(a) A tax is hereby imposed upon every employer who, in connection with the employer's business, engages, hires, employs, or contracts with 50 or more individuals as commission merchants and full-time employees, or any combination thereof, to perform work or render services in whole or in part within the City. Beginning April 1, 2023, the amount of the tax shall be \$38.00 per month for each commission merchant and full-time employee to whom compensation is paid, or to whom compensation has accrued. The incidence of this tax shall be upon the employer alone as an employer's expense tax and shall not be transferred directly or indirectly to the commission merchant or full-time employee under any circumstances. The tax is due for each calendar quarter the employer has 50 or more full-time employees or commission merchants, or combination thereof, at any time during such quarter, except that for any month within such quarter the employer's number of full-time employees or commission merchants, or combination thereof, falls below 50, then no tax shall be due for that month.

(b) Such tax shall be levied only upon the number of those commission merchants or employees whose work or service is performed within the City, or if partly within and partly without the City, the numbers of those individuals who perform 50 percent or more of their work or service per calendar quarter within the City. If it is impractical to apportion such work or service aforesaid either because of the peculiar nature thereof or on account of unusual bases of compensation, or for any other similar reason, then the numbers of such individuals attributable to work performed or services rendered in the City shall be determined in accordance with rules and regulations adopted or promulgated by the Comptroller for this purpose, and in furtherance of the purposes of this Chapter. If the Comptroller determines that the percentage of work attributable to the City for any one or more employers is a relatively stable percentage, then the Comptroller is hereby authorized to establish that percentage as a prima facie percentage of work attributable to the City; provided, however, that the Comptroller shall condition the establishment of such fixed percentage upon the obligation of the employer to report immediately to the Comptroller any significant change in their mode of business which might or will have some effect upon the portion of work performed or service attributable to the City.

(c) In calculating the employer's expense tax due, the employer shall not include employees who are permanent residents of an Exempt Community Area. Beginning June 1, 2023, and by January 31 of each year thereafter, the Department shall publish a map of the Exempt Community Areas.

3-20-040 Residence of taxpayer.

No member of the City Council or other municipal officer shall introduce, and no Committee of the City Council shall consider or recommend, any ordinance or order that is contrary in any way to any of the requirements of this Section.
