INDUSTRIAL VACATION ORDINANCE

WHEREAS, the City of Chicago ("City") is a home rule unit of local government pursuant to Article VII, Section 6 (a) of the 1970 Constitution of the State of Illinois and, as such, may exercise any power and perform any function pertaining to its government and affairs; and

WHEREAS, the City has experienced a significant loss of industry and jobs in recent years, accompanied by a corresponding erosion of its tax base, due in part to industrial firms' inability to acquire additional property needed for their continued viability and growth; and

WHEREAS, many industrial firms adjoin streets and alleys that are no longer required for public use and might more productively be used for plant expansion and modernization, employee parking, improved security, truck loading areas or other industrial uses; and

WHEREAS, the City can strengthen established industrial areas and expand the city's jobs base by encouraging the growth and modernization of existing industrial facilities through the vacation of public streets and alleys for reduced compensation; and

WHEREAS, the properties bounded approximately by W. Garfield Boulevard, W. 59th Street, S. Stewart Avenue and S. Wallace Street are owned by Norfolk Southern Railway Company, a Virginia corporation ("Developer"); and

WHEREAS, the Developer employs approximately two hundred (200) full-time employees; and

WHEREAS, the Developer proposes to use the portion of the streets and alleys to be vacated herein for the expansion of its 47th Street Intermodal Facility; and

WHEREAS, the City Council of the City of Chicago, after due investigation and consideration, has determined that the nature and extent of public use and the public interest to be subserved is such as to warrant the vacation of those parts of the public streets and alleys described below; **now, therefore,**

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CHICAGO:

SECTION 2. The Commissioner of the Department of Transportation is hereby authorized to accept and approve a restrictive covenant or similar instrument restricting the use and improvement of the public way vacated in Section 1 of this ordinance to industrial uses and for such use and improvements that are accessory, as that term is defined in the Chicago Zoning Ordinance. The reversion restriction on use and improvement in the covenant agreement or instrument shall be for a term of 40 years, and upon breach of such restriction, the public way herein vacated shall revert to the City and be subject to the terms and conditions of the dedication by which it has been heretofore held by the City. The use restriction shall be in place into perpetuity unless released subject to payment of appraised compensation to the City.

SECTION 3. The Developer agrees to the Chicago Department of Water Management ("Department of Water") terms and conditions regarding water mains, hydrants and other existing public water service appurtenances including, but not limited to meter vaults, valve boxes, valve basins, sewers and appurtenances; and water and sewer amortization reimbursements all as identified in the Department of Water's OUC correspondences in relation to OUC File No. VD-110553 dated December 9, 2021 and directed to the City's Department of Transportation, and the December 8, 2021 letter directed to the Developer, both attached hereto as EXHIBIT B, and made a part hereof.

SECTION 4. The vacations herein specified are predicated upon Developer's acceptance of a reservation easement over certain areas of S. Normal Boulevard, W. Tremont Street, S. Stewart Street and W. 57th Street herein vacated, with a minimum clearance to forty (40) feet above grade, for existing Department of Water sewer and associated sewer structures, and for the installation of any additional sewers, as now located, or which in the future may be located in the portions of the streets and alleys herein vacated, as identified more specifically in EXHIBIT B, and for the maintenance, renewal and reconstruction of such facilities. Any future sewer connections must be in compliance with the Municipal Code of Chicago, Section 18-29-

701.3, prohibiting new building sewer connections to the public sewers in easements. Said easement reservation provides that, the City shall have 24 hour access to the area to be vacated, that no buildings, permanent structures, or trees (within 10 feet of the sewer structure) shall be erected upon or over said easement herein reserved, or other use made of said area, which in the sole discretion of the respective municipal officials having control of the aforesaid service facilities, would interfere with the use, maintenance, renewal, or reconstruction of said facilities, or the construction of additional municipally-owned service facilities. It is further provided that the expenses related to any Developer prompted adjustments to City sewer facilities within the area herein vacated be borne by the Developer, its successors or assigns, and said proposed adjustments be submitted to the Department of Water for review and express written approval prior to construction. Any repair, renewal or replacement of private improvements, or private property damaged within the vacation area as a result of the City exercising its easement rights shall be repaired/replaced at the expense of the Developer, its successors or assigns.

