Committee(s) Assignment:

DEPARTMENT OF FINANCE CITY OF CHICAGO

August 18, 2016

Honorable Susana A. Mendoza City Clerk 121 North LaSalle Street, Room 107 Chicago, Illinois 60602

Dear City Clerk Mendoza:

I am submitting to you the Comprehensive Annual Financial Report (CAFR) and the Supplement thereto for the year ended December 31, 2015. These reports are accurate in all material respects and are prepared in a manner designed to present fairly the financial position and results of operations of the various funds.

Sincerely,

Erin Keane

City Comptroller

CITY OF CHICAGO

COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE YEAR ENDED DECEMBER 31, 2015

Rahm Emanuel, Mayor

Carole L. Brown, Chief Financial Officer Erin Keane, City Comptroller

Prepared by the Department of Finance

OFFICE OF THE MAYOR CITY OF CHICAGO

RAHM EMANUEL

June 30, 2016

Dear Chicagoans:

Thank you for your interest in the City of Chicago's Comprehensive Annual Financial Report (CAFR) for the 2015 fiscal year.

In 2015, Chicago continued to make progress on addressing the City's financial legacy liabilities. We reduced our structural deficit, continued the process of ending unsustainable borrowing practices, and instituted funding to stabilize two of the City's four pension funds, while still making investments to help Chicago's children, families and neighborhoods thrive. This progress will continue in 2016 and beyond as the City works with labor unions to fund and stabilize the remaining two pension funds.

While we have made substantial progress, more work remains. By continuing to follow a deliberate reform and invest strategy, we will restore financial stability for Chicago in a way that ensures every resident has access to quality City services and every neighborhood can participate in the economic growth of our city.

Sincerely,

Mayor

CITY OF CHICAGO THE CITY COUNCIL RAHM EMANUEL, Mayor

PART I INTRODUCTORY SECTION

DEPARTMENT OF FINANCE CITY OF CHICAGO

June 30, 2016

To the Honorable Mayor Rahm Emanuel, Members of the City Council, and Citizens of the City of Chicago:

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Chicago for the fiscal year that ended December 31, 2015. State law requires that all governmental units publish, within six months of the close of each fiscal year, financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited by a licensed public accountant.

Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with management. The purpose of the CAFR is to provide complete and accurate financial information which complies with the reporting requirements of the Municipal Code of Chicago (Code). The City's financial management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP.

The internal control structure is designed to provide reasonable but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefits likely to be derived and that the valuation of costs and benefits requires estimates and judgments by management.

The Code also requires that the City's basic financial statements are audited by independent certified public accountants selected by the Committee on Finance of the City Council. This requirement has been met, and the unmodified audit opinion rendered by Deloitte & Touche LLP is included in the financial section of this report. The audit was conducted as a subcontractor arrangement between Deloitte & Touche LLP and a consortium of Chicago-based minority- and women-owned certified public accounting firms.

In addition to meeting the requirements set forth in the Code, an additional audit (Single Audit Act Amendment of 1996) designed to meet the requirements of the federal Office of Management and Budget's (OMB) Uniform Guidance, a government-wide framework for grants management, is performed annually.

GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government. The City of Chicago, incorporated in 1837, currently occupies a land area of approximately 228 square miles and, according to the 2010 census, serves a population of greater than 2.6 million. The City is a "home rule" unit of local government under Illinois law and is governed by an elected mayor and city council. The Mayor, the Chief Executive Officer of the City, is elected by general election for a four-year term. The City Council, the City's legislative body consists of 50 members, each representing one of the City's 50 wards. The members of the City Council are elected through popular vote by ward for four-year terms.

The City provides public safety, street maintenance and sanitation, transportation infrastructure, water, sewer, health, cultural, aviation and human services. City employees are covered by one of four pension plans that are responsible for providing certain pension benefits and that receive funding from the City. These four plans include the Municipal Employees' Annuity and Benefit Fund, Laborers' and Retirement Board Employees' Annuity and Benefit Fund, Policemen's Annuity and Benefit Fund, and Firemen's Annuity and Benefit Fund. These component units are included in the City's reporting entity. Additional services are provided to residents by the Chicago Public Schools, Chicago Park District, Chicago Transit Authority, City Colleges of Chicago and the Chicago Housing Authority. However, these component units are not included in the City's reporting entity.

Annual budgets are adopted for all of the City's funds, including the general fund and certain special revenue and enterprise funds. On or before October 15, the Mayor submits a proposed budget of expenditures and the means of financing them to the City Council for the upcoming fiscal year, which runs the calendar year. The City Council is required to hold at least one public hearing regarding the proposed budget, and the budget recommendation must be made available for public inspection at least ten days prior to the passage of the annual appropriation ordinance, which must be enacted no later than December 31. Additional information on the budgetary process can be found in Note 3 in the notes to financial statements.

Local Economy. Chicago continues to enjoy one of the most diverse economies in the nation, with no single sector employing more than 13 percent of the City's workforce. This diversity provides fiscal stability from mature industries in business and financial services, manufacturing, transportation and warehousing, education and healthcare, and enables the City to promote the growth of emerging industries in technology, tourism, biotech, and life sciences. More than 400 major corporate headquarters (with at least 1,000 employees) are in the Chicago metropolitan area, including 36 in the Fortune 500 and 29 S&P 500 companies. In 2015, more than 700 companies expanded in Chicago, leading to it being named the "Top Metro" in the United States for corporate investment by Site Selection magazine for the second year in a row.

Long-standing components of the local economy, such as derivatives trading, remain strong. Chicago accounts for 18 percent of the world's global derivatives trading market; double that of New York (9 percent) and nearly equal to all of the exchanges in Europe combined (19 percent). Meanwhile, new sectors continuously emerge with a record high amount of venture capital -- \$1.7 billion – invested in Chicago startups in 2015 and \$8.2 billion in acquisitions and IPOs. Chicago has long been a center for international business and is currently home to over 1,800 foreign-based companies in the metropolitan area with over \$100 billion in foreign direct investment. Chicago-based companies also have a strong international presence, with over 8,000 locations across more than 170 countries or territories. Throughout 2015, monthly employment grew and unemployment declined in Chicago, as business expansions across Chicago led to approximately 48,000 new and retained jobs.

In addition, Chicago continues to be a destination for both business and leisure travelers, drawn by the City's numerous cultural and recreational attractions, professional sports teams, festivals, museums, parks, restaurants and more. Tourism, business and convention travel to Chicago reached record levels in 2015. In 2015, domestic travel to Chicago passed 50 million visitors for the first time, which is a 4.6 percent increase over 2014. Chicago's tourism industry has added an estimated 3,800 jobs in 2015 for a total of an estimated 139,800 jobs supported by the industry. Tourism continues to be a significant part of the local economy, helping to strengthen small businesses and provide jobs.

Financial Planning and Policies. Each year, the City of Chicago completes an Annual Financial Analysis based on the critical understanding that to protect the health and safety of all Chicagoans, strengthen communities and neighborhoods, maintain infrastructure and public spaces, and foster a vibrant local economy, it must take an informed and long-term approach to financial planning. The Annual Financial Analysis, which is available on the City's website, provides a review of the City's revenues and expenditures over the past 10 years, a forecast of the City's finances for the next three years, and analyses of its reserves, pensions, debt obligations, and capital improvement program.

The City bases its annual budget on an assessment of the available resources for that year and an understanding of the City's service priorities, adopting a balanced budget each year in accordance with the Illinois Municipal Code. As part of the annual budget process, the City evaluates each department's direct and indirect costs in order to accurately assess expenses across City government and strives to maintain a diversified revenue system that is responsive to the changing economy and designed to protect the City from short-term fluctuations in any individual revenue source. The City's financial policies are intended to secure the City's fiscal integrity and health, encourage equitable allocation of costs and resources, and identify potential financial risks and options to mitigate them, maximize economic efficiency, and allow sufficient flexibility to consider new fiscal and budgetary strategies.

2015 Budget and Major Initiatives. In 2015, the City continued to build on the structural reforms and efficiencies put into place in previous budgets, and made significant investments in early childhood education, afterschool programs, public safety, pothole and street repair, and other vital neighborhood services. For the first year, the City utilized "zero-based budgeting" to identify non-personnel savings across departments. "Zero-based budgeting" helped City departments to reduce expenses in areas such as outside professional services, transportation costs, and materials and supplies. Along with steps to reduce the deficit and eliminate waste, the City invested in important city services. In 2015, the City invested in early childhood education, ensuring that all four-year-olds from low-income families have access to high-quality pre-kindergarten programs free of charge. The City also continued to expand afterschool and summer job programs for Chicago's youth. With additional investments in afterschool programs in 2015, nearly 17,000 youth were served with afterschool programming, which is a 30 percent increase since 2011. A similar investment in summer jobs for youth provided 24,000 job opportunities to youth, which is a 70 percent increase from 2011. The City provided funding to allow year-round pothole patching and street repairs, rather than seasonal repairs. On top of investments in ongoing street repair, the City added resources to rodent abatement, forestry work, and graffiti removal to improve service delivery and to enable the City to plant 25 percent more trees in 2015 over previous years. Finally, the 2015 budget made key investments in public safety, including doubling funding for the Chicago Police Department's community engagement division and doubling the number of police officers on bikes in neighborhoods throughout Chicago. The City also deposited \$5 million into long-term reserves.

Additionally, in 2015, the City presented a strategy for phasing out unsustainable financial practices, and ending the use of financing structures and techniques that expose taxpayers to undue risk. A key piece of this strategy was executed in 2015 and completed in 2016. In 2015 the City converted the variable-rate debt and terminated the corresponding swaps for general obligation, sales tax, wastewater, and Near North TIF bonds. In the second quarter of 2016, the City completely eliminated variable-rate debt from the City's portfolio with the conversion of water debt to fixed-rate and the termination of the corresponding swaps. This financing technique has now been fully replaced with stable, fixed rate bonds payable over the next 20 to 40 years.

Awards and Acknowledgments. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Chicago for its CAFR for fiscal year 2014. This was the twenty-second consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR. This report must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year. We believe our current CAFR continues to meet the GFOA Certificate of Achievement program's requirements, and it has been submitted for consideration for this year's award.

This report could not have been prepared without the dedication and effective help of the staff of the Department of Finance. We wish to express our appreciation to those who contributed to the preparation of this report.

Respectfully submitted,

Carole L. Brown Chief Financial Officer Erin Keane City Comptroller

INDEPENDENT AUDITORS' REPORT

To the Honorable Rahm Emanuel, Mayor And Members of the City Council City of Chicago, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Chicago, Illinois (the "City"), as of and for the year ended December 31, 2015, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the City's Pension Plans (the "Plans") which, in aggregate, represent substantially all the assets and revenues of the fiduciary funds, included in the aggregate remaining fund information. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Plans, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Chicago, Illinois, as of December 31, 2015, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Notes 1 and 17 to the financial statements, beginning net position was restated due to the City's adoption of Governmental Accounting Standards Board (GASB) Statement No. 68, Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27; and, ending net position reflects changes in certain benefits and actuarial assumptions (Note 11). Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Changes in the Net Pension Liability and Related Ratios, Schedule of Contributions, and Schedule of Other Postemployment Benefits Funding Progress, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The Combining Fund Statements, Individual Fund Statements, introductory section and statistical section are presented for the purposes of additional analysis and are not a required part of the basic financial statements.

The Combining and Individual Fund Statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other auditors, the Combining and Individual Fund Statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

June 30, 2016

Management's Discussion and Analysis

As management of the City of Chicago, Illinois (City) we offer readers of the City's Comprehensive Annual Financial Report (CAFR) this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2015. We encourage the readers to consider the information presented here in conjunction with information that we have furnished in our letter of transmittal, contained within this report.

2015 Financial Highlights

- Liabilities and Deferred Inflows of the City, in the government-wide financial statements, exceeded its assets and deferred outflows at the close of the most recent fiscal year by \$23,831.4 million (net deficit). The net deficit is composed of \$2,600.1 million in net investment in capital assets and \$2,563.0 million in net position restricted for specific purposes offset by an unrestricted deficit of \$28,994.5 million. The net deficit increased in 2015 by \$17,295.1 million primarily as a result of an increase in the pension liability due to the new financial reporting requirements of GASB Statement No.68, Accounting and Financial Reporting for Pensions, an amendment of GASB Statement No. 27 ("GASB 68") (see below).
- The City's total assets increased by \$1,146.6 million. The increase primarily relates to a \$1,012.0 million increase in capital assets as a result of the City's capital improvement program.
- Revenues and Other Financing Sources (Uses), in the fund financial statements, available for general governmental operations during 2015 were \$7,549.7 million, an increase of \$780.3 million (11.5 percent) from 2014, primarily due to drawing from the Line of Credit and issuance of General Obligation Bonds.
- The General Fund ended 2015 with a total Fund Balance of \$215.2 million, of which \$93.0 million was Unassigned. Total Fund Balance increased from 2014 primarily because Revenues and Other Financing Sources were greater than Expenditures and Other Financing Uses by \$74.6 million.
- The City's General Obligation Bonds and notes outstanding increased by \$1,028.9 million during the current fiscal
 year. The proceeds from the issuance of General Obligation Bonds were used primarily to repay indebtedness
 incurred by the City under its Short-Term borrowing program.
- The General Fund expenditures on a budgetary basis were \$105.6 million less than budgeted as a result of favorable variances in general government expenditures, offset by unfavorable variances in Streets and Sanitation primarily as a result of higher than expected contractual related expenses due to certain winter storm events.
- GASB No. 68 established new financial reporting requirements for most governments that provide their employees with pension benefits through pension plans. GASB 68 requires governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. The Statement also enhances accountability and transparency through revised and new note disclosures and required supplementary information (see RSI and Notes 11 and 17). Beginning Net Position was restated as a result of implementation of this standard (see Note17). The net pension liability at December 31, 2015 is \$33,846.2 million.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which include the following components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements. These components are described below:

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, using accounting methods similar to those used by private-sector companies. The statements provide both short-term and long-term information about the City's financial

CITY OF CHICAGO, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31, 2015

position, which assists in assessing the City's economic condition at the end of the fiscal year. These financial statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. This basically means such statements follow methods that are similar to those used by most businesses. They take into account all revenues and expenses connected with the fiscal year even if cash involved has not been received or paid.

The government-wide financial statements include two statements:

The *statement of net position* presents information on all of the City's assets, deferred outflows, liabilities, and deferred inflows with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating, respectively. To assess the overall health of the City, the reader should consider additional non-financial factors such as changes in the City's property tax base and the condition of the City's infrastructure.

The statement of activities presents information showing how the government's net position changed during each fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (for example, uncollected taxes, and earned but unused vacation). This statement also presents a comparison between direct expenses and program revenues for each function of the City.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, streets and sanitation, transportation, health, and cultural and recreation. The business-type activities of the City include water, sewer, tollway and airport services.

The government-wide financial statements present information about the City as a primary government, which includes the Chicago Public Library. The government-wide financial statements can be found immediately following this management's discussion and analysis.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of a fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between *governmental funds and governmental activities*.

The City maintains 19 individual governmental funds. Information for the six funds that qualify as major is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The six major governmental funds are as follows: the General Fund, the Federal, State and Local Grants Fund, the Special Taxing Areas Fund, Service Concession and Reserve Fund, the Bond, Note Redemption and Interest Fund, and the Community Development and Improvement Projects Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

CITY OF CHICAGO, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31, 2015

The City adopts an annual appropriation budget for its general and certain special revenue funds on a non-GAAP budgetary basis. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found immediately following the government-wide statements.

Proprietary funds. These funds are used to show activities that operate more like those of commercial enterprises. Because these funds charge user fees for services provided to outside customers including local governments, they are known as enterprise funds. Proprietary funds, like government-wide statements, use the accrual basis of accounting and provide both long- and short-term financial information. There is no reconciliation needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements. The City uses five enterprise funds to account for its water, sewer, Skyway, and two airports operations.

Proprietary funds provide the same type of information as the government-wide financial statements, but provide more detail. The proprietary fund financial statements provide separate information for the Water Fund, Sewer Fund, Chicago Skyway Fund, Chicago-O'Hare International Airport Fund and the Chicago Midway International Airport Fund. All the proprietary funds are considered to be major funds of the City. The basic proprietary fund financial statements can be found immediately following the governmental fund financial statements.

Fiduciary funds. Fiduciary funds are used primarily to account for resources held for the benefit of parties outside the primary government. The City is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other assets that, because of a trust arrangement can be used only for the trust beneficiaries. The City also uses fiduciary funds to account for transactions for assets held by the City as agent for various entities. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. All of the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The accounting used for fiduciary funds is much like that used for proprietary funds. The fiduciary fund basic financial statements can be found immediately following the proprietary fund financial statements.

Notes to the basic financial statements. The notes provide additional information that is essential for a full understanding of data provided in the government—wide and fund financial statements. The notes to the basic financial statements can be found immediately following the fiduciary fund basic financial statements.

Additional Information. The combining statements, which include nonmajor funds, for governmental funds and trust and agency funds are presented immediately following the notes to the basic financial statements.

Financial Analysis of the City as a whole

Net Position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, liabilities and deferred inflows exceeded assets by \$23,831.4 million at December 31, 2015. Of this amount, \$2,600.1 million represents the City's investment in capital assets (land, buildings, roads, bridges, etc.) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities and deferred inflows.

An additional portion of the City's net position, \$2,563.0 million, represents resources that are subject to external restrictions on how they may be used.

City of Chicago, Illinois Summary Statement of Net Position (in millions of dollars)

| | Governmental Activities | | Busine: Activ | | Total | | | |

| Other liabilities | 1,969.4 | 1,767.4 | 1,274.8 | 1,122.7 | 3,244.2 | 2,890.1 | | |
| Total Liabilities | 43,373.4 | 21,284.2 | 19,189.2 | 14,725.3 | 62,562.6 | 36,009.5 | | |
| Deferred Inflows | 1,743.1 | 1,576.3 | 1,653.8_ | 1,645.2 | 3,396.9_ | 3,221.5 | | |
| Net Position: | | | | | | | | |
| Net investment in capital assets | (292.4) | 28.7 | 2,892.5 | 2,713.8 | 2,600.1 | 2,742.5 | | |
| Restricted | 1,519.9 | 1,492.0 | 1,043.1 | 979.0 | 2,563.0 | 2,471.0 | | |
| Unrestricted | (25,263.3) | (10,564.0) | (3,731.2) | (1,185.8) | (28,994.5) | (11,749.8) | | |
| Total net (deficit) position | \$ (24,035.8) | \$ (9,043.3) | \$ 204.4 | \$ 2,507.0 | \$ (23,831.4) | \$ (6,536.3) | | |

Governmental Activities. Net position of the City's governmental activities decreased \$14,992.5 million to a deficit of \$24,035.8 million primarily as a result of an increase in the pension liability due to the new reporting requirements of GASB 68. A significant portion of net position is either restricted as to the purpose they can be used for or they are classified as net investment in capital assets (buildings, roads, bridges, etc.). Consequently, unrestricted net position showed a \$25,263.3 million deficit at the end of this year. This deficit does not mean that the City does not have the resources available to pay its bills next year. Rather, it is the result of having long-term commitments that are greater than currently available resources. Specifically, the City did not include in past annual budgets the full amounts needed to finance future liabilities arising from personnel, property, pollution and casualty claims (\$850.6 million) and Municipal employees, Laborers', Policemen's and Firemen's net pension obligation and other post-employment benefits (\$29,912.2 million). The City will include these amounts in future years' budgets as they come due. In addition, the deferred inflow balance of \$1,555.2 million from concession service agreements will be amortized into income over the life of such agreements.

