5. All use and development of the property shall conform with the provisions of the planned development and the Guidelines; provided however, that in the event of any conflict between the provisions of the planned development and any subsequent amendment to the Guidelines, the provisions of this planned development shall govern. The property is divided into three (3) subareas, as illustrated on the Subareas and Generalized Land-Use Map attached hereto, for the purpose of establishing use and density controls by subareas. The Table of Use and Bulk Regulations and Data describes the use and density controls applicable within each subarea. For purposes of floor area controls and/or determining floor area ratio ("F.A.R."), the provisions of the Chicago Zoning Ordinance shall apply, with the following exceptions:
 - (1) Grade Level and Plaza Level shall be established at the time of Master Plan Approval. Plaza Level shall be considered "Curb Level" for purposes of the Chicago Zoning Ordinance, and floor area below the Plaza Level shall not be included in calculating the total number of square feet of development permitted under this planned development.
 - (2) Individual development sites may exceed the floor area controls established herein, provided that the floor area controls applicable to the entire development parcel in which any development site is located shall not be exceeded, and floor area controls established by any Master Plan in accordance with this planned development shall govern. Transfer of floor area from one (1) subarea to another subarea or from one (1) development parcel to another development parcel may be approved by the Commissioner of the Department of Planning and Development if it meets the criteria for minor changes set forth in Statement 16 hereof.
 - (3) Floor area (for determining the total number of square feet of development permitted under this planned development, and for determining F.A.R. and off-street parking and loading requirements) shall not include any space devoted to mechanical equipment (including, without limitation, heating, ventilation and air-conditioning equipment) where such space occupies the entire floor of any structure or consists of more than five thousand (5,000) square feet of contiguous floor area.
6. Uses of the property which are permitted by this planned development shall be residential uses, business uses, office uses (business or professional), exhibition uses, institutional uses, and retail and commercial uses. Retail and commercial uses shall mean (a) all uses which are permitted uses within the DX-7 Downtown Mixed-Use District, and (b) uses listed as special uses within the DX-7 Downtown Mixed-Use District if such uses are determined at the time of Master Plan approval to be designed, located and proposed in a manner which will not have an adverse impact on public health, safety or welfare. In addition, the following structures and uses shall also be permitted: (1) earth station receiving and transmitting dishes, satellite dishes, earth station antennae, microwave relay dishes and transmitting or receiving dishes; (2) railroad rights-of-way and uses; (3)

All structures and uses shall be designed, located and operated in accordance with the provisions of the applicable Master Plan. Any Master Plan may include such conditions on the design, location or operation of any allowable structures or uses as may be appropriate or necessary to implement the intent of this planned development and the Guidelines.

7. The maximum allowable height of any structure upon the property shall conform with the Guidelines, the height limitations applicable in Restricted Height Zones in accordance with Figure 5-1 of the Lakefront Protection Ordinance application, the height limitations applicable in approved Master Plans, and shall also be subject to height limitations established by the Federal Aviation Administration.
8. Open space and public parks upon the property as identified in the Guidelines shall be addressed in applicable provisions of the Master Plans. In addition, the applicant has conveyed and dedicated to the Chicago Park District, at no cost, and free and clear of all encumbrances, of that approximately seventy-seven thousand five hundred (77,500) square foot parcel (land and air rights) which is located north of East Roosevelt Road between South Michigan Avenue and Columbus Drive and which is necessary to complete the southern portion of Grant Park.

The park shall be publicly funded and designed and constructed under the leadership of the Chicago Park District. The design shall be pursuant to the Master Plan for Grant Park to be developed by the City and in accordance with the Chicago Park District's 1992 Grant Park Design Guidelines. In accordance with the basic policies which govern the Chicago Lakefront Protection Ordinance, no new above-ground structures will be permitted in this parcel with the exception of accessory buildings.