SECTION 5. The City of Chicago hereby reserves for the benefit of The Peoples Gas Light and Coke Co. ("Peoples Gas") an easement to operate, maintain, repair, renew and replace existing underground facilities and to construct new facilities in all of the area to be vacated, with the right of ingress and egress at all times for any and all such purposes. It is further provided that no buildings or other structures shall be erected upon or over said easement herein reserved for Peoples Gas or other use made of the said area which would interfere with the construction, operation, maintenance, repair, removal, or replacement of said facilities, or the construction of additional facilities. No construction, buildings, permanent structures or obstructions shall occur or be placed over the area herein vacated without an express written release of easement by the involved utility. Any future vacation-beneficiary prompted relocation of Peoples Gas facilities lying within the area herein vacated will be accomplished by Peoples Gas, and completed at the expense of the Developer, its successors or assigns.

SECTION 6. The City of Chicago hereby reserves for the benefit of Commonwealth Edison and its successors or assigns, a non-exclusive utility easement to operate, maintain, construct, replace and renew overhead wires, poles, and associated equipment and underground conduit, cables, and associated equipment for the transmission and distribution of electrical energy, telephonic and associated services under, over and along the streets and alleys herein vacated, with the right of ingress and egress. The grade of the vacated public way shall not be altered in a manner that will interfere with the operation and maintenance of Commonwealth Edison facilities. No construction, buildings, permanent structures or obstructions shall occur or be placed over the area herein vacated without express written release of easement by the utility. Any future vacation-beneficiary prompted relocation of facilities lying within the area being vacated will be accomplished by the involved utility, and be done at the expense of the Developer, its successors or assigns.

SECTION 7. The vacations herein provided for are made upon the express condition that within 180 days after the passage of this ordinance and its related plats, and prior to recording, the Developer shall pay to the City Treasury of the City of Chicago, a quoted security deposit equal to the costs of Developer work to vacated areas as outlined in **Exhibit B**. Developer will subsequently construct the directed improvements in accordance with the most current version of the Chicago Department of Transportation's Regulations for Opening, Repair and Construction in the Public Way and its appendices. Request for final field inspection and approval of the Developer's construction, shall be made to the CDOT Division of Infrastructure Management, Construction Compliance Unit, Room 905 City Hall prior to return of said security

deposit.

SECTION 8. The vacations herein provided for are made under the express condition that the Developer, its successors and assigns, shall hold harmless, indemnify and defend the City of Chicago from all claims related to said vacation.

SECTION 9. The vacations herein provided for are made upon the express condition that within 180 days after the passage of this ordinance, the Developer shall file or cause to be filed for recordation with the Office of the Cook County Clerk / Recordings Division, a certified copy of this ordinance, together with a restrictive covenant, complying with Section 2 of this ordinance and approved by the Corporation Counsel, and the associated plat approved by the Department of Transportation's Superintendent of Maps and Plats.

