PROJECT NARRATIVE

The development objective for the existing multi-story concrete and masonry structure located at **2542 – 2558 S. Federal St. & 100 – 108 W. 26th Street** consists of creating both affordable and market rate units within the building. In order to provide the proposed **47 total** units, a one-story addition at the existing upper roof level and a one-story and a two-story addition over the existing 3-story level. The existing roofs at these levels will be reinforced as necessary to carry the additional loads. It is anticipated that the construction systems for the additions will consist of a steel frame structure, with a composite slab for the floors and steel joists and decking at the roof levels spaced to support the proposed roof and anticipated equipment. The existing single elevator will be demolished and the shaft will be repurposed to become the trash room and trash chute at each level. The shaft walls will be removed and replaced as required to remove the existing elevator. A new elevator bank will be added to the existing facility to provide a total of two elevators. The new elevators will provide access up to the new 5th floor level. All new windows will be minimum double-pane with low-e coating aluminum steel replica windows to match the historic character of the building. The additions will be clad in dark grey zinc panels installed in a running bond pattern. This will provide a modern, complimentary distinguished statement to the existing building. The high-quality finishes and attention to the detail of the existing structure will visually engage the residents and surrounding community. The residents of the building will be provided with roof top amenity space that will provide indoor / outdoor space for gathering and entertainment. Solar PV will be installed on the roof of the addition to provide onsite energy generation to offset the overall resource consumption and reduce the carbon footprint of the building. The development will contain **25** onsite, secured garage entrance **parking spaces** at the ground level making use of the existing garage space and two existing garage door openings that provide an entrance and exit from the space. No residential units will be contained on the ground floor level. The site improvements will consist of low to no maintenance landscaping on the main entrance side of the building with repaired curb cuts at the garage entry and exit points. The 10'-0" wide rear yard on the west side of the building will act as a pocket park for the building and is proposed to be used as a dog run for resident pets. In order to achieve the goals for this development, the existing lot for the building will need to be re-zoned to B2-5 in order to construct the proposed additions that will allow the development to maximize the number of

units that are possible with this site and building. B2-5 allows a maximum FAR up to 5.0; based on the net site area of the planned development which is 19,158.89 SF, the proposed design at 70,948 SF will have a FAR of **3.70** (excludes roof areas ground level space allocated towards parking & vehicle circulation – see space allocation summary below). The existing tower is 82'+/- above grade. The new addition will be 9'-3" lower than the height of the existing tower and the uppermost portion of the addition will be setback from the east face of the tower a distance of 18'-8", allowing the tower element to remain prominent. The height of the tallest portion of the new addition in accordance with **CZO 17-17-0311-A** will be 68'-0". The height to the bottom of the existing tower roof structure is roughly 78'-8". The tower is being used to create two (2) multi-level 1-bedroom units.

16. The Applicant acknowledges that it is the policy of the City to maximize opportunities for Minority and Women-owned Business Enterprises (“M/WBEs”) and city residents to compete for contracts and jobs on construction projects approved through the planned development process. To assist the city in promoting and tracking such M/WBE and city resident participation, an applicant for planned development approval shall provide information at three points in the city approval process. First, the applicant must submit to DPD, as part of its application for planned development approval, an M/WBE Participation Proposal. The M/WBE Participation Proposal must identify the applicant’s goals for participation of certified M/WBE firms in the design, engineering and construction of the project, and of city residents in the construction work. The city encourages goals of 26% MBE and 6% WBE participation (measured against the total construction budget for the project or any phase thereof), and (ii) 50% city resident hiring (measured against the total construction work hours for the project or any phase thereof). The M/WBE Participation Proposal must include a description of the Applicant’s proposed outreach plan designed to inform M/WBEs and city residents of job and contracting opportunities. Second, at the time of the Applicant’s submission for Part II permit review for the project or any phase thereof, the Applicant must submit to DPD (a) updates (if any) to the Applicant’s preliminary outreach plan, (b) a description of the Applicant’s outreach efforts and evidence of such outreach, including, without limitation, copies of certified letters to M/WBE contractor associations and the ward office of the alderman in which the project is located and receipts thereof; (c) responses to the Applicant’s outreach efforts, and (d) updates (if any) to the applicant’s M/WBE and city resident participation goals. Third, prior to issuance of a Certificate of Occupancy for the project or any phase thereof, the Applicant must provide DPD with the actual level of M/WBE and city resident participation in the project or any phase thereof, and evidence of such participation. In addition to the forgoing, DPD may request such additional information as the department determines may be necessary or useful in evaluating the extent to which M/WBEs and city residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and city residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

