EXISTING 24" X 13'-7-3/4" "AMITA HEALTH"  
TO BE REMOVED & REPLACED  
PATCH AND PAINT AS NEEDED

"Caulking would be initial filling option for the old penetrations. Look at the previous work to make sure there was a backing provided behind the penetrations for the caulking to adhere to, address repair accordingly. If this proves to be insufficient, we can escalate the repair options to a mortar patch to address the penetrations. Knowing that we have this issue at the location, we will be sure to increase our diligence in our patch and repair efforts to ensure an acceptable finished product."