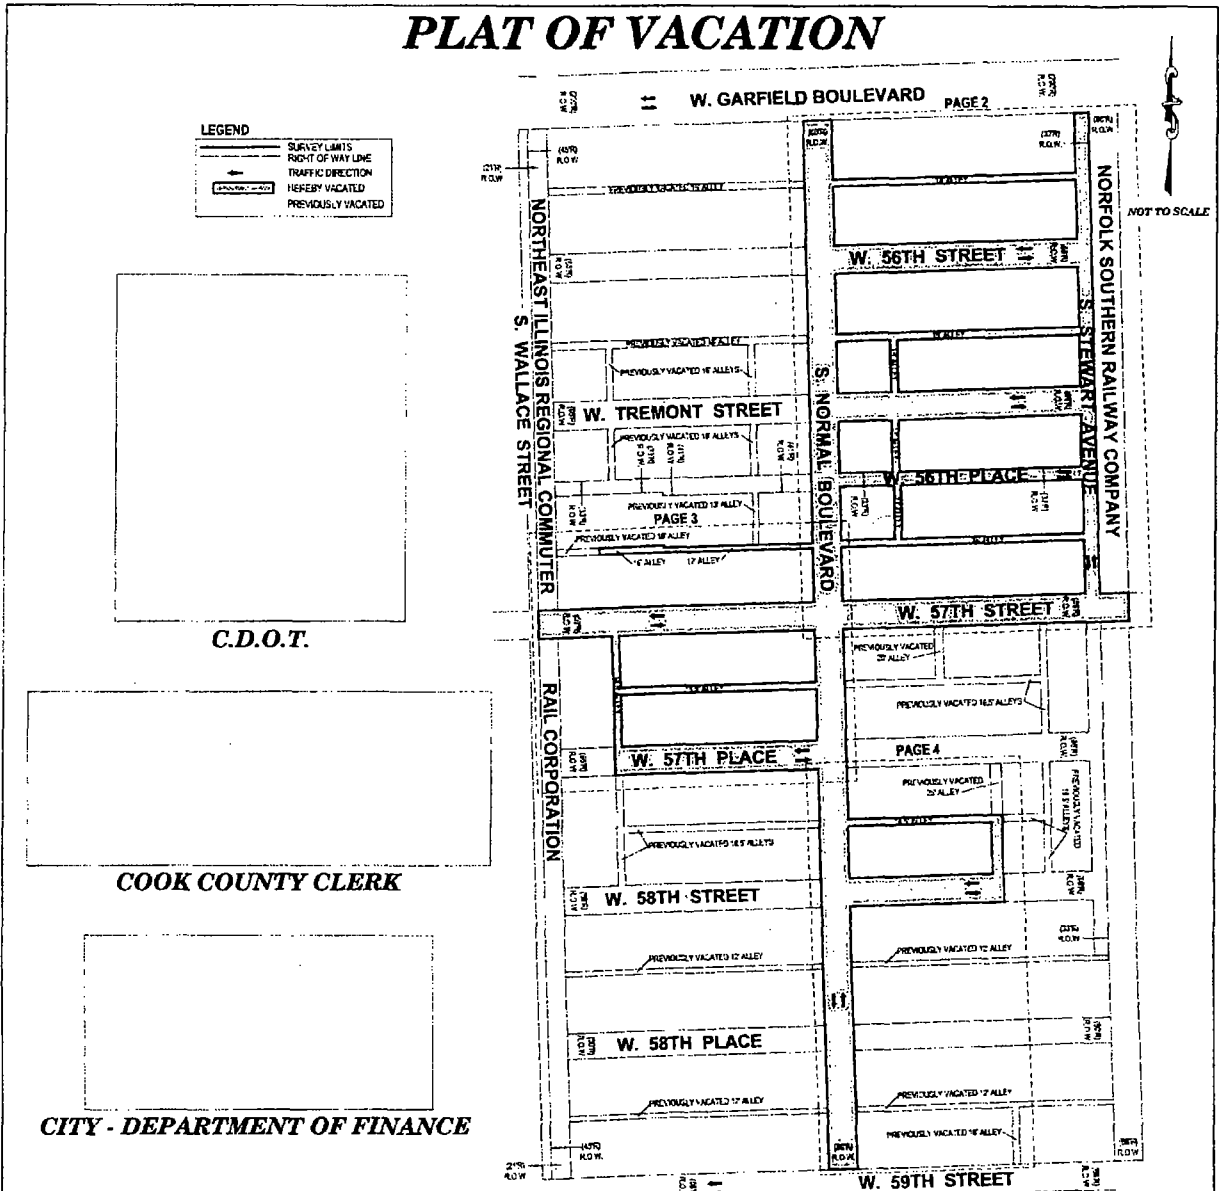

SECTION 10. This ordinance shall take effect and be in force from and after its passage and publication. The vacations shall take effect and be in force from and after the recording of this ordinance, as published, and the plat of vacation.

Dear Mr. Kalayil:

This letter is in response to your inquiry concerning the proposed vacation. After reviewing our records, we have determined the following:

1) The Department of Water Management - Water Section

There are extensive water facilities within the limits of the area proposed for vacation. The requirements for the DWM to approve the proposed vacation were addressed in a letter to the Norfolk Southern Corporation dated December 8, 2021, a copy of which is attached. The water mains that must be abandoned and the work required to do that are described below:

1. S Normal Boulevard from W Garfield Boulevard to alley South, the DWM must abandon approximately 160 feet of existing 12-inch water main
2. S Normal Boulevard from W Garfield Boulevard to W 59th Street, the DWM must abandon approximately 4,700 feet of existing 8-inch water main and remove seven (7) existing fire hydrants
3. S Stewart Avenue from W Garfield Boulevard to W 57th Street, the DWM must abandon approximately 1,260 feet of existing 8-inch water main
4. Alley South of W Garfield Boulevard from S Normal Boulevard to S Stewart Avenue, the DWM must abandon approximately 530 feet of existing 6-inch water main and remove two (2) existing fire hydrants
5. W 56th Street from S Normal Boulevard to S Stewart Avenue, the DWM must abandon approximately 530 feet of existing 6-inch water main and remove two (2) existing fire hydrants

