Office of the City Clerk

City Council Document Tracking Sheet

Meeting Date:	7/28/2011
Sponsor(s):	Colón, Rey (35)
Type:	Order
Title:	Issuance of permits for Sign(s)/Signboard(s) at 3302 W Belmont Ave
Committee(s) Assignment:	Committee on Zoning, Landmarks and Building Standards

COMMITTEE ON BUILDINGS

(Signs)

Ordered, that the Commissioner of Buildings is hereby directed to issue a sign permit to:

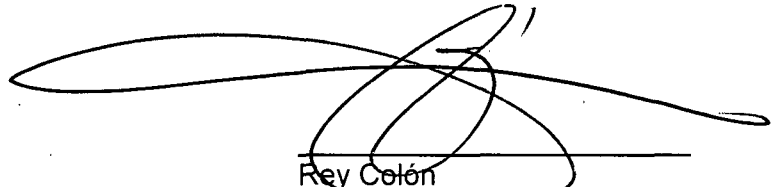

Shaw Electric Sign Company
356 Prairie Mist Dr
Round Lake IL 60073

for the erection of a sign/signboard over 24 feet in height and/or over 100 square feet (in area of one face) at:

3302 W. Belmont
Chicago, IL 60618

Dimensions: Length: 35'.10" Height: 5'.0"
Height above grade/roof to top of sign: 27'
Total Square Foot Area: 179 Sq Ft

Such sign(s) shall comply with all applicable provisions of Title 17 of the Chicago Zoning Ordinance and all other applicable provisions of the Municipal Code for the City of Chicago governing the construction and maintenance of outdoor signs, signboards, and structures.

Rey Colón
Alderman, 35th Ward

AgiLight SignRayz® Series Product Benefits

- Nichia Single Bin SMT LED- for Maximum Reliability and Color Consistency
- Protective Optical Lens-
 - New Optical Lens creates a wide viewing angle which maximizes light coverage.
 - Protects LED from lumen degradation and environmental damage
 - Nichia has agreed to supply us customer-specific color bins for each of the options in the AgiLight SignRayz product lines. These customer-specific color bins have smaller sizes than standard ANSI color specs, which will result in a better color and brightness uniformity for signage applications. Our agreement with Nichia also allow us to be able to ship individual color corrected temperatures in high volumes to support large custom signage programs.
- Constant Current Technology
 - CCT keeps consistent current levels, eliminating current change due to forward voltage variation in many LED lighting systems.
 - CCT provides uniform light output throughout the entire installation, while also preventing damage from overdriving of the LEDs.
 - CCT allows for wiring in parallel or series without complicated load balancing.

