The Conduit Paths will each include two eight (8) inch conduits (together, the "Conduits"), as well as approximately fourteen (14) innerducts in each Conduit distributed in each of the Conduit Paths for use by telecommunications network providers servicing the tenants and occupants of the Complex, the public way routes of said Conduit Paths being identified and set forth in Grantee's Outside Plant Fiber Optic Build plans ("Plans") prepared by the structural engineering firm of Antonio and Associates, P.C. ("Structural Engineer") originally dated October 20, 2011, as approved by CDOT on April 4, 2012, and as certified as final on April 5, 2012 by the Structural Engineer (the "Authorized Routes"); and

WHEREAS, Grantee has proposed that Grantee be permitted to construct, install, repair, replace, use, operate and maintain the Conduit Improvements in the Authorized Locations and to

provide the Conduit Improvements and/ or Conduits or the space within the Conduits to telecommunications network providers servicing the tenants and occupants of the Complex; and

WHEREAS, Grantee shall furnish the City with one (1), one and one-quarter (1 ¼) inch innerduct in each Conduit Improvement for the City's exclusive use in perpetuity (the "City Ducts") and in addition to the City Ducts, Grantee shall pay initial and annual compensation to the City in the amounts set forth in Exhibit A related to the construction, installation, repair, replacement, use, operation and maintenance of the Conduit Improvements by Grantee in the Authorized Locations ("Compensation"); and

WHEREAS, The City and the Grantee have reached an agreement as to the basic terms under which Grantee will be permitted to construct, install, repair, replace, use, operate and maintain the Conduit Improvements in the Authorized Locations; and

The Commissioners are also authorized, subject to approval of the Corporation Counsel, to enter into such other agreements as may be necessary to carry out the intent of the Use Agreement. Only upon the execution of the Use Agreement by the Commissioners and the Grantee and the fulfillment of any preconditions set forth in the Use Agreement shall Grantee be

authorized to construct, install, repair, replace, use, operate, maintain and provide the Conduit Improvements along the Authorized Locations pursuant to the terms of such Use Agreement.

Re: Proposed License for a Conduit Facility and related Conduit Paths In and Under the Public Way Including the City's Underground Freight Tunnels At or Near the Canal Data Center Complex ("Complex") at 840 S. Canal

Grantor: City of Chicago, an Illinois municipal corporation ("City").

Grantee: SF CH1, LLC, a Delaware limited liability company ("Grantee").

**Description
of Conduit
Paths:**

The conduit paths known as paths 1A and 1B ("Conduit Paths") will be located under the public ways as described in Grantee's Outside Plant Fiber Optic Build plans ("Plans") prepared by the structural engineering firm of Antonio and Associates, P.C. ("Structural Engineer") originally dated October 20, 2011, as approved by CDOT on April 4, 2012, and as certified as final on April 5, 2012 by the Structural Engineer (the "Authorized Routes"). The total lineal footage of public way used is approximately two hundred and fourteen (214). There will be two (2), separately located eight (8) inch Conduit Paths each containing approximately fourteen (14) innerducts, including the City Ducts together with two (2) separately located manholes, tunnel bores and lateral conduits. The Conduit Paths will be installed within the public way after approval from the Office of Underground Coordination and the City's Department of Transportation ("CDOT"). Any revisions to the Plans are subject to the approval of the City's Commissioner of CDOT and Commissioner of the Department of Business Affairs and Consumer Protection ("BACP"), or their respective designees (collectively, the "Commissioners"), which approval shall not be unreasonably withheld.

**Description
of Conduit
Facility:**

The two (2) separately located conduit facilities (the "Conduit Facilities" and together with the "Conduit Paths, the "Conduit Improvements") will be located in the portion of the City's freight tunnel identified and set forth in the Plans (the "Authorized Facility Location," and together with the Authorized Routes, the "Authorized Locations"). The total lineal footage of public way used is approximately eighteen (18). Each separately located Conduit Facility will include one (1) junction box within the City's

underground freight tunnels in the vicinity of the Complex, as identified in the Plans. The Conduit Facilities will be installed after approval from the Office of Underground Coordination and CDOT and after the execution of all necessary agreements including the Use Agreement. Any revisions to the Plans are subject to the approval of the Commissioners which approval shall not be unreasonably withheld.

