## Project Overview

**Overview:** Internally illuminated custom fabricated aluminum extrusion cabinet with routed face and push-thru acrylic letters & logo.

**Aluminum Cabinet:** Aluminum extrusion cabinet with a routed, brushed aluminum face. 3/8" clear acrylic letters will be cut and pushed through the routed aluminum face. This will make the letters protrude from the face approx 3/8". 3W high performance, opaque vinyl will be applied to the first surface of the letters. Sign will be internally illuminated by UL listed LEDs. Edges of letters will remain exposed and will illuminate.

**Mounting Details:** The cabinet has a shoe box cover design. The back portion will house the LEDs & power supplies. This will get mounted to the building using (1/2) 3/16" masonry sleeve anchors. The front portion, or lid, will carry the push-thru letters and slip over the back portion. The lid will fasten across the top and bottom. All fasteners connecting the 2 parts will be counter-sunk.

**INFINITY COMMUNICATIONS GROUP**
