**The Project**

The subject property is improved with a two and a half story residential building with six residential units and no parking. The existing height of the building is approximately 22'-5". The subject property is located in a Transit Served Location to the CTA Damen Pink Line station.

Cloud Property Management LLC, 2018 Series (the "Applicant"), proposes to rezone the property to allow the addition of three residential dwelling units for a total of nine residential units on the property within the existing building. There will be no parking. The proposed height of the building will be approximately 30'-3". The Applicant seeks relief to reduce any additional required parking and MLA relief through this Type 1 Application pursuant to the Transit Served Location guidelines of the Chicago Zoning Ordinance.

To allow the proposed project, the Applicant seeks a change in zoning classification for the subject property from a B2-3 Neighborhood Mixed-Use District to a B2-3 Neighborhood Mixed-Use District. This change of zoning classification is being sought through the Type I rezoning process of Section 17-13-0302-A of the Zoning Ordinance to 1) correct the plans previously passed by City Council on May 25, 2022 to show the requested dwelling unit count change from six to the proposed nine dwelling units; 2) to qualify for reduction of Parking under Section 17-10-0102-B.1 and; 3) to qualify for a reduction in MLA under Section 17-3-0402-B of the Chicago Zoning Ordinance. The property sits in a Transit Served Location per the Transit-Oriented Provisions of the Chicago Zoning Ordinance and is approximately 410.0 feet southwest from the CTA Damen Pink Line Station.

To qualify for parking reduction of these standards, the project as per section 17-13-0905-F:

- (a) Must be located in a transit-served location; which it is, as set forth above;
- (b) Must comply with the standards of Section 17-3-0500 pertaining to pedestrian streets and pedestrian retail streets; the accompanying drawings show that the proposed building will feature prominent ground floor windows on 21<sup>st</sup> Place;
- (c) Must comply with the general goals set forth in the Transit Friendly Development Guide: Station Area Typology, and any other station-specific plans, designs or guidelines adopted by the Chicago Plan Commission; the Transit Friendly Development Guide defines "transit friendly development" on page 2 as "Development which is oriented towards and integrated with adjacent transit.
- (d) Must actively promote public transit and alternatives to automobile ownership; the Applicant will provide bicycle parking within the building;
- (e) Must include enhancements to the pedestrian environment that are not otherwise required; the Applicant proposes to rehabilitate a dilapidated building that will enhance the aesthetic of the block. A rehabilitated property with residential use will increase pedestrian activity and increase safety.

**The Site**

The subject property is located on the north side of 21<sup>st</sup> Place in between South Hoyne Avenue and South Damen Avenue on a block that is improved with residential uses. The site is improved with a two and a half story residential building with six residential units and no parking. The existing height of the building, which is approximately 22'-5". The Applicant proposes to rezone the property to allow the addition of three residential dwelling units for a total of nine residential units on the property within the existing building. There will be no parking. The proposed height of the building will be approximately 30'-3". The Applicant seeks relief to reduce any additional required parking and MLA relief through this Type 1 Application pursuant to the Transit Served Location sections of the Chicago Zoning Ordinance 17-3-0402-B and 17-10-0102-B.

The following are the relevant zoning parameters for the proposed project:

Lot Area: 3,165 square feet

FAR: 2.58

Floor Area: 8,195 square feet

Residential Dwelling Units: 9

MLA: 351.6 square feet