Relocation: The exact locations of the Conduit Improvements within the Authorized Locations may be changed by the Commissioner of CDOT and the Conduit Improvements may be relocated in whole or in part in the Public Way, either during or after the construction of the Conduit Improvements at Grantee's sole cost and expense upon at least 30 days advance written notice for a public purpose, including but not limited to utility or transportation purposes of the City or another governmental entity. The City will reasonably cooperate with Grantee in finding an alternate route for the affected Conduit Improvements. In the case of an emergency, as determined by said Commissioners in their discretion, such relocation may occur in a shorter time frame as set forth in the Use Agreement.

Grant of License: The grant of license ("License") in the Use Agreement shall be for a maximum term of fifteen (15) years, and renewable for a maximum of three (3) additional terms (each, an "Extension"), with each Extension not to exceed ten (10) years, upon the mutual agreement of the parties as set forth in the Use Agreement. Such License shall provide for the right of the Grantee to go in the Authorized Locations in connection with the construction, installation, repair, replacement, use, operation and maintenance of the Conduit Improvements for the purposes set forth in the Use Agreement, as authorized by City Council of the City of Chicago on _____, 2012.

Purpose of Conduit Improvements: Grantee's primary purpose for the Conduit Improvements is to provide a structure to house telecommunication facilities for the provision of telecommunication services to the tenants and occupants of the Complex, and their vendors by network providers. Grantee, itself, does not intend directly or indirectly to provide telecommunications services to such tenants and occupants of the Complex. Grantee agrees to provide access to the Conduit Improvements to network providers for the provision of telecommunication services to tenants and occupants of the Complex on a nonexclusive and nondiscriminatory basis. Nothing in the Use Agreement shall affect the obligations and liabilities of telecommunications providers, cable television companies and other users of the public way under Illinois

law and City ordinance. No entity may occupy or use any of the Conduit Improvements unless such entity has authority to be in the public ways under City ordinance and is complying with the terms thereof, including related agreements and/or applicable City regulations and provisions of the Municipal Code of Chicago (the "Code"). The proposed locations of the Conduit Improvements within the public ways are subject to final location approval by CDOT and the Office of Underground Coordination, which approval shall not be unreasonably withheld.

Consideration
for License:

Grantee proposes, at its sole cost and expense, to include in each of the Conduit Improvements one (1), one and one-quarter (1 ¼) inch innerduct, dedicated solely to the use of the City ("City Ducts"). Grantee shall also pay the City initial compensation ("Initial Compensation") consisting of one-time fees of: (i) Three Hundred Thirty-Three and No/100 dollars (\$333.00) based on Six and No/100 Dollars (\$6.00) per square yard of public way disturbed; (ii) Two Thousand and No/100 Dollars (\$2,000.00) based on One Thousand and No/100 Dollars (\$1,000.00) per penetration into the public way; and (iii) Four Thousand Two Hundred Ninety-Six and No/100 Dollars (\$4,296.00) for the necessary personnel during the initial construction of the boreholes and penetrations for a three (3) day period at eight (8) hours per day at a rate of One Hundred Seventy-Nine and No/100 Dollars (\$179.00) per hour. The City reserves the right to add additional fees, based on the above formulas, for the initial construction period in excess of three (3) days, and in the event of any revisions to the Plans requiring further work in the public way or the freight tunnels. Grantee shall also pay the City an annual fee ("Annual Compensation") consisting of: (i) Six Hundred Eighty-Four and No/100 Dollars (\$684.00) based on Six and No/100 Dollars (\$6.00) per linear foot of Public Way used by Grantee for its Conduit Paths, and (ii) Four Thousand Two Hundred Ninety-Six and No/100 Dollars (\$4,296.00) based on four (4) tunnel inspections per year with two (2) personnel at three (3) hours each at a rate of One Hundred Seventy-Nine and No/100 Dollars (\$179.00) per hour, with a Three Percent (3%) increase per year. The Grantee shall pay the City, at the execution of the Use Agreement, the Initial Compensation and the first year's Annual Compensation. Annual Compensation is subject to reasonable renegotiation at the City's option every five (5) years upon sixty (60) days written notice, subject to such reasonable parameters as shall be set forth in the Use Agreement.

