INSTALLATION RECOMMENDATIONS

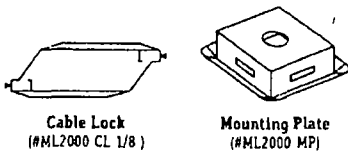

Determine weight of marketLITE that will be used
Determine length of marketLITE and multiply by weight
An engineer must choose the proper aircraft cable to handle the tension based on length and weight to prevent product from sagging
An engineer must determine the strength of the structure where the cable will attach based on tension calculation from previous step
If installing on a pole check with pole manufacturer to confirm the pole can handle the tension
marketLITE is hung to the above aircraft cable using the hooks
Secure hooks to aircraft cable by crimping or using stainless steel tie wraps
The supplied aircraft cable is designed to prevent strain on the wire
An additional aircraft cable is required to hang marketLITE
