FOR APPROVAL: PROPOSED COMMERCIAL MANUFACTURING PLANNED DEVELOPMENT (APPLICATION NO. 18288)

**LOCATION: 400-448 WEST 18th STREET; 1701-1735 SOUTH CANAL STREET;
1700-1734/1717-1735 SOUTH STEWART AVENUE**

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation regarding a proposed Commercial Manufacturing Planned Development for your review and recommendation to the Chicago City Council. The application for the amendment to the Zoning Ordinance was introduced into the City Council on March 18, 2015. Proper legal notice of the public hearing on the application was published in the Chicago Sun-Times on December 2, 2015. The Applicant was separately notified of this hearing.

The Applicant, New Chinatown Real Estate, LLC, is seeking approval to establish a Commercial Manufacturing Planned Development. The Applicant is seeking approval of the proposed Planned Development in order to permit the construction of an approximately 47,000 square foot wholesale/retail grocery store and accessory parking on a 118,997 square foot site. This development is being submitted by the Applicant as a mandatory Planned Development, pursuant to Section 17-8-0510-D of the Chicago Zoning Ordinance, which states that Planned Development review and approval is required when the proposal involves any commercial development with a net site area of two acres or more in a PMD (Planned Manufacturing District) B subdistrict.

SITE AND AREA DESCRIPTION

The subject property is located in the Lower West Side Community Area on the city's (near) Southwest Side. The site is not located within either the Lake Michigan and Chicago Lakefront Protection District or a Chicago Landmark District, nor does it contain a designated local landmark structure or site. The site is located within the Pilsen Industrial Corridor Tax Increment Financing District.

The subject property is generally bounded by South Canal Street on the west, West 18th Street on the south, West 17th Street on the north and private property on the east. The gross site area of the planned development is 177,220 square feet and includes portions of

the public rights of way surrounding the site as well as a portion of South Stewart Avenue, which bifurcates the site into an east and west portion. After netting out the public rights of way, the net site area of the property is 118,997 square feet.

The site itself varies in grade somewhat, especially from east to west. More importantly though, the site is constrained by the grade change along 18th Street, which slopes up to the east, as the 18th Street bridge crosses the South Branch of the Chicago River. This creates an effective grade change from the sidewalk level of over 16 feet on the parcel east of South Stewart Avenue. The site currently consists of vacant land.

The subject property is currently zoned PMD (Planned Manufacturing District) 11, Subdistrict B. PMD 11 is known as the Pilsen Planned Manufacturing District and the subject site is located in the northernmost area of the PMD. In total, PMD 11 is approximately 1070 acres in size, extending more or less along both sides of the Chicago River between South Western Avenue and South Stewart Avenue.

The properties immediately surrounding the subject site, to the north, east, south and southwest, are also zoned PMD 11B. The properties directly to the west, across South Canal Street, are outside of the PMD boundary and are zoned C3-3 (Commercial, Manufacturing and Employment District). Land uses in the area generally include industrial and commercial. Businesses in the area are involved in warehousing, packaging and distribution, among other activities.

The closest public transit to the site is the Chicago Transit Authority's (CTA) Halsted bus, approximately ½ mile to the west. Protected bike lanes are in place along West 18th Street at the subject site.

PROJECT DESCRIPTION

The Applicant is proposing to establish a one-story commercial building, surface parking area and landscaping on the portion of the site west of South Stewart Avenue. The portion of the site east of South Stewart Avenue will be devoted to additional parking. Specifically, the proposed project includes a total of approximately 47,000 square feet of new commercial space which will include a retail/wholesale grocery store. The project will accommodate parking for approximately 153 automobiles.

DESIGN

The site is being designed with the building set back significantly from 18th Street (approximately 147 feet). This will allow the surface parking area to be located to the front of the building. It should be noted that the Applicant explored a site design with the building holding the corner at West 18th/South Canal but the grade change of the site and the associated impacts on loading, general vehicular access and store layout precluded this option.

The one-story structure will be clad with brick, metal panels, window walls and glass. The north, east and west elevations are essentially composed of brick while the southwest

corner of the building will include a significant glass window wall system. The south elevation will include a more significant window wall system and metal panel system integrated into a unified façade. The main entrance for the building will be on the south elevation and will consist of a glass window wall “tower.”

The building will not be setback at all along South Canal Street or South Stewart Avenue and minimally along West 17th Street. The setback on West 17th Street is designed to primarily serve the loading function of the building. The height of the structure will not exceed 33 feet.

LANDSCAPING

The parking areas planned for the site will include internal shade trees and landscaped islands in the form of new shade trees. The entire development will meet the requirements of the Landscape Ordinance.

ACCESS/CIRCULATION

The main vehicular access to the site will be via new access drives along South Canal Street and South Stewart Avenue. These access points will be located immediately south of the building, approximately 140 feet north of West 18th Street. The parking area located to the east of South Stewart Avenue will be accessed via a new access point along South Stewart Avenue. No curb cuts are planned along West 18th Street itself. The parking areas, combined, will accommodate approximately 153 automobiles.

Loading for the site will be performed at the rear of the building, accessed via South Stewart Avenue. Two loading berths will be provided on the site, 10 by 50 feet each.

Pedestrian access to the site will be enhanced by improvements to the sidewalks and a direct connection from the building entrance to South Canal Street and South Stewart Avenue. An additional pedestrian access “switchback” to the parking lot on the east will be provided to accommodate the significant grade change at this location. The project will accommodate spaces for 30 bicycles.

SUSTAINABILITY

The project will meet the City of Chicago’s sustainable development policy for planned developments. The project will incorporate a green roof equal to 50% of the net roof area or approximately 20,000 square feet. In addition, the entire project will achieve LEED certification.

BULK/USE/DENSITY

The proposed maximum Floor Area Ratio for this Commercial Manufacturing Planned Development will be 1.0, which is less than the 3.0 maximum allowed under PMD (Planned Manufacturing District) 11. The proposed maximum allowable zoning height of the building

will be 33 feet. This Planned Development proposes allowance of general retail sales, food and beverage retail sales, eating and drinking establishments, accessory and non-accessory parking and accessory uses, in accordance with the proposed Planned Development Statements.

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant and compared this proposal to existing development in the community. The area around this project is a mix of commercial and planned manufacturing zoning districts and the project represents an opportunity to establish a wholesale/retail grocery store in this area and appropriately add new development to Planned Manufacturing District 11.

Based on that analysis, the Department of Planning and Development has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. The project meets the purpose and criteria set forth in Chapter 17-8 of the Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare. Specifically, this project meets the following provisions of Chapter 17-8:
 - a. The project incorporates separate and distinct pedestrian pathways to connect adjacent public sidewalks and parking areas with building entrances (per 17-8-0904-C6) as evidenced by the project's parking lot design which facilitates pedestrian movements to the proposed building;
 - b. The project promotes the safe and efficient circulation of pedestrians, cyclists and motor vehicles (per 17-8-0904-A1) as evidenced by the location of vehicular access points, truck loading areas and pedestrians walkways; and
 - c. All sides and areas of the buildings that are visible to the public are treated with materials, finishes and architectural details that are of high-quality and appropriate for use on primary street-facing façade (17-8-0907-A-4), as evidenced through the material callouts in this report and on the elevations.
2. The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy. The proposed project has been reviewed by the Mayor's Office for People with Disabilities and the Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and no comments have been received which have not been addressed in the application.
3. The project will comply with the requirements for access in case of fire and other emergencies.

Based on the foregoing, it is the recommendation of the Department of Planning and

Development that this application for a Commercial Manufacturing Planned Development be approved and that the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be "Passage Recommended".