Assignment
of License:

The Use Agreement may be assigned or transferred by Grantee to an affiliated entity with the prior written consent of the Commissioners of CDOT and BACP and with proper disclosure of ownership interests in the

assignee in compliance with the requirements of the Code, which consent shall not be unreasonably withheld. Such assignment shall be provided for in the Use Agreement and shall include at a minimum full assumption by the assignee of Grantee's and Guarantor's (as hereinafter defined) obligations and liabilities with or without recourse as set forth in the Use Agreement.

Construction
of Conduit
Improvements:

Grantee or its contractor or subcontractors shall, at its sole cost and expense, construct the Conduit Improvements in accordance with the Code, the Use Agreement, all applicable City regulations and City permits.

Maintenance
of Conduit
Improvements:

Throughout the term of the Use Agreement, Grantee, at its sole cost and expense, shall be responsible for the construction, installation, repair, replacement, use, operation and maintenance of the Conduit Improvements; provided that the City shall have reasonable access to the City Ducts upon reasonable notice for installation of facilities and emergency repairs. Grantee shall perform such work in such manner and at such times as shall not interfere with the Authorized Locations or the Public Way without proper City permits. No maintenance to the Conduit Improvements requiring access to or creating potential interference with the Public Way shall be performed unless and until such access has been approved by permit issued by the Commissioner of CDOT. Grantee, at its sole cost and expense, shall be responsible for and make such repairs as are required to restore any portion of the Public Way which is damaged as a result of the construction, installation, repair, replacement, use, operation and maintenance of Grantee, or any of its contractors, subcontractors, or occupants of its Conduit Improvements as described in the Use Agreement, except that Grantee shall not be responsible for any damage resulting from the use by the City of the City Ducts, as described in the Use Agreement. All repairs to the Public Way shall meet CDOT construction standards applicable to the Public Way as set forth in the Code or applicable City regulations. Grantee, upon reasonable notice, at its expense and at no cost or liability to the City, shall support, protect and repair the Conduit Improvements during construction of public projects.

Permits:

Grantee shall pay applicable City taxes. Permits shall be obtained by Grantee using procedures consistent with the Code and applicable regulations which may be set forth in the Use Agreement to the extent deemed necessary by the Commissioners of CDOT and BACP.

Indemnity: Grantee shall indemnify, defend and hold harmless the City, its officials, employees, and agents for matters arising out of the use, occupation and control of the Conduit Improvements by Grantee or any of Grantee's authorized telecommunication users, except to the extent of willful or wanton misconduct by the City. Further, Grantee shall not be responsible to indemnify, defend and hold harmless the City, its officials, employees, and agents for matters arising out of the use, occupation or control by City of the City Ducts. The indemnification of the City, its officials, employees, and agents shall survive any termination, expiration, or cancellation of the License and/or the Use Agreement.

Insurance and Security: Grantee shall, at its sole cost and expense, procure and maintain during the term of the Use Agreement, insurance and security as reasonably required by the Commissioner of CDOT as set forth in the Use Agreement and shall add the City as additional insured on a primary non-contributory basis to all applicable insurance policies which are specifically related to the Conduit Improvements.

Other Provisions: M.B.E./W.B.E., Chicago residency and other construction practices shall be consistent with City of Chicago ordinances related to use of the Public Way.

Guarantee: A creditworthy party ("Guarantor") acceptable to the Commissioners of CDOT and BACP shall guarantee performance by Grantee under the Use Agreement with reasonable limits and scope set forth in the Use Agreement.