The applicant has conveyed and dedicated to the City, at no cost, and free and clear of all encumbrances, the Air-Rights Parcel identified as Parcel 5, for purposes of construction by the City of a platform deck/park over the Metra facilities. The applicant shall also convey and dedicate such easements or other interests as may be necessary for the construction of the deck structure, including easements for columns, caissons, beams, footings, etcetera. The applicant and the City shall use best and reasonable efforts to coordinate the design and elevation of structures and open spaces on Parcels 2 and 4 located within Master Plan II and of open spaces in the Restricted Development Zones adjacent to the deck with the design of the deck and park space in order to provide convenient access to the park from buildings and from public and private rights-of-way.

The park will feature a greenway with pathways for pedestrian and bicycle use that will facilitate access between the developing and surrounding neighborhood and adjacent lakefront parks. Pathways will also be available for park district service or emergency

vehicle use. The character and amenities of the park will complement the architecture and urban design of both the Museum Campus and the Central Station development. In addition, Master Plan II shall make provision for the Lakefront Busway Project. The applicant has conveyed and dedicated to the City at no cost, and free and clear of all encumbrances save and except for the conditions, restrictions and obligations contained in the conveyance documents, the property necessary for the purposes of completing the Lakefront Busway Project.

In addition, the applicant has dedicated and conveyed, at no cost, and free and clear of all encumbrances save and except for the conditions, restrictions and obligations contained in the conveyance documents, such easements or other interests in its adjoining property as are necessary and appropriate for the Lakefront Busway Project, including the City's replacement and rehabilitation of the pedestrian and Metra station access bridge at approximately 15th Street.

Upon such dedication and conveyance, C.D.O.T. shall, in conjunction with the construction of the busway, provide decorative metal fencing along the western edge of the busway adjacent to Parcels 2 and 4, consistent with the Lakefront Protection Ordinance application for the Busway Project that was approved by the Plan Commission on March II, 1999.

9. Each year, no later than each anniversary date of the original adoption of this planned development (July 31, 1990), the applicant shall file an annual development report with the Commissioner of the Department of Planning and Development (the "Commissioner"). The report shall, at a minimum, contain the following information related to the property:
 - (1) the number of square feet of construction completed, under construction or approved for construction, identifying also the type of use and location;
 - (2) percentage occupancy of each structure;
 - (3) construction/development anticipated within the following year;
 - (4) status of all public improvements; and
 - (5) traffic Mitigation Report which shall contain a report and analysis of traffic volumes and public transportation use upon the property in accordance with traffic analysis industry standards.
10. The applicant and the City anticipate the use of public funds or public financial participation for certain infrastructure improvements, which may include among other things, the Public Improvements described in Statement 11, within or in the vicinity of the property. Therefore, the City will use its best efforts, solely to the extent it deems appropriate, to evaluate the appropriateness of using public funds for the aforesaid Public Improvements. In the event that the City determines such public funding to be

appropriate, the City and the applicant will use their best efforts to cooperate in the consideration of entering into a redevelopment agreement or other agreement which will address the schedule and manner in which those public funds are to be used or public financial participation is to be applied and may also address other tax incentives from other governmental bodies and coordinate those programs with infrastructure improvements. Said agreement may also address implementation of public and private improvements, land acquisitions, dispositions, additional traffic mitigation activities and other matters related to the orderly development of the property so long as said agreement is not inconsistent with this planned development, the Guidelines or any approved Master Plans.

Notwithstanding the above, this does not constitute a public financing commitment by the City for any of the infrastructure improvements nor does it constitute a commitment by the City to execute any agreement for such funding.

The applicant shall be allowed to develop the property in accordance with all other applicable terms and provisions of this planned development, whether or not such a redevelopment agreement or other agreement is executed by the applicant and the City, or whether or not public funds or public financing participation of any kind is obtained or available.

Any infrastructure costs advanced by the applicant prior to an execution of the redevelopment agreement and prior to the granting of any forms of tax relief or tax increment financing shall not impair the applicant's eligibility to request such forms of relief from local, state or federal agencies or impair the applicant's ability to request reimbursement from said agencies for costs advanced by the applicant; provided however that such relief, reimbursement and requests are not in conflict with any applicable laws.

