TYPE I REGULATIONS

Narrative: The subject property is a 3,101.5 square foot lot and is improved with a two and half story residential building that includes four dwelling units and a surface parking pad for two vehicles at the rear of the property. The Applicant proposes to rezone the property from a RS-3, Residential Single-Unit (Detached House) District to a B2-3, Neighborhood Mixed-Use District to allow for the addition of two dwelling units for a total of six dwelling units. To accommodate the proposed dormer addition, the Applicant will also include a third story dormer at the existing building. The Applicant will expand the existing surface parking pad to include an additional parking space for three vehicles total. The Applicant is seeking relief for any additional required parking through this Type 1 application under the Transit Served Locations of the Chicago Zoning Ordinance. There will be no change in the existing height of the building (33 feet 10 inches). Due to the proposed dormer addition, the Applicant will seek a side setback Variation.