Revenues for all governmental activities in 2015 were \$6,394.0 million, an increase of \$664.9 million from 2014. Over half of the City's revenues were derived from taxes which increased by \$562.6 million (17.6 percent). Total tax revenue included an increase in property taxes received of \$252.6 million (27.3 percent).

Expenses for governmental activities in 2015 were \$11,254.6 million, an increase of \$3,904.5 million (53.1 percent) over 2014. The amount that taxpayers paid for these governmental activities through City taxes was \$3,754.2 million. Some of the cost was paid by those who directly benefited from the programs (\$814.8 million), or by other governments and organizations that subsidized certain programs with grants and contributions (\$745.8 million).

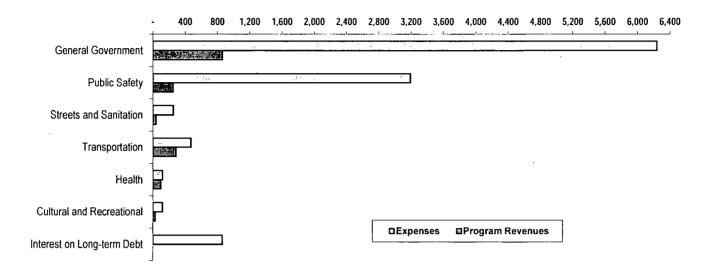

The City paid \$1,078.6 million for the "public benefit" portion with other revenues such as state aid, interest and miscellaneous income.

Although total net position of business-types activities was \$204.4 million, these resources cannot be used to make up for the deficit in net position in governmental activities. The City generally can only use this net position to finance the continuing operations of the water, sewer, Skyway, and airports activities.

Expenses and Program Revenues - Governmental Activities (in millions of dollars)

Revenues by Source - Governmental Activities

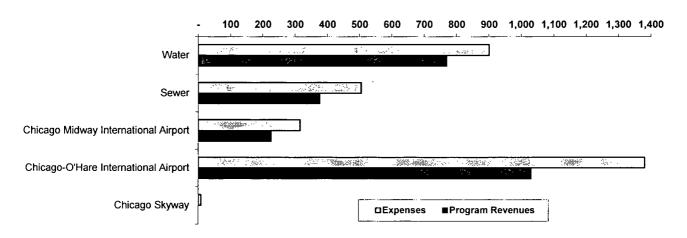

CITY OF CHICAGO, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31, 2015

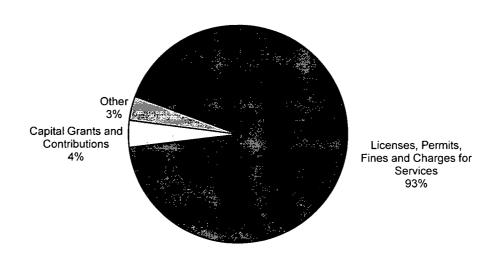

Business-type Activities. Total Revenues of the City's business-type activities increased by \$128.1 million in 2015 mostly from an increase in charges for services and rental income, offset by a decrease in other general revenues and capital grant funding.

- The Water Fund's total operating revenues increased by \$76.8 million (11.1%) from 2014 due to a 15% increase in water rates, offset by the conversion of 23,820 accounts from nonmetered to metered. Operating expenses before depreciation and amortization for the year ended 2015 increased by \$439.1 million (146.9%) from the year ended 2014 mainly due to increases in pension costs resulting from the implementation of GASB 68.
- The Sewer Fund's total operating revenues increased in 2015 by \$53.6 million (16.7%) primarily due to an increase in sewer rates. Operating expenses before depreciation and amortization for 2015 increased \$191.4 million (160.5%) from the year ended 2014 primarily due to an increase in pension expense related to the implementation of GASB 68.
- Chicago Midway International Airport's total operating revenues for 2015 increased by \$5.9 million (3.4%) from 2014 primarily due to higher rents and other concession revenue. Operating expenses before depreciation and amortization increased by \$54.3 million compared to 2014, primarily due to an increase in pension expense related to the implementation of GASB 68.
- Chicago O'Hare International Airport's total operating revenues for 2015 increased by \$.7 million (0.0%) compared to 2014. Operating expenses before depreciation and amortization increased by \$310.7 million (62.8%) compared to 2014 primarily due to an increase in pension expense related to the implementation of GASB 68.
- The Chicago Skyway was leased for 99 years to a private company. The agreement granted the company the
 right to operate the Skyway and to collect toll revenue during the term of the agreement. The City received an
 upfront payment of \$1.83 billion of which \$446.3 million was used to advance refund all of the outstanding
 Skyway bonds. The upfront payment is being amortized into nonoperating revenue over the period of the lease
 (\$18.5 million annually).

CITY OF CHICAGO, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31, 2015

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At December 31, 2015, the City's governmental funds reported combined ending fund balances of \$982.7 million, an increase of \$159.4 million in comparison with the prior year. Of this total amount \$677.8 million was committed to specific expenditures, \$98.4 million was assigned to anticipated uses, a deficit of \$1,696.0 million was unassigned, \$1,878.7 million was restricted in use by legislation, and \$23.8 million was nonspendable.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund balance of the General Fund was \$93.0 million with a total fund balance of \$215.2 million. As a measure of the General Fund's liquidity, it may be helpful to compare both unassigned fund balance and total fund balance to total fund expenditures. Total General Fund balance represents 6.3 percent of total General Fund expenditures. The fund balance of the City's General Fund increased by approximately \$74.0 million during the current fiscal year due to higher revenues and lower expenses for certain categories.

The Federal, State and Local Grants Fund has a total deficit fund balance of \$216.1 million. The deficit is \$8.9 million lower than 2014 primarily due to more timely reimbursement of expenditures.

The Special Taxing Areas Fund has a total fund balance of \$1,275.7 million, which is all restricted to specific expenditures.

The Service Concession and Reserve Fund accounts for deferred inflows from nonbusiness type long-term concession and lease transactions and has \$621.3 million committed to specific expenditures. The unassigned deficit of \$1,555.3 million results from the deferred inflows from long-term asset leases.

The Bond, Note Redemption and Interest Fund has a total fund balance of \$236.3 million. The fund balance in 2014 was \$263.2 million lower due to reclassification of long-term debt to short term debt during 2014.

The Community Development and Improvement Projects Fund has a total fund balance of \$198.4 million. This is \$149.2 million lower than 2014 due to increased capital improvement efforts.

Changes in fund balance. The fund balance for the City's governmental funds increased by \$159.4 million in 2015. This includes a decrease in inventory of \$.7 million.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Water, Sewer, Chicago Skyway, Chicago-O'Hare International Airport, and Chicago Midway International Airport Funds at the end of the year amounted to a deficit of \$3,731.2 million. The unrestricted net position deficit increased by \$2,545.4 million due to an increase in the unrestricted deficit in all proprietary funds primarily due to pension costs as a result of the implementation of GASB 68. Other factors concerning the finances of these five funds have already been addressed in the discussion of the City's business-type activities.

General Fund Budgetary Highlights

The City's 2015 Original General Fund Budget was \$3,534.4 million. This budget reflects an increase of \$244.2 million (7.4 %) over the 2014 Budget. \$128.8 million of this increase is the result of a change in the way the City budgeted pension contributions to more clearly reflect the allocation of pension expenses across City funds. This change is discussed further below. On November 19, 2014 the City's 2015 General Fund Budget was approved by the City Council. The General Fund revenues on a budgetary basis were \$14.2 million less than the final budget as a result of lower state income tax and utility tax revenues which were offset by higher than expected revenue from, transaction, recreation, and transportation taxes. Expenditures were \$91.4 million less than budgeted as a result of favorable variances in general government expenditures. Additional information on the City's budget can be found in Note 3 under Stewardship, Compliance and Accountability within this report.

As discussed as part of the 2015 appropriation above the City changed how it budgets its pension fund contributions. This change impacts how state income tax revenue is reflected in the 2015 financial statements. Historically, the City's pension fund contributions were paid from property taxes and personal property replacement tax (PPRT) revenues, and as a result no pension fund expenses were reflected in the general fund. Instead PPRT revenues were diverted from the general fund to the pension funds. In addition, PPRT revenues in one year were used to make the pension contributions budgeted in the prior year. As a result, the state income tax revenues recorded in the general fund appear lower than the revenue actually received as a portion of the revenue was diverted to pay 2014 pension contributions in accordance with past practice. Due to certain changes in the way that pension contributions are recorded in the 2015 financial statements and the 2015 budgetary change, this is a one-time adjustment.

Capital Asset and Debt Administration

Capital Assets. The City's capital assets for its governmental and business-type activities as of December 31, 2015 amount to \$23,115.7 million (net of accumulated depreciation). These capital assets include land, buildings and system improvements, machinery and equipment, roads, highways and bridges, and property, plant and equipment.

Major capital asset events during the current fiscal year included the following:

- The City continues its commitment to sustainable design in new construction projects utilizing the Leadership in Energy & Environmental Design (LEED) strategy. Completed construction in 2015 totaled \$29.5 million including; Chicago Children Advocacy Center Expansion Project totaling \$7.1 million and Chinatown Library totaling \$18.3 million.
- During 2015, the City completed \$384.8 million in infrastructure projects including \$270.1 million in street construction and resurfacing projects, \$84.8 million in street lighting and transit projects, and \$29.9 million in bridge and viaduct reconstruction. At year end, infrastructure projects still in process had expenses totaling nearly \$640.5 million.
- At the end of 2015, the Water Fund had \$3,822.8 million invested in utility plant, net of accumulated depreciation.
 During 2015, the Water Fund expended \$414.2 million on capital activities. This included \$3.0 million for structures and improvements, \$243.1 million for distribution plant, \$6.0 million for equipment, and \$160.3 million for construction in progress, and \$1.8 million for land and land rights.
- During 2015, net completed projects totaling \$366.3 million were transferred from construction in progress to applicable capital accounts. The major completed projects relate to installation and replacements of water mains (\$284.5 million), and meter save program (\$74.5 million).
- At the end of 2015, the Sewer Fund had \$2,263.2 million invested in utility plant, net of accumulated depreciation. During 2015, the Sewer Fund had capital additions being depreciated of \$207.2 million, and completed projects totaling \$17.2 million were transferred from construction in progress to applicable facilities and structures capital accounts. The 2015 Sewer Main Replacement Program completed 25.4 miles of sewer mains and 55.1 miles of relining of existing sewer mains at a cost of \$208.8 million.

- At the end of 2015, Chicago-Midway International Airport had \$1,169.6 million invested in net capital assets. During 2015, the Airport had additions of \$44.9 million related to capital activities. This included \$.4 million for land acquisition and the balance of \$44.5 million for construction projects relating to terminal improvements, runway rehabilitation and parking improvements. During 2015, completed projects totaling \$46.0 million were transferred from construction in progress to applicable buildings and other facilities capital accounts. These major completed projects were related to runway and taxi improvements, rental car, parking garage, and terminal security.
- At the end of 2015, Chicago-O'Hare International Airport totaled \$7.1 billion, invested in net capital assets. During 2015, the Airport had additions of \$450.8 million related to capital activities. This included \$.3 million for land acquisition and the balance of \$450.5 million for terminal improvements, road and sidewalk enhancements, runway and taxiway improvements. During 2015, completed projects totaling \$816.0 million were transferred from construction in progress to applicable buildings and other facilities capital accounts. These major completed projects were related to runway and taxiway improvements, road, electrical system upgrades, and parking facilities and terminal improvements.

Information on the City's capital assets can be found in Note 7 Capital Assets in this report.

Debt. At the end of the current fiscal year, the City had \$8,688.8 million in General Obligation Bonds and \$675.6 million in General Obligation Certificates and Other Obligations outstanding. Other outstanding long-term debt is as follows: \$212.4 million in Motor Fuel Tax Revenue Bonds; \$541.6 million of Sales Tax Revenue Bonds; \$65.4 million in Tax Increment Financing Bonds; and \$13,050.4 million in Enterprise Fund Bonds and long-term obligations. For more detail, refer to Note 10 Long-term Obligations in the Basic Financial Statements.

During 2015, the City issued the following:

General Obligation Bonds:

General Obligation Bonds, Series 2015A Tax-Exempt and 2015B Taxable (\$1,088.4 billion).

Enterprise Fund Revenue Bonds and Notes:

- Chicago-O'Hare International Airport General Commercial Paper Notes (\$75.8 million)
- Chicago-O'Hare INternational International General Airport Senior Lien Revenue and Revenue Refunding Bonds, Series 2015A (AMT), Series 2015B (Non-AMT), Series 2014C (AMT), and Series 2015D (Non-AMT) (\$1,947.4 million).
- Second Lien Wastewater Transmission Revenue Bonds, Series 2015 (\$87.1 million).

At December 31, 2015 the City had credit ratings with each of the four major rating agencies as follows:

| | Standard & | | | | | | |
|---|------------------|---------------|---------------|----------------|--|--|--|

See Subsequent Events in the footnotes for ratings changes in 2016.

Economic Factors and Next Year's Budgets and Rates

Local, national, and global economies play a major role in the City's finances and economic growth. In 2015, local and national economies continued to experience moderate growth and recovery from the economic downturn. Although rising home prices and shrinking inventory slowed the housing market in 2015 and home sales were up nearly 8 percent compared to 2014, median home prices were up 6 percent over 2014. In 2015, nationwide, retail sales grew 2.3 percent over 2014, with consumer confidence showing further improvement. The average national unemployment rate decreased from 6.2 percent in 2014 to 5.3 percent in 2015, and Chicago's unemployment rate declined in 2015 as well. Tourism, business, and convention travel to Chicago remained strong in 2015, with amusement tax collections up about 29 percent and hotel tax revenues up about 9 percent from 2014. Additionally, Chicago welcomed a record number of domestic tourists in 2015 with more than 50 million visitors from around the country traveling to Chicago.

The City's 2016 General Fund budget, totaling \$3,623.8 million, was approved by a 35 to 15 vote of City Council on October 28, 2015. The 2016 budget balanced a preliminary budget shortfall of \$233.0 million by reforming and cutting spending, and improving revenue growth. The 2016 budget also commits an additional \$5.0 million to the City's long-term reserves, following provisions of \$15.0 million in 2013, \$5.0 million in 2014 and \$5.0 million in 2015.

CITY OF CHICAGO, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31, 2015

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all of those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Chicago Department of Finance.

Exhibit 5 CITY OF CHICAGO, ILLINOIS RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended December 31, 2015 (Amounts are in Thousands of Dollars)

Amounts reported for governmental activities in the statement of activities are different from amounts reported for governmental funds in the statement of revenues, expenditures and changes in fund balances because:

| Net change in fund balances - total governmental funds | \$ 160,060 |
|--|-----------------|
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the | |
| amount by which capital outlays exceeded depreciation in the current period | 223,053 |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds | 406,710 |
| Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. This is the amount by which proceeds exceeded repayments | (824,928) |
| Certain expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds | (4,825,528) |
| Change in the net position of governmental activities | (4,860,633) |

1) Summary of Significant Accounting Policies

The City of Chicago (City), incorporated in 1837, is a "home rule" unit under State of Illinois (State) law. The City has a mayor-council form of government. The Mayor is the Chief Executive Officer of the City and is elected by general election. The City Council is the legislative body and consists of 50 members, each representing one of the City's 50 wards. The members of the City Council are elected through popular vote by ward for four-year terms.

The accounting policies of the City are based upon accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). Effective January 1, 2015, the City adopted the following GASB Statements:

GASB Statement No. 68, Accounting and Financial Reporting for Pensions, an amendment of GASB Statement No. 27 ("GASB 68"), established new financial reporting requirements for most governments that provide their employees with pension benefits through these types of plans. The City adopted GASB 68 for the year ended December 31, 2015. GASB 68 replaced the requirements of GASB Statement No. 27, Accounting for Pensions by State and Local Governmental Employers and GASB Statement No. 50, Pension Disclosures, as they relate to governments that provide pensions through pension plans administered as trusts or similar arrangements that meet certain criteria. GASB 68 required governments providing defined benefit pensions to recognize their long-term obligation for pension benefits as a liability for the first time, and to more comprehensively and comparably measure the annual costs of pension benefits. The Statement also enhanced accountability and transparency through revised and new note disclosures and required supplementary information (see RSI and Notes 11 and 17). Beginning Net Position was restated as a result of implementation of this standard (see Note17).

GASB Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date - an amendment of GASB Statement No. 68 ("GASB 71"), relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The City adopted GASB 71 for the year ended December 31, 2015. This Statement amended paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability and requires that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts. There was no impact on the City's Financial Statements as a result of the implementation of GASB 71.

Other accounting standards that the City is currently reviewing for applicability and potential impact on the financial statements include:

GASB Statement No. 72 Fair Value Measurement and Application ("GASB 72"), addresses accounting and financial reporting issues related to fair value measurements. GASB 72 will be effective for the City beginning with its year ending December 31, 2016. This Statement provides guidance for determining a fair value measurement for financial reporting purposes and the related disclosures. This Statement requires a government to use valuation techniques that are appropriate under the circumstances and for which sufficient data are available to measure fair value. This Statement establishes a hierarchy of inputs to valuation techniques used to measure fair value. This Statement also requires disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques.

GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68 ("GASB 73"), extends the approach to accounting and financial reporting established in Statement 68 to all pensions. Requirements of this Statement for pension plans that are within the scopes of Statement No. 67, Financial Reporting for Pensions or Statement 68 will be effective for the City beginning with its year ending December 31, 2016. It establishes requirements for defined contribution pensions that are not within the scope of Statement 68. GASB 73 clarifies the application of certain provisions of Statements 67 and 68 with regard to: (1) Information that is required to be presented as notes, (2) Accounting and financial reporting for

separately financed specific liabilities, and (3) Timing of employer recognition of revenue.

GASB Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans ("GASB 74"), replaces Statements No. 43, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, as amended, and No. 57, OPEB (Other Postemployment Benefits) Measurement by Agent Employers and Agent Multiple-Employer Plans. GASB 74 will be effective for the City beginning with its year ending December 31, 2017. Included are requirements for defined contribution OPEB plans that replace the requirements for those OPEB plans in Statement No. 25, Financial Reporting for Defined Benefit Pension Plans and Note Disclosures for Defined Contribution Plans, as amended, Statement 43, and Statement No. 50, Pension Disclosures. GASB 74 also includes requirements to address financial reporting for assets accumulated for purposes of providing defined benefit OPEB through OPEB plans that are not administered through trusts that meet the specified criteria.

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions ("GASB 75"), replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. GASB 75 will be effective for the City beginning with its year ending December 31, 2018. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. In addition, this Statement details the recognition and disclosure requirements for employers with payables to defined benefit OPEB plans that are administered through trusts that meet the specified criteria and for employers whose employees are provided with defined contribution OPEB.

GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments ("GASB 76"), supercedes Statement No. 55, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments. GASB 76 will be effective for the City beginning with its year ending December 31, 2016.

GASB Statement No. 77, *Tax Abatement Disclosures* ("GASB 77"), requires governments that enter into tax abatement agreements to disclose: (1) Brief descriptive information concerning the agreement; (2) The gross dollar amount of taxes abated during the period; and 3) Commitments made by government, other than to abate taxes, that are part of the tax abatement agreement. GASB 77 will be effective for the City beginning with its year ending December 31, 2016.