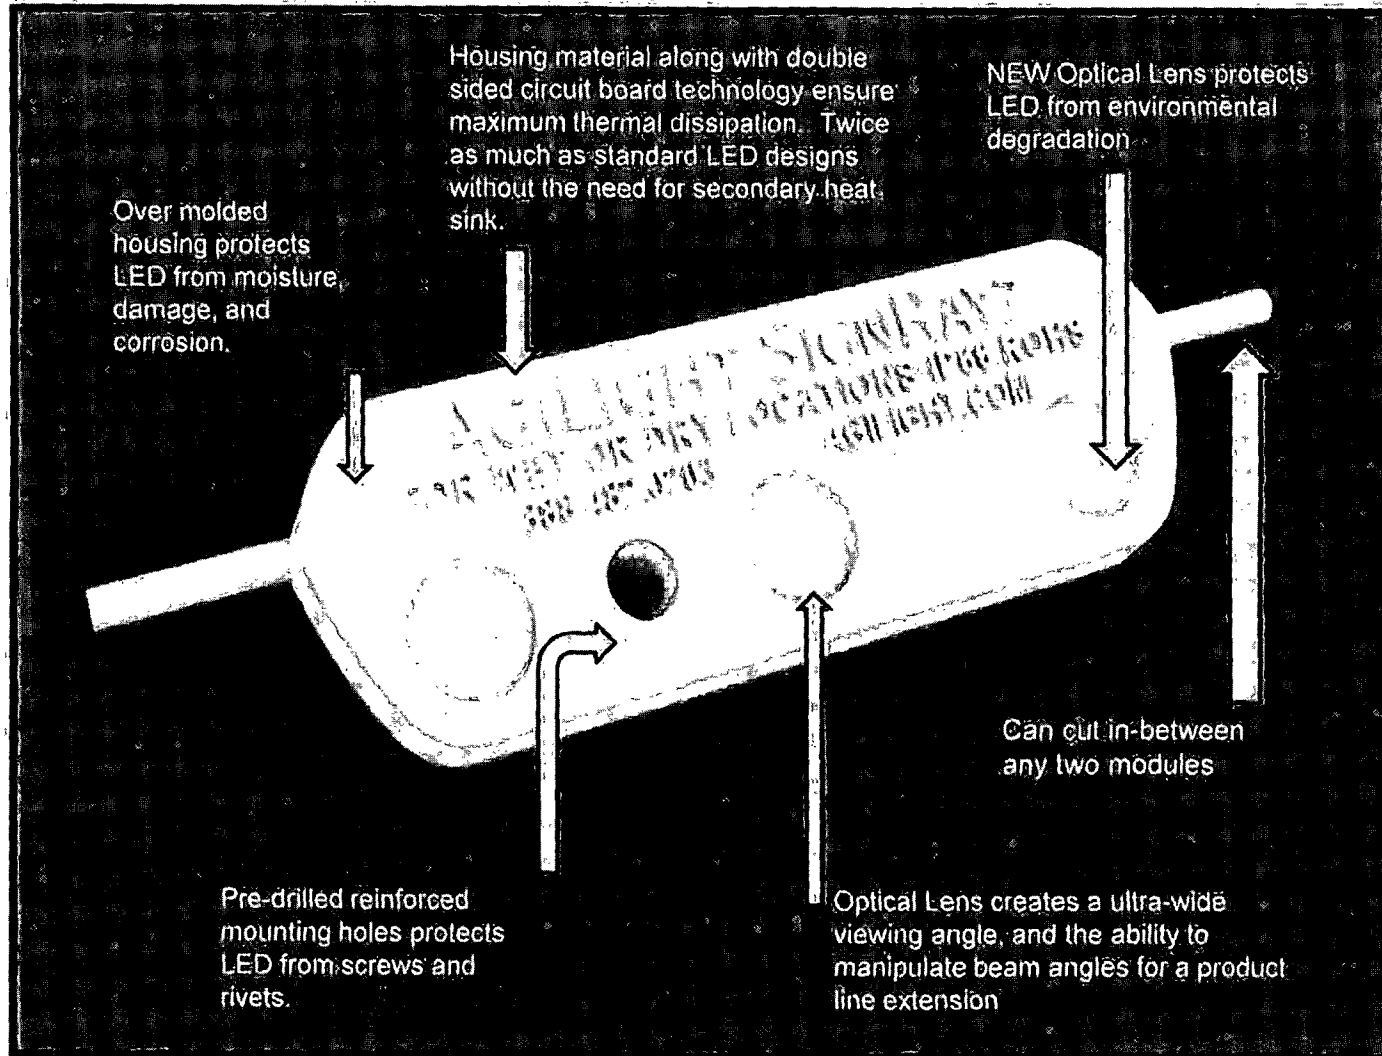

AgiLight SignRayz® Series Product Benefits

(continued)

- Over-Molded Housing Design-
 - Designed to protect components from moisture, damage, and corrosion
 - Utilizes a new double sided circuit board with "thermal vies" to double the surface area for heat dissipation. Allows us to rate product for environments of -40°C to +70°C which is +10°C higher than other manufacturers.
 - Continuous wire through module uses IDC connectors vs. soldering for maximum strain relief
 - Reinforced mounting holes for #6 & #8 screws or pop rivets. Also 3M VHB tape pre-applied to each module
- Standard 12 Volt DC system
- Minimum: 50,000 hour rated to the L70 life
- 5-Year Warranty on LED and Power Supplies
- UL Listed for New Signs and Retrofits