6. W Tremont Street from S Normal Boulevard to S Stewart Avenue, the DWM must abandon approximately 710 feet of existing 8-inch water main and remove two (2) existing fire hydrants
7. W 56th Place from S Normal Boulevard to S Stewart Avenue, the DWM must abandon approximately 530 feet of existing 6-inch water main and remove two (2) existing fire hydrants
8. W 57th Street from S Lowe Avenue to S Stewart Avenue, the DWM must abandon approximately 1,850 feet of existing 8-inch water main and remove six (6) existing fire hydrants
9. Alley West of S Normal Boulevard from W 57th Street to W 57th Place, the DWM must abandon approximately 320 feet of existing 8-inch water main
10. W 57th Place from S Normal Boulevard to Alley West, the DWM must abandon approximately 475 feet of existing 6-inch water main and remove two (2) existing fire hydrants
11. W. 57th Street between S. Stewart Avenue and S. Shields Avenue the DWM must remove and relocate an existing fire hydrant.

The estimated cost to perform this work is \$306,850.00. Please note this estimate is based on current rates for labor (straight time), material, equipment and overhead charges, but actual costs will be submitted for payment upon completion of the work. The DWM will be responsible for excavation and full restoration after construction. Norfolk Southern Corporation shall also be responsible for abandonment of existing water service appurtenances (meter vault, valve box, valve basin, etc.) and water main valve basins.

In addition, the following existing water mains are not fully amortized:

- a. 8-inch water main located from approximately 3 feet to 11 feet EWL of S Normal Boulevard from Alley South of W Garfield Boulevard to W 59th Street
- b. 8-inch water main located from approximately 14 feet to 16 feet WEL of S Normal Boulevard from Alley South of W Garfield Boulevard to W 59th Street
- c. 8-inch water main located from approximately 15 feet to 23 feet EWL of S Stewart Avenue from W Garfield Boulevard to W 57th Street
- d. 8-inch water main located from approximately 21 feet to 24 feet NSL of W Tremont Street from S Normal Boulevard to S Stewart Avenue
- e. 8-inch water main located from approximately 19 feet to 23 feet NSL of W 57th Street from S Lowe Avenue to S Stewart Avenue

The total fixed unamortized cost for these existing water main abandonments is \$399,444.88.

Because the existing water mains cannot be located within private property (the vacated streets), this work must be done before the vacation can be approved.

All water services no longer in use must be permanently terminated as part of the proposed development by permit per DWM standards.

Detailed instructions for payment of the estimated costs in the amounts of \$306,850.00 and \$399,444.88 are in the attached letter.

For questions regarding water facilities, please contact Andrew McFarland at andrew.mcfarland@cityofchicago.org.

The total fixed unamortized cost for these existing water main abandonments is **\$399,444.88**.

Regarding the fire hydrant removals, the DWM will be responsible for excavation and backfill of the excavated areas, but Norfolk Southern Corporation shall be responsible for all final restoration. Regarding the work to abandon the previously mentioned water mains, the DWM will perform the final restoration associated with this work at the following locations:

- S Stewart Avenue and W Garfield Boulevard
- S Stewart Avenue and W 57th Street
- S Normal Boulevard and W 59th Street
- S Lowe Avenue and W 57th Street
- S Normal Boulevard and W Garfield Boulevard

Norfolk Southern Corporation shall also be responsible for abandonment of existing water service appurtenances (meter vault, valve box, valve basin, etc.) and water main valve basins. The estimated cost for the DWM to perform its scope of work is **\$267,850.00**. This estimate is based on current rates for labor (straight time), material, equipment and overhead charges, but actual costs will be submitted for payment upon completion of the work.

Additionally, in order to accommodate the proposed street vacations DWM must remove and relocate an existing fire hydrant on the southern frontage of W 57th Street. The estimated cost to remove and relocate the existing fire hydrant is **\$39,000.00**, based on regular time. Please note this estimate is based on current rates for labor (straight time), material, equipment and overhead charges, but actual costs will be submitted for payment upon completion of the work. The DWM will be responsible for excavation and full restoration after construction. All new curb installation adjacent to fire hydrants must be painted 'safety yellow' for 15 feet on each side of the fire hydrant except where the 15-foot dimension intersects a crosswalk, driveway or similar feature. In no case shall the installation of any proposed facility be closer than five (5) feet from a fire hydrant or fire hydrant lead.

