DECEMBER 19, 2013

FOR APPROVAL: PROPOSED PLANNED
DEVELOPMENT (APPLICATION NO. 17833)

CO-APPLICANTS: WELLS AND SCOTT DEVELOPMENT PARTNERS
LLC.

LOCATION: 201-223 WEST SCOTT STREET
1222-1230 NORTH WELLS STREET

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Housing and Economic Development hereby submits this report and recommendation on a proposed Planned Development for your review and recommendation to the Chicago City Council. The application was introduced to the Chicago City Council on October 16, 2013. Notice of this public hearing was published in the Chicago Sun-Times on December 04, 2013. The Applicant was separately notified of this public hearing.

The property is identified as 201-223 W. Scott Street and is generally located on the Southwest corner of Scott Street and Wells Street. The applicant Wells and Scott Development Partners, LLC proposes to construct a 6 story, 71 dwelling unit building with ground floor retail space and 71 parking stalls.

This request is being submitted as a mandatory planned development, pursuant to Section 17-08-0513-A, due to the proposed unit count exceeding the threshold of 60 units.

PROJECT BACKGROUND AND DESCRIPTION

The Applicant and Owner, Wells and Scott Development Partners LLC, has filed this mandatory planned development application pursuant to section 17-08-0513-A, the proposed project will exceed the maximum 60 dwelling unit threshold. The project will consist of a 6 story building, the ground floor will house retail space and the floors above will be comprised of 71 parking stalls and 71 dwelling units. Access to the (1) one loading berth and the parking stalls will be from (2) driveways along Scott Street.

SITE AND AREA DESCRIPTION

The subject property is located at the intersection of West Scott Street and North Wells Street and is located adjacent to a mix of land uses. On the Eastern edge

of the site is a parcel of land zoned residential business planned development #1148. South of the site are parcels zoned C1-5 Neighborhood Commercial District and Planned Development # 403. West of the site are properties zoned RM-5, Residential Multi-Unit District. Directly north of the site is property zoned C1-5 Neighborhood Commercial District and Planned Development #601. The site is also not in the Lake Michigan and Chicago Lakefront Protection District. The site is located within the Near North Tax Increment Financing (TIF) District.

The site consists of approximately 31,988 square feet (0.734 acres) and is currently a vacant lot. Aerial photographs suggest that the site had previously been used as a parking lot. The proposed development would consist of a mixed use of retail on the first floor with 71 dwelling units above the ground floor. The building would also contain 71 parking spaces. The off-street parking spaces on the site are accessed from (1) one new driveway along West Scott Street. The loading berth would be accessed from a separate new driveway also located along West Scott Street.

The CTA's bus route # 22 (Clark), route #36 (Broadway), route #37 (Sedgwick), route #70 (Division) and route # 156 (LaSalle) all run on streets within a half-mile of the site. The North/Clybourn, Clark/Division, Chicago, and Grand stations on the CTA's Red Line and the Sedgwick and Chicago station along the CTA's Brown Line are within a one mile radius from the site. There are no METRA stations within a one mile radius from the site.

DESIGN

The project is located at the intersection of Wells Street -- a heavily trafficked, retail thoroughfare -- and Scott Street, a quiet, residential cul-de-sac. The architectural design harmonizes these elements by thoughtfully balancing the scale of both streets. The building exterior is clad in modular brick, charcoal gray metal panels, and insulated glass windows, materials commonly found on Wells Street buildings. Massing is concentrated along the busier pedestrian-oriented street; retail space is located along Wells, with balconies on the upper floors to help activate that façade. In contrast, the residential entrance and ground-floor amenities are located along the quieter Scott Street face. The residential entrance and retail space conceal all 71 parking spaces from street view. The project will also feature a green roof and rooftop amenity room for the 71 residential units

LANDSCAPING

The project will provide at grade landscape areas and street tree plantings; the entire planned development will be compliant with the requirements of the Chicago Landscape Ordinance.

ACCESS / CIRCULATION

All required parking stalls will be provided within the proposed building. The parking will be accessed from a driveway off of Scott Street. The subject site

also has one loading berth to serve the building; this loading area will be accessed from a separate driveway also located along Scott Street.

The two public streets, Scott Street and Wells Street, are both currently operating as two way traffic flow and will continue to operate as such. The historical access to a parking lot was off of the Wells Street frontage, this curb cut will be removed and sidewalk, curb, and gutter will be restored per CDOT standards.

SUSTAINABILITY

The subject site will be designed to be in compliance with the current City of Chicago Sustainable Development policy as set forth in the Department of Housing and Economic Development's Green Matrix.

