Proposed Zoning: B2-3 Neighborhood Mixed-Use District

Lot Area: 9,262.5 square feet

Proposed Land Use: The existing three-story (with basement) mixed-use building contains three (3) commercial units – at grade level, and thirteen (13) dwelling units – above. The existing building – therefore, is *non-conforming*, under the current Zoning Ordinance. The existing commercial units have been vacant for many years. As such, the Applicant is seeking a zoning change in order to convert the three (3) existing commercial units into dwelling units and to establish one (1) additional dwelling unit within the basement – for the establishment of a total of seventeen (17) dwelling units, within the existing building, at the subject site. As part of the conversion plan, the Applicant will be razing the existing three-car garage and locating a total of eight (8) off-street surface parking spaces, at the rear of the property, with access off of the Public Alley. The existing building is masonry and frame in construction and measures 29 feet-6 inches (approx.) in height. No physical expansion of the existing building is intended or required.

- (B) The Project's Density (Lot Area Per Dwelling Unit): 17 dwelling units; 544 square feet
- (C) The amount of off-street parking: 8 vehicular parking spaces
**Conversion of existing mixed-use building, with thirteen (13) dwelling units, which has existed - as is, for more than fifty (50) years*
