Sponsor(s): Laurino (39)
O'Shea (19)

Type: Resolution

Title: Call for Committee on Public Safety to hold hearings regarding suitability of certain programs for domestic violence victims

Committee(s) Assignment: Committee on Public Safety

RESOLUTION

WHEREAS, one in three women will experience domestic violence in her lifetime, and victims are often controlled and monitored by abusive partners, limiting their ability to seek help; and

WHEREAS, in March of 2015, the Ohio Attorney General's office partnered with a program sponsored by the Professional Beauty Association Foundation to identify victims of domestic violence; and

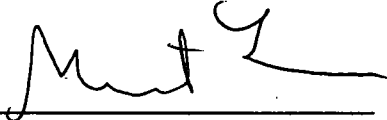

WHEREAS, this program trains salon workers to identify victims of domestic violence or human trafficking by recognizing indications of domestic violence, and leverages close relationships with clients to assist them in seeking help or to notify authorities of a potential domestic violence situation; and

WHEREAS, the Ohio board of cosmetology plans on training the board's 120,000 licensees on how to recognize the signs of domestic violence and the proper information to pass along; and

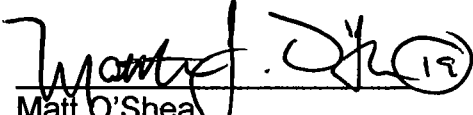

WHEREAS, if such a program was implemented in Chicago, licensed salon workers could also receive beneficial training on the signs of domestic violence, empowering and educating salon workers on ways to protect themselves and their clients; and

WHEREAS, it is beneficial and appropriate for the City Council to explore the efforts of other governments to protect victims of domestic violence; now, therefore

BE IT RESOLVED, that the City Council, through its Committee on Public Safety, shall conduct hearings, inviting advocacy groups for victims of domestic violence, law enforcement experts, trade associations and other appropriate parties, to address the suitability and benefits of such a program for the State of Illinois and the city of Chicago.

Margaret Laurino
Alderman, 39th Ward

Matt O'Shea
Alderman, 19th Ward

1941 - 1942

The first part of the year was spent in the laboratory, working on the synthesis of the various compounds. The results were very satisfactory, and the work was continued throughout the year.

The second part of the year was spent in the field, working on the collection and analysis of the various samples. The results were very satisfactory, and the work was continued throughout the year.

The third part of the year was spent in the laboratory, working on the synthesis of the various compounds. The results were very satisfactory, and the work was continued throughout the year.

The fourth part of the year was spent in the field, working on the collection and analysis of the various samples. The results were very satisfactory, and the work was continued throughout the year.

The fifth part of the year was spent in the laboratory, working on the synthesis of the various compounds. The results were very satisfactory, and the work was continued throughout the year.

The sixth part of the year was spent in the field, working on the collection and analysis of the various samples. The results were very satisfactory, and the work was continued throughout the year.

The seventh part of the year was spent in the laboratory, working on the synthesis of the various compounds. The results were very satisfactory, and the work was continued throughout the year.

The eighth part of the year was spent in the field, working on the collection and analysis of the various samples. The results were very satisfactory, and the work was continued throughout the year.

The ninth part of the year was spent in the laboratory, working on the synthesis of the various compounds. The results were very satisfactory, and the work was continued throughout the year.

The tenth part of the year was spent in the field, working on the collection and analysis of the various samples. The results were very satisfactory, and the work was continued throughout the year.
