TRANSPORTATION NETWORK PROVIDERS

9-115-010 Definitions.

For purposes of this chapter the following definitions shall apply:

"Active driver" means a transportation network driver who has provided service in response to four or more prearranged transportation service requests within a 30-day period.

"Commissioner" means the city's commissioner of business affairs and consumer protection.

"Compensation" means any payment or donation received, or economic or business benefit obtained, for providing a transportation network service.

"Department" means the city's department of business affairs and consumer protection.

"Licensee" or "transportation network licensee" means the holder of, or a person that is required to hold, a transportation network provider license issued pursuant to this chapter.

"License" means a transportation network provider license.

"Operation of a transportation network vehicle" or "operating a transportation network vehicle" or "operate a transportation network vehicle" means offering, making available, or using a transportation network vehicle to provide a transportation network service, including any time when a driver is logged onto the transportation network provider's Internet-enabled application or digital platform showing that the driver is available to pick up passengers; when a passenger is in the vehicle; when the provider's dispatch records show that the vehicle is dispatched; or when the driver has accepted a dispatch and is enroute to provide a transportation network service to a passenger.

"Prearranged transportation service" means a transportation service that is offered and accepted through a licensee's Internet-enabled application or digital platform before the transportation commences.

"Place of business in the City of Chicago" means a location where (1) the city may send, and the licensee shall accept, notices of hearing or other notices from the city; and (2) the licensee maintains its business and financial records relating to its license.

"Transportation network driver" or "driver" means an individual affiliated with a transportation network provider or with a person who is affiliated with a provider to transport passengers for compensation using a transportation network vehicle.

“Transportation network provider” or “provider” means a person that offers or provides a transportation network service.

“Transportation network service” or “service” means a prearranged transportation service offered or provided for compensation using an Internet-enabled application or digital platform to connect potential passengers with transportation network drivers. The term “transportation network service” does not include a “ridesharing arrangement” as that term is defined in section 2 of the Illinois Ridesharing Arrangements Act, codified at 625 ILCS 30/2.

“Transportation network vehicle” means any vehicle used to provide a transportation network service.

“Vehicle Age” means the age of a vehicle computed by totaling the number of the years from the model year to the calendar year, including both. For example, a vehicle with a model year of 2009 has a vehicle age of 4 years in the 2012 calendar year (2009 + 2010 + 2011 + 2012).

“Wheelchair-accessible transportation network vehicle” means a transportation network vehicle that a person in a wheelchair may enter and exit independently or with assistance while seated in a wheelchair. A wheelchair-accessible transportation network vehicle shall safely secure and restrain the wheelchair, shall have only side entries for passengers, and shall comply with all applicable standards provided by law for wheelchair-accessible vehicles, including standards specified by applicable ordinances and regulations adopted by the city.

9-115-020 Transportation network provider license – Required.

(a) No person shall engage in a transportation network provider business in the city without a transportation network provider license issued pursuant to this chapter.

(b) No vehicle shall be used as a transportation network vehicle in the city except by a driver affiliated with a transportation network provider licensed pursuant to this chapter.

(c) It shall be unlawful for any transportation network provider licensed by another jurisdiction to provide a transportation network service within the corporate boundaries of the city, except where the passengers have as their destination the community in which such provider is licensed.

(d) A transportation network vehicle operated by a driver affiliated with a provider licensed by another jurisdiction may come into the city to discharge passengers whose trip originated outside of the city.

9-115-030 Transportation network provider license – License classes.

(a) The commissioner shall issue or renew two classes of transportation network provider licenses: (i) Class A transportation network provider license, referenced in this section as, “Class A license”; and (ii) Class B transportation network provider license, referenced in this section as, “Class B license”.

(1) A Class A license shall apply to licensees whose average transportation network service operation is not more than 20 hours per week, as calculated pursuant to subsection(a)(4).

(2) A Class B license shall apply to licensees whose average transportation network service operation is more than 20 hours per week, as calculated pursuant to subsection(a)(4).

issuance of the license provide data to the commissioner, as the commissioner prescribes, that shows the licensee is operating in compliance with this chapter.

(4) (i) For purposes of the initial license period, a licensee's weekly average transportation network service operation shall be calculated by dividing the total number of hours the licensee's active drivers are operating transportation network vehicles in the city, including trips originated in the city, for a three-month consecutive period following the issuance of the license with the licensee's total number of active drivers multiplied by the number of weeks in the three-month period.

(ii) For purposes of license renewal applications, an applicant's weekly average transportation network service operation shall be calculated by dividing the total number of hours the applicant's active drivers have been operating transportation network vehicles in the city, including trips originated in the city, for a six-month period immediately before the license renewal application with the licensee's total number of active drivers multiplied by the number of weeks in the six-month period.

(b) The commissioner may, from time to time, require licensees to provide data, as the commissioner prescribes, to audit their compliance with this chapter. After conducting such audit, if the commissioner determines that any licensee is operating in violation of this chapter, the commissioner may require such licensee to comply with this chapter. Nothing provided in this subsection shall be construed to prohibit the commissioner from taking other enforcement actions, as provided in this chapter, against any person that violates this chapter.

Such insurance shall be primary and noncontributory; name the City of Chicago as an additional insured; and include a provision requiring 30 days' advance notice to the commissioner prior to cancellation or lapse, or any change of the policy.