GASB Statement No. 78, Pensions Provided Through Certain Multiple-Employer Defined Benefit Pension Plans ("GASB 78"), amends the scope and applicability of Statement 68. It excludes pensions provided to employees of state or local governmental employers through a cost-sharing multiple-employer defined benefit pension plan that (1) is not a state or local government pension plan, (2) is used to provide defined benefit pensions both to employees of state or local governmental employers and to employees of employers that are not state or local government employers, and (3) has no predominate state or local government employer. This Statement establishes requirements for recognition and measurement of pension expense, expenditures, and liabilities; note disclosure; and required supplementary information for pensions that have the characteristics described above. GASB 78 will be effective for the City beginning with its year ending December 31, 2016.

GASB Statement No. 79, Certain External Investment Pools and Pool Participants ("GASB 79"), addresses accounting and financial reporting for certain external investment pools and pool participants. It establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. GASB 79 establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized costs for financial reporting purposes and for governments that participate in those pools. GASB 79 will be effective for the City beginning with its year ending December 31, 2016.

GASB Statement No. 80, *Blending Requirements for Certain Component Units*, an amendment of GASB Statement No. 14 ("GASB 80"), amends the blending requirements for the financial statement presentation of component units of all state and local governments. GASB 80 will be effective for the City beginning with its year ending December 31, 2017.

GASB Statement No. 81, *Irrevocable Split-Interest Agreements* ("GASB 81"), requires that a government that receives resources pursuant to an irrevocable split-interest agreement recognize assets, liabilities, and deferred inflows of resources at the inception of the agreement. GASB 81 will be effective for the City beginning with its year ending December 31, 2017.

GASB Statement No. 82, *Pension Issues*, an amendment of GASB Statements No. 67, No. 68, and No. 73 ("GASB 82"), addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (Plan member) contribution requirements. GASB 82 will be effective for the City beginning with its year ending December 31, 2017.

a) Reporting Entity - The City includes the Chicago Public Library. The financial statements for the City have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), applicable to governmental units, as required by the Municipal Code of Chicago (Code).

The City's financial statements include the following legal entities as fiduciary trust funds:

<u>The Municipal Employees' Annuity and Benefit Fund of Chicago</u> is governed by a five-member board: three members are elected by plan participants and two are members ex-officio.

The Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago is governed by an eight-member board: two members are elected by plan participants, two are members ex-officio, two members are appointed by the City Department of Human Resources, one member is elected by retired plan participants and one member is elected by the local labor union.

<u>The Policemen's Annuity and Benefit Fund of Chicago</u> is governed by an eight-member board: four members are elected by plan participants and four are appointed by the Mayor.

<u>The Firemen's Annuity and Benefit Fund of Chicago</u> is governed by an eight-member board: four members are elected by plan participants and four are members ex-officio.

Financial statements for each of these four pension plans (collectively, "Pension Plans") may be obtained at the respective Pension Plans office.

Related Organizations - City officials are responsible for appointing a voting majority of the members of the boards of other organizations, but the City's accountability for these organizations does not extend beyond making appointments and no financial accountability or fiscal dependency exists between the City and these organizations. Therefore, the Chicago Park District, Chicago Public Building Commission, Chicago Public Schools, Community College District No. 508, Chicago Housing Authority and the Chicago Transit Authority are deemed to be related organizations.

b) Government-wide and fund financial statements - The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user fees and charges for services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identified with a specific function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

c) Measurement focus, basis of accounting, and financial statement presentation - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 90 days of the end of the current fiscal period with the exception of property tax revenue, which is recorded as deferred inflows unless taxes are received within 60 days subsequent to year-end. Licenses and permits, charges for services and miscellaneous revenues are not considered to be susceptible to accrual and are recorded as revenues when received in cash. All other revenue items are considered to be measurable and available only when cash is received by the City. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting, except for interest and principal on long-term debt, the long-term portion of compensated absences, claims and judgments, and pension obligations.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for and reports all financial resources not accounted for and reported in another fund.

Federal, State and Local Grants Fund accounts for the expenditures for programs, which include general government, health, public safety, transportation, aviation, cultural and recreational, and capital outlays. The majority of revenues are provided by several agencies of the Federal government, departments of the Illinois State government and City resources.

Special Taxing Areas Fund accounts for expenditures for special area operations and maintenance and for redevelopment project costs as provided by tax levies on special areas.

Service Concession and Reserve Fund accounts for monies committed for mid- and long-term uses. The Mid-term portion is subject to appropriation for neighborhood human infrastructure programs, health, and other initiatives, whereas the Long-term portion is committed for future budgetary and credit rating stabilization. These reserves were created as a result of the Skyway Lease and Parking Meter System transactions. The deferred inflows result from long-term concession and lease transactions whose proceeds are recognized as revenue over the term of the agreements.

Bond, Note Redemption and Interest Fund accounts for the expenditures for principal and interest as provided by property tax, utility tax, sales tax, transportation tax, and investment income.

Community Development and Improvement Projects Funds account for proceeds of debt used to acquire property, finance construction, and finance authorized expenditures and supporting services for various activities.

Within the governmental fund types, fund balances are reported in one of the following classifications:

Nonspendable includes amounts that cannot be spent because they are either: (a) not in a spendable form; or (b) legally or contractually required to be maintained intact.

Restricted includes amounts that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed includes amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority (i.e, City Council); to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint. The City's highest level of decision-making authority is held by the City Council. The City Council passes Ordinances to commit their fund balances.

Assigned includes amounts that are constrained by the City's intent to be used for specific purposes, but that are neither restricted nor committed. Intent is expressed by: (a) the City Council itself; or (b) a body or official to which the City Council has delegated the authority to assign amounts to be used for specific purposes. The Budget Director or Comptroller have authority to assign amounts related to certain legal obligations outside of the appropriation process within the General Fund. Within the other governmental fund types (special revenue, debt service, and capital projects) resources are assigned in accordance with the established fund purpose and approved appropriation. Residual fund balances in these fund types that are not restricted or committed are reported as assigned.

Unassigned includes the residual fund balance that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

The City reports the following major proprietary funds as business-type activities:

Water Fund accounts for the operations of the Chicago Water System (Water). The Water system purifies and provides Lake Michigan water for the City and 125 suburbs. The Water Fund operates two water purification facilities with a combined pumping capacity of 2,160 million gallons per day and 12 pumping stations with a combined pumping capacity of 3,661 million gallons per day.

Sewer Fund accounts for the operations of the Wastewater Transmission System (Sewer). The Sewer system transports wastewater to the Metropolitan Water Reclamation District of Greater Chicago for processing and disposal. This service is provided for the residents and businesses of the City and certain suburban customers.

Chicago Midway International Airport Fund records operations of Chicago Midway International Airport (Midway) that provides regional travelers with access to airlines that generally specialize in low-cost, point-to-point, origin and destination passenger services. Midway Airport is conveniently located 10 miles from downtown Chicago.

Chicago-O'Hare International Airport Fund records operations of Chicago-O'Hare International Airport (O'Hare), the primary commercial airport for the City. The airlines servicing the airport operate out of four terminal buildings. Three domestic terminal buildings, having a total of 169 gates, serve domestic flights and certain international departures. The International Terminal, having a total of 20 gates and five remote aircraft parking positions, serves the remaining international departures and all international arrivals requiring customs clearance.

Chicago Skyway Fund records operations of the Chicago Skyway (Skyway) which provides vehicle passage across the Calumet River, between the State of Indiana and the State of Illinois (State) through the operation of a tollway which consists of a 7.8-mile span connecting the Dan Ryan Expressway to the Indiana Toll Road. Facilities include a single toll plaza consisting of a central office, maintenance garage and toll collection area. In January 2005, the City entered into a long-term Concession and Lease Agreement of the Skyway, granting a private company the ability to operate and to collect toll revenue during the 99-year term of the agreement. The City received a one-time upfront payment of \$1.83 billion.

Additionally, the City reports the following fiduciary funds:

Pension Trust Funds report expenditures for employee pensions as provided by employee and employer contributions and investment earnings.

Agency Funds account for transactions for assets held by the City as agent for certain activities or for various entities. Payroll deductions and special deposits are the primary transactions accounted for in these funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payment-in-lieu of taxes and other charges between the City's water, sewer, airports and skyway funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods and services, or privileges provided, or fines; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Certain indirect costs have been included as part of the program expenses reported for the various functional activities.

In the fund financial statements, proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer funds are charges to customers for sales and services. The airport funds' principal operating revenues are derived from landing fees and terminal use charges as well as rents and concessions. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources, as they are needed.

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

- d) Assets, liabilities, deferred inflows, deferred outflows, and net position or equity
 - i) Cash, Cash Equivalents and Investments generally are held with the City Treasurer as required by the Code. Interest earned on pooled investments is allocated to participating funds based upon their average combined cash and investment balances. Due to contractual agreements or legal restrictions, the cash and investments of certain funds are segregated and earn and receive interest directly. The City uses separate escrow accounts in which certain tax revenues are deposited and held for payment of debt.

The Code permits deposits only to City Council-approved depositories, which must be regularly organized state or national banks and federal and state savings and loan associations, located within the City, whose deposits are federally insured.

Investments authorized by the Code include interest-bearing general obligations of the City, State and U.S. Government; U.S. Treasury bills and other noninterest-bearing general obligations of the U.S. Government purchased in the open market below face value; domestic money market funds regulated and in good standing with the Securities and Exchange Commission and tax anticipation warrants issued by the City. The City is prohibited by ordinance from investing in derivatives, as defined, without City Council approval. The City values its investments at fair value or amortized cost. U.S. Government securities purchased at a price other than par with a maturity of less than one year are reported at amortized cost.

The City's four retirement plans are authorized to invest in bonds, notes, and other obligations of the U.S. Government; corporate debentures and obligations; insured mortgage notes and loans; common and preferred stocks; stock options; real estate; and other investment vehicles as set forth in the Illinois Compiled Statutes. These investments are reported at fair value.

Repurchase agreements can be purchased only from banks and certain other institutions authorized to do business in the State. The City Treasurer requires that securities that are pledged to secure these agreements have a fair value equal to the cost of the repurchase agreements plus accrued interest.

Investments generally may not have a maturity date in excess of thirty years from the date of purchase. Certain other investments are held in accordance with the specific provisions of applicable ordinances.

Cash equivalents include certificates of deposit and other investments with maturities of three months or less when purchased.

Deficit cash balances result in interfund borrowings from the aggregate of funds other than escrowed funds. Interest income and expense are generally not recognized on these interfund borrowings.

State statutes and the City's Pension Plans' policies permit lending Pension Plan securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. Securities lent at year-end for cash collateral are presented as not categorized in the schedule of custodial credit risk; securities lent for securities collateral are classified according to the category for the collateral.

ii) Receivables and Payables activity between funds are representative of services rendered, outstanding at the end of the fiscal year, and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The allowance is based on historical trends. The estimated value of services provided but unbilled at year-end has been included in receivables.

- iii) Inventory includes government-wide inventories, which are stated at cost determined principally, using the average cost method. For proprietary funds, the costs of inventories are recorded as expenses when used (consumption method). Governmental fund inventories are accounted for using the purchases method and represent nonspendable resources because they do not represent expendable available financial resources.
- iv) Assets Held for Resale includes land and buildings of \$4.1 million, recorded at lower of cost or market in the Federal, State and Local Grant Funds. These assets are purchased through the use of federal grants and City resources and are intended to be resold.
- v) Restricted Assets include certain proceeds of the City's enterprise fund revenue bonds, as well as certain resources set aside for their repayment. These assets are classified as restricted or committed in

the basic financial statements because they are maintained in separate bank accounts and their use is limited by applicable bond covenants or specific City Council action.

The Water and Sewer funds maintain Rate Stabilization Accounts where any net revenues remaining after providing sufficient funds for all required deposits in the bond accounts may be transferred upon the direction of the City to be used for any lawful purpose of the specific fund.

The O'Hare and Midway funds maintain Passenger Facility Charge accounts as restricted as they are subject to Federal Aviation Administration regulation and approval, to finance specific eligible capital and debt related activities.

vi) Capital Assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets, or a network of assets, with an initial cost of more than \$5,000 (not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalization value of the assets constructed. The total interest expense (Governmental and Business Activities) incurred by the City during the current fiscal year was \$1,490.2 million, of which \$70.1 million was capitalized as part of the capital assets under construction projects in proprietary funds.

Property, plant, and equipment of the City are depreciated using the straight-line method, in the year subsequent to acquisition or when placed into service, over the following estimated useful lives:

| Utility plant | 25 - | 100 years |
|---|------|-----------|
| Utility structures and improvements | | 100 years |
| Buildings and improvements | | 40 years |
| Airport runways, aprons, tunnels, taxiways, and paved roads | 5 - | 30 years |
| Bridge infrastructure | 10 - | 40 years |
| Lighting infrastructure | | 25 years |
| Street infrastructure | 10 - | 25 years |
| Transit infrastructure | | 40 years |
| Equipment (vehicle, office, and computer) | 5 - | 20 years |

The City has a collection of artwork and historical treasures presented for public exhibition and education that are being preserved for future generations. The proceeds from sales of any pieces of the collection are used to purchase other acquisitions. A portion of this collection is not capitalized or depreciated as part of capital assets.

- vii) Deferred Outflows represent the fair value of derivative instruments that are deemed to be effective hedges and unamortized loss on bond refundings, differences between estimated and actual investment earnings related to pensions, and changes in actuarial assumptions related to pensions.
- viii) Employee Benefits are granted for vacation and sick leave, workers' compensation and health care. Unused vacation leave is accrued and may be partially carried over for one year. Sick leave is accumulated at the rate of one day for each month worked, up to a maximum of 200 days. Severance of employment terminates all rights to receive compensation for any unused sick leave. Sick leave pay is

not accrued. Employee benefit claims outstanding, including claims incurred but not reported, are estimated and recorded in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Employees are eligible to defer a portion of their salaries until future years under the City's deferred compensation plan created in accordance with Internal Revenue Code Section 457. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. Third-party administrators who maintain the investment portfolio administer the Plan. The plan's assets have been placed in trust accounts with the plan administrators for the exclusive benefit of participants and their beneficiaries and are not considered assets of the City.

The City is subject to the State of Illinois Unemployment Compensation Act and has elected the reimbursing employer option for providing unemployment insurance benefits for eligible former employees. Under this option, the City reimburses the State for claims paid by the State. Expenditures for workers' compensation are recorded when paid in the governmental funds. A liability for these amounts is recorded in the government-wide and proprietary fund financial statements.

- ix) Judgments and claims are included in the government-wide financial statements and proprietary fund types. Uninsured claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. In the fund financial statements, expenditures for judgments and claims are recorded on the basis of settlements reached or judgments entered within the current fiscal year. Amounts that related to deferred compensatory time and reserves for questioned costs are treated the same way.
- x) Long-term obligations are included in the government-wide financial statements and proprietary fund types in the fund financial statements. Long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the related debt, except in the case of refunding debt transactions where the amortization period is over the term of the refunding or refunded debt, whichever is shorter.

The City enters into interest rate swap agreements to modify interest rates and/or cash flows on outstanding debt. For existing swaps, the net interest expenditures resulting from these arrangements are recorded as interest expense. The fair value of derivative instruments that are deemed to be effective is accounted for as deferred outflows. Derivative instruments that are deemed not effective are adjusted to fair value with the change in fair value recorded to investment earnings. Under certain bond ordinances adopted by the City Council, interest rate swaps and swaptions are authorized to be entered into by designated City officials in connection with certain bonds issued by the City. For swaps related to O'Hare Bonds or Midway Bonds, airline approval is also required before entering into a swap agreement.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received and discounts given on debt issued are reported as other financing sources or uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Certain debt obligations are to be paid from sales tax, motor fuel or special area taxes.

Pension

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's four pension plans and additions to/deductions from the City's Pension Plans fiduciary net position have been determined on the same basis as they are reported by the Pension Plans. For this purpose,

benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The financial statements of the Plans are prepared using the accrual basis of accounting.

- xi) Deferred inflows represent amounts to be recognized as revenue on a straight line basis over the life of the related long-term lease and concession agreements and differences between projected and actual actuarial experience related to pensions. In the fund financials, grants that meet all of the eligibility criteria except for time availability and property taxes levied for a future period are also included in deferred inflows.
- xii) Fund equity in the government-wide statements is classified as net position and displayed in three components:
 - (1) Net investment in capital assets Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or any other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
 - (2) Restricted net position Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or are legally restricted through constitutional provisions or enabling legislation.

Restricted net position for business activities are provided in Exhibit 7, Statement of Net Position, Proprietary Funds.

(3) Unrestricted - All other net positions that do not meet the definition of "restricted" or "net investment in capital assets." As of December 31, 2015, the unrestricted net position represents a deficit.

