Committee(s) Assignment: Committee on Zoning, Landmarks and Building Standards

CITY COUNCIL
COMMITTEE ON ZONING, LANDMARKS AND BUILDING STANDARDS

COUNCIL ORDER

RE: Approval of sign over 100 square feet in area or over 24 feet above grade

ORDERED, that the City Council hereby approves the following sign application submitted by:

Applicant*: Bank of America

(* The Applicant is the owner of the real property or the business tenant of the real property. Do not list the sign contractor, sign erector, sign company or advertising entity in the above space.)

This Order approves the following sign in accordance with Municipal Code of Chicago Section 13-20-680:

Address of Sign: 110 N. Wacker Drive Chicago, IL 606⁰⁶

Zoning District: PD-1369

DOB Sign Permit Application #: 100834228

Sign Details:

1. On-premise OR Off-premise

2. Static sign OR Dynamic-image display sign

3. Number of sign faces 1

4. Projecting over the public way No (Yes or No) If yes, Public Way Use #: N/A

5. Dimensions: Length 22 feet 1 inches Height 2 feet 2 inches

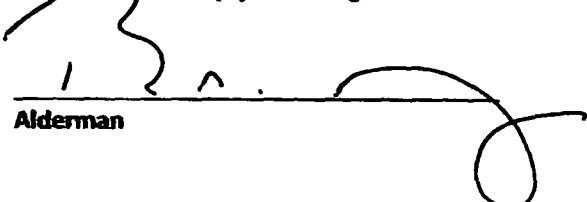

Total square feet in area: 48 feet 0 inches

6. Height above grade: 28 feet 2 inches

7. Elevation (side of building or lot where the sign will be erected): South

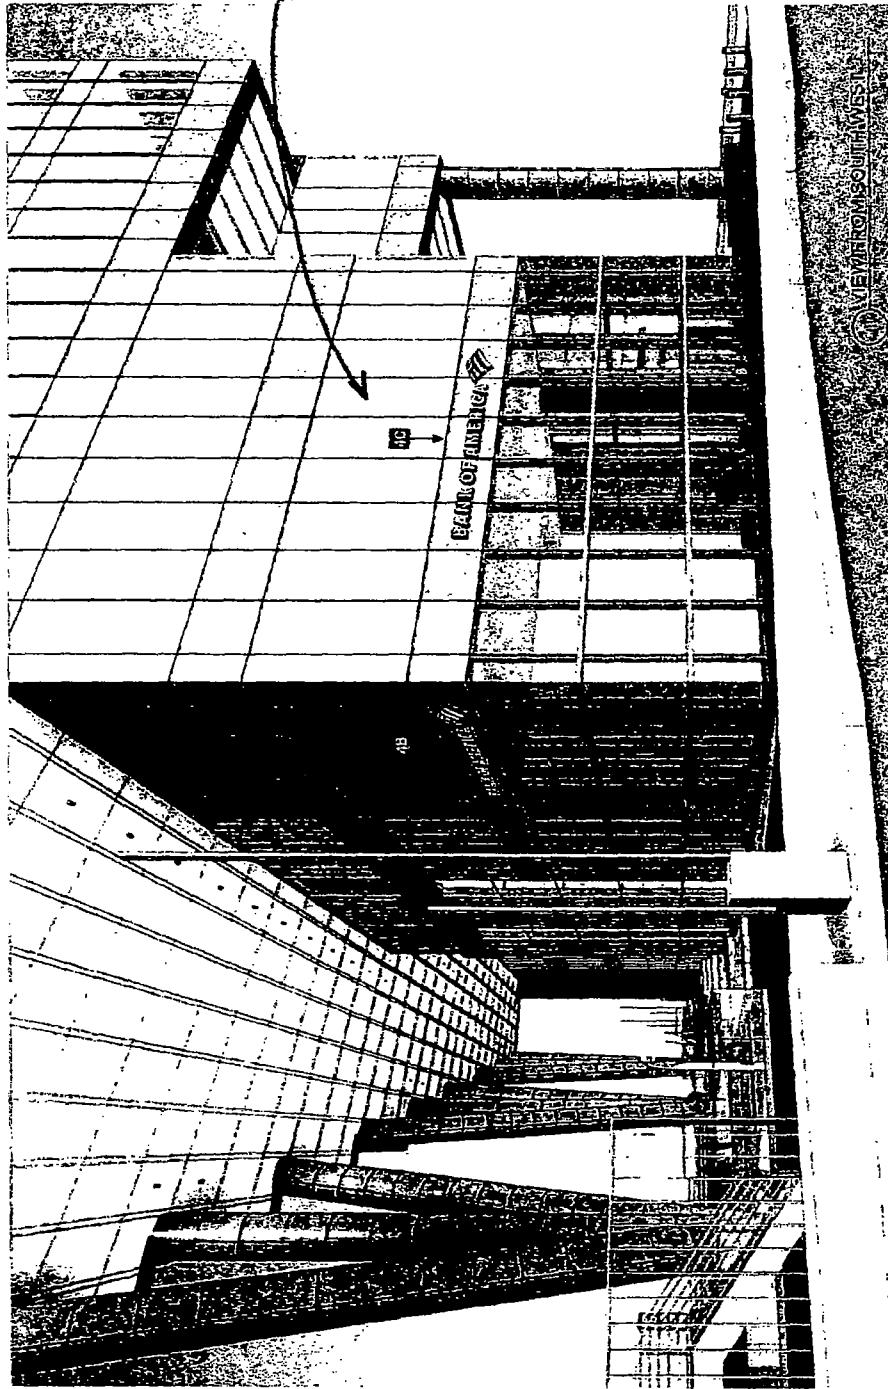

8. Name of Sign Contractor/Erector: Olympik Signs Inc.

To be legal, such sign shall comply with all provisions of Title 17 of the Chicago Municipal Code ("Zoning Ordinance") and all other provisions of the Municipal Code governing the permitting, construction and maintenance and removal of signs and sign structures. Failure of the applicant and the applicant's successors to comply shall be grounds for invalidation or revocation of the sign permit.

1. **DATA COLLECTION**: Information is collected through a variety of methods. The most common method is the interview, which can be conducted in person, by telephone, or via email. Surveys and questionnaires are also commonly used. Observations and document reviews are other methods used to collect data.

2. **DATA PROCESSING**: The collected data is then processed to identify patterns and trends. This involves cleaning the data, removing outliers, and transforming it into a format that can be analyzed. Statistical methods and machine learning algorithms are often used for this purpose.

3. **DATA ANALYSIS**: The processed data is then analyzed to draw conclusions and make recommendations. This involves identifying key variables, testing hypotheses, and determining causal relationships. The analysis may also involve identifying trends and patterns over time.

4. **DATA REPORTING**: The final step is to report the findings and recommendations. This may involve creating a report, presentation, or dashboard that summarizes the analysis and provides recommendations for action. The report may also include visualizations such as charts and graphs to help communicate the findings.

5. **DATA FEEDBACK**: Finally, the findings and recommendations are fed back into the organization to inform decision-making and inform future data collection efforts.