(ii) commercial automobile liability insurance to secure payment by the applicant of any financial judgment or settlement of any claim against the applicant or the applicant's transportation network drivers resulting from any occurrence arising out of or caused by the operation of a transportation network vehicle. The licensee shall provide 30 days' advance notice to the commissioner prior to cancellation or lapse, or any change of the policy.

If the insurance policies are furnished to the city under a claim that they are proprietary, privileged or confidential, then the department, consistent with applicable law, shall treat such information as confidential, and shall provide the licensee with a copy of any appeal, received by the department, of the department's notice of denial provided to a third party seeking inspection and copies of such information.

(f) Any driver shall provide to any authorized law enforcement officer, in addition to any applicable insurance, proof of the insurance policies required by this section in case of an accident involving a transportation network vehicle while he is operating a transportation network vehicle.

In addition, if such application or digital platform allows drivers to rate their passengers, licensees shall train their drivers not to discriminate against people with disabilities in their passenger ratings. It shall be a violation of this chapter for a driver to rate a passenger based upon a disability.

(c) In addition to the inspection requirements specified in Section 9-115-110, wheelchair-accessible vehicles shall be inspected by the city for compliance with legally required safety standards before such vehicles are used as wheelchair-accessible transportation network vehicles.

(d) In addition to the fees specified in Section 9-115-040, as part of the license issuance or renewal fee, a Class A transportation network provider licensee shall pay \$0.10 per vehicle per ride accepted to the city's accessibility fund for each transportation network vehicle registered with the licensee which is not a wheelchair-accessible transportation network vehicle. The licensee may pay the fee provided in this subsection at the same time as the licensee remits the ground transportation tax the licensee collects pursuant to Chapter 3-46 of this Code.

(e) In addition to the fees specified in Section 9-115-040, as part of the license issuance or renewal fee, a Class B transportation network provider licensee shall pay \$100.00 per vehicle per year to the city's accessibility fund for each transportation network vehicle registered with the licensee which is not a wheelchair-accessible transportation network vehicle.

Uses of this fund include, but are not limited to, reimbursement for costs associated with converting or purchasing a vehicle to be used as a taxicab or transportation network vehicle that is fully wheelchair accessible by ramp or lift. The maximum amount of reimbursement per taxicab vehicle from the fund, and the conditions of reimbursement and the maximum amount of reimbursement per a transportation network vehicle from the fund shall be established by rules and regulations, in consultation with, among other individuals as the commissioner may determine, representatives from the Mayor's Office for People with Disabilities, the community of people with disabilities, the taxi industry, and the transportation network providers industry.

- (ii) is at least 21 years of age;

In addition to other applicable requirements, such training program must cover topics related to providing service to people with disabilities;

(2) Any Class A transportation network provider licensee shall (1) perform a criminal background check on each transportation network driver applicant; (2) obtain each transportation network driver applicant's driving record; and (3) ascertain that all the requirements of subsection (b) are met before engaging a transportation network driver.

(3) Any Class A transportation network provider licensee shall maintain and enforce a zero-tolerance policy for intoxicating substances, which policy shall be approved by the commissioner as a condition of the license. Such policy shall promote zero tolerance using a combination of appropriate means that may include education, random testing, assistance programs and counseling, among other measures.

(4) One year after engaging a driver, and annually thereafter, each Class A transportation network provider licensee shall ascertain that the driver is still eligible to be a transportation network driver by verifying that the driver meets all of the requirements specified in this section, including the criminal background check requirement specified in subsection (b)(2), and shall keep records of such verification for a period of three years and shall submit such records to the commissioner upon request.

(c) If any licensee engages an ineligible driver or if any Class A transportation network provider licensee fails to annually ascertain the eligibility of each driver such licensee engages, the licensee shall be liable for the violation of this section and shall also be jointly and severally liable with the ineligible driver for any violation of this chapter by the ineligible driver.

(d) Eligibility for engagement as a driver under this chapter shall be a continuing requirement for remaining so engaged.

(a) In addition to the prohibitions set forth in section 9-115-180(c), any licensee shall include on its website, mobile application and riders' receipts, a notice or information on the licensee's zero-tolerance policy for intoxicating substances and the methods to report a transportation network driver whom the rider reasonably suspects was under the influence of drugs or alcohol during the ride. The website and mobile application shall include a phone number or mobile application call function and email address to report the zero-tolerance complaint. The website and mobile application shall also include the phone number and email address of the department's public passenger vehicle division. Promptly after a zero-tolerance complaint is filed, the licensee shall suspend the transportation network driver for further investigation. In investigating a zero-tolerance complaint against a driver with a speech disability, the licensee shall factor the driver's speech disability in the investigation to inquire whether or not the complaint is based on an erroneous perception of the driver's speech disability.

(b) Any person who knowingly makes a false zero-tolerance complaint shall be in violation of Chapter 1-21 of this Code.

(c) A licensee that does not immediately suspend a driver after a zero-tolerance complaint shall be in violation of this section.

9-115-170 Driver – Identification card.

The licensee shall issue an identification card to drivers that such licensee engages. Such identification card shall have the name of the driver and a photograph permanently attached to the identification card. Any transportation network driver shall display the identification card at all times while operating a transportation network vehicle.

(a) In addition to all other applicable requirements provided by law, it shall be unlawful for any person:

- (1) Who is under the age of twenty-one years to operate a transportation network vehicle;
