REPORT
to the
CHICAGO PLAN COMMISSION
from the
DEPARTMENT OF PLANNING AND DEVELOPMENT

MAY 19, 2016

FOR APPROVAL: PROPOSED PLANNED
 DEVELOPMENT (APPLICATION NO. 18541)

APPLICANT: BRODER 1730 WW LLC.

LOCATION: 1730 WEST WRIGHTWOOD AVENUE

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation on a proposed Planned Development for your review and recommendation to the Chicago City Council. The application was introduced to the Chicago City Council on September 24, 2015. Notice of this public hearing was published in the Chicago Sun-Times on May 4, 2016. The Applicant was separately notified of this public hearing.

The property is identified as 1730 W. Wrightwood Avenue. The applicant, Broder 1730 WW LLC., proposes to construct three four-story residential buildings containing a total of 76 dwelling units along with 76 vehicle parking stalls on the subject site.

This request is being submitted as a mandatory planned development pursuant to Section 17-8-0513-A, due to the fact that the project exceeds the unit-count threshold of 50 units in a RM- 5 underlying zoning designation.

PROJECT BACKGROUND AND DESCRIPTION

The site consists of approximately 92,402 square feet and is currently improved with a vacant factory facility and a surface parking lot. The applicant proposes to demolish the existing structure, followed by a proposal to construct three four-story residential buildings. The southernmost residential building will be comprised of 44 for-sale units while the middle and northernmost residential building will be comprised of a total of 32 (16 in each building) rental dwelling units. 76 vehicle parking stalls will be constructed within the development.

SITE AND AREA DESCRIPTION

(CTA BUS STOPS in the vicinity of the subject site)

DESIGN

The buildings are proposed to be primarily finished in brick accented by limestone capping and pre-finished metal panels. In addition the building with contain typical balcony installations and typical window and door assembly systems.

LANDSCAPING AND SUSTAINABILITY

The entire planned development will be compliant with the requirements of the Chicago Landscape Ordinance.

The subject site will be designed to be in compliance with the current City of Chicago Sustainable Development policy and will provide a vegetated roof equivalent to a minimum of 50% of the net roof area which equates to approximately 14,325 square feet of area. Additionally the subject buildings will obtain a LEED certification.

ACCESS / CIRCULATION

Access to the site is achieved via a single driveway located along the private street commonly referred to as North Hermitage Avenue. The driveway provides access to an internal parking garage which contains a total of 76 vehicular parking stalls. The applicant plans to provide a few additional parking spaces for visitors which will be placed parallel to the Hermitage Avenue curb line. All vehicle parking and bicycle parking/storage will be designed to be compliant with Chapter 10 of the Chicago Zoning Ordinance.

BULK / USE / DENSITY

The current maximum allowable Floor Area Ratio (FAR) for the proposed underlying zoning district (RM-5) is 2.0; the proposed planned development is designed for and will be limited to a maximum FAR of 1.80. All remaining bulk,

use and density items will be in substantial compliance with the stipulations of Section 17-2-0300 for RM-5 zoning districts.

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant and compared this proposal to the requirements of the Chicago Zoning Ordinance and existing development in the community. The area around this project is primarily composed of a mixture of retail, business and residential uses and is accessible from various forms of public transit. Based on that analysis, DPD has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. Promotes economically beneficial development patterns that are compatible with the character of existing neighborhood (per 17-8-0103), as evidenced by the design of the project, and the fact that the proposed bulk, density, and uses are in context with the character of the adjacent properties and also meet the needs of the immediate community;
2. Promotes transit, pedestrian and bicycle use, ensures accessibility for persons with disabilities and minimizes conflicts with existing traffic patterns in the vicinity (per 17-8-0904-1-2, 3 & 4), as evidenced by the site's close proximity to public transit in the form of various CTA bus lines; the accessibility accommodations made on-site for the building users; pedestrian and bicycle ingress and egress options provided to the building users, and lastly ensuring that the design of the site works within the confines of the current existing traffic patterns at the site and creates little or no adverse impact to those patterns.
3. Promotes a flexible application of selected bulk, use and development standards to provide a creative, urban design (per 17-8-0105), as evidenced through the various heights, elevation details and building variety;
4. Provides a parking structure that is screened from the public rights-of-way (per 17-08-0904-C-2), as evidenced by the location of the parking level below-grade underneath the residential buildings;
5. All sides and areas of the buildings that are visible to the public should be treated with materials, finishes, and architectural details that are of high-quality and appropriate for use on primary public-right-of-way-facing façade (per 17-8-0907-A-4), as evidenced through the information contained within this report, the proposed material is to be primarily face brick accented with limestone coping and a metal panel system along with aluminum window and door systems as shown on the elevations in the exhibits for this planned development, and the corresponding proposal renderings;

The project meets the purpose and criteria set forth in the Chicago Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare:

1. Per 17-13-0308-C, the proposed development is compatible with surrounding commercial, retail, and residential developments in terms of land use, as well as, the density and scale of the physical structure.
2. Per 17-13-0308-D, the proposed underlying zoning for this planned development (RM-5) and is consistent with other zoning districts, both adjacent to this site and in the immediate area.
3. Per 17-13-0308-E, the public infrastructure facilities and City services will be adequate to serve the proposed development at the time of occupancy and the project will comply with the requirements for access in case of fire and other emergencies. The proposed project has been reviewed by the Mayor's Office for People with Disabilities and the Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and no comments have been received which have not been addressed in the application.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that this application for the establishment of a Planned Development be approved and that the recommendation to the City Council Committee on Zoning Landmarks and Building Standards be "Passage Recommended".
