Subarea A building(s) shall obtain LEED, Energy Star, Chicago Green Homes, or Green Globes certification and will include a green roof for at least 50% of the net roof area. Notwithstanding the foregoing (and notwithstanding the Bulk Table), the Applicant may obtain LEED Silver certification in lieu of providing a green roof.

In accordance with these requirements and the Affordable Housing Profile Form attached hereto as *Exhibit A*, the Applicant has agreed to make a cash payment to the Affordable Housing Opportunity Fund in the amount of \$100,000 per unit ("Cash Payment"). At the time of each Part II review for the Residential Project, Applicant may update and resubmit the Affordable Housing Profile Form to the Department of Planning and Development ("DPD") for review and approval. If the Applicant subsequently reduces the number of dwelling units in the Residential Project, DPD may adjust the requirements of this Statement 15 (i.e., number of Affordable Units and/or amount of Cash Payment) accordingly without amending the Planned Development. Prior to the issuance of any building permits for the Residential Project, including, without limitation, excavation or foundation permits, the Applicant must either make the required Cash Payment, or execute an Affordable Housing Agreement in accordance with Section 2-45-110(i)(2). The terms of the Affordable Housing Agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the Affordable Housing Agreement will be recorded against the Residential Project and will constitute a lien. The Commissioner of DPD may enforce remedies for breach of the Affordable Housing Agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the Planned Development.
16. This Planned Development shall be governed by Section 17-13-0612 of the Zoning Ordinance. Should this Planned Development ordinance lapse, the Commissioner of the Department of Planning and Development shall initiate a Zoning Map

FOR APPROVAL: PROPOSED RESIDENTIAL BUSINESS PLANNED DEVELOPMENT

APPLICANTS: LEXINGTON DEARBORN, LLC

LOCATION: 1010-1028 NORTH DEARBORN STREET

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation regarding a proposed Residential Business Planned Development for your review and recommendation to the Chicago City Council. The application for the amendment to the Zoning Ordinance was introduced into the City Council on September 24, 2015. Proper legal notice of the public hearing on the application was published in the Chicago Sun-Times on February 3, 2016. The Applicants were separately notified of this hearing.

The Applicant, Lexington Dearborn, LLC, submits a proposed Residential Business Planned Development for the property generally located at 1010-1028 North Dearborn Street. The Applicant is proposing to construct a 351' residential building with approximately 50 dwelling units and accessory parking on the property located at approximately 1028 North Dearborn Street, currently used as a parking lot, and to be known as Subarea A. The properties located at approximately 1010 North Dearborn Street and 1016 North Dearborn Street are improved with the Palette and Chisel Academy and the Ruth Page Center for the Arts and will remain within the planned development boundary, to be known as Subareas C and B, respectively. The underlying zoning for the overall 29,869 square foot site is currently RM-5 (Residential Multi-Unit District) and is proposed to be rezoned to RM-6.5 (Residential Multi-Unit District) prior to establishing the proposed Residential Business Planned Development. Pursuant to Section 17-8-0512-A of the Chicago Zoning Ordinance, a planned development application is required because the proposed tower's height exceeds 140'.

PROJECT BACKGROUND

Lexington is the contract purchaser of an approximately 11,281 square foot site that is currently owned by the Ruth Page Foundation and is used as a surface parking lot (Subarea A). This property is located at approximately 1028 N. Dearborn Street and is the site of the proposed tower.

Ruth Page owns and operates a four-story performing arts studio and theater at

approximately 1016 N. Dearborn (Subarea B). No alterations are contemplated to the Ruth Page facility as part of this planned development.

Palette and Chisel owns and operates a three-story visual arts studio at approximately 1010 N. Dearborn (Subarea C). This building is a City of Chicago Landmark property. No alterations are contemplated to the Palette and Chisel facility as part of this planned development.

SITE AND AREA DESCRIPTION

The site is located within the broader Near North Side Community Area of Chicago which encompasses some of the most economically vibrant as well as diverse neighborhoods and business districts in Chicago. The proposed planned development boundary is bounded by North Dearborn Street on the east, a public alley on the west and south and private property to the north. The total net site area of the planned development is approximately 29,869 square feet.

The entire site is currently zoned RM-5 (Residential Multi-Unit District). North Dearborn Street at this location is split between downtown zoning districts on the east side of the street and neighborhood zoning districts on the west side of the street. Surrounding zoning districts include RM-6.5 (Residential Multi-Unit District), RM-5 (Residential Multi-Unit District), DR-3 (Downtown Residential District) and various generally residential planned developments. North Dearborn Street is overwhelmingly residential in nature and land uses in the area consist of rowhomes and multi-unit residential towers of various heights and styles. Lastly, the site is not located within either the Lake Michigan and Chicago Lakefront Protection District or a tax increment financing area.