2) Reconciliation of Government-wide and Fund Financial Statements

- a) Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of net position.
 - i) The governmental funds balance sheet includes a reconciliation between fund balance total governmental funds and net position governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds." The details of this \$1,623.9 million are as follows (dollars in thousands):

| Deferred inflows - property tax | \$ 1,384,729 |
|--|-----------------|
| Deferred inflows - grants | 239,199 |
| Net adjustment to increase fund balance - total governmental funds | |
| - to arrive at net position - governmental activities | \$ 1,623,928 |

ii) Another element of that reconciliation explains that "Certain liabilities and deferred outflows, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$35,150.7 million are as follows (dollars in thousands):

| Long-term liabilities: Total bonds, notes and certificates payable Pension benefits Other postemployment benefits Pollution remediation Claims and judgments | \$ | 10,608,314 29,697,694 214,535 32,850 850,561 |
|--|-----------|--|
| Total Long-term liabilities | | 41,403,954 |
| Accounts payable - infrastructure retainage | | 19,245 |
| Bonds, notes and other obligations payable current | | (150,891) |
| Other assets - issuance costs (bond insurance) | | (13,037) |
| Deferred outflows-unamortized loss on refunding | | (147,937) |
| Deferred outflows-pension costs | | (7,039,762) |
| Deferred inflows-pension | | 187,878 |
| Accrued and other liabilities - compensated absences | | 88,909 |
| Accrued and other liabilities - pension payable to pension funds | | 802,302 |
| Net adjustment to reduce fund balance - total governmental funds - to arrive at net position - | • | |
| governmental activities | <u>\$</u> | 35,150,661 |

- b) Explanation of certain differences between the governmental funds' statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.
 - i) The governmental funds statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances total governmental funds and changes in net position governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statements of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$223.1 million are as follows (dollars in thousands):

| Capitalized asset expenditures | \$ 596,883 |
|---|----------------|
| Depreciation expense | (373,696) |
| Loss - on disposal of capital assets | (134) |
| Net adjustment to increase net changes in fund balances - total governmental funds - to arrive at | |
| changes in net position - governmental activities | \$.223,053 |

ii) Another element of that reconciliation states that "Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position." The details of this decrease of \$824.9 million are as follows (dollars in thousands):

| Proceeds of debt Proceeds from Line of Credit Premium Principal retirement Interest expense | \$ (1,117,047) (239,131) 23,108 513,806 (5,664) |
|---|--|
| Net adjustment to reduce net changes in fund balances - total governmental funds - to arrive at changes in net position - governmental activities | \$ (824,928) |

Another element of that reconciliation states that "Certain expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this decrease of \$4,825.5 million are as follows (dollars in thousands):

| Claims and judgments Pension costs Other post employment benefit liabilities Pollution remediation Vacation Lease obligations Inventory | \$ 50,055 (4,884,903) 38,409 (24,318) 1,951 (6,052) (670) |
|---|--|
| Net adjustment to reduce net changes in fund balances - total governmental funds - to arrive at changes in net position - governmental activities | \$ (4,825,528) |

3) Stewardship, Compliance and Accountability

- a) Annual Appropriation Budgets are established for the General Fund and the Vehicle Tax, Pension, Chicago Public Library and certain Miscellaneous, Special Events, Tourism and Festivals nonmajor Special Revenue Funds, on a non-GAAP budgetary basis:
 - i) Prior to October 15, the Mayor submits to the City Council a proposed budget of expenditures and the means of financing them for the next year.
 - ii) The budget document is available for public inspection for at least ten days prior to passage of the annual appropriation ordinance by the City Council, which is also required to hold at least one public hearing.
 - iii) Prior to January 1, the budget is legally enacted through passage of the appropriation ordinance.
 - iv) Subsequent to the enactment of the appropriation ordinance, the City Council has the authority to make necessary adjustments to the budget, which results in a change in total or individual appropriations. The legal level of budgetary control is designated in the budget by object grouped by purpose except for the Motor Fuel Tax Fund, which is subsequently re-appropriated by project. A separate Motor Fuel Tax Fund Report demonstrates compliance with annual and project-length budgets required by the State. The separately issued Supplement to the Comprehensive Annual Financial Report provides budgetary information for all other budgeted funds. Copies of this report are available upon request.
 - v) All annual appropriations unused and unencumbered lapse at year-end. Encumbered appropriations are carried forward to the following year. Project-length financial plans are adopted for Capital Project Funds. Appropriations for Debt Service Funds are established by bond ordinance.

b) Reconciliation of GAAP Basis to Budgetary Basis - The City's budgetary basis of accounting used for budget vs. actual reporting differs from GAAP. For budgetary purposes, encumbrances are recorded as expenditures but are included in "Unassigned" fund balance for GAAP purposes. For budgetary purposes, proceeds of long-term debt and transfers in are classified as revenues. For budgetary purposes prior years' resources used to cover current year budgetary expenditures are recorded as revenues. For GAAP purposes, proceeds of long-term debt and transfers out are treated as other financing sources. Provision for doubtful account expenditures are not budgeted. A reconciliation of the different basis of revenue and expenditure recognition for the year ended December 31, 2015 is as follows (dollars in thousands):

| · | General Fund |
|---|-----------------|
| Revenues, GAAP Basis | \$ 3,466,635 |
| Add: | |
| Proceeds of Debt | 19,300 |
| Transfers In | 34,551 |
| Prior Year's Surplus Utilized | |
| Revenues, Budgetary Basis | \$ 3,520,486 |
| Expenditures, GAAP Basis | \$ 3,433,102 |
| Add: | |
| Transfers Out | 12,760 |
| Encumbered in 2015 | 24,377 |
| Deduct: | |
| Payments on Prior Years' Encumbrances | (35,144) |
| Provision for Doubtful Accounts and Other | (6,027) |
| Expenditures, Budgetary Basis | \$ 3,429,068 |

c) Individual Fund Deficits include the Chicago Skyway Fund, an Enterprise Fund, which has a fund deficit of \$1,354.5 million which management anticipates will be funded through recognition of deferred inflows. Midway International Airport Fund has a fund deficit of \$243.5 million which will be funded through future revenues. Federal State and Local Grants, a governmental fund, has a deficit of \$216.1 million and will be funded by the recognition of deferred grant inflows and unearned revenue. The Service Concession and Reserve Fund, a Special Revenue Fund, has a deficit fund balance of \$934.0 million which will be funded through the recognition of deferred inflows.

4) Restricted and Unrestricted Cash, Cash Equivalents and Investments

a) Investments As of December 31, 2015, the City had the following Investments (dollars in thousands):

| Investment Type | | | | | | | | | | | | | | |
|-----------------------------|-------------|-----------|------------------|----|-------------|----|-------------|----|-----------|------|-----------------|--|--|-------|
| | Less Than 1 | | Less Than 1 | | Less Than 1 | | Less Than 1 | | 1-5 | 6-10 | More Than 10 | | | Total |

- i) Interest Rate Risk As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits all securities so purchased, except tax anticipation warrants, municipal bonds, notes, commercial paper or other instruments representing a debt obligation of the City, which shall show on their face that they are fully payable as to principal and interest, where applicable, if any, within thirty years from the date of purchase.
- ii) Credit Risk With regard to credit risk, the Code limits the investments in securities to:
 - (1) Interest-bearing general obligations of the United States and the State of Illinois;
 - (2) United States treasury bills and other non-interest bearing general obligations of the United States or United States government agencies when offered for sale at a price below the face value of same, so as to afford the city a return on such investment in lieu of interest;

- (3) Tax anticipation warrants, municipal bonds, notes, commercial paper or other instruments representing a debt obligation issued by the City of Chicago;
- (4) Commercial paper which: (1) at the time of purchase, is rated in the two highest classifications by at least two accredited ratings agencies; and (2) matures not more than 270 days after the date of purchase;
- (5) Reverse repurchase agreement if: (1) the term does not exceed 90 days; and (2) the maturity of the investment acquired with the proceeds of the reverse repurchase agreement does not exceed the expiration date of the reverse repurchase agreement; Reverse repurchase agreements may be transacted with primary dealers and financial institutions, provided that the City has on file a master repurchase agreement;
- (6) Certificates of deposit of banks or savings and loan associations designated as municipal depositories which are insured by federal deposit insurance; provided that any amount of the deposit in excess of the federal deposit insurance shall be collateralized as noted in *Custodial Credit Risk Cash and Certificates of Deposit* below;
- (7) Bankers acceptance of banks whose senior obligations, at the time of purchase, are rated in either the AAA or AA rating categories by at least two accredited ratings agencies;
- (8) Tax-exempt securities exempt from federal arbitrage provisions applicable to investments of proceeds of the City's tax-exempt debt obligations;
- (9) Domestic money market mutual funds regulated by and in good standing with the Securities and Exchange Commission; provided that such money market mutual funds' portfolios are limited to investments authorized by this section;
- (10)Any other suitable investment instrument permitted by state laws governing municipal investments generally, subject to the reasonable exercise of prudence in making investments of public funds;
- (11)Except where otherwise restricted or prohibited, a non-interest-bearing savings account, non-interest-bearing checking account or other non-interest bearing demand account established in a national or state bank, or a federal or state savings and loan association, when, in the determination of the treasurer, the placement of such funds in the non-interest bearing account is used as compensating balances to offset fees associated with that account that will result in cost savings to the City;
- (12)Bonds of companies organized in the United States with assets exceeding \$500.0 million that, at the time of purchase, are rated not less than A-, or equivalent rating, by at least two accredited ratings agencies;
- (13)Debt instruments of international financial institutions, including but not limited to the World Bank and the International Monetary Fund, that, at the time of purchase, are rated within 4 intermediate credit ratings of the United States sovereign credit rating by at least two accredited ratings agencies, but not less than an A-rating, or equivalent rating. The maturity of investments authorized in this subsection shall not exceed 10 years. For purposes of this subsection, an "international financial institution" means a financial institution that has been established or chartered by more than one country and the owners or shareholders are generally national governments or other international institutions such as the United Nations;
- (14)United States dollar denominated debt instruments of foreign sovereignties that, at the time of purchase, are rated within 4 intermediate credit ratings of the United States sovereign credit rating by at least two accredited ratings agencies, but not less than an A-rating or equivalent rating:
- (15)Interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, or school district, of the State of Illinois, of any other state, or of any political subdivision or agency of the State of Illinois or of any other state, whether the interest earned thereon is taxable or tax-exempt under federal law. The bonds shall be registered in the name of the city or held under a custodial agreement at a bank. The bonds shall be rated, at the time of purchase, not less than A-, or equivalent rating, by at least two accredited rating agencies with nationally recognized expertise in

rating bonds of states and their political subdivisions;

- (16)Bonds registered and regulated by the Securities and Exchange Commission and for which the full faith and credit of the State of Israel is pledged for payment; provided that the bonds have an A-rating or above or equivalent rating by at least two accredited ratings agencies;
- (17)Bonds, notes, debentures, or other similar obligations of agencies of the United States rated, at the time of purchase, no less than AAA by at least two accredited rating agencies.

Total holdings across all funds held by the treasurer shall have no less than an overall average rating of Aa1 on a quarterly basis, as rated by two accredited rating agencies. The following schedule summarizes the City's and Pension Trust Funds' exposure to credit risk (in thousands):

| | | | Pe | nsion Trust |

^{*} Not rated is primarily composed of money market mutual funds.

iii) Custodial Credit Risk – Cash and Certificates of Deposit: This is the risk that in the event of a bank failure, the City's Deposits may not be returned. The City's Investment Policy states that in order to protect the City public fund deposits, depository institutions are to maintain collateral pledges on City deposits and certificates of deposit during the term of the deposit.

For certificates of deposit of banks or savings and loan associations designated as municipal depositories which are insured by federal deposit insurance, any amount of the deposit in excess of the federal deposit insurance shall be either: (1) fully collateralized at least 102 percent by: (i) marketable U.S. government securities marked to market at least monthly; (ii) bonds, notes, or other securities constituting the direct and general obligation of any agency or instrumentality of the United States; or (iii) bonds. notes or other securities constituting a direct and general obligation of any county, township, city, village, incorporated town, municipal corporation, or school district, of the State of Illinois or of any other state, or of any political subdivision or agency of the State of Illinois or any other state which are rated in either the AAA or AA rating categories by at least two accredited ratings agencies and maintaining such rating during the term of such investments; (2) secured by a corporate surety bond issued by an insurance company licensed to do business in Illinois and having a claims-paying rating in the top rating category as rated by a nationally recognized statistical rating organization and maintaining such rating during the term of such investment; or (3) fully collateralized at least 102 percent by an irrevocable letter of credit issued in favor of the City of Chicago by the Federal Home Loan Bank, provided that the Federal Home Loan Bank's short-term debt obligations are rated in the highest rating category by at least one accredited ratings agency throughout the term of the certificate of deposit.

The collateral required to secure City funds must be held in safekeeping and pursuant to collateral agreements which would prohibit release or substitution of pledged assets without proper written notification and authorization of the City Treasurer. The final maturity of acceptable collateral pledged shall not exceed 120 months.

CITY OF CHICAGO, ILLINOIS NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2015

The bank balance of cash and certificates of deposit with the City's various municipal depositories was \$626.6 million. 98.3 percent of the bank balance was either insured or collateralized with securities held by City agents in the City's name. \$10.5 million was uncollateralized at December 31, 2015, and thus was subject to custodial credit risk.

iv) Custodial Credit Risk – Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The City has no custodial credit risk exposure because investment securities are insured, registered and held by the City.

v) Foreign Currency Risk - In the case of the Pension Trust Funds, this is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The risk of loss is managed by limiting its exposure to fair value loss by requiring their international securities managers to maintain diversified portfolios. The following schedule summarizes the Pension Trust Funds' exposure to foreign currency risk (in thousands):

| Foreign Currency Risk | | |
|-----------------------------|----|-----------|
| Australian dollar | \$ | 52,232 |

5) Property Tax

The City's property tax becomes a lien on real property on January 1 of the year it is levied. The Cook County Assessor (Assessor) is responsible for the assessment of all taxable real property within Cook County (County), except for certain railroad property assessed directly by the State. The County Board has established a triennial cycle of reassessment in which one-third of the County will be reassessed each year on a repeating schedule established by the Assessor.

Property in the County is separated into fifteen classifications for assessment purposes. After the Assessor establishes the fair market value of a parcel of land, that value is multiplied by one of the classification percentages to arrive at the assessed valuation (Assessed Valuation) for that parcel. These percentages range from 10.0 percent for certain residential, commercial, and industrial property to 25.0 percent for other commercial and industrial property.

The Illinois Department of Revenue has the statutory responsibility of ensuring uniformity of real property assessments throughout the State. Each year, the Department of Revenue furnishes the county clerks with an adjustment factor to equalize the level of assessment among counties. This factor (Equalization Factor) is then applied to the Assessed Valuation to compute the valuation of property to which a tax rate will be applied (Equalized Assessed Valuation). The County Clerk adds the Equalized Assessed Valuation of all real property in the County to the valuation of property assessed directly by the State and subtracts total amounts of EAV in Tax Increment Financing Districts to arrive at the base amount (Tax Base) used in calculating the annual tax rates.

The County Clerk computes the annual tax rate by dividing the levy by the Tax Base and then computes the rate for each parcel of real property by aggregating the tax rates of all governmental units having jurisdiction over that particular parcel. The County Treasurer then issues the tax bills. Property taxes are deposited with the County Treasurer, who remits to the City its respective share of the collections. Taxes levied in one year become due and payable in two installments during the following year on March 1 and August 1 or 30 days from mailing of tax bills if later than July 1. The first installment is 55.0 percent of the prior year's tax bill. The second installment tax bill equals the total tax liability for the year minus the first installment tax bill amount.

The City Council adopted an ordinance effective in 1994 limiting the City's aggregate property tax levy to an amount equal to the prior year's aggregate property tax levy plus the lesser of (a) five percent or (b) the percentage increase in the annualized Consumer Price Index. The ordinance provides an exception for that portion of any property tax debt service levy equal to the aggregate interest and principal payments on the City's general obligation bonds and notes during the 12-month period ended January 1, 1994, subject to annual increase in the manner described above for the aggregate levy, all as provided by the ordinance. Most general obligation bond levies approved after 2001 have also been excluded from this limit. In 2015 the City Council added an exception for portions of the property tax levy used to meet the City's pension obligations.

On October 28, 2015, the City increased its 2015 property tax levy by \$318.2 million to provide for the additional pension fund contributions required under legislation adopted by the Illinois General Assembly in the spring of 2015. The amended levy provided an additional \$221.9 million in contributions for the Policemen's Annuity and Benefit Fund and an additional \$96.2 million in contributions for the Firemen's Annuity and Benefit Fund.

6) Interfund Balances and Transfers

a) The following balances at December 31, 2015 represent due from/to balances among all funds (dollars in thousands):

| D | ue From | Due To | | |
|----|---------|--|----------------------|--|
| | | | | |
| \$ | 154,104 | \$ | 167,001 | |
| | 50,724 | | 261,316 | |
| | 180,269 | | 10,794 | |
| | - | | 3,183 | |
| | 32,161 | | 104,247 | |
| | 100,817 | | 19,321 | |
| | 96,033 | | 164,144 | |
| | 614,108 | | 730,006 | |
| | | | | |
| | 33,672 | | 22,061 | |
| | 26,192 | | 14,132 | |
| | 1,566 | | 7,225 | |
| | 31,532 | | 3,389 | |
| | - | | 15 | |
| | 92,962 | | 46,822 | |
| | | | | |
| | 69,758 | | | |
| | 69,758 | | | |
| \$ | 776,828 | \$ | 776,828 | |
| | \$ | 50,724 180,269 - 32,161 100,817 96,033 614,108 33,672 26,192 1,566 31,532 - 92,962 69,758 69,758 | \$ 154,104 \$ 50,724 | |

The balances result from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

b) The following balances at December 31, 2015 represent interfund transfers among all funds (dollars in thousands):

| Fund Type/Fund | | ansfer In | Transfer Out | | |
|--|-----|-----------|--------------|---------|--|
| Governmental Funds | | | | | |
| General | \$ | 34,551 | \$ | 12,760 | |
| Federal, State and Local Grants | | - | | 10,000 | |
| Special Taxing Areas | | 6,632 | | 46,247 | |
| Service Concession and Reserve | | - | | 11,000 | |
| Bond, Note Redemption and Interest | | 7,367 | | 115,911 | |
| Community Development and Improvement Projects | | 38,057 | | 1,096 | |
| Nonmajor Governmental Funds | | 143,002 | | 31,970 | |
| Total Governmental Funds | \$ | 229,609 | \$ | 228,984 | |
| Business-type activities | | | | | |
| Water | | | | 625 | |
| Total Business-type activities | \$_ | <u> </u> | _\$ | 625 | |
| Total | \$ | 229,609 | \$ | 229,609 | |

Transfers are used to move revenues from the fund that the statute or budget requires to collect them to the fund that the statute or budget requires to expend them and to move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due.

7) Capital Assets

a) Capital Assets activity for the year ended December 31, 2015 was as follows (dollars in thousands):

| | Balance January 1, 2015 | | Additions and ransfers | Disposals and Transfers | | Balance December 31, 2015 | |

b) Depreciation expense was charged to functions/programs of the City as follows (dollars in thousands):

| Governmental activities: | |
|---|---------------|
| General Government | \$ 42,410 |
| Public Safety | 34,729 |
| Streets and Sanitation | 14,882 |
| Transportation | 257,044 |
| Health | 728 |
| Cultural and Recreational | 23,903 |
| Total Depreciation Expense - Governmental activities | \$ 373,696 |
| Business-type activities: | |
| Water | \$ 56,091 |
| Sewer | 37,431 |
| Chicago Midway International Airport | 47,660 |
| Chicago-O'Hare International Airport | 229,625 |
| Chicago Skyway | 8,615 |
| Total Depreciation Expense - Business-type activities | \$ 379,422 |

8) Leases.

a) Operating Leases

The City leases building and office facilities under noncancelable operating leases. Total costs for such leases were approximately \$13.5 million for the year ended December 31, 2015.

The future minimum lease payments for these leases are as follows (dollars in thousands):

| 2016 | \$ 15,905 |
|-----------------------------|--------------|
| 2017 | 5,809 |
| 2018 | 5,583 |
| 2019 | 5,363 |
| 2020 | 4,031 |
| 2021 - 2025 | 10,683 |
| 2026 - 2030 | 593 |
| 2031 - 2035 | 109 |
| 2036 - 2040 | 109 |
| 2041 - 2042 | 44 |
| Total Future Rental Expense | \$ 48,229 |

b) Capital Leases

During 2005, the City entered into a sale and leaseback agreement with third parties pertaining to the City owned portion of the Orange Line rapid transit rail line with a book value of \$430.8 million at December 31, 2005. Under the lease agreement, which provides certain cash and tax benefits to the third party, the City entered into a long-term lease for applicable assets back to the City under a lease.

In June 2015, the City terminated a sale and leaseback agreement with third parties pertaining to a City-owned portion of the Orange Line rapid transit rail line. The lease was terminated and the City regained unrestricted title to the transit line. Under the termination agreement relating to the rapid transit line, the City paid a net amount of \$167.9 million to Prudential and a net payment of \$52.5 million to Citizens Asset Finance.

c) Lease Receivables

Most of the O'Hare land, buildings and terminal space are leased under operating lease agreements to airlines and other tenants. The following is a schedule of the minimum future rental income on noncancelable operating leases as of December 31, 2015 (dollars in thousands):

| 2016 | \$ 97,549 |
|------------------------------------|---------------|
| 2017 | 97,555 |
| 2018 | 96,357 |
| 2019 | 95,340 |
| 2020 | 1,597 |
| 2021 - 2025 | 8,302 |
| 2026 - 2030 | 9,592 |
| 2031 - 2035 | 9,564 |
| Total Minimum Future Rental Income | \$ 415,856 |

Contingent rentals that may be received under certain leases based on the tenants' revenues or fuel flow are not included in minimum future rental income. Rental income for O'Hare, consisting of all rental and concession revenues except ramp rentals and automobile parking, amounted to \$414.2 million, including contingent rentals of \$87.0 million.

