (v) In addition to the design parameter set forth in statement 11.A, signs and canopies on the buildings in Subareas D and E-1 shall be consistent with those approved by the Commission on Chicago Landmarks for the building in Subarea E-2.

13. Public Improvements:

- A. Prior to the occupancy of any buildings, except as provided in statement 13(B), improvements necessary to serve or accommodate the building for use shall be in place and available for use. The improvements shall be designed, constructed and installed in accordance with applicable City standards, laws and regulations, subject to the approval of the appropriate City departments and agencies as required, as well as in conformance with applicable state and federal standards, regulations and laws. Improvements necessary to serve uses of buildings on the property are the following: (i) the public roadway improvements depicted on the Proposed Right-of-Way Vacation Map, Right-of-Way Vacation Map, Right-of-Way Dedication Map, Right-of-Way and Street Width Table, and Street Cross Sections (including pavement, required turn lanes, curbs and gutters, and traffic signals); (ii) the utilities necessary to provide potable water, sewer facilities, electric, gas, telephone, cable and other private utility facilities and services to the Property; (iii) the streetscape improvements (including sidewalks, streetlights, street trees, and planters) depicted generally on the Street Cross Sections; and (iv) the publicly accessible parks or open spaces depicted on the Open Space Plan.
- B. The following specific improvements shall be completed by the owner within the time periods described below. A "Development Parcel" means that portion of the Property located within a single subarea which is the subject of an application for Site Plan approval as described in statement 15 of this planned development:
 - (i) The new construction of, widening, narrowing, or other improvements to, Kingsbury Street, Larrabee Street, Superior Street, Chicago Avenue, Oak Street, Hudson Avenue, Huron Street, Cambridge Street, and Hobbie Street, shall be constructed and completed by the owner per Right-of-Way and Street Width Table and Street Cross Sections. The alignment of Cambridge Street with Kingsbury at the Chicago Avenue intersection and

provision of a new traffic light shall be completed no later than initial occupancy of the first (1st) principal structure constructed within Subareas A-1 or B-1.

- (ii) The roadway improvements (curb-to-curb) depicted generally on the Street Cross Sections and on the Larrabee/Kingsbury Catalogue Building Streetscape Plan shall, for and to the extent such improvements are contiguous to a Development Parcel, be completed no later than six (6) months following initial occupancy of the first principal structure constructed or renovated upon said Development Parcel.

The improvements to the public open space within Subarea H shall be completed and available for public use, and a conservation easement dedicated, no later than six (6) months following initial occupancy of the first (1st) principal structure constructed within Subarea H.

- (iii) The roadway improvements (curb-to-curb) depicted generally on the Street Cross Sections and on the Larrabee/Kingsbury Catalogue Building Streetscape Plan shall, for and to the extent such improvements are contiguous to a Development Parcel, be completed no later than, six (6) months following initial occupancy of the first principal structure constructed or renovated upon said Development Parcel.

- (iv) The improvements to the public open space within Subarea H shall be completed and available for public use, and a conservation easement dedicated, no later than six (6) months following initial occupancy of the first (1st) principal structure constructed within Subarea H.

- (v) Conveyance of the park within Subarea C-2 to the Chicago Park District, free and clear of all encumbrances inconsistent with public use, shall also occur prior to issuance of a Certificate of Occupancy for any structure in Subarea C-1. An easement to the City for the use of approximately two hundred eighty-six (286) square feet of space at the south end of Subarea C-2 to build an accessible ramp for a water taxi dock at the end of Erie Street shall be conveyed to the City within three (3) months of passage of this planned development amendment.

- (vi) Improvements to the riverwalk depicted on the Open Space Plan, shall be completed as follows: In Subareas C-1 and H, the riverwalk shall be completed and available for public use no later than six (6) months following initial occupancy of the first principal structure constructed within such subarea. In Subarea E-1, the external riverwalk north of the Catalogue Building shall be completed at the time of occupancy of any new structure adjacent and to the east, or at the time of completion of the riverwalk in Subarea H, whichever comes first. The riverwalk internal to the existing building in Subarea D shall be completed and available for public use within six (6) months following initial occupancy of the

building. The riverwalk internal to the existing buildings in Subareas E-1 and E-2 shall be completed and available for public use within one (1) year following fifty percent (50%) occupancy of the building.

