Dear Aid. Colon,

We are about to begin a major project to repair significant portions of our church building. We need to repair/replace masonry on over 70% of the structure and we need to reinforce the middle section of the roof with steel beams. It is my hope that you will be able to go before city council to get the permitting fees associated with this work waived.

We appreciate all that you have done for us and all that you continue to do. Should you have any questions or concerns regarding this request, please don't hesitate to give my business manager, Joe D'Arco, a call.

God Bless,

Fr. Wayne P. Watts  
Pastor