Most of the Midway land and terminal space is leased under operating lease agreements to airlines and other tenants. The following is a schedule of the minimum future rental income on noncancelable operating leases as of December 31, 2015 (dollars in thousands):

| 2016 | \$ 38,833 |
|------------------------------------|---------------|
| 2017 | 38,788 |
| 2018 | 38,566 |
| 2019 | 38,566 |
| 2020 | 38,566 |
| 2021 - 2025 | 192,831 |
| 2026 - 2030 | 192,831 |
| Total Minimum Future Rental Income | \$ 578,981 |

Contingent rentals that may be received under certain leases based on tenants' revenues are not included in minimum future rental income. Rental income for Midway, consisting of all rental and concession revenues except aircraft parking fees and certain departure fees (turns) and automobile parking, amounted to \$92.3 million, including contingent rentals of \$40.0 million.

9) Short-term Debt

a) **Matured bonds** represent principal due on coupon bonds in which the coupons have not been presented for payment. As of December 31, 2015, the outstanding balance was at \$0.7 million.

10) Long-term Obligations

a) Long-term Debt activity for the year ended December 31, 2015 was as follows (in thousands):

| | Balance January 1, 2015* | Additions | Reductions | Balance December 31, 2015 | Amounts Due within One Year |
|---|--------------------------------|---------------|--------------|---------------------------------|-----------------------------|
| Governmental activities: | | | | | |
| Bonds and notes payable: | | | | | |
| General obligation and other debt | \$ 8,335,506 | \$ 1,327,521 | \$ 298,629 | \$ 9,364,398 | \$ 168,071 |
| Tax increment | 74,395 | - | 9,035 | 65,360 | 9,540 |

| Add unamortized premium/(discount) | 442,259 | 243,811 | 57,903 | 628,167 | - |
| Add accretion of capital appreciation bonds | 88,708 | 8,310 | 9,571 | 87,447 | 9,953 |
| Net Pension liability * | 1,745,446 | 2,403,029 | - | 4,148,475 | |
| Total business-type activities | \$ 15,348,045 | \$ 4,827,431 | \$ 2,261,004 | \$ 17,914,472 | \$ 366,828 |
| Total long-term obligations | \$ 44,578,613 | \$ 17,711,129 | \$ 2,971,316 | \$ 59,318,426 | \$ 684,972 |

^{*} Due to the implementation of GASB 68, the beginning balance related to Pension obligation has been restated and classified separately from Other Post-Employment Benefit obligation

The Pension obligation liability will be liquidated through a Special Revenue Fund (Pension Fund) as provided by tax levy and other operating revenues.

b) Issuance of New Debt

i) Line of Credit

During 2015, the City drew \$239.1 million from its line of credit to fund certain capital projects, debt refinancing or restructuring, and operating uses. The City has excluded this line of credit amount from current liabilities, as it intends and has the ability to refinance the obligation on a long-term basis.

ii) General Obligation Bonds

General Obligation Bonds, Series 2015A (\$345.5 million), and Taxable Series 2015B (\$742.9 million) were sold at a discount in July 2015. The bonds have interest rates ranging from 5.0 percent to 7.75 percent and maturity dates from January 1, 2019 to January 1, 2042. Net proceeds of \$1,064.8 million will be used to repay indebtedness incurred by the City under its Short Term Borrowing Program; fund the cost of terminating the sale/leaseback of the Orange Line rapid transit rail line; reimburse the City's General Fund for the cost of terminating an interest rate swap associated with the City's sales tax revenue bonds (\$887.0 million), and to fund capitalized interest (\$177.8 million).

iii) Revenue Loans

In June 2013, the City entered into a loan agreement with the United States Department of Transportation under the Transportation Infrastructure Finance and Innovation Act (TIFIA) program to complete the Wacker Drive Reconstruction Project. The loan amount of \$98.66 million will fund the Chicago Riverwalk along the main branch of the Chicago River. The interest rate is 3.33 percent and the final maturity of the loan is January 1, 2048. As of December 31, 2015, the total outstanding loan amount is \$45.8 million. Total loan disbursements made to the City in 2015 were \$28.7 million.

iv) Enterprise Fund Revenue Bonds and Notes

In August 2013, the City entered into a loan agreement with the United States Department of Transportation under the Transportation Infrastructure Finance and Innovation Act (TIFIA) program to fund a portion of Consolidated Rental Car Facility at O'Hare, additions, extensions and improvements to the airport transit system (ATS) including the purchase of new ATS vehicles and certain public parking facilities. The loan amount of \$288.1 million is subordinate to the O'Hare Customer Facility Charge Senior Lien Revenue Bonds, Series 2013. The interest rate is 3.86 percent and the final maturity of the loan is January 1, 2052. There were no loan disbursements made to the City as of December 31, 2015.

Chicago O'Hare International Airport General Airport Senior Lien Revenue and Revenue Refunding Bonds, Series 2015A-D (\$1,947.4 million) were sold at a premium in October 2015. The bonds have interest rates ranging from 2.0 percent to 5.0 percent and maturity dates from January 1, 2016 to January 1, 2046. The net proceeds of \$2,152.9 million will be used to fund certain capital projects (\$196.3 million), repay certain outstanding Commercial Paper (\$126.8 million), to refund certain General Airport Revenue Bonds maturities of bonds outstanding (\$1,807.7 million), to fund debt service reserves (\$8.9 million), and to fund capitalized interest (\$13.2 million). The current refunding of the bonds decreased the City's total debt service payments by \$312.1 million, resulted in a net economic gain of approximately \$223.5 million and a book loss of approximately \$19.4 million.

A loan agreement was signed on March 3, 2014, with the Illinois Environment Protection Agency to replace approximately 26 miles of damaged, undersized watermains located throughout the City with new 8-inch diameter watermain. In 2015, the Water Fund drew \$47.0 million from this loan agreement. The loan has an interest rate of 1.995 percent with the maturity dates from December 17, 2015 to June 17, 2035.

A loan agreement was signed on October 15, 2014, with the Illinois Environment Protection Agency to install water meters at residents throughout the City that are currently unmetered. Private contractors will

perform the installation of new meters that will be equipped with AMR (Automatic Meter Reading) capabilities. In 2015, the Water Fund drew \$15.0 million from this loan agreement. The loan agreement has an interest rate of 1.995 percent with maturity dates from April 14, 2016 to April 14, 2035.

Second Lien Wastewater Transmission Revenue Bonds, Series 2015 (\$87.1 million) were sold at par in October 2015. The bonds have interest rates ranging from 2.591 percent to 6.042 percent and maturity dates from January 1, 2018 to January 1, 2039. The net proceeds of \$86.4 million were used to refund the Line of Credit Notes used for the swap termination (\$70.2 million), to fund debt service reserves (\$10.5 million), and to fund capitalized interest (\$5.7 million).

The Chicago O'Hare International Airport issued \$75.8 million of Series 2013 Commercial Paper Notes in 2015. The proceeds from the issuance were used to finance portions of the costs of authorized airport projects. The Chicago O'Hare 2015 C&D Senior Lien Revenue Bonds were issued in 2015 to repay the outstanding Commercial Paper Notes.

v) Bond Conversions

In May 2015, the City converted its General Obligation Bonds (Neighborhoods Alive 21 Program), Series 2002B (\$176.2 million) from variable rate to fixed rate. The bonds were converted at interest rates ranging from 5.0 percent to 5.5 percent and mandatory sinking fund or maturity dates from January 1, 2016 to January 1, 2037. Proceeds were used to pay a portion of the purchase price of the bonds mandatorily tendered on the conversion date and the costs of conversion. The remaining portion of \$24.8 million was redeemed by the City.

In May 2015, the City converted its General Obligation Bonds, Project and Refunding Series 2003B (\$170.1 million) from variable rate to fixed rate. The bonds were converted at interest rates ranging from 5.0 percent to 5.5 percent and maturity dates from January 1, 2016 to January 1, 2034. Proceeds were used to pay a portion of the purchase price of the bonds mandatorily tendered on the conversion date and the costs of conversion. The remaining portion of \$11.8 million was redeemed by the City.

In June 2015, the City converted its General Obligation Bonds, Project and Refunding Series 2005D (\$174.0 million) from variable rate to fixed rate. The bonds were converted at an interest rate of 5.5 percent and mandatory sinking fund or maturity dates from January 1, 2033 to January 1, 2040. Proceeds were used to pay a portion of the purchase price of the bonds mandatorily tendered on the conversion date and the costs of conversion. The remaining portion of \$48.8 million was redeemed by the City.

In June 2015, the City converted its General Obligation Bonds, Refunding Series 2007E, F and G (\$153.7 million) from variable rate to fixed rate. The bonds were converted at an interest rate of 5.5 percent and mandatory sinking fund or maturity dates from January 1, 2034 to January 1, 2042. Proceeds were used to pay a portion of the purchase price of the bonds mandatorily tendered on the conversion date and the costs of conversion. The remaining portion of \$46.3 million was redeemed by the City.

In June 2015, the City converted its Sales Tax Revenue Refunding Bonds, Series 2002 (\$111.7 million) from variable rate to fixed rate. The bonds were converted at interest rates ranging from 2.0 percent to 5.0 percent. Proceeds were used to pay the purchase price of the bonds mandatorily tendered on the conversion date and the costs of conversion.

In October 2015, the City converted \$332.2 million outstanding of the Series 2008C Second Lien Wastewater Transmission Revenue Bonds to fixed rate at a premium. The bonds have interest rates ranging from 4.0 percent to 5.0 percent and maturity dates ranging from January 1, 2017 to January 1, 2039. The net proceeds of \$357.0 million were used to pay the mandatory tender prices of the Series 2008C Bonds (\$332.2 million) and to fund a debt service reserve (\$24.8 million).

c) Annual requirements listed below for each year include amounts payable January 1 of the following year. Bonds maturing and interest payable January 1, 2016 have been excluded because funds for their payment have been provided for. Annual requirements to amortize debt outstanding as of December 31, 2015 are as follows (dollars in thousands):

| | General C | Obligation | Tax Increment | | | |
|--------------|-------------|-------------|---------------|----------|--|--|
| Year Ending | Principal | Interest | Principal | Interest | | |
| December 31, | | | - | | | |
| 2016 | \$ 248,802 | \$ 513,801 | \$ 10,640 | \$ 1,795 | | |
| 2017 | 272,292 | 502,587 | 11,795 | 1,566 | | |
| 2018 | 294,922 | 490,141 | 16,010 | 1,295 | | |
| 2019 | 306,743 | 476,199 | 6,020 | 960 | | |
| 2020 | 322,009 | 463,749 | 4,135 | 706 | | |
| 2021-2025 | 1,598,905 | 2,114,820 | 12,060 | 686 | | |
| 2026-2030 | 1,777,148 | 1,737,110 | - | - | | |
| 2031-2035 | 2,264,423 | 1,121,593 | - | · - | | |
| 2036-2040 | 1,394,481 | 500,995 | - | - | | |
| 2041-2045 | 517,520 | 51,425 | | - | | |
| | \$8,997,245 | \$7,972,420 | \$ 60,660 | \$ 7,008 | | |

| | Revenue | | | Business-type Activities | | | | |
|--------------|---------|------------|----|--------------------------|-----|-----------|----|-----------|
| Year Ending | F | Principal | 1 | Interest | ļ | Principal | | Interest |
| December 31, | | | | | | | | |
| 2016 | \$ | 17,880 | \$ | 35,171 | \$ | 356,875 | \$ | 610,644 |
| 2017 | | 18,250 | | 34,275 | | 395,964 | | 628,149 |
| 2018 | | 19,150 | | 33,385 | | 451,027 | | 608,856 |
| 2019 | | 20,335 | | 32,445 | | 464,195 | | 582,617 |
| 2020 | | 21,440 | | 31,444 | | 443,435 | | 569,031 |
| 2021-2025 | | 125,590 | | 140,362 | | 2,242,979 | | 2,514,736 |
| 2026-2030 | | 138,312 | | 131,325 | | 2,641,795 | | 1,947,968 |
| 2031-2035 | | 164,656 | | 115,494 | | 3,091,158 | | 1,183,840 |
| 2036-2040 | | 210,270 | | 29,785 | | 2,232,350 | | 485,013 |
| 2041-2045 | | ` - | | - | | 709,480 | | 58,469 |
| 2046 | | | | - | | 21,125 | | 528 |
| | \$ | 735,883 | \$ | 583,686 | \$1 | 3,050,383 | \$ | 9,189,851 |

For the debt requirements calculated above, interest rates for fixed rate bonds debt range from .74 percent to 7.781 percent and interest on variable rate debt was calculated at the rate in effect or the effective rate of a related swap agreement, if applicable, as of December 31, 2015. Standby bond purchase agreements or letters of credit were issued by third party financial institutions that are expected to be financially capable of honoring their agreements.

The City's variable rate bonds may bear interest from time to time at a flexible rate, a daily rate, a weekly rate, an adjustable long rate, or the fixed rate as determined by the remarketing agent, in consultation with the City. An irrevocable letter of credit provides for the timely payment of principal and interest. In the event the bonds are put back to the bank and not successfully remarketed, or if the letter of credit agreements expire without an extension or substitution, the bank bonds will convert to a term loan. There is no principal due on the potential term loans within the next fiscal year.

d) Derivatives

i) Interest Rate Swaps

(1) Objective of the swaps. In order to protect against the potential of rising interest rates and/or changes in cash flows, the City has entered into various separate interest rate swaps at a cost less than what the City would have paid to issue fixed-rate debt. (Dollars in thousands).

| | | | Fair Value | e at | | |
|-------------------------------------|-------------------------------|--------|-------------------------------|-----------|----------|--|
| - | Changes in Fair Value | | December 31 | 1, 2015 | Notional | |
| | Classification | Amount | Classification | Amount | Amount | |
| Business-type Activities Hedges: | | | | | | |
| Interest Rate Swaps | Deferred Outflow of Resources | 76,929 | Deferred Outflow of Resources | (123,166) | 581,050 | |

(2) Terms, fair values, and credit risk. The objective and terms, including the fair values and credit ratings, of the City's hedging derivative instruments outstanding as of December 31, 2015, are as follows. The notional amounts of the swaps match the principal amounts of the associated debt. The City's swap agreements contain scheduled reductions to outstanding notional amounts that are expected to approximately follow scheduled or anticipated reductions in the associated "bonds payable" category. Under the swaps on a net basis for each related series of bonds, the City pays the counterparty a fixed payment and receives a variable payment computed according to the London Interbank Offered Rate (LIBOR) and/or The Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index. The terms as of December 31, 2015, are as follows (dollars in thousands):

| Associated Bond Issue | Notional Amounts | Effective Date | Terms | Fair Values | Termi- nation Date | Counter- party Credit Rating |
|--|---------------------|-------------------|---|-----------------------|--------------------------|---------------------------------------|
| Hedging Instruments | | | | | | |
| Business-type Activities: | | | | | | |
| Chicago Midway International Airport | 81,885 | 12/14/2004 | Pay 4.174%, receive SIFMA Plus .05% | \$ (18,423) | 1/1/2035 | A3/A |
| Revenue Bonds (Series 2004C&D) | 54,590 | 4/21/2011 | Pay 4.247%; receive SIFMA Plus .05% | (12,937) | 1/1/2035 | Aa1/AA- |
| Water Variable Rate Revenue . | 166,745 | 8/5/2004 | Pay 3 8694%; receive 67% of 1 Mo. Libor | (27,127) | 11/1/2025 | A1/A- |
| Refunding Bonds (Series 2004) | 177,830 | 8/5/2004 | Pay 3.8669%; receive 67% of 1 Mo. Libor | (35,932) | 11/1/2031 | Aa2/AA- |
| Second Lien Water Revenue Refunding Bonds (Series 2000) | 100,000 | 4/16/2008 | Pay 3.8694%; receive 67% of 1 Mo. Libor Total | (28,747) \$ (123,166) | 11/1/2030 | A1/A- |

See Table 31 in Statistical Section for Counterparty Entities and additional details for credit ratings. See Footnote 18 – Subsequent Events for swap terminations and amendments to agreements effective in 2016. Type and objective for all the Swaps is the same, as mentioned earlier.

(3) Fair Value. As of December 31, 2015, the swaps had a negative fair value of \$123.2 million. As per industry convention, the fair values of the City's outstanding swaps were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the forward rates implied by the yield curve correctly anticipate future spot rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swap. Because

interest rates are below the Fixed Rate Paid, the City's swaps had negative values. During 2015, the City terminated the following swaps (dollars in thousands):

| | Termination |
|--|-------------|
| Associated Bond Issue: | Amount |
| Series 2003B General Obligation Variable Rate Demand Bonds | \$ 30,951.5 |
| Series 2005D General Obligation Variable Rate Demand Bonds | 62,815.5 |
| Series 2007EFG General Obligation Variable Rate Demand Bonds | 62,007.0 |
| Series 2002 Sales Tax Revenue Refunding Variable Rate Bonds | 28,968.0 |
| Series 2008C Second Lien Wastewater Transmission | |
| Variable Rate Revenue Refunding Bonds | 70,243.0 |
| Series 1999A Near North Tax Increment Financing Bonds | 2,240.0 |

Swap termination payments were recorded as Interest and Other Fiscal Charges.

- (4) Credit Risk. The City is exposed to credit risk (counterparty risk) through the counterparties with which it enters into agreements. If minimum credit rating requirements are not maintained, the counterparty is required to post collateral to a third party. This protects the City by mitigating the credit risk, and therefore the ability to pay a termination payment, inherent in a swap. Collateral on all swaps is to be in the form of cash or Eligible Collateral held by a third-party custodian. Upon credit events, the swaps also allow transfers, credit support, and termination if the counterparty is unable to meet the said credit requirements.
- (5) Basis Risk. Basis risk refers to the mismatch between the variable rate payments received on a swap contract and the interest payment actually owed on the bonds. The two significant components driving this risk are credit and SIFMA/LIBOR ratios. Credit may create basis risk because the City's bonds may trade differently than the swap index as a result of a credit change in the City. SIFMA/LIBOR ratios (or spreads) may create basis risk. With percentage of LIBOR swaps, if the City's bonds trade at a higher percentage of LIBOR over the index received on the swap, basis risk is created. This can occur due to many factors including, without limitation, changes in marginal tax rates, tax-exempt status of bonds, and supply and demand for variable rate bonds. The City is exposed to basis risk on all swaps except those that are based on Cost of Funds, which provide cash flows that mirror those of the underlying bonds. For all other swaps, if the rate paid on the bonds is higher than the rate received, the City is liable for the difference. The difference would need to be available on the debt service payment date and it would add additional underlying cost to the transaction.
- (6) Tax Risk. The swap exposes the City to tax risk or a permanent mismatch (shortfall) between the floating rate received on the swap and the variable rate paid on the underlying variable-rate bonds due to tax law changes such that the federal or state tax exemption of municipal debt is eliminated or its value reduced. There have been no tax law changes since the execution of the City's swap transactions.
- (7) Termination Risk. The risk that the swap could be terminated as a result of certain events including a ratings downgrade for the issuer or swap counterparty, covenant violation, bankruptcy, payment default or other defined events of default. Termination of a swap may result in a payment made by the issuer or to the issuer depending upon the market at the time of termination.
- (8) Rollover Risk. The risk that the City may be exposed to rising variable interest rates if (i) the swap expires or terminates prior to the maturity of the bonds and (ii) the City is unable to renew or replace the swap.