Two (2) certified checks in the amount of **\$399,444.88** and **\$306,850.00** (\$39,000.00 + \$267,850.00), payable to the City of Chicago, must be hand delivered to the Department of Buildings, Plumbing Permit and Plan Section, 121 North LaSalle Street, Room 906, Chicago, Illinois, 60602, with a copy of this letter.

Please forward all the CAD files and any resource/reference files for this project to the Chicago Department of Water Management – Water Section, 1000 E. Ohio Street, Office 307, Chicago, IL 60611, attention to Susan McKee or via email at Susan.McKee@ctrwater.net so that they can be utilized to create the water main adjustment plans.

It is required that the Force Account Construction Manager be contacted at FACM@ctrwater.net two (2) weeks prior to the anticipated construction date so a DWM crew can be assigned to the project.

If construction requires the use of water from a City fire hydrant, or adjustments or repairs are required to any City sewer facilities in proximity to the project site, permits must be obtained from the Department of Water Management, Water and Sewer Sections.

Any traffic and pedestrian protection structures such as canopies, scaffolding, jersey walls, construction barricades, etc., which are located within 10 feet of water main facilities will restrict this Department's continuous access to its facilities for maintenance or repair work. Therefore, should this Department require access to its existing facilities, Norfolk Southern Corporation will be responsible for either removing the traffic and pedestrian protection structures or performing any necessary excavation required to provide this Department safe access to its existing facilities within 24-hour notice. Traffic and pedestrian protection structures must be installed to allow for complete accessibility to all DWM facilities, including fire hydrants, valve basins, sewer manholes, and catch basins.

All new sewer installations must meet IEPA separation requirements for water and sewer pipes. All proposed/replaced sewer laterals from catch basins/inlets, sewer mains, and private drains (collectively known as "sewer facilities") that are parallel to water mains, services or fire hydrant leads (collectively known as "water facilities") that are less than 18 inches below the water facility and have less than 10 feet of horizontal separation from the outside edge of the water facility must be made out of ductile iron/water main quality pipe for 10 feet on either side of the outside edge of the water facility. Additionally, all sewer facilities that cross perpendicularly below water facilities with less than 18 inches vertical separation must be made out of ductile iron/water main quality pipe for 10 feet on either side of the outside edge of the water facility.

If any sewer facility crosses perpendicularly above a water facility, then the sewer facility shall be at least 18 inches above the water facility and the sewer facility must be made out of ductile iron/water main quality pipe for 10 feet on either side of the outside edge of the water facility. Sewer laterals that require ductile iron/water main quality pipe shall be ductile iron/water main quality pipe from the catch basin to a point 10 feet beyond the edge of the water facility.

Proposed trees must not be planted within 5 feet of the exterior pipe wall for all water mains 24-inch in diameter and larger. This 5-foot rule excludes mains that are separated from the tree by a hardscape feature or other root growth limiting conditions such as water mains located in the street.

This Department discourages tree planting over water mains that are less than 24-inches in diameter located in the parkway, but if necessary will allow trees with a maximum mature height of 30 feet and a maximum mature root depth of 2½ feet. Potential plantings that meet this requirement include the following:

1. Ornamental shrubs or bushes meeting the mature height and mature root depth discussed above.
2. Flowers or other non-woody herbaceous plants.
3. Above ground, movable planting containers that can be relocated by the owner of the plantings in the event that access to the water main is required.

Existing trees planted above water mains that do not meet these requirements do not need to be removed. However, if such existing trees are removed, all proposed trees installed in their place must meet the above-mentioned requirements. Should it be necessary for the DWM to access any of its facilities, the Department shall only be responsible for typical pavement, sidewalk, and hydroseed restoration.

Extreme caution is to be taken to ensure that no facility owned and maintained by this Department is damaged during construction. If damage occurs to any facilities, Norfolk Southern Corporation will be held responsible for the cost of repairing or replacing them.

Please note that the details described above are valid for 90 days from the date of this letter, after which time, Norfolk Southern Corporation will be responsible for re-submitting plans to this Department for review and revision of the estimate of cost, as needed. ***Failure to comply with the provisions in this correspondence may result in additional expenses to the proposed project to verify that all work conforms to DWM's standards.***

If there are any questions regarding the water facilities, please contact Angela Krueger at Angela.Krueger@cityofchicago.org.