14. It is in the public interest to design, construct and maintain all buildings in a manner which promotes and maximizes the conservation of energy resources. The owner shall use reasonable efforts to design, construct and maintain all buildings located within the Property in an energy efficient manner, generally consistent with the most energy efficiency standards published by the American Society of Heating, Refrigeration and Air-Conditioning Engineers ("ASHRAE") and the Illuminating Engineers Society ("IES"). Copies of these standards may be obtained from the Department of Planning and Development.
15. Prior to issuance by the Department of Planning and Development of a determination pursuant to Section 11.11-3(b) of the Chicago Zoning Ordinance ("Part II Approval") for development or redevelopment of any property included within this planned development, other than interior-only alterations to existing buildings, a site plan for proposed development, including parking areas (a "Site Plan") shall be submitted by the owner or with the owner's written approval to the Commissioner for approval; provided, however, that individual lot owners for properties located within Subarea A-3 may submit a Site Plan for approval pursuant to the requirements of this statement. Review and approval of the Site Plan by the Commissioner is intended to assure that specific development proposals substantially conform with this planned development and to assist the City in monitoring ongoing development. A Site Plan may be submitted for all or any part of the Property. Such Site Plan need only include that portion of the Property, including adjacent public right-of-ways, for which approval is being sought by the owner. No Part II Approval for any portion of the Property shall be granted until an applicable Site Plan has been approved. Provided, however, that prior to the Commissioner's approval of a Site Plan for development of Subareas C1, C2 and H or for the development of the riverwalk through the improvements in Subareas E-1 and E-2, the Commissioner shall seek the review by the Chicago Plan Commission of the Site Plan with respect to Subareas C-1, C-2 and H and the riverwalk plans with respect to Subareas E-1 and E-2.

If a Site Plan substantially conforms to the provisions of this planned development, the Commissioner shall approve said Site Plan in writing within thirty (30) days of submission of a complete application for approval thereof. If the Commissioner fails to make a written determination on a Site Plan within thirty (30) days after the submission of a complete application, then the Site shall be deemed approved by the Commissioner.

If the Commissioner determines within said thirty (30) day period that the Site Plan does not substantially conform with the provisions of this planned development, the Commissioner shall advise the owner in writing of the specific reasons for such adverse determination and specific areas in which the Site Plan and supporting data and material do not substantially conform to the provisions of this planned development not later than fourteen (14) days after the expiration of the thirty (30) day period. The Commissioner shall thereafter make a final written determination of any resubmission within fourteen

(14) days of its filing. The failure of the Commissioner to make final written determination of any resubmission within fourteen (14) days of its filing shall be deemed an approval of the Site Plan by the Commissioner. Provided, however, that this paragraph shall not apply to the Site Plan review described in the previous paragraph for Subareas C1, C2 and H and the review of the riverwalk plans with respect to Subareas E-1 and E-2 until reviewed by the Chicago Plan Commission, which review shall occur at the next scheduled Plan Commission hearing available after submittal of the applicable Site Plan or riverwalk plan to the Commissioner.

Following approval of a Site Plan by the Commissioner, the approved Site Plan and supporting data and materials shall be kept on permanent file with the Commissioner and shall be deemed to be an integral part of this planned development.

After approval of a Site Plan by the Commissioner, the approved Site Plan may be changed or modified pursuant to the provisions of statement 8 hereof. In the event of any inconsistency between an approved Site Plan and the terms of this planned development in effect at the time of approval of such Site Plan or of the modifications or changes thereto, the terms of this planned development shall govern.

A Site Plan shall, at a minimum, provide the following information:

- a. the boundaries of the site;
- b. the footprint of the proposed improvements;
- c. all proposed landscaping, including species and size;
- d. all pedestrian circulation routes;
- e. elevations of the improvements;
- f. location and depiction of all parking spaces (including relevant dimensions);
- g. locations and depiction of all loading berths (including relevant dimensions);
- h. all drives, roadways and vehicular routes;

 - (i) floor area and floor area ratio;
 - (ii) floor area devoted to retail uses;
 - (iii) number of dwelling units;
 - (iv) number of parking spaces;

- (v) number of loading berths; and
 - (vi) uses of parcels.
- k. parameters of building envelopes including:
- (i) maximum building height; and
 - (ii) setbacks, required and provided.