(9) Swap payments and associated debt. As of December 31, 2015, debt service requirements of the City's outstanding variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term are as follows (dollars in thousands):

| | | Variable-R | ate B | onds | I | nterest Rate | |
|--------------|-----|------------|-------|---------|----|-----------------|---------------|
| Year Ending | F | Principal | Ir | nterest | Sv | vaps, Net | Total |
| December 31, | | | | | | | |
| 2016 | \$ | 15,725 | \$ | 272 | \$ | 22,462 | \$ 38,459 |
| 2017 | | 16,500 | | 264 | | 21,834 | 38,598 |
| 2018 | | 17,200 | | 257 | | 21,178 | 38,635 |
| 2019 | | 25,975 | | 248 | | 20,469 | 46,692 |
| 2020 | | 33,950 | | 235 | | 19,427 | 53,612 |
| 2021 2025 | | 224,010 | | 885 | | 73,755 | 298,650 |
| 2026 - 2030 | | 194,550 | | 397 | | 34,310 | 229,257 |
| 2031 - 2035 | | 53,140 | | 41 | | 4,413 | 57,594 |
| | \$_ | 581,050 | \$ | 2,599 | \$ | 217,848 | \$ 801,497 |

e) Debt Covenants

i) Water Fund - The ordinances authorizing the issuance of outstanding Water Revenue Bonds provide for the creation of separate accounts into which net revenues, as defined, or proceeds are to be credited, as appropriate. The ordinances require that net revenues available for bonds, as adjusted, equal 120 percent of the current annual debt service on the outstanding senior lien bonds and that City management maintains all covenant reserve account balances at specified amounts. The above requirements were met at December 31, 2015. The Water Rate Stabilization account had a balance in restricted assets of \$91.2 million at December 31, 2015.

The ordinances authorizing the issuance of outstanding Second Lien Water Revenue Bonds provide for the creation of separate accounts into which monies will be deposited, as appropriate. The ordinances require that net revenues are equal to the sum of the aggregate annual debt service requirements for the fiscal year of the outstanding senior lien bonds and 110 percent of the aggregate annual debt service requirements of the outstanding second lien bonds. This requirement was met at December 31, 2015.

ii) Sewer Fund - The ordinances authorizing the issuance of outstanding Wastewater Transmission Revenue Bonds provide for the creation of separate accounts into which net revenues, as defined, or proceeds are to be credited, as appropriate. The ordinances require that net revenues available for bonds equal 115 percent of the current annual debt service requirements on the outstanding senior lien bonds. This requirement was met at December 31, 2015. The Sewer Rate Stabilization account had a balance in restricted assets of \$32.6 million at December 31, 2015.

The ordinances authorizing the issuance of outstanding Second Lien Wastewater Transmission Revenue Bonds provide for the creation of separate accounts into which monies will be deposited, as appropriate. The ordinances require that net revenues equal 100 percent of the sum of the current maximum annual debt service requirements of the outstanding senior lien bonds and the maximum annual debt service requirements of the second lien bonds. This requirement was met at December 31, 2015.

iii) Chicago Midway International Airport Fund - The Master Indenture of Trust securing Chicago Midway Airport Revenue Bonds requires in each year the City set rates and charges for the use and operation of Midway and for services rendered by the City in the operation of Midway so that revenues, together with any other available monies and the cash balance held in the Revenue Fund on the first day of such fiscal year not then required to be deposited in any fund or account, will be at least sufficient (a) to provide for the Operation and Maintenance Expenses for the fiscal year and (b) to provide for the greater of (i) the

amounts needed to be deposited into the First and Junior Lien Debt Service Funds, the Operations & Maintenance Reserve Account, the Working Capital Account, the First Lien Debt Service Reserve Fund, the Repair and Replacement Fund, and the Special Project Fund and (ii) an amount not less than 125 percent of the Aggregate First Lien Debt Service for such Fiscal Year reduced by an amount equal to the sum of any amount held in any Capitalized Interest Account for disbursement during such Fiscal Year to pay interest on First Lien Bonds. These requirements were met at December 31, 2015.

The Master Indenture of Trust Securing Chicago Midway Airport Second Lien Obligations requires that the City set rentals, rates and other charges for the use and operation of Midway and for certain services rendered by the City in the operation of Midway in order that in each Fiscal Year, Revenues, together with Other Available Moneys deposited with the First Lien Trustee or the Second Lien Trustee with respect to such Fiscal Year and any cash balance held in the First Lien Revenue Fund or the Second Lien Revenue Fund on the first day of such Fiscal Year not then required to be deposited in any Fund or Account under the First Lien Indenture for the Second Lien Indenture, will be at least sufficient (1) to provide for the payment of Operation and Maintenance Expenses for the Fiscal Year and (2) to provide for the greater of (A) or (B) as follows: (A) the greater of the amounts needed to make the deposits required under the First Lien Indenture described in the immediately preceding paragraph above; or (B) the greater of the amounts needed to make the deposits required under the First Lien Indenture described in the immediately preceding paragraph above or an amount not less than 110 percent of the Aggregate First Lien Debt Service and Aggregate Second Lien Debt Service for the Bond Year commencing during such Fiscal Year, reduced by (X) any amount held in any Capitalized Interest Account for disbursement during such Bond Year to pay interest on First Lien Bonds, and (Y) any amount held in any capitalized interest account established pursuant to a Supplemental Indenture under the Second Lien Indenture for disbursement during such Bond Year to pay interest on Second Lien Obligations. These requirements were met at December 31, 2015.

iv) Chicago-O'Hare International Airport Fund - The Master Indenture of Trust securing Chicago O'Hare International Airport General Airport Senior Lien Obligations requires that Revenues in each Fiscal Year, together with Other Available Moneys deposited with the Trustee with respect to that Fiscal Year and any cash balance held in the Revenue Fund on the first day of that Fiscal Year not then required to be deposited in any Fund or Account, will be at least sufficient: (i) to provide for the payment of Operation and Maintenance Expenses for the Fiscal Year; and (ii) to provide for the greater of (a) the sum of the amounts needed to make the deposits required to be made pursuant to all resolutions, ordinances, indentures and trust agreements pursuant to which all outstanding Senior Lien Bonds Obligations or other outstanding Airport Obligations are issued and secured, and (b) one and ten-hundreths times Aggregate Debt Service for the Bond Year commencing during that Fiscal Year, reduced by any proceeds of Airport Obligations held by the Trustee for disbursement during that Bond Year to pay principal of and interest on Senior Lien Obligations. This requirement was met at December 31, 2015.

The Master Trust Indenture securing Chicago O'Hare International Airport Passenger Facility Charge (PFC) Obligations requires PFC Revenues, as defined, to be deposited into the PFC Revenue Fund. The City covenants to pay from the PFC Revenue Fund not later than the twentieth day of each calendar month the following amounts in the following order of priority: (1) to the Trustee for deposit in the Bond Fund, the sum required to make all of the Sub-Fund Deposits and Other Required Deposits to be disbursed from the Bond Fund [to meet debt service and debt service reserve requirements] in the calendar month pursuant to the Master Indenture; (2) to make any payments required for the calendar month with respect to Subordinated PFC Obligations; and (3) all moneys and securities remaining in the PFC Revenue Fund shall be transferred by the City (or the Trustee if it then holds the PFC Revenue Fund pursuant to the Master Indenture) to the PFC Capital Fund.

The Indenture of Trust Securing Chicago O'Hare International Airport Customer Facility Charge Senior Lien Revenue Bonds requires that, as long as any Bonds remain Outstanding, in each Fiscal Year, the City shall set the amount of the CFC (when multiplied by the total number of projected Contract Days) plus projected Facility Rent at an annual level sufficient to provide sufficient funds (1) to pay principal of and interest on the Bonds due in such Fiscal Year, (2) to reimburse the Rolling Coverage Fund, the

Supplemental Reserve Fund, the Debt Service Reserve Fund and any Subordinate Reserve Fund for any drawings upon such Funds over a period not to exceed twelve months, as determined by the City, (3) to provide funds necessary to pay any "yield reduction payments" or rebate amounts due to the United States under the Indenture for which funds in the Rebate Fund or the CFC Stabilization Fund are not otherwise available, (4) to maintain the balance of the CFC Stabilization Fund in an amount of no less than the CFC Stabilization Fund Minimum Requirement and to reimburse any drawings below the CFC Stabilization Fund Minimum Requirement over a period not to exceed twelve months, as determined by the City, and (5) to maintain the balance of the Operation and Maintenance Fund Minimum Requirement and to reimburse any drawings below the Operation and Maintenance Fund Minimum Requirement over a period of not to exceed twelve months, as determined by the City.

- f) No-Commitment Debt and Public Interest Loans include various special assessment, private activity bonds and loans. These types of financings are used to provide private entities with low-cost capital financing for construction and rehabilitation of facilities deemed to be in the public interest. Bonds payable on no-commitment debt are not included in the accompanying financial statements because the City has no obligation to provide for their repayment, which is the responsibility of the borrowing entities. In addition, federal programs/grants, including Community Development Block Grants and Community Service Block Grants, provide original funding for public interest loans. Loans receivable are not included as assets because payments received on loans are used to fund new loans or other program activities in the current year and are not available for general City operating purposes. Loans provided to third parties are recorded as current and prior year programs/grants expenditures. Funding for future loans will be from a combination of the repayment of existing loans and additional funds committed from future programs/grants expenditures.
- g) **Defeased Bonds** have been removed from the Statement of Net Position because related assets have been placed in irrevocable trusts that, together with interest earned thereon, will provide amounts sufficient for payment of all principal and interest. Defeased bonds at December 31, 2015, not including principal payments due January 1, 2016, are as follows (dollars in thousands):

| | - | Amount | | |
|---|----------|---------|------------|---------|
| | Defeased | | Outstandin | |
| General Obligation Emergency Telephone System - Series 1993 | \$ | 213,730 | \$ | 92,965 |
| Lakefront Millennium Project Parking Facilities Bonds - Series 1998 | | 149,880 | | 43,880 |
| Special Transportation Revenue Bonds - Series 2001 | | 118,715 | | 86,665 |
| Total | \$ | 482,325 | \$ | 223,510 |

11) Pension Funds and Other Postemployment Benefits

a) Pension.

General Information about the Pension Plan

Plan description - Eligible City employees participate in one of four single-employer defined benefit pension plans (Plans). These Plans are: the Municipal Employees' Annuity and Benefit Fund of Chicago (Municipal Employees'); the Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago (Laborers'); the Policemen's Annuity and Benefit Fund of Chicago (Policemen's); and the Firemen's Annuity and Benefit Fund of Chicago (Firemen's). Plans are administered by individual retirement boards of trustees comprised of City officials or their designees and of trustees elected by plan members. Certain employees of the Chicago Board of Education participate in Municipal Employees' or Laborers'. Each Plan issues a publicly available financial report that includes financial statements and required supplementary information that can be obtained at www.meabf.org, www.labfchicago.org, www.chipabf.org, and www.fabf.org.

Benefits provided - The Plans provide retirement, disability, and death benefits as established by State law. Benefits generally vest after 10 years of credited service. Employees qualify for an unreduced retirement age minimum formula annuity based on a combination of years of service and age of retirement. Employees may also receive a reduced retirement age minimum formula annuity if they do not meet the age and service requirements for the unreduced retirement age annuity. The requirement of age and service are different for employees who became members before January 1, 2011, and those who became members on or after January 1, 2011. The annuity is computed by multiplying the final average salary by a percentage ranging from 2.2 percent to 2.5 percent per year of credited service. The final average salary is the employee's highest average annual salary for any four consecutive years within the last 10 years of credited service for participants who became members before January 1, 2011 and any eight consecutive years within the last 10 years of credited service for participants who became members on or after January 1, 2011.

Benefit terms provide for annual adjustments to each employee's retirement allowance subsequent to the employees' retirement date. For participants who became members before January 1, 2011, the annual adjustments for Municipal Employees' and Laborers' are 3.0 percent, compounded, and for Firemen's and Policemen's 3.0 percent, simple, for annuitants born before 1955 and 1.5 percent, simple, born in 1955 or later. For participants that first became members on or after January 1, 2011, the annual adjustments are equal to the lesser of 3.0 percent and 50 percent of CPI-U of the original benefit.

Employees covered by benefit terms - At December 31, 2015, the following employees were covered by the benefit terms:

| | Municipal | | | | |
|-------------------------------------|------------|-----------|-------------|-----------|---------|
| | Employees' | Laborers' | Policemen's | Firemen's | Total |
| Inactive employees or beneficiaries | | | | | |
| currently receiving benefits | 24,964 | 3,846 | 13,210 | 4,729 | 46,749 |
| Inactive employees entitled | | | | | |
| to but not yet receiving benefits | 16,268 | 1,455 | 637 | 76 | 18,436 |
| Active employees | 30,683 | 2,816 | 12,061 | 4,735 | 50,295 |
| | 71,915 | 8,117 | 25,908 | 9,540 | 115,480 |

Contributions – Historically State law required City contributions at statutorily, not actuarially, determined rates. State law also requires covered employees to contribute a percentage of their salaries. The City's contribution was calculated based on the total amount of contributions by employees to the Plan made in the calendar year two years prior, multiplied by 1.25 for the Municipal Employees', 1.00 for the Laborers', 2.00 for the Policemen's, and 2.26 for the Firemen's. The City's contributions are budgeted in the same year as the applicable levy year for the property taxes funding the contributions. The City's contributions are then paid to the pension funds in the following year (which is when the levied property taxes are collected and paid to the City by the Cook County Treasurer).

State law in effect at December 31, 2015 for the Policemen's and Firemen's Plans, known as Public Act 96-1495 (P.A. 96-1495), requires the City to significantly increase contributions to those Plans beginning in 2015. In each year, the City must contribute the amount needed for each Plan to achieve a 90% Funded Ratio by the end of 2040.

Public Act 99-0506 (P.A. 99-0506) was enacted on May 31, 2016. P.A. 99-0506 changed the funding requirements required by P.A 96-1495, providing that the City make a fixed contribution amount for 2015 through 2019 which is significantly larger than contributions made prior to the adoption of P.A. 96-1495 but smaller than the contributions required under P.A. 96-1495. P.A. 99-0506 requires that the City's contributions are at actuarially determined rates beginning in 2020 and future funding be sufficient to produce a funding level of 90% by the year ended December 31, 2055 (instead of 2040 required by P.A. 96-1495). As this law was enacted subsequent to December 31, 2015, the measurement of the City's net pension liability as of December 31, 2015, was not impacted since the liability was measured using the law in effect as of

December 31, 2015. The City will be taking into consideration the impact of this new law when measuring the liability in 2016. The new law is expected to increase the City's net pension liability.

The City's contributions to Municipal Employees' and Laborers' are determined pursuant to the formulas set forth in the Illinois Pension Code (the Pension Code). Pursuant to Public Act 98-0641 (P.A. 98-0641), the City's contributions to Municipal Employees' and Laborers' were scheduled to increase beginning in 2015; however, in July 2015 the Circuit Court of Cook County (Circuit Court) determined P.A. 98-0641 to be unconstitutional. As a result of such determination by the court, the provisions of the Pension Code governing the City's contributions to Municipal Employees' and Laborers' have reverted to the provisions in effect prior to the enactment of P.A. 98-0641. Furthermore, in March 2016, the Illinois Supreme Court upheld the ruling made by the Circuit Court.

Net Pension Liability

The City's net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The actuarial reports were provided by each of the pension funds.

Actuarial assumptions. The total pension liability in the December 31, 2015 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| | Municipal Employees' | Laborers' | Policemen's | Firemen's |
|---------------------------|----------------------|-----------|-------------|-----------|
| Inflation | 3.0% | 3.0% | 3.0% | 2.5% |
| Salary Increases | 4.5% - 8.25% (a) | 3.75% (b) | 3.75% (c) | 3.75% (d) |
| Investment Rate of Return | 7.5% (e) | 7.5% (f) | 7.5% | 7.5% |

- (a) Varying by years of service
- (b) Plus a service based increase in the first 15 years
- (c) Plus additional percentage related to service
- (d) Plus additional service based increases
- (e) Net of investment expense
- (f) Net of investment expense, including inflation

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate for Municipal Employees', Laborers', and Firemen's and RP-2014 for Policemen's.

The mortality actuarial assumptions used in the December 31, 2015 valuation were adjusted based on the results of actuarial experience study for the period:

Municipal Employees' - January 1, 2005 - December 31, 2009. Laborers' - January 1, 2004 - December 31, 2011 Policemen's - January 1, 2009 - December 31, 2013 Firemen's - January 1, 2003 - December 31, 2010

The long-term expected rate of return on pension plan investments was determined using the building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

| | Target Allocation | | | | Long-Term Expected Real Rate of Return | | | | | |
|-----------------------------|-------------------|-----------|-------------|-----------|--|-----------|-------------|-----------|--|--|
| | Municipal | | | | Municipal | | | | | |
| Asset Class: | Employees' | Laborers' | Policemen's | Firemen's | Employees' | Laborers' | Policemen's | Firemen's | | |

Discount rate

Municipal Employees' - The discount rate used to measure the total pension liability was 3.73 percent. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.5 percent and a municipal bond rate of 3.6 percent (based on the Bond Buyer 20- Bond Index of general obligation municipal bonds as of December 31, 2015). The projection of cash flows used to determine the discount rate assumed member contributions will be made at the current contribution rate and that employer contributions will be made at the 1.25 multiple of member contributions from two years prior. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions and contributions from future plan members that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the pension plan's fiduciary net position was not projected to be available to make all projected future benefit payments of current plan members. The projected benefit payments through 2023 were discounted at the expected long-term rate of return. Starting in 2024, the projected benefit payments were discounted at the municipal bond rate. Therefore, a single equivalent blended discount rate of 3.73 percent was calculated using the long-term expected rate of return and the municipal bond index.

Laborers' - A Single Discount Rate of 4.04 percent was used to measure the total pension liability. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.5 percent and a municipal bond rate of 3.5 percent (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)). The projection of cash flows used to determine this Single Discount Rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between statutory contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2027. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2027, and the municipal bond rate was applied to all

benefit payments after that date.

Policemen's - A Single Discount Rate of 7.15 percent was used to measure the total pension liability. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.5 percent and a municipal bond rate of 3.57 percent. The projection of cash flows used to determine this Single Discount Rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between statutory contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2063. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2063, and the municipal bond rate was applied to all benefit payments after that date.

Firemen's – A Single Discount Rate of 7.16 percent was used to measure the total pension liability. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.5 percent and a municipal bond rate of 3.57 percent. The projection of cash flows used to determine this Single Discount Rate assumed that member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between statutory contribution rates and the member rate. Based on these assumptions, the Plan's fiduciary net position and future contributions were sufficient to finance future benefit payments only through the year 2061. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2061, and the municipal bond rate was applied to all benefit payments after that date.

^{*} Includes pension plan administrative expense

Changes in benefits and actuarial assumptions: As discussed above, P.A. 98-0641 was determined to be unconstitutional resulting in changes in the discount rate caused by a change in the required funding policy and changes in benefits for the participants of the Municipal Employees' and Laborers' Pension plans, which include restoring full automatic annual increases and changes in the retirement age for certain participants.

The change in the discount rate assumption increased the net pension liability by \$8.7 billion for Municipal Employees'and \$1.2 billion for Laborers'. This impact is being amortized into expense over a five year period for Municipal Employees' and a four year period for Laborers'. The change in benefits increased the net pension liability by \$2.1 billion for Municipal Employees' and \$0.4 billion for Laborers'. This impact is recognized as a portion of pension expense for 2015 in its entirety.

