LEED certified (Leadership in Energy and Environmental Design) and include a green roof over at least 50 percent of the Net Roof Area; provided, however, that if any portion of this Planned Development receives tax increment financing, such portion shall be LEED certified and include a green roof over 100 percent of the Net Roof Area of that portion.

16. The Applicant acknowledges and agrees that the rezoning the Property from Institutional Planned Development 138 and RM5 (Residential Multi-Unit District) to, first, the B3-5 (Community Shopping District), then back to Planned Development 138, for construction of this Planned Development triggers the requirements of Section 2-45-110 of the Municipal Code (the 2007 Affordable Requirements Ordinance or "ARO"). Any developer of a "residential housing project" within the meaning of the ARO must: (i) set aside 10 percent of the housing units in the residential housing project as affordable units ("Affordable Units") if the developer receives city land or zoning assistance, or 20 percent if the developer receives financial assistance, such as tax increment financing ("TIF"); (ii) pay a fee in lieu of the development of the Affordable Units; or (iii) any combination of (i) and (ii). The foregoing compliance options are referred to herein as Option (i), Option (ii), and Option (iii).

In Subarea A, the Applicant intends to construct a total of 381 dwelling units and has filed an application for TIF for the project. If the Applicant receives TIF funds, the Subarea A project will require 77 Affordable Units (20 percent x 381 = 76.2, rounded up = 77) under Option (i), or an in lieu fee ("Cash Payment") in the amount of \$7,700,000 (77 x \$100,000) under Option (ii), or a combination under Option (iii). If the Applicant does not receive TIF funds, the Subarea A project will require 39 Affordable Units (10 percent x 381 = 38.1, rounded up = 39) under Option (i), or a Cash Payment in the amount of \$3,900,000 (39 x \$100,000) under Option (ii), or a combination under Option (iii). The Applicant has elected to comply with the ARO in Subarea A through a combination under Option (iii), as described below and in the Affordable Housing Profile Form for Subarea A, referenced in Statement 4 above. First, the Applicant will provide 20 Affordable Units in Subarea A, regardless of whether the project receives TIF funds. If the Applicant receives TIF funds, 10 of the 20 Affordable Units will be affordable to households earning no more than 50 percent of the Chicago Primary Metropolitan Statistical Area Median Income ("AMI") and the other 10 will be affordable to households earning no more than 60 percent of AMI. If the project does not receive TIF funds, all 20 Affordable Units will be affordable to households earning no more than 60 percent of AMI. Second, the Applicant will satisfy its remaining ARO obligation by making a Cash Payment in the amount of \$5,700,000 (77 required Affordable Units - 20 provided Affordable Units = 57 x \$100,000) if the Applicant receives TIF funds, or \$1,900,000 (39 required Affordable Units - 20 provided Affordable Units = 19 x \$100,000) if it does not.

In Subarea B, the Applicant intends to construct a total of 250 dwelling units without any TIF or other financial assistance from the city, and has elected to comply with the ARO by making a Cash Payment in the amount of \$2,500,000 (250 dwelling units x 10 percent = 25 required Affordable Units x \$100,000 per unit), as set forth in the Affordable Housing Profile Form for Subarea B referenced in Statement 4 above.

At the time of each Part II Review for Subarea A or Subarea B, Applicant may update and resubmit the applicable Affordable Housing Profile Form to DPD for review and approval. If the Applicant subsequently reduces or increases the number of dwelling units in either subarea, DPD may adjust the requirements of this Statement 16 (i.e., number of required Affordable Units and/or amount of Cash Payment) accordingly without amending the Planned Development. Prior to the issuance of any building permits within Subarea A or Subarea B, including, without limitation, excavation or foundation permits, the Applicant must make the required Cash Payment. The Applicant intends to develop Subarea A and Subarea B as separate projects in phases, and the Cash Payment for each subarea shall be calculated separately and paid at the time building permits are sought for the applicable subarea. In the case of Subarea A, where the Applicant is providing Affordable Units, the Applicant must also execute and record an affordable housing agreement in accordance with Section 2-45-110(i)(2) of the Municipal Code prior to the issuance of any building permits for Subarea A. The terms of the affordable housing agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the affordable housing agreement will be recorded against Subarea A, or the applicable portions thereof, and will constitute a lien against such property. The commissioner of DPD may enforce remedies for any breach of this Statement 16, including any breach of any affordable housing agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the Planned Development.

17. This Planned Development shall be governed by Section 17-13-0612 of the Municipal Code. Should this Planned Development ordinance lapse, the commissioner of DPD shall initiate a zoning map amendment to rezone the Property to the B3-5 (Community Shopping District).