17. The Applicant acknowledges and agrees that the rezoning of the Property from C2-3, Motor Vehicle-Related Commercial District to B2-5, Neighborhood Mixed-Use District and then to this Planned Development (“PD”) No. ___ is an “entitlement” that triggers the requirements of Section 2-44-085 of the Municipal Code of Chicago (the “ARO”). The PD is located in a “low-moderate income area” within the meaning of the ARO and permits the construction of 47 dwelling units. The Applicant intends to construct a 47-unit development.

Developers of rental projects in low-moderate income areas must provide 10% of the units in the residential development as affordable units at a weighted average of 60% of the AMI. All on-site affordable units must be accessible dwelling units, as required under subsection (W)(10) of the ARO, and developers must give preference in leasing accessible units to people with disabilities,

as specified in the ARO rules. All off-site affordable units must have at least two bedrooms and must be located in a downtown district, inclusionary housing area, or community preservation area. Whether on-site or off-site, developers must give preference in leasing affordable units of two bedrooms or more to multi-person households, as specified in the ARO rules. If a residential project is located in a transit-served location, off-site units must be located in a substantially comparable transit-served location.

The Applicant's affordable housing obligation is [] affordable units (10% of 47) (the "ARO Units"). The Applicant has agreed to satisfy its affordable housing obligation by providing all [] affordable units on-site in the residential building as set forth in the Affordable Housing Profile ("AHP") attached hereto. The Applicant agrees that the affordable rental units must be affordable to households with a range of incomes averaging 60% of the Chicago Primary Metropolitan Statistical Area Median Income ("AMI"), as updated annually, provided that (x) the maximum income level for any affordable unit may not exceed 80% of the AMI, (y) at least one-third must be affordable to households at or below 50% of the AMI, of which one-sixth must be affordable to households at or below 40% of the AMI, and (z) all income levels must be multiples of 10% of the AMI.

If the Applicant requests any material change to its method of compliance with the ARO, such as locating affordable units off-site instead of on-site or changing the target affordability level after the passage of this PD, DOH may adjust the AHP as requested, in accordance with the ARO, without amending the PD, provided however, the Applicant must update and resubmit the revised AHP to DOH for review and approval and, at DOH's request, provide an informational presentation to the Plan Commission on such change. Prior to the issuance of any building permits for any residential building in the PD, including, without limitation, excavation or foundation permits, the Applicant must execute and record an Inclusionary Housing Agreement (IHA), in accordance with subsection (N) of the ARO. The terms of the IHA and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the IHA will be recorded against all Subareas of the PD and will constitute a lien against such property. The Commissioner of DOH may enforce remedies for any breach of this Statement 17, including any breach of any IHA, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the PD.

Notwithstanding the foregoing, if the Applicant receives Low-Income Housing Tax Credits or other financial assistance from the City, and the affordability requirements for such financing (the "Financing Requirements") exceed the ARO requirements, then the Financing Requirements shall govern the Applicant's obligation to provide affordable housing in such subsidized portions of the PD.

This statement does not include all ARO requirements and options. It is intended to provide an overview of the application of the ARO to this PD. In the event of any conflict between this statement and the terms and conditions of the ARO, the ARO shall govern.

18. Construction of the improvements contemplated by this Planned Development may be completed in phases over a period of years. Unless construction of the first phase of development on the Property has commenced within six years following adoption of this Planned Development (subject to extension for one additional year as set forth in Section 17-13-0612 of the Chicago Zoning Ordinance), then this Planned Development shall lapse, and the Zoning Administrator shall initiate a Zoning Map Amendment to rezone this Planned Development to B2-5, Neighborhood Mixed-Use District.