Sensitivity of the net pension liability to changes in the discount rate

Municipal Employees' - The following presents the net pension liability as of December 31, 2015, calculated using the discount rate of 3.73 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.73 percent) or 1 percentage point higher (4.73 percent) than the current rate (dollars in thousands):

| | | Current | |
|---|---------------|---------------|---------------|
| Net pension liability December 31, 2015 | 1% Decrease | Discount Rate | 1% Increase |
| Municipal Employees' discount rate | 2.73% | 3.73% | 4.73% |
| Municipal Employees' liability | \$ 22,207,242 | \$ 18,617,443 | \$ 15,675,669 |

Laborers' - The following presents the net pension liability as of December 31, 2015, calculated using the discount rate of 4.04 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.04 percent) or 1 percentage point higher (5.04 percent) than the current rate (dollars in thousands):

| | | Current | |
|---|--------------|---------------|--------------|
| Net pension liability December 31, 2015 | 1% Decrease | Discount Rate | 1% Increase |
| Laborers' discount rate | 3.04% | 4.04% | 5.04% |
| Laborers' Employees' liability | \$ 3,017,416 | \$ 2,473,958 | \$ 2,028,467 |

Policemen's - The following presents the net pension liability as of December 31, 2015, calculated using the discount rate of 7.15 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.15 percent) or 1 percentage point higher (8.15 percent) than the current rate (dollars in thousands):

| | | Current | |
|---|---------------|---------------|--------------|
| Net pension liability December 31, 2015 | 1% Decrease | Discount Rate | 1% Increase |
| Policemen's Employees' discount rate | 6.15% | 7.15% | 8.15% |
| Policemen's Employees' liability | \$ 10,402,348 | \$ 8,973,784 | \$ 7,771,127 |

Firemen's - The following presents the net pension liability as of December 31, 2015, calculated using the discount rate of 7.16 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.16 percent) or 1 percentage point higher (8.16 percent) than the current rate (dollars in thousands):

| | | Current | |
|---|--------------|---------------|--------------|
| Net pension liability December 31, 2015 | 1% Decrease | Discount Rate | 1% Increase |
| Firemen's Employees' discount rate | 6.16% | 7.16% | 8.16% |
| Firemen's Employees' liability | \$ 4,311,378 | \$ 3,780,983 | \$ 3,329,106 |

Payable to the Pension Plan

At December 31, 2015, the City reported a payable of \$802.3 million for the outstanding amount of contributions to the pension plan required for the year ended December 31, 2015.

b) Other Post Employment Benefits (OPEB) - Pension Funds

The Pension Funds also contribute a portion of the City's contribution as a subsidy toward the cost for each of their annuitants to participate in the City's health benefits plans, which include basic benefits for eligible annuitants and their dependents and supplemental benefits for Medicare eligible annuitants and their dependents. The amounts below represent the accrued liability of the City's pension plans related to their own annuitants and the subsidy paid to the City (see section c). The plan is financed on a pay-as-you-go basis

Annual OPEB Cost and Contributions Made For Fiscal Year Ended December 31, 2015 (dollars in thousands)

Actuarial Method and Assumptions - For the Pension Funds' subsidies, the actuarial valuation for the fiscal year ended December 31, 2015 was determined using the Entry Age Normal actuarial cost method. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and included the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial method and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations:

| | Municipal Employees' | Laborers' | Policemen's | Firemen's |
|---|------------------------------|------------------------------|------------------------------|------------------------------|
| Actuarial Valuation Date | 12/31/2015 | 12/31/2015 | 12/31/2015 | 12/31/2015 |

^{*} The negative cost is primarily due to the insurance subsidy ending in 2016.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as the results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presents, as required, unaudited supplementary information following the notes to the financial statements.

c) Other Post Employment Benefits - City Obligation

Up to June 30, 2013, the annuitants who retired prior to July 1, 2005 received a 55 percent subsidy from the City and the annuitants who retired on or after July 1, 2005 received a 50, 45, 40 and zero percent subsidy from the City based on the annuitant's length of actual employment with the City for the gross cost of retiree health care under a court approved settlement agreement, known as the "Settlement Plan." The pension funds contributed their subsidies of \$65 per month for each Medicare eligible annuitant and \$95 per month for each Non-Medicare eligible annuitant to their gross cost. The annuitants contributed a total of \$104.4 million in 2015 to the gross cost of their retiree health care pursuant to premium amounts set forth in the below-referenced settlement agreement.

The City of Chicago subsidized a portion of the cost (based upon service) for hospital and medical coverage for eligible retired employees and their dependents based upon a settlement agreement entered in 2003 and which expired on June 30, 2013.

On May 15, 2013, the City announced plans to, among other things: (i) provide a lifetime healthcare plan to former employees who retired before August 23, 1989 with a contribution from the City of up to 55 percent of the cost of that plan; and (ii) beginning July 1, 2013, provide employees who retired on or after August 23, 1989 with healthcare benefits in a new Retiree Health Plan (Health Plan), but with significant changes to the terms including increases in premiums and deductibles, reduced benefits and the phase-out of the Health Plan for such employees by December 31, 2016.

The cost of health benefits is recognized as an expenditure in the accompanying financial statements as claims are reported and are funded on a pay-as-you-go basis. In 2015, the net expense to the City for providing these benefits to approximately 22,697 annuitants plus their dependents was approximately \$44.0 million.

Plan Description Summary – The City of Chicago was party to a written legal settlement agreement outlining the provisions of the Settlement Plans, which ended June 30, 2013. The Health Plan provides for annual modifications to the City's level of subsidy. It is set to phase out over three years, at which the Health Plan,

along with any further City subsidy, will expire by December 31, 2016, for all but the group of former employees (the Korshak class of members) who retired before August 23, 1989, who shall have lifetime benefits. Duty Disabled retirees who have statutory pre-63/65 coverage will continue to have fully subsidized coverage under the active health plan until age 65.

The provisions of the Health Plan provide in general, that the City pay a percentage of the cost (based upon an employee's service) for hospital and medical coverage to eligible retired employees and their dependents for the specified period, ending December 31, 2016. The percentage subsidies were revised to reduce by approximately 25 percent of 2013 subsidy levels in 2014, 50 percent of 2013 subsidy levels in 2015, and 75 percent of 2013 subsidy levels in 2016.

In addition, State law authorizes the four respective Pension Funds (Policemen's, Firemen's, Municipal Employees', and Laborers') to provide a fixed monthly dollar subsidy to each annuitant who has elected coverage under any City health plan through December 31, 2016. After that date, no Pension Fund subsidies are authorized. The liabilities for the monthly dollar Pension Fund subsidies contributed on behalf of annuitants enrolled in the medical plan by their respective Pension Funds are included in the NPO actuarial valuation reports of the respective four Pension Funds under GASB 43.

Special Benefits under the Collective Bargaining Agreements (CBA) - Under the terms of the collective bargaining agreements for the Fraternal Order of Police (FOP) and the International Association of Fire Fighters (IAFF), certain employees who retire after attaining age 55 with the required years of service are permitted to enroll themselves and their dependents in the healthcare benefit program offered to actively employed members. They may keep this coverage until they reach the age of Medicare eligibility. These retirees do not contribute towards the cost of coverage, but the Policemen's Fund contributes \$95 per month towards coverage for police officers; the Firemen's Fund does not contribute.

Both of these agreements which provide pre-65 coverage originally expired at June 30, 2012. These benefits have been renegotiated to continue through 2016 or June 30, 2017, depending on bargaining unit agreements. This valuation assumes that the CBA special benefits, except for those who will have already retired as of December 31, 2016, will cease on December 31, 2016 or June 30, 2017, depending on bargaining unit agreements.

Funding Policy - No assets are accumulated or dedicated to funding the retiree health plan benefits.

Annual OPEB Cost and Net OPEB Obligation - The City's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution "ARC" of the employer. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and to amortize any unfunded actuarial liabilities over a period of ten years.

The following table shows the components of the City's annual OPEB costs for the year for the Health Plan and CBA Special Benefits, the amount actually contributed to the plan, and changes in the City's net OPEB obligation. The *Net OPEB Obligation* is the amount entered upon the City's Statement of Net Position as of year end as the net liability for the other post-employment benefits – the Health Plan. The amount of the annual cost that is recorded in the Statement of Changes in Net Position for 2015 is the annual OPEB cost (expense).

| | | | | | | | | | | | |

Funded Status and Funding Progress - As of January 1, 2015, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$780.6 million, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$2,488.0 million and the ratio of the unfunded actuarial accrued liability to the covered payroll was 31.4 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as the results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presents, as required, (unaudited) supplementary information following the notes to the financial statements.

| | Schedule of Funding Progress (dollars in thousands) | | | | | | | | | | | | |
|------------------------------------|---|----------------------------|-----|--------------------------------------|----|---|-----------------|--------------------|--|--|--|--|--|

| Total 12/31/2014 | \$ | , <u>-</u> | \$ | 780,637 | \$ | 780,637 | 0% | \$ 2,487,787 | 31.4 % | | | | |

Actuarial Method and Assumptions – Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and included the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial method and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations.

For the Health Plan benefits (not provided by the Pension Funds), the entry age normal actuarial cost method was used. The actuarial assumptions included an annual healthcare cost trend rate of 8.0 percent initially, reduced by decrements to an ultimate rate of 5.0 percent in 2026. The range of rates included a 3.0 percent inflation assumption. Rates included a 2.5 percent inflation assumption. The plan has not accumulated assets and does not hold assets in a segregated trust. However, the funds expected to be used to pay benefits are assumed to be invested for durations which will yield an annual return rate of 3.0 percent. The remaining Unfunded Accrued Actuarial Liability is being amortized as a level dollar amount over ten years. The benefits include the provisions under the new Health Plan, which will be completely phased-out by December 31, 2016, except for the Korshak category, which is entitled to lifetime benefits. Also included in the Non-CBA benefits are the duty disability benefits under the active health plan payable to age 63/65.

For the Special Benefits under the CBA for Police and Fire, the renewed contracts' expiration dates of June 30, 2016 (for Police Captains, Sergeants and Lieutenants) and June 30, 2017 for all other Police and Fire are reflected, such that liabilities are included only for payments beyond the end of the calendar year of contract expiration on behalf of early retirees already retired and in pay status as of December 31 of the expiration year of the contract. The entry age normal method was selected. The actuarial assumptions included an annual healthcare cost trend rate of 8.0 percent in 2014, reduced by decrements to an ultimate rate of 5.0 percent in 2026. Rates included a 2.5 percent inflation assumption. The plan has not accumulated assets and does not hold assets in a segregated trust. The funds expected to be used to pay benefits are assumed to be invested for durations which will yield an annual return rate of 3.0 percent. The remaining Unfunded Accrued Actuarial Liability is being amortized as a level dollar amount over ten years.

| Summary of Assumptions and Methods | | | | | | | | |
|------------------------------------|------------------------------|------------------------------|--|--|--|--|--|--|
| | Settlement Health Plan | CBA Special Benefits | | | | | | |
| Actuarial Valuation Date | December 31, 2014 | December 31, 2014 | | | | | | |

| Asset Valuation Method | Market Value | Market Value | | | | | | |
| Actuarial Assumptions: | 3.0% | 3 0% | | | | | | |
| Projected Salary Increases | 2.5% | 2.5% | | | | | | |
| Healthcare Inflation Rate | 8.0% initial to 5 0% in 2026 | 8.0% initial to 5.0% in 2026 | | | | | | |

12) Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; certain benefits for and injuries to employees, and natural disasters. The City provides worker's compensation benefits and employee health benefits under self-insurance programs except for insurance policies maintained for certain Enterprise Fund activities. The City uses various risk management techniques to finance these risks by retaining, transferring and controlling risks depending on the risk exposure.

Risks for O'Hare, Midway, and certain other major properties, along with various special events, losses from certain criminal acts committed by employees and public official bonds are transferred to commercial insurers. Claims have not exceeded the purchased insurance coverage in the past three years. Accordingly, no liability is reported for these claims. All other risks are retained by the City and are self-insured. The City pays claim settlements and judgments from the self-insured programs. Uninsured claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. The General Fund is primarily used to record all non-Enterprise Fund claims. The estimated portion of non-Enterprise Fund claims not yet settled has been recorded in the Governmental Activities in the Statement of Net Position as claims payable along with amounts related to deferred compensatory time and estimated liabilities for questioned costs. As of December 31, 2015, the total amount of non-Enterprise Fund claims was \$490.4 million and Enterprise Fund was \$82.0 million. This liability is the City's best estimate based on available information. Changes in the reported liability for all funds are as follows (dollars in thousands):

| | 2015 | 2014 |
|--|------------|------------|
| Balance, January 1 | \$ 540,272 | \$ 547,674 |
| Claims incurred and change in estimates | 688,800 | 627,488 |
| Claims paid on current and prior year events | (656,712) | (634,890) |
| Balance, December 31 | \$ 572,360 | \$540,272 |

13) Expenditure of Funds and Appropriation of Fund Balances

The City expends funds by classification as they become available, and "Restricted" funds are expended first. If/when City Council formally sets aside or designates funds for a specific purpose, they are considered "Committed." The Mayor (or his/her designee) may in this capacity, also set aside or designate funds for specific purposes and all of these funds will be considered "Assigned." Any remaining funds, which are not specifically

allocated in one or more of the previous three categories, are considered "Unassigned" until such allocation is completed.

In addition to the categories above, any amounts which will be used to balance a subsequent year's budget will be considered "Assigned" as Budgetary Stabilization funds. The amounts may vary from fiscal year to fiscal year or depending on the City's budgetary condition, or may not be designated at all. The funds may be assigned by the Mayor or his designee, up to the amount of available "Unassigned" fund balance at the end of the previous fiscal year.

a) Fund Balance Classifications

On the fund financial statements, the Fund Balance consists of the following (dollars in thousands):

| | | | | | | | | | | | Co | mmunity | | |
|--|----------|--------|-------|------------------|--------------|---------|-------------|-------------|--------------|-----------|----------|--------------|-------|---------|
| | Federal, | | | | | | | Service | В | ond, Note | De | velopment | Other | |

| _ | Ge | eneral | Loca | I Grants | Taxing Areas | | and Reserve | | and Interest | | Projects | | Funds | |
| Nonspendable Purpose: | | | | | | | | | | | | | | |
| Inventory | \$ | 23,828 | \$ | - | \$ | - | \$ | - | \$ | - | \$ | - | \$ | - |
| Restricted Purpose | | | | | | | | | | | | | | |
| Capital Projects | | - | | - | 1,2 | 275,709 | | - | | - | | 198,431 | | 54,270 |
| Grants | | - | | 17,617 | | - | | - | | - | | - | | - |
| Debt Service | | - | | - | | - | | - | | 236,294 | | - | | 93,314 |
| General Government | | - , | | - | | - | | - | | - | | - | | 3,057 |
| Committed Purpose | | | | | | | | | | | | | | |
| Budget and Credit Rating Stabilization | | - | | - | | - | | 621,282 | | - | | - | | - |
| Repair, Maintenance and City Services | | - | | - | | - | | - | | - | | - | | 56,539 |
| Assigned Purpose | | | | | | | | | | | | | | • |
| Future obligations | | 24,377 | | - | | - | | - | | - | | - | | - |
| Special Projects | | 74,000 | | - | | - | | • | | - | | - | | - |
| Unassigned | | 93,027 | (2 | 33,759) | | - | (| (1,555,260) | | - | | - | | · |
| Total Government Fund Balance | \$ 2 | 15,232 | \$ (2 | 16,142) | \$ 1,2 | 275,709 | \$ | (933,978) | \$ | 236,294 | \$ | 198,431 | \$ | 207,180 |

At the end of the fiscal year, total encumbrances amounted to \$24.4 million for the General Operating Fund, \$47.6 million for the Special Taxing Areas Fund, \$37.9 million for the Capital Projects Fund and \$24.3 million for the Non Major Special Revenue Fund.

14) Deferred Outflows and Inflows of Resources

In accordance with Government Accounting Standards Board Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, the City reports deferred outflows of resources in the Statement of Net Position in a separate section following Assets. Similarly, the City reports deferred inflows of resources in the Statement of Net Position in a separate section following Liabilities.

The components of the deferred outflows of resources and deferred inflows of resources are as follows (dollars in thousands):

| | FY 2015 | | | | | |
|---|---------|---------------------------|----|----------------------------|--|--|
| | G | overnmental Activities | Вι | usiness-type Activities | | |
| Deferred Outflows of Resources: | | | | | | |
| Deferred outflows from pension activities Unamortized deferred | \$ | 7,039,762 | \$ | 1,455,260 | | |
| bond refunding costs | | 147,937 | | 123,079 | | |
| Derivatives | | - | | 123,166 | | |
| Total Deferred Outflows of Resources | \$ | 7,187,699 | \$ | 1,701,505 | | |
| Deferred Inflows of Resources: | | | | | | |
| Deferred inflows from pension activities Long-Term lease and | | 187,878 | | 27,123 | | |
| Service concession arrangements | | 1,555,260 | | 1,626,667 | | |
| Total Deferred Inflows of Resources | \$ | 1,743,138 | \$ | 1,653,790 | | |

The components of the deferred inflows of resources related to the governmental funds at December 31, 2015 are as follows (dollars in thousands):

| | Federal, State and | | Service | Bond, Note | Other | Total |
|-------------------------------|-----------------------|--------------|--------------|--------------|--------------|--------------|
| | Local | Special | Concession | Redemption | Governmental | Governmental |
| | Grants | Taxing Areas | and Reserve | and Interest | Funds | Funds |
| Governmental Funds: | | | | | | |
| Deferred inflow of resources: | | • | | | | |
| Property Taxes | \$ - | \$ 350,404 | \$ - | \$ 436,939 | \$ 597,386 | \$ 1,384,729 |
| Grants | 239,199 | - | - | - | - | 239,199 |
| Long-term Lease and | | | | | | |
| Concession Agreements | | | 1,555,260 | | | 1,555,260 |
| Total Governmental Funds | \$ 239,199 | \$ 350,404 | \$ 1,555,260 | \$ 436,939 | \$ 597,386 | \$ 3,179,188 |

15) Commitments and Contingencies

The City is a defendant in various pending and threatened individual and class action litigation relating principally to claims arising from contracts, personal injury, property damage, police conduct, alleged discrimination, civil rights actions, and other matters. City management believes that the ultimate resolution of these matters will not have a material adverse effect on the financial position of the City.

The City participates in a number of federal- and state-assisted grant programs. These grants are subject to audits by or on behalf of the grantors to assure compliance with grant provisions. Based upon past experience and management's judgment, the City has made provisions in the General Fund for questioned costs and other amounts estimated to be disallowed. City management expects such provision to be adequate to cover actual amounts disallowed, if any.

As of December 31, 2015, the Enterprise Funds have entered into contracts for approximately \$516.5 million for construction projects.

The City's pollution remediation obligation of \$32.9 million is primarily related to Brownfield redevelopment projects. These projects include removal of underground storage tanks, cleanup of contaminated soil, and

removal of other environmental pollution identified at the individual sites. The estimated liability is calculated using the expected cash flow technique. The pollution remediation obligation is an estimate and subject to changes resulting from price increases or reductions, technology, or changes in applicable laws or regulations.

16) Concession Agreements

The major fund entitled Service Concession and Reserve Fund is used for the purpose of accounting for the deferred inflows associated with governmental fund long-term lease and concession transactions. Deferred inflows are amortized over the life of the related lease and concession agreements. Proceeds from these transactions may be transferred from this fund in accordance with ordinances approved by the City Council that define the use of proceeds.