Sincerely,

Andrea R.H. Cheng, Ph.D., P.E.
Commissioner

Norfolk Southern has thousands of employees and business operations in 22 states and the District of Columbia. NSR along with its consolidated rail subsidiaries ("NS Rail") is engaged primarily in the transportation of freight by rail. NS Rail operates approximately 21,000 miles, primarily in the east and Midwest, including approximately 861 miles in Illinois and 36 in Chicago. NSR and NSC used their best efforts to gather as much of the requested information as reasonably possible and without undue effort and expense, but, because of their large size, all responses given in all of the EDS Statement are only to the best of the reasonable knowledge of NSC and NSR, are at the risk of not having knowledge of certain information, and the executive officer signing the EDS Statement does so based on actual knowledge or information supplied to that executive officer. Due to the scope of its operations and the number of employees and contractors, Norfolk Southern makes no representations as to parties other than NSR, NSC and their respective executive officers and directors. Additional information about Norfolk Southern Corporation can be found at the website, www.nscorp.com, including its Annual Report for the fiscal year ended December 31, 2017, and at NSC's filings with the U.S. Securities and Exchange Commission ("US SEC"), where are found at <http://www.sec.gov>.

The following two paragraphs are responsive to Certification V.B.11. on page 7

Norfolk Southern is subject to extensive applicable federal, state, and local environmental laws and regulations. Norfolk Southern is, from time to time, investigated by these and other regulatory agencies in the ordinary course of business. Norfolk Southern cooperates with all government agency investigations. Due to the scope of its operations and the number of employees, however, Norfolk Southern cannot provide information regarding all such investigations without undue effort or expense, if at all. The list of certain investigations found attached in Table V.B.3.e is that information that Norfolk Southern was able to identify without undue effort or expense.

In addition to the regulation described in the preceding paragraph, Norfolk Southern is also subject to commercial regulation by the United States Surface Transportation Board, and its operations are regulated extensively by the United States Department of Transportation, including the Federal Railroad Administration, and the Department of Homeland Security and the Operational Safety and Health Administration, some of which in some cases has a preemptive effect. In addition, Norfolk Southern's operations are subject to extensive federal, state, and local environmental, labor and employment and other laws and regulations. Norfolk Southern is, from time to time, alleged to be in violation of administrative, statutory or regulatory provisions in the ordinary course of business. Norfolk Southern cooperates with all government agencies in seeking to resolve such alleged violations. Due to the scope of its operations and the number of employees, Norfolk Southern cannot provide detailed information regarding all such violations without undue effort or expense, if at all.

However, in addition to that material information which may be found at the noted US SEC website, also attached in Table V.B.1.e is that information which can be secured without undue effort or expense.

D. CERTIFICATION REGARDING FINANCIAL INTEREST IN CITY BUSINESS

Any words or terms defined in MCC Chapter 2-156 have the same meanings if used in this Part D.

1. In accordance with MCC Section 2-156-110: To the best of the Disclosing Party's knowledge after reasonable inquiry, does any official or employee of the City have a financial interest in his or her own name or in the name of any other person or entity in the Matter?

Yes No

NOTE: If you checked "Yes" to Item D(1), proceed to Items D(2) and D(3). If you checked "No" to Item D(1), skip Items D(2) and D(3) and proceed to Part E.

2. Unless sold pursuant to a process of competitive bidding, or otherwise permitted, no City elected official or employee shall have a financial interest in his or her own name or in the name of any other person or entity in the purchase of any property that (i) belongs to the City, or (ii) is sold for taxes or assessments, or (iii) is sold by virtue of legal process at the suit of the City (collectively, "City Property Sale"). Compensation for property taken pursuant to the City's eminent domain power does not constitute a financial interest within the meaning of this Part D.

Does the Matter involve a City Property Sale?

Yes No

3. If you checked "Yes" to Item D(1), provide the names and business addresses of the City officials or employees having such financial interest and identify the nature of the financial interest:

_____	_____	_____
_____	_____	_____

4. The Disclosing Party further certifies that no prohibited financial interest in the Matter will be acquired by any City official or employee.

E. CERTIFICATION REGARDING SLAVERY ERA BUSINESS

Please check either (1) or (2) below. If the Disclosing Party checks (2), the Disclosing Party must disclose below or in an attachment to this EDS all information required by (2). Failure to comply with these disclosure requirements may make any contract entered into with the City in connection with the Matter voidable by the City.