A Site Plan shall include such other information as may be necessary to illustrate substantial conformance to this planned development.

16. Sunset the Property is intended to be developed in phases extending over periods of time. This statement describes the schedule for commencement of development over those phases.

A. Initial Period. Unless substantial construction or renovation has commenced upon a minimum of one million (1,000,000) square feet of floor area within six (6) years of the effective date of this amended planned development, this planned development expires pursuant to the foregoing provision, the zoning of the property shall automatically revert to the C3-5 Commercial-Manufacturing District classification. Such reversion shall not render any building existing at the time to be nonconforming.

B. Subsequent Periods. Unless substantial construction or renovation has commenced and been diligently pursued after the initial period on two million (2,000,000) square feet of floor area (cumulative) within ten (10) years of the effective date hereof, and three million (3,000,000) square feet of floor area (cumulative) within twenty (20) years of the effective date hereof (the "Subsequent Periods"), the department may decide to review and recommend modification of the provisions of this planned development in whole or in part; provided, however, that any such modification may not render any building existing at the time to be nonconforming. The department's determination that the planned development ordinance must be reviewed shall be reflected in an application filed by the City for a planned development amendment, with City being deemed the applicant and providing, such notice as may be required by law. If any subarea has been improved per the terms of this planned development and the planned development is amended pursuant to this statement 17, the amended planned development shall preserve the provisions applicable to the improved subarea. As of April 10, 2013, 3,082,324 square feet of development have been completed within the entire planned development and this section of the planned development is satisfied.

C. Unless substantial construction has commenced for the three thousand (3,000) square foot bank building and ATM facility within six (6) years of the effective date of the April 10, 2013 amended planned development, this planned development expires pursuant to the foregoing provision, the zoning of the

Property shall revert to Planned Development Number 447, last amended June 27, 2012. Should this planned development ordinance lapse, the Commissioner of the Department of Planning and Development shall initiate a Zoning Map Amendment to rezone the Property. Such reversion shall not render any building existing at the time to be nonconforming.

D. Unless substantial construction has commenced for the mixed-use building within six (6) years of the effective date of the _____, 201__ amended planned development, this planned development expires pursuant to the foregoing provision, the zoning of the Property shall revert to Planned Development Number 447, last amended April 10, 2013. Should this planned development ordinance lapse, the Commissioner of the Department of Planning and Development shall initiate a Zoning Map Amendment to rezone the Property. Such reversion shall not render any building existing at the time to be nonconforming.

17. Severability. It is hereby declared to be the intention of the City Council of the City of Chicago that the provisions of this planned development ordinance are severable. If any provision, clause, paragraph, or statement of this planned development shall for any reason be adjudged by a court of competent jurisdiction to be unconstitutional or invalid, that judgment shall not affect, impair, or invalidate the remainder of this planned development.

Parking and Loading Requirements referred to in these Plan of Development Statements read as follows:

Parking And Loading Requirements.

Parking.

1. Residential:
 - Multi-family -- 1.0 parking space per dwelling unit; Except for Subarea A-1 A, which shall have a parking requirement of 0.5 parking spaces per dwelling unit.
 - Townhouse -- 1.5 parking spaces per dwelling unit.

3. Other uses -- per C3-5 zoning requirements.

Loading.

1. Telecommunications, high technology, data centers and new media -- 1 loading dock for every 500,000 square feet of usable floor area.
2. Office -- 1 loading dock for every 250,000 square feet of usable floor area up to 750,000 square feet after which 1 loading dock for every 500,000 square feet will be required.
3. Multi-family Residential -- 1 loading dock for every 200,000 square feet of floor area.
4. Retail.
 - 0 to 10,000 square feet of usable area, no loading dock required provided that the retail is accessory to another use within the same zoning lot.
 - 10,000 to 25,000 square feet of usable area, 1 loading dock required.

5. Loading dock requirement may be reduced through sharing arrangements by 15% for each of the above uses included within a zoning lot (e.g., if 10 loading docks would be required by the above calculations for a building that included retail, telecommunications and office, the required number of docks would be reduced by 30% to 7 docks; $15\% + 15\% = 30\%$ multiplied by 10 loading docks = 7 docks required).
 6. Townhouses and Single-family Homes -- no loading docks required.
 7. Other uses -- per C3-5 zoning requirements.
