REPORT
to the
CHICAGO PLAN COMMISSION
from the
DEPARTMENT OF PLANNING AND DEVELOPMENT

MARCH 17, 2016

FOR APPROVAL: AMENDMENT TO PLANNED
 DEVELOPMENT #639 (APPLICATION NO. 18614)

APPLICANT: THE NATIONAL MUSEUM OF MEXICAN ART

LOCATION: 1852 WEST 19th STREET

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation on a proposed amendment to Institutional Planned Development #639 for your review and recommendation to the Chicago City Council. The application was introduced to the Chicago City Council on January 13, 2016. Notice of this public hearing was published in the Chicago Sun-Times on March 02, 2016. The Applicant was separately notified of this public hearing.

The property is identified as 1852 W. 19th Street and is generally located on the Northeast corner of West 19th Street and North Wolcott Avenue. The subject site sits within the boundaries of Harrison Park. The applicant The National Museum of Mexican Art proposes to construct a surface parking lot for 50 vehicles which will also serve as an outdoor exhibit space and seating area when the weather permits. The existing museum building currently located on the subject site will remain as is and will only be modified to accommodate an accessible entrance.

This request is being submitted as an amendment to the planned development, pursuant to Sections 17-13-0611 of the Chicago Zoning Ordinance.

PROJECT BACKGROUND AND DESCRIPTION AND SUSTAINABILITY

The applicant The National Museum of Mexican Art opened at the current location in March of 1987. The museum underwent a large addition that was reviewed and approved as a planned development in 1997. Included in the 1997 planned development proposal was an area on the west of the parcel located adjacent to the museum that was proposed to be constructed as an open space park area and contemplated to be used as a reading garden. The park area was never constructed. The applicant is now proposing an amendment to Institutional Planned Development #639. The amendment would allow for a proposal to

construct a voluntary non-required accessory parking lot designed to accommodate 50 parking stalls the area would also be used as an outdoor exhibition space and at times as a seating area for certain special exhibits and film festivals.

The museum was subject to a sustainability requirement under the original approved planned development specifically the building was required to be designed and constructed to be compliant with ASHRAE standards in place in 1997. Given the fact that no new structures are contemplated as part of this proposal the applicant will continue to be held to this previously reviewed and approved standard for the existing museum building.

SITE AND AREA DESCRIPTION

MAP #1 – Zoning Context

MAP #2 – Transit Locations

DESIGN AND LANDSCAPING

The subject site is improved with an existing museum building. The primary finish of the building is face brick with stone accents and typical aluminum door and window systems. The proposed parking lot and exhibit area will be designed to be in compliance with the landscape requirements located in the Chicago Zoning Ordinance.

1852 W. 19th Street

ACCESS / CIRCULATION**MAP #3 – Access and Circulation**

All parking stalls to be a minimum of 8' x 18' in size and have an aisle space of 22'-0" pursuant to section 17-10-1000 of the Chicago Zoning Ordinance

BULK / USE / DENSITY

The maximum allowable Floor Area Ratio (FAR) for the previously reviewed and approved planned development was defined as 1.2; the new proposed amendment to the planned development will use this same 1.2 FAR. All remaining bulk and density items will be in substantial compliance with the stipulations of Section 17-2-0300 for RM-5 zoning districts, per section 17-8-0901.

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant and compared this proposal to the requirements of the Chicago Zoning Ordinance and existing development in the community. The area around this project is a mix of residential and park and open space uses and is accessible from numerous forms of public transit. Based on that analysis, DPD has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. Promotes economically beneficial development patterns that are compatible with the character of existing neighborhood (per 17-8-0103), as evidenced by the design, massing of the existing museum building and proposed parking and exhibit space uses being in context with the character and needs of the immediate community;
2. Ensure a level of amenities appropriate to the nature and scale of the project (per 17-8-0104), as evidenced by provisions provided to the

building users in the project plans while being in accordance with the requirements of the Chicago Zoning Ordinance;

3. Promotes transit, pedestrian and bicycle use, ensures accessibility for persons with disabilities and minimizes conflicts with existing traffic patterns in the vicinity (per 17-8-0904-1-2, 3 & 4), as evidenced through the site's close proximity to various methods of public transit; the accessibility accommodations made on-site for the building users; the pedestrian and bicycle ingress and egress options provided to the building uses, and lastly that the design of the building and the proposed parking lot is to fit with the current existing traffic patterns at the site.
4. Provides buildings abutting the sidewalk with doors windows and active use adjacent to it (per 17-8-0905-B-1), as evidenced by the site plan provided showing the building edge immediately adjacent to the public sidewalk on the southern portion of the site and that the ground floor will be improved with uses which will provide windows, door and an active use adjacent to the public sidewalk.
5. All sides and areas of the buildings that are visible to the public should be treated with materials, finishes, and architectural details that are of high-quality and appropriate for use on primary public-right-of-way-facing façade (per 17-8-0907-A-4), as evidenced through the information contained within this report, the materials as called out on the elevations in the exhibits to this planned development, and the corresponding proposal renderings;

The project meets the purpose and criteria set forth in the Chicago Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare:

1. Per 17-13-0308-C, the proposed development is compatible with the existing institutional use located on the subject site as well as the surrounding residential and open space developments in terms of land use, as well as, the density and scale of the physical structure.
2. Per 17-13-0308-D, the previously established underlying zoning for this planned development (RM-5) is consistent with other residential zoning districts , both adjacent to this site and in the immediate area.
3. Per 17-13-0308-E, the public infrastructure facilities and City services will be adequate to serve the proposed development at the time of occupancy and the project will comply with the requirements for access in case of fire and other emergencies. The proposed project has been reviewed by the Mayor's Office for People with Disabilities and the Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and no comments have been received which have not been addressed in the application.

FINAL

Based on the foregoing, it is the recommendation of the Department of Planning and Development that this application for the amendment of Institutional Planned Development #639 be approved and that the recommendation to the City Council Committee on Zoning Landmarks and Building Standards be "Passage Recommended".