The applicant shall construct the townhomes along the east elevation of the building known as One Museum Park East at such time that the adjacent decks spanning the railroad tracks are constructed by the City of Chicago.

11. The property which is the subject of this planned development is a large tract of land located within the City's South Loop area and is currently partially improved. Some, but not all, Public Improvements and services (the "Public Improvements") such as roads, utilities and parks as hereinafter provided exist upon or near the property to serve the development contemplated by this planned development. The applicant and the City acknowledge that the development of the property contemplated by this planned development necessitates that Public Improvements must exist in order to accommodate the expected impact of such development on the public health, safety and welfare. The applicant further acknowledges that this planned development is adopted based upon the City's requirement that development of the property or portion thereof shall be allowed only if, and to the extent that, such development is accompanied by the necessary Public Improvements as provided for hereinafter.

The description of the Public Improvements necessary or appropriate in connection with construction or development upon the property, including the type, location and extent of such Public Improvements, shall be contained in the Master Plan applicable to the portion or portions of the property upon which the construction or development is to be undertaken. Master Plans shall be adopted for each of the following subareas: (1) Subarea A fee property; (2) Subarea B fee property; (3) Subarea C air-rights; and (4) the air-rights property of Subareas A and B. No application for Site Plan approval or for Part II Approval shall be granted until and unless the property subject to such application is contained within the boundaries of an approved Master Plan. Master Plans are intended to implement the provisions of this planned development and, following approval as provided herein, shall have the same force and effect as this planned development.

The Chicago Plan Commission shall be responsible for the review, approval or disapproval of Master Plans in the manner provided herein. Applications for Master Plan approval shall be filed with the Department of Planning and Development (the "Department") and the Department shall prepare and file a written report in accordance with the provisions hereof. The Plan Commission, as well as the Department, may adopt such rules or procedures as either finds appropriate to carry out their respective responsibilities under this planned development.

After submission of an application for Master Plan approval, together with all required documentation hereinafter described, a Master Plan shall be considered for approval by the Plan Commission in a public meeting. Such meeting shall be held only following: (1) the publication of adequate notice thereof in the manner provided for in Section 17-13-0107 of the Chicago Zoning Ordinance and (2) the filing with the Plan Commission of a written report prepared by the Commissioner which shall include the Commissioner's findings and recommendations with regard to the proposed Master Plan. The Commissioner's report, together with the Master Plan substantially in the form to be acted upon by the Plan Commission, shall be made available to the general public five (5) days before the Commission meeting. Said public meeting shall be held within ninety (90) days following the filing of a complete application for Master Plan approval. An application shall be complete when all materials necessary for review and approval have been submitted. The Commissioner or the applicant may elect to extend the aforesaid ninety (90) day period where appropriate providing that such extension period does not exceed thirty (30) days. The Commission shall make a determination within the time hereinabove prescribed or as may be extended. The City and the applicant shall cooperate to process the consideration of approval of any Master Plan in an expeditious manner. Failure of the Commission to make a determination within the time hereinabove prescribed shall be deemed a disapproval. The decision of the Plan Commission on a Master Plan shall be final.

Master Plans may include both narrative and graphic information. A Master Plan shall demonstrate the parameters for all future development within the boundaries of the Master Plan. Said parameters shall be arranged and depicted in such format and manner as the Commissioner reasonably determines to be appropriate in order to best facilitate the administration of the development approval of the subject property.

Changes or modifications to Site Plans may be made after approval of the Commissioner, so long as the Site Plan, as so changed or modified, substantially conforms with the approved applicable Master Plan and with the other provisions of this planned development. In the event of any inconsistency between an approved Site Plan or any permitted modifications thereto and the terms of the Master Plan in effect at the time of approval of such Site Plan or of the modification thereto, then the terms of the Master Plan shall govern.
