For any project advertised after the effective date of this Article having an estimated contract value of \$100,000.00 or more, and where not otherwise prohibited by federal law or preempted by state law, the chief procurement officer shall allocate to any qualified bidder the following bid incentive for utilization of apprentices in performance of the total labor hours performed under contract. Earned Credits for total labor hours performed by apprentices shall be earned as follows:

Percentage of Total Labor Hours Performed by Apprentices Earned Credit

Under 5%: no bid incentive;

- (d) As part of the contract close-out procedure, if the chief procurement officer determines that the bidder has successfully met his or her apprentice utilization goals, the chief procurement officer shall issue an earned credit certificate that evidences the amount of earned credits allocated to the bidder. - (f) The bidder may apply the earned credit certificate on multiple future project bids during the three year period in which the certificate is valid, but may only receive one bid incentive for bid evaluation purposes on one project contract award. If the contractor applies the earned credit certificate on multiple construction project bids and is the lowest responsive and responsible bidder on more than one project bid, the earned credit certificate shall be applied to the construction project first to be advertised by the department of procurement services, or if multiple construction project bids were advertised on the same date, the earned credit certificate shall be applied only to the construction project with the greatest dollar value.