In February 2009, the City completed a \$1.15 billion concession agreement to allow a private operator to manage and collect revenues from the City's metered parking system for 75 years. The City received an upfront payment of \$1.15 billion which was recognized as a deferred inflow that will be amortized and recognized as revenue over the term of the agreement. The City recognizes \$15.3 million of revenue for each year through 2083.

In December 2006, the City completed a long-term concession and lease of the City's downtown underground public parking system. The concession granted Chicago Loop Parking, LLC (CLP) the right to operate the garages and collect parking and related revenues for the 99-year term of the agreement. The City received an upfront payment of \$563.0 million of which \$347.8 million was simultaneously used to purchase three of the underground garages from the Chicago Park District. The City recognized a deferred inflow that will be amortized and recognized as revenue over the term of the lease. The City recognizes \$5.7 million of revenue for each year through 2105. In January 2014, CLP assigned all of its interests in the concession and lease agreement to LMG2, LLC, the designee of its lenders, in lieu of foreclosure by the lenders on their leasehold mortgage on the underground garages.

In January 2005, the City completed a long-term concession and lease of the Skyway. The concession granted a private company the right to operate the Skyway and to collect toll revenue from the Skyway for the 99-year term of the agreement. The City received an upfront payment of \$1.83 billion; a portion of the payment (\$446.3 million) advance refunded all of the outstanding Skyway bonds. The City recognized a deferred inflow of \$1.83 billion that will be amortized and recognized as revenue over the 99-year term of the agreement. The City recognizes \$18.5 million of revenue related to this transaction for each year through 2103. Skyway land, bridges, other facilities and equipment continue to be reported on the Statement of Net Position and will be depreciated, as applicable, over their useful lives. The deferred inflow of the Skyway is reported in the Proprietary Funds Statement of Net Position.

17) Restatement Due to Implementation of New Accounting Standards

During fiscal year 2015, the City implemented GASB Statement No. 68, "Accounting and Financial Reporting for Pensions an amendment of GASB Statement No. 27", revised standards of accounting and reporting for pension expenses and liabilities as well as allowed for the deferral of certain pension expense elements. As a result of implementing this statement, net position was restated at January 1, 2015. The City's net pension obligation of \$8.6 billion accounted for under GASB Statement No. 27 was eliminated and replaced by a larger net pension liability. The impact of these changes on the beginning balances reported in the financial statements is shown below (in thousands):

| | As Originally Reported | GASB 68 Adjustment | | As Restated after GASB 68 Impact |
|--|---------------------------|-----------------------|------|--|
| Governmental Activities: Total Net (Deficit) Position, January 1, 2015 | \$ (9,043,325) | \$ (10,131,849) | \$ | (19,175,174) |
| Business-Type Activities: Water Fund Total Net (Deficit) Position, January 1, 2015 | \$ 1,683,206 | \$ (603,457) | \$ | 1,079,749 |
| Sewer Fund Total Net (Deficit) Position, January 1, 2015 | 734,754 | (233,282) | | 501,472 |
| Chicago Midway International Airport Total Net (Deficit) Position, January 1, 2015 | (6,698) | (159,615) | | (166,313) |
| Chicago O'Hare International Airport Total Net (Deficit) Position, January 1, 2015 | 1,460,084 | (749,092) | | 710,992 |
| Business-Type Activities (including Skyway): Total Net (Deficit) Position, January 1, 2015 | \$ 2,507,042 | \$ (1,745,446) | - \$ | 761,596 |

18) Subsequent Events

Ratings

In January 2016, Standard and Poor's (S&P) upgraded the rating of the Midway Airport Second Lien revenue bonds from A- to A with a stable outlook.

In March 2016, Fitch Ratings (Fitch) downgraded the ratings of the City's General Obligation bonds and Sales Tax revenue bonds from BBB+ to BBB-, with a negative outlook.

In April 2016, Kroll Bond Rating Agency, Inc. (Kroll) downgraded the ratings of the City's General Obligation bonds from A- to BBB+ with a negative outlook.

In April 2016, S&P upgraded the City's Water Senior Lien revenue bonds from A to A+ and the Water Second Lien revenue bonds from A- to A, each with a stable outlook.

In May 2016, Fitch upgraded the rating of the Midway Airport Second Lien revenue bonds from A- to A with a stable outlook.

In May 2016, Fitch upgraded the rating of the O'Hare Airport Senior Lien revenue bonds from A- to A with a stable outlook.

In May 2016, Kroll rated the Midway Airport Second Lien revenue bonds A with a stable outlook.

In June 2016, S&P downgraded the rating of the Motor Fuel Tax revenue bonds from BBB+ to BBB with a negative outlook.

Bonds

In January 2016, the City redeemed \$22.3 million of Chicago Senior Lien Tax Increment Allocation Bonds (Near North Redevelopment Project) Series, 1999A and the associated letter of credit was terminated.

In January 2016, the City sold General Obligation Refunding Bonds, Series 2015C (\$500.0 million). The bonds were issued at an interest rate of 5.0 percent and mandatory sinking fund or maturity dates ranging from January 1, 2020 to January 1, 2038. Proceeds will be used to refund or pay interest on all or a portion of certain outstanding General Obligation bonds, fund capitalized interest, and pay costs of issuance.

In May 2016, the City converted its Second Lien Water Revenue Bonds, Series 2000 (\$100.0 million) and Second Lien Water Revenue Refunding Bonds, Series 2004 (\$344.6 million) from variable rate to fixed rate. The bonds were converted at interest rates ranging from 2.0 percent to 5.0 percent and maturity dates from November 1, 2017 to January 1, 2030. Proceeds will be used to pay the purchase price of the bonds mandatorily tendered on the conversion date, costs of capital improvements to the Water System, and the costs of conversion. In addition, concurrently with the conversion of the Series 2000 and Series 2004 bonds, the City sold Second Lien Water Revenue Bonds, Series 2016A-1 (Tax Exempt) and Series 2016A-2 (Taxable) (\$81.7 million). The Series 2016A-1 and A-2 bonds were issued at interest rates ranging from 1.68 percent to 5.0 percent and maturity dates from November 1, 2016 to November 1, 2031. Proceeds will be used to repay the outstanding water line of credit and to pay costs of issuance.

In June 2016, the City sold Midway Airport Second Lien Revenue and Revenue Refunding Bonds, Series 2016A (AMT) and 2016B (Non-AMT) (\$342.4 million). The Series 2016A and 2016B bonds were issued at interest rates ranging from 2.0 percent to 5.0 percent and mandatory sinking fund or maturity dates from January 1, 2017 to January 1, 2046. Proceeds of the Series 2016A and 2016B Bonds will be used to pay the costs of various capital projects of the Airport, refund certain outstanding Midway Airport Second Lien revenue bonds, fund capitalized interest, fund debt service reserve deposits, and pay costs of issuance.

Swaps

In May 2016, the City terminated the swaps relating to its (1) Second Lien Water Revenue Bonds, Series 2000 for a termination payment of \$32.3 million and (2) Second Lien Water Revenue Refunding Bonds, Series 2004 for total termination payments of \$69.5 million.

Commercial Paper and Lines of Credit

As of December 31, 2015, the outstanding balance for the City's General Obligation Commercial Paper Notes and General Obligation Lines of Credit (G.O. CP) was \$239.1 million. Since January 1, 2016, the City has issued \$220.0 million of G.O. CP to fund pension requirements and has paid down \$315.6 million, including the portion issued in 2016 to fund the pension requirement. The current G.O. CP outstanding is approximately \$143.5 million.

In January 2016, the City increased the General Obligation Line of Credit Agreement to \$900.0 million from \$750.0 million. The City's repayment obligation under the line of credit is a general obligation of the City. The line of credit expires September 24, 2017.

In May 2016, the City drew \$91.5 million under the water line of credit to fund the swap termination payments prior to the issuance of Second Lien Water Revenue Bonds, Series 2016A-1 (Tax Exempt) and Series 2016A-2 (Taxable). Proceeds from the bonds were used to repay the water line of credit.

Concession Agreements

In February 2016, the owners of the Skyway concessionaire sold their ownership interests in the concessionaire to a new entity. Pursuant to the concession and lease agreement for the Skyway, the City approved the transfer of ownership interests.

In May 2016, the concessionaire of the City's downtown underground public parking garages sold its concession interest in the garages to Millennium Parking Garages, LLC. Pursuant to the concession and lease agreement for the garages, the City approved the transfer of the concession interest.

^{*} The funding method mandated by the Illinois Pension Code is insufficient to avoid insolvency, and without a change, the Fund is projected to become insolvent within the next 10 years (during 2025). Therefore, the actuarially determined contribution is comprised of an employer normal cost payment and a 30-year, level dollar amortization payment on the unfunded actuarial accrued liability.

Laborers':

| Other information | (p) | | (r) | | (s) | | (s) | |

- (a) Actuarially determined contribution amount is determined as of December 31, with appropriate interest to the middle of the year.
- (b) Actuarially determined contribution rates are calculated as of December 31, which is 12 months prior to the end of the fiscal year in which contributions are reported.
- (c) The statutory contributions are based on a multiple of member contributions from the second prior year. The statutory contribution multiple is 1.00
- (d) Varying by years of service.
- (e) Plus a service-based increase in the first 15 years.
- (f) Salary increase rates based on age-related productivity and merit rates plus inflation.
- (g) Net of investment expense.
- (h) Net of investment expense, including inflation
- (i) For employees first hired prior to January 1, 2011, rates of retirement are based on the recent experience of the Fund (adopted December 31, 2010) For employees first hired on or after January 1, 2011, rates of retirement for each age from 62 to 80 were used (adopted December 31, 2011).
- (j) Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the December 31, 2012, valuation pursuant to an experience study of the period January 1, 2004, through December 31, 2011.
- (k) Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the December 31, 2014, actuarial valuation pursuant to an experience study of the period January 1, 2009, through December 31, 2013.
- (I) Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the December 31, 2011, valuation pursuant to an experience study of the period January 1, 2003, through December 31, 2010.
- (m) Post-retirement mortality rates were based on the RP-2000 Healthy Mortality Tables with mortality improvements projected to 2010 using Scale AA. Pre-retirement mortality rates were based on the post-retirement mortality assumption, multiplied by 85% for males and 70% for females.
- (n) RP2000 Combined Healthy mortality table, sex distinct, set forward one year for males and setback two years for females. No adjustment is made for post-disabled mortality.
- (o) Post-Retirement Healthy mortality rates. Sex distinct Retirement Plans 2014 Healthy Annuitant mortality table weighted 108% for males and 97% for females. Pre-Retirement mortality rates Sex distinct Retirement Plans 2014 Total Employee mortality table weighted 85% for males and 115% for females. Disabled Mortality: Sex distinct Retirement Plans 2014 Healthy Annuitant mortality table weighted 115% for males and 115% for females.
- (p) RP2000 Combined Healthy mortality table, sex distinct for post retirement mortality. RP2000 Combined Healthy mortality table, sex distinct, set forward six years for post retirement mortality. Pre-retirement mortality is 80 percent of the post-retirement rates
- (q) Other assumptions: Same as those used in the December 31, 2015, actuarial funding valuations.
- (r) Notes Benefit changes based on the provisions in effect prior to Public Act 98-0641 were recognized in the Total Pension Liability as of December 31, 2015.
- (s) The valuation is based on the statutes in effect as of December 31, 2015, and does not consider the impact of PA 99-0506 which was passed on May 31, 2016

NONMAJOR SPECIAL REVENUE FUNDS

Vehicle Tax Fund - Expenditures made in accordance with the policy established by the City Council in connection with street repairs and maintenance, as provided by sale of vehicle licenses.

Motor Fuel Tax and Project Fund - Expenditures for repair and maintenance of streets and pavements as provided by the City's distributive share of State Motor Fuel Tax and Motor Fuel Tax Revenue Bonds.

Pension Fund - For the City's contribution to Employees' Annuity and Benefit Funds as provided by tax levy and State Personal Property Replacement Tax revenue.

Public Building Commission Fund - For rentals of space and long-term lease obligations by the City as provided by tax levy.

Miscellaneous Fund - Expenditures for environmental management purposes related to liquid waste, inspection, operation of emergency communication system and other obligations, as provided by revenues from fees collected for disposal of liquid waste, by fees on telephone billings and transfers in.

Chicago Public Library Fund - Expenditures for acquisition, repairs, construction and equipment of library buildings; also library maintenance and operations as provided by proceeds of debt, fines and miscellaneous revenues.

Special Events, Tourism and Festivals Fund - Expenditures for promoting tourism, conventions and other special events projects in Chicago as provided by the State from Municipal Hotel-Motel Tax receipts and by proceeds from Jazz, Blues and Gospel Festivals and Taste of Chicago.

Health and Welfare Fund - For general assistance to be expended and administered by the Illinois Department of Public Aid as provided by patient fees, City and State grants and proceeds of debt, and for neighborhood human infrastructure projects designed to improve the quality of life for citizens.

PART III

STATISTICAL SECTION (UNAUDITED)

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the City's overall financial health.

Contents:

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement No. 34 in 2002; schedules presenting government-wide information include information beginning that year.

⁽¹⁾ The City issued bonds backed by a property tax levy on behalf of Community College District No. 508. The annual debt service related to the bonds is, as follows (in thousands): \$5,443 in 2005-2006, \$6,891 in 2007 and approximately \$35,170 since 2008.

⁽²⁾ This includes G. O. Bonds, G. O. Notes, G. O. Certificates, G. O. Commercial Paper (CP), G. O. Line of Credit, (LOC), Other G. O. Debt, and City Colleges of Chicago Bonds. For FY 2015 the principal payments for LOC and CP were \$743.3 million and \$386.6 million, respectively.

⁽³⁾ For FY 2015, interest payments exclude Michael Reese Loan, Orange Line Lease, and Swap termination fees.

Source: Survey of Derivative Instruments.

- (1) A counterparty may terminate its related interest rate swap if the City rating for the respective credit falls below the rating listed in the column City ATE Level by Moody's or Standard and Poor's.
- (2) In May 2015, the interest rate swaps for Water Variable Rate Revenue Refunding Bonds (Series 2004) and Second Lien Water Revenue Refunding Bonds (Series 2000) with UBS were transferred to Barclays and the ATE levels were lowered.
- (3) The ATE level for the Water Variable Rate Revenue Refunding Bonds (Series 2004) for the RBC swap was changed to BBB+ by Standard & Poor's or Fitch.

Certain swaps and swap overlays were terminated in 2015 and are no longer included in the chart above, see Note 10, for additional information.

Notes:

Certain series of bonds were converted to fixed rate and are no longer included in the chart above. See Note 10 for additional information.

⁽¹⁾ An underlying rating by any rating agency for the related debt (or lowest rated lien of the related credit) below what is shown in the chart in the "Ratings Threshold" column would constitute an event of default under the agreements with the related banks

⁽²⁾The agreement with Barclays provides that it is an event of default if (A) any two Rating Agencies then rating the Debt of the City payable from or secured by Pledged Revenues which is senior to or on parity with the Bonds shall have downgraded their rating on such Debt to or below "Baa2" (or its equivalent) or "BBB" (or its equivalent), respectively, or (B) any Rating Agency shall have downgraded its rating of any Debt of the City payable from or secured by the Pledged Revenues which is senior to or on a parity with the Bonds to below "Baa3" (or its equivalent) or "BBB-" (or its equivalent), respectively, or suspended or withdrawn its rating of the same and such downgrade, suspension or withdrawal shall remain for a period of 180 days.

⁽³⁾ An underlying rating by two of the three rating agencies, S&P, Fitch or Kroll, would constitute an event of default under the agreements with the banks.

SUPPLEMENT TO

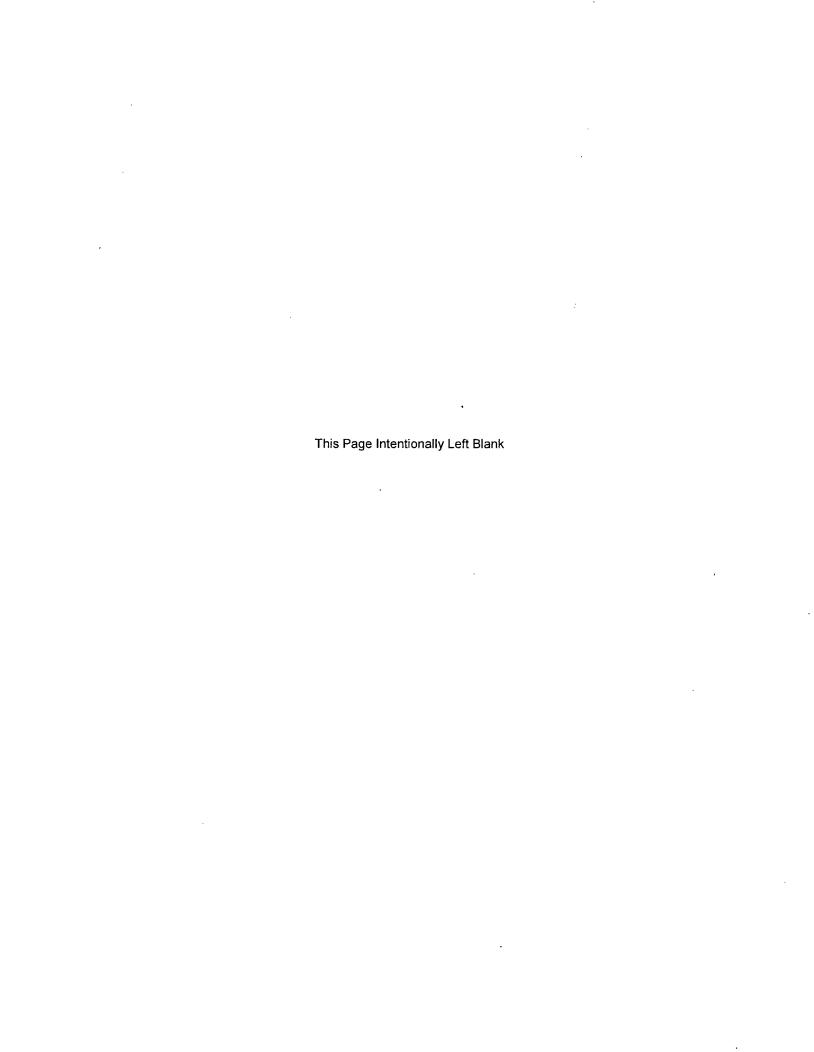

CITY OF CHICAGO

COMPREHENSIVE ANNUAL FINANCIAL REPORT FOR THE YEAR ENDED DECEMBER 31, 2015

Rahm Emanuel, Mayor

Carole L. Brown, Chief Financial Officer
Erin Keane, City Comptroller

DEPARTMENT OF FINANCE CITY OF CHICAGO

June 30, 2016

To the Honorable Mayor Rahm Emanuel, Members of the City Council, and Citizens of the City of Chicago:

This report is a supplement to the <u>Comprehensive Annual Financial Report</u> of the City of Chicago for the year ended December 31, 2015.

The <u>Comprehensive Annual Financial Report</u> should be referenced for the following information:

- 1. Introductory Section.
- 2. Financial Section.
- 3. Statistical Section.

This supplemental report contains:

The Schedules of Expenditures and Encumbrances - Budget and Actual (Budgetary Basis) for the General and Special Revenue Funds for the year ended December 31, 2015.

Respectfully submitted,

Erin Keane

City Comptroller