1. The Disclosing Party verifies that the Disclosing Party has searched any and all records of the Disclosing Party and any and all predecessor entities regarding records of investments or profits from slavery or slaveholder insurance policies during the slavery era (including insurance policies issued to slaveholders that provided coverage for damage to or injury or death of their slaves), and the Disclosing Party has found no such records.

x 2. The Disclosing Party verifies that, as a result of conducting the search in step (1) above, the Disclosing Party has found records of investments or profits from slavery or slaveholder insurance policies. The Disclosing Party verifies that the following constitutes full disclosure of all such records, including the names of any and all slaves or slaveholders described in those records:

Note: Records on this list have references to slave labor. Owners' names are listed with slaves' names when given following in parenthesis. Where no names are given, those records

with references to hiring, provisioning or medical services for slaves are still noted. All surviving records of antecedent companies in the possession of Norfolk Southern Corporation for the

period prior to 1866 have been searched, only those records with references to slave labor have been included in this list. (*Continued on Attachment V. E. 2)

2. The Disclosing Party has not spent and will not expend any federally appropriated funds to pay any person or entity listed in paragraph A(1) above for his or her lobbying activities or to pay any person or entity to influence or attempt to influence an officer or employee of any agency, as defined by applicable federal law, a member of Congress, an officer or employee of Congress, or an employee

3. The Disclosing Party will submit an updated certification at the end of each calendar quarter in which there occurs any event that materially affects the accuracy of the statements and information set forth in paragraphs A(1) and A(2) above.

4. The Disclosing Party certifies that either: (i) it is not an organization described in section 501(c)(4) of the Internal Revenue Code of 1986; or (ii) it is an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 but has not engaged and will not engage in "Lobbying Activities," as that term is defined in the Lobbying Disclosure Act of 1995, as amended.

Norfolk Southern has thousands of employees and business operations in 22 states and the District of Columbia. NSR along with its consolidated rail subsidiaries ("NS Rail") is engaged primarily in the transportation of freight by rail. NS Rail operates approximately 21,000 miles, primarily in the east and Midwest, including approximately 861 miles in Illinois and 36 in Chicago. NSR and NSC used their best efforts to gather as much of the requested information as reasonably possible and without undue effort and expense, but, because of their large size, all responses given in all of the EDS Statement are only to the best of the reasonable knowledge of NSC and NSR, are at the risk of not having knowledge of certain information, and the executive officer signing the EDS Statement does so based on actual knowledge or information supplied to that executive officer. Due to the scope of its operations and the number of employees and contractors, Norfolk Southern makes no representations as to parties other than NSR, NSC and their respective executive officers and directors. Additional information about Norfolk Southern Corporation can be found at the website, www.nscorp.com, including its Annual Report for the fiscal year ended December 31, 2017, and at NSC's filings with the U.S. Securities and Exchange Commission ("US SEC"), where are found at <http://www.sec.gov>.

The following two paragraphs are responsive to Certification V.B.11. on page 7

Norfolk Southern is subject to extensive applicable federal, state, and local environmental laws and regulations. Norfolk Southern is, from time to time, investigated by these and other regulatory agencies in the ordinary course of business. Norfolk Southern cooperates with all government agency investigations. Due to the scope of its operations and the number of employees, however, Norfolk Southern cannot provide information regarding all such investigations without undue effort or expense, if at all. The list of certain investigations found attached in Table V.B.3.e is that information that Norfolk Southern was able to identify without undue effort or expense.

In addition to the regulation described in the preceding paragraph, Norfolk Southern is also subject to commercial regulation by the United States Surface Transportation Board, and its operations are regulated extensively by the United States Department of Transportation, including the Federal Railroad Administration, and the Department of Homeland Security and the Operational Safety and Health Administration, some of which in some cases has a preemptive effect. In addition, Norfolk Southern's operations are subject to extensive federal, state, and local environmental, labor and employment and other laws and regulations. Norfolk Southern is, from time to time, alleged to be in violation of administrative, statutory or regulatory provisions in the ordinary course of business. Norfolk Southern cooperates with all government agencies in seeking to resolve such alleged violations. Due to the scope of its operations and the number of employees, Norfolk Southern cannot provide detailed information regarding all such violations without undue effort or expense, if at all.

However, in addition to that material information which may be found at the noted US SEC website, also attached in Table V.B.1.e is that information which can be secured without undue effort or expense.
