REPORT
to the
CHICAGO PLAN COMMISSION
from the
DEPARTMENT OF PLANNING AND DEVELOPMENT

DECEMBER 17, 2015

FOR APPROVAL: PROPOSED PLANNED
 DEVELOPMENT (APPLICATION NO. 18402)

APPLICANT: L.V.M CORPORATION

LOCATION: 601 WEST DIVERSEY PARKWAY

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation on a proposed Planned Development for your review and recommendation to the Chicago City Council. The application was introduced to the Chicago City Council on June 17, 2015. Notice of this public hearing was published in the Chicago Sun-Times on December 2, 2015. The Applicant was separately notified of this public hearing.

The property is identified as 601 W. Diversey Parkway and is situated at the intersection of West Diversey Parkway and North Lehman Court. The applicant, L.V.M Corporation, proposes to demolish the existing building on the site known as the "Inn at Lincoln Park" and proposes to construct a nine-story, mixed use building comprised of approximately 7,700 square feet of retail/restaurant space on the ground floor with 150 hotel keys and approximately 70 accessory parking stalls on the floors above.

This application has been submitted as a mandatory planned development pursuant to section 17-8-0512 of the Chicago Zoning Ordinance which states that planned development review and approval is required for any building in a B or C dash 5 zoning district which is to exceed 80'-0" in height.

SITE AND AREA DESCRIPTION

The subject property is located at the southwest corner of the intersection of North Lehman Court and West Diversey Parkway. The subject site is located adjacent to business, commercial, and residential uses. East of the subject site parcels of land are zoned B1-2, Neighborhood Shopping District, and B1-5, Neighborhood Shopping District. North of the site are parcels of land zoned Residential Business Planned Development #306, B3-2, Community Shopping District, and B3-5 Community Shopping District. West of the site are parcels of land zoned B1-2, Neighborhood Shopping District. South of the site are parcels

of land zoned RM-5 Residential Multi-Unit District and B1-2 Neighborhood Shopping District. The site is not in the Lake Michigan and Chicago Lakefront Protection District. The site is not located within a designated Tax Increment Financing (TIF) District. The site is not located within the boundaries of a Chicago Landmark District and it does not contain any designated local or national landmark structures or sites.

The subject site is served by various CTA bus routes, the following routes have stops located less than ½ mile from the subject site: #8 (Halsted) #22 (Clark); #36 (Broadway); #37 (Sedgwick); #74 (Fullerton); #76 (Diversey); #77 (Belmont); #134(Stockton/La Salle Express); #143 (Stockton/Michigan Express); #151 (Sheridan) and #156 (LaSalle).

PROJECT BACKGROUND AND DESCRIPTION

The subject site consists of approximately 18,900 square feet and is currently improved with a hotel and an accessory surface parking lot. The applicant proposes to demolish the existing building and then to construct a nine-story mixed-use building which will contain approximately 7,700 square feet of retail/restaurant use on the first floor and a 150 key Hampton Inn hotel and 70 accessory parking stalls on the floors above.

DESIGN

The proposed building will be primarily finished with a choice of one of three materials: fiber cement panels, thermosetting resin panels, or insulated metal panels. The elevations will be accented with aluminum doors and windows as needed. The first floor elevation along the north and west sides will be finished in an aluminum and glass store front glazing system. The area of the building that translates to the second and third floor will be finished in a translucent glass curtain wall system this will screen the parking garage but allow some of the light to filter out of the building as a design feature. The most recent proposed color palette includes silver or gray for the primary finishes, a translucent white or translucent off white for the polycarbonate curtain wall, and a metallic gray or silver for the metal finishes in the door and window systems.

LANDSCAPING AND SUSTAINABILITY

The entire planned development will be compliant with the requirements of the Chicago Landscape Ordinance specifically in terms of parkway trees.

The subject site will be designed to be in compliance with the current City of Chicago Sustainable Development policy and will provide a vegetated roof totaling a minimum of 50% of the net roof area which equates to 6,419 square feet of area. Additionally, the subject building will obtain building certification.

ACCESS / CIRCULATION

The seventy (70) parking stalls provided are all accessible via a two-way traffic driveway off of North Lehman Court, the driveway will lead to a two-way traffic ramp bringing visitors up to the parking floors and back down out of the building.

In addition to this driveway a set of two additional driveways will be provided off of North Lehman Court to allow for a one way traffic pattern to allow for a pick-up/drop-off lane and a bypass lane. The subject site also has 8 bicycle parking spaces available. All parking provided will meet the layout and design requirements as stated under 17-11-1000 of the Chicago Zoning Ordinance.

BULK / USE / DENSITY

The proposed project will be a mixed-use building comprised of retail/restaurant use on the first floor and a 150 key hotel on the floors above. The current maximum allowable Floor Area Ratio (FAR) for the proposed underlying zoning district (B3-5) is 5.0; the proposed planned development will be limited to this maximum 5.0 FAR. The proposed project will have a maximum building height of 120'-0" to the parapet of the building and an overall maximum height of 133'-0" to the top of the mechanical penthouse/elevator overrun. The proposed planned development will maintain setbacks that are in compliance with the requirements of the B3-5 zoning designation. All remaining bulk, use and density items will be in substantial compliance with the stipulations of Section 17-3-0400 for B3-5 zoning districts.

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant and compared this proposal to the requirements of the Chicago Zoning Ordinance and existing development in the community. The area around this project is composed of a mixture of various uses including commercial, retail, and residential uses and is accessible from public transit. Based on that analysis, DPD has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. Promotes economically beneficial development patterns that are compatible with the character of existing neighborhood (per 17-8-0103), as evidenced by the design of the project, and the fact that the proposed uses are in context with the character of the adjacent properties and also meet the needs of the immediate community;
2. Promotes transit, pedestrian and bicycle use, ensures accessibility for persons with disabilities and minimizes conflicts with existing traffic patterns in the vicinity (per 17-8-0904-1-2, 3 & 4), as evidenced by the site's close proximity to public transit in the form of various CTA bus lines; the accessibility accommodations made on-site for the building users; pedestrian and bicycle ingress and egress options provided to the building users in the form of 7 bicycle parking stalls, and lastly, ensuring that the design of the site works within the confines of the current existing traffic patterns at the site and creates little or no adverse impact to those patterns;
3. All sides and areas of the buildings that are visible to the public should be treated with materials, finishes, and architectural details that are of high-quality and appropriate for use on primary public-right-of-way-facing façade (per 17-8-0907-A-4), as evidenced through the

information contained within this report, as shown on the elevations in the exhibits for this planned development, and the corresponding proposal renderings;

The project meets the purpose and criteria set forth in the Chicago Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare:

1. Per 17-13-0308-C, the proposed development is compatible with surrounding developments in terms of land use, as well as, the density and scale of the physical structure.
2. Per 17-13-0308-D, the proposed underlying zoning for this planned development is B3-5 and is similar to other business and commercial zoning districts, both adjacent to this site and in the immediate area.
3. Per 17-13-0308-E, the public infrastructure facilities and City services will be adequate to serve the proposed development at the time of occupancy and the project will comply with the requirements for access in case of fire and other emergencies. The proposed project has been reviewed by the Mayor's Office for People with Disabilities and the Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and no comments have been received which have not been addressed in the application.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that this application for the establishment of a Planned Development be approved and that the recommendation to the City Council Committee on Zoning Landmarks and Building Standards be "Passage Recommended."