PROJECT DESCRIPTION

The Applicant is proposing to construct a 28-story building (plus mechanicals) on an 11,281 square foot site (Subarea A). The new building will contain a minimum of 72 enclosed parking spaces and a maximum of 50 dwelling units on floors six thru 28. Additionally, the building will contain various amenities for residents including common indoor space and private decks for each unit. The dwelling units will average approximately 2,963 square feet.

DESIGN/LANDSCAPING

The footprint of the proposed tower building measures approximately 75 feet along North Dearborn Street by 150 feet deep. The first five floors of the tower are proposed to be built over the entire 11,281 square foot site with the exception of an 8' setback from North Dearborn Street at the lobby/entrance. The first floor will contain the lobby and minor amenity space and access drive/ramp to the enclosed parking area via North Dearborn Street. Floors two thru five will contain the parking garage levels. The parking garage base level of the building will be approximately 56' in height and will be clad with stone panels and a window wall system at the ground floor.

Floors six thru 28 comprise the tower which is proposed to be setback on the south façade from the base at varying levels. These floors will include the residential units. Floor plates will contain three units at the lowest levels, two in the middle and one per floor at the uppermost levels. An indoor common amenity level on floor six will complement the private balcony space afforded to each dwelling unit. The balconies will be predominantly recessed into the façade.

The modernly designed building will contain a glass storefront system at the ground level including the main pedestrian access point to the residential tower. Materials on the upper floors on all of the elevations will include a glass window wall system, profiled aluminum slab edges, finished concrete and various louvers. The tower is planned to be 351' in height.

The sidewalk along North Dearborn Street at the subject property will be improved with new trees in compliance with the Chicago Landscape Ordinance.

ACCESS/CIRCULATION

The project will provide four levels of enclosed parking in the base of the building, comprising a minimum of 72 parking spaces. Twenty-two of the spaces will be reserved for the Ruth Page Foundation. The parking will be accessed via a curb cut from North Dearborn Street. The primary pedestrian access to the building will be from North Dearborn Street. Loading will be achieved in the alley.

SUSTAINABILITY

In accordance with the City of Chicago's Sustainability Policy, the Applicant will minimally provide a green roof equating to 50% of the net roof area and obtain LEED certification or similar building certification, or may in lieu of a green roof obtain LEED Silver certification. The project will also comply with the Storm Water Management Ordinance, implementing best practices in all storm water management.

BULK/USE/DENSITY

The underlying zoning for the site is currently RM-5 (Residential Multi-Unit District). Under this proposal, the underlying zoning would be changed to RM-6.5 (Residential Multi-Unit District) prior to establishing the proposed planned development. Per the proposed Bulk Table included as an exhibit to this report, the overall proposed maximum floor area ratio for this planned development will be 8.25. The following is the breakdown per Subarea: 15.79 (Subarea A); 3.19 (Subarea B); and, 4.20 (Subarea C).

This Residential Business Planned Development includes the following uses: residential, parking, dance studio, art education, performing arts venue and accessory uses.

The maximum number of dwelling units allowed for the proposed tower and throughout the

planned development will be 50. The Minimum Lot Area (MLA) for the project will be 597, which is well in excess of the minimum requirement under the Chicago Zoning Code of 300. The project is not proposed to contain any efficiency units.

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant and compared this proposal to existing development in the community. The area around this project consists of a mix of downtown and neighborhood zoning districts along North Dearborn Street in Chicago's Near North Side Community Area.

Based on that analysis, the Department of Planning and Development has concluded the following:

1. The proposed rezoning of the subject property is appropriate under Chapter 17-13 of the Zoning Ordinance. Specifically, the proposed zoning classification is compatible with surrounding zoning districts (17-13-0308-D).
2. The project meets the purpose and criteria set forth in Chapter 17-8 of the Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare. Specifically, this project meets the following provisions of Chapter 17-8:
 - a. Provides that high rise buildings have a clearly defined vertical appearance, comprised of a base, midsection and top (per 17-8-0907-B), as evidenced by the elevation exhibits associated with this project; and,
 - b. Promotes green design by conserving non-renewable energy and scarce materials (per 17-8-0908-A) as evidenced by the proposed green roof and building certification; and,
 - c. All sides and areas of the buildings that are visible to the public are treated with materials, finishes and architectural details that are of high-quality and appropriate for use on primary street-facing façade (17-8-0907-A-4), as evidenced through the material callouts in this report and on the elevations.
3. The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy. The proposed project has been reviewed by the Mayor's Office for People with Disabilities and the Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and no comments have been received which have not been addressed in the application.
4. The project will comply with the requirements for access in case of fire and other emergencies.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that this application for a Residential Business Planned Development be approved and that the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be "Passage Recommended".