The building will accommodate a 50% green roof, approximately 11,600 square feet in area. In addition this building will obtain LEED, Energy Star, or Chicago Green Homes certification.

BULK / USE / DENSITY

The current maximum allowable Floor Area Ratio (FAR) for the proposed underlying zoning district (C2-3) is 3.0; the proposed planned development will be limited to this maximum and the current proposed project calls for a 3.0 FAR. Prior to filing for a planned development the subject property was reviewed and approved at the Zoning Board of Appeals (ZBA) for the reduction of minimum side setback on a reversed corner lot from the required 7.16' to 0 feet, and also to reduce the west rear yard setback to 3.69' instead of the required 4.68'. The proposed planned development will maintain these previously approved setbacks and be in compliance with all other setbacks requirements as per the accompanying plans. All remaining bulk, use and density items will be in substantial compliance with the stipulations of Section 17-3-0400 for C2-3 zoning districts, per section 17-8-0901.

RECOMMENDATION

The Department of Housing and Economic Development has reviewed the project materials submitted by the Applicant and compared this proposal to the requirements of the Chicago Zoning Ordinance and existing development in the community. The area around this project is a diverse mix of commercial, residential and planned development uses and is accessible from numerous forms of public transit. Based on that analysis, DHED has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. Ensures adequate public review of major development proposals (per 17-8-0101), as evidenced by the July 22, 2012, public meetings held in the community by the local alderman and Applicant;
2. Promotes unified planning and development (per 17-8-0102), as evidenced through the design which strives to maintain a balance between the retail and residential components of the site by providing

ease of access to retail options for pedestrians while still providing viable parking options for the residents of the building all the while maintaining a building that is in context and character with the neighboring area;

3. Promotes economically beneficial development patterns that are compatible with the character of existing neighborhood (per 17-8-0103), as evidenced by the design, massing and proposed uses being in context with the character and needs of the immediate community;
4. Ensure a level of amenities appropriate to the nature and scale of the project (per 17-8-0104), as evidenced by amenities provided to the residential units in the project plans as well as by the retail options being provided to the area residents while being in accordance with the requirements of the Chicago Zoning Ordinance;
5. Promotes a flexible application of selected bulk, use and development standards to provide a creative, urban design (per 17-8-0105), as evidenced through elevation details and material selections;
6. Promotes transit, pedestrian and bicycle use, ensures accessibility for persons with disabilities and minimizes conflicts with existing traffic patterns in the vicinity (per 17-8-0904-1-2, 3 & 4), as evidenced through the site's close proximity to various methods of public transit, the accessibility accommodations made on-site for the building residents as well as for the retail users, pedestrian and bicycle ingress and egress options provided to the building residents and retail uses, and lastly the design of the building to fit current existing traffic patterns at the site.
7. Provides buildings abutting the sidewalk with doors windows and active use adjacent to it (per 17-8-0905-B-1), as evidenced by the site plan provided showing the building edge immediately adjacent to the public sidewalk and to be improved with retail and restaurant uses which will provide windows, door and active uses adjacent to the public sidewalk.
8. Provides structures that allow for pedestrian entrance from the surrounding sidewalks (per 17-8-0905-B-2), as evidenced by the construction to the edges of the site's property lines and the use of distinct materials to highlight the entrance points of the building.
9. All sides and areas of the buildings that are visible to the public should be treated with materials, finishes, and architectural details that are of high-quality and appropriate for use on primary public-right-of-way-facing façade (per 17-8-0907-A-4), as evidenced through the information contained within this report, the materials as called out on the elevations in the exhibits to this planned development, and the corresponding proposal renderings;
10. Promotes environmentally sustainable development practices (per 17-9-0908-A), as evidenced by the project providing a 50% green roof and committing to obtain LEED, Energy Star or Chicago Green Homes certification.

The project meets the purpose and criteria set forth in the Chicago Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare:

1. Per 17-13-0308-C, the proposed development is compatible with surrounding commercial, institutional and residential development in terms of land use, as well as, the density and scale of the physical structure.
2. Per 17-13-0308-D, the proposed underlying zoning for this planned development (C2-3) is consistent with other businesses and commercial zoning districts, both adjacent to this site and in the immediate area.
3. Per 17-13-0308-E, the public infrastructure facilities and City services will be adequate to serve the proposed development at the time of occupancy and the project will comply with the requirements for access in case of fire and other emergencies. The proposed project has been reviewed by the Mayor's Office for People with Disabilities and the Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and no comments have been received which have not been addressed in the application.

Based on the foregoing, it is the recommendation of the Department of Housing and Economic Development that this application for the establishment of a Planned Development be approved and that the recommendation to the City Council Committee on Zoning Landmarks and Building Standards be "Passage Recommended".
