WATERWAY RESIDENTIAL-BUSINESS PLANNED DEVELOPMENT NO.

1. The area delineated herein as Waterway Residential-Business Planned Development Number (the "Planned Development" or "PD") consists of approximately 941,864.61 square feet of net site area (21.62 acres) together with certain portions of adjacent rights-of-way, which is depicted on the attached Planned Development Property Line and Boundary Map (the "Property"). Fleet Portfolio, LLC is the owner of a portion of the Property and the "Applicant" for this Planned Development pursuant to authorization from the owners of the remainder of the Property.
2. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the Applicant, its successors and assigns and, if different than the Applicant, the legal title holders and any ground lessors. All rights granted hereunder to the Applicant shall inure to the benefit

of the Applicant's successors and assigns and, if different than the Applicant, the legal title holder and any ground lessors. Furthermore, pursuant to the requirements of Section 17-8-0400 of the Chicago Zoning Ordinance, the Property, at the time of application for amendments, modifications or changes (administrative, legislative or otherwise) to this Planned Development are made, shall be under single ownership or designated control. Single designated control for purposes of this statement shall mean that any application to the City for any amendment to this Planned Development or any other modification or change thereto (administrative, legislative or otherwise) shall be made or authorized by all the owners of the Property and any ground/air-rights lessors of the Property, subject, however, to the following exceptions and conditions: (a) any changes or modifications to this Planned Development applicable to or in a given subarea need only be made or authorized by the owners and/or any ground/air-rights lessors of such subarea; provided, however, that, for so long as the Applicant or any affiliate thereof owns or controls any part of the Property, any application to the City for any such changes or modifications (administrative, legislative or otherwise) must in all cases be additionally authorized by the Applicant, (b) where portions of the improvements located on the Property have been submitted to the Illinois Condominium Property Act, the term "owner" shall be deemed to refer solely to the condominium association of the owners of such portions of the improvements and not to the individual unit owners therein and (c) for so long as the Applicant or any affiliate thereof owns or controls any part of the Property, such entity may apply for any changes or modifications (administrative, legislative or otherwise) without the consent of any other owner or owners. Nothing herein shall prohibit or in any way restrict the alienation, sale or any other transfer of all or any portion of the Property or any rights, interests or obligations therein including any ground or air-rights leases. Upon any alienation, sale or any other transfer of all or any portion of the Property or the rights therein including any ground or air-rights leases (but not including an assignment or transfer of rights pursuant to a mortgage or otherwise as collateral for any indebtedness) and solely with respect to the portion of the Property so transferred the term "Applicant" shall be deemed amended to apply

Applicant: Fleet Portfolio, LLC
Address: 1300-1328 & 1301-1349 West Concord Place / 1624-1698 & 1653-1727 North Throop Street / 1696-1698, 1627-1649 & 1663-1699 North Ada Street / 1301-1405 West Wabansia Street, Chicago, Illinois
Introduced: July 25, 2018
Plan Commission: January 24, 2019

to the transferee thereof (and its beneficiaries if such transferee is a land trust) and the seller or transferor thereof (and its beneficiaries if such seller or transferor is a land trust) shall thereafter be released from any and all obligations or liability hereunder; provided, however that the Applicant's right to authorize changes or modifications to this Planned Development for so long as it owns or controls all or any portion of the Property as set forth in clauses (a) or (c) of this Statement Number 2 above shall not be deemed amended or transferred to apply to a transferee (or its beneficiaries as aforesaid) unless expressly assigned in a written instrument executed by the original Applicant hereunder.

3. All applicable official reviews, approvals or permits are required to be obtained by the Applicant or its successors, assignees or grantees. Any dedication or vacation of streets or alleys or grants of easements or any adjustment of the right-of-way shall require a separate submittal to the Department of Transportation ("CDOT") on behalf of the Applicant or its successors, assigns or grantees. Proposed right-of-way adjustments are shown in the attached "Right of Way Adjustment Map," including the proposed dedication of approximately 123,892 square feet of new right-of-way and the vacation of approximately 31,903 square feet of unimproved existing right-of-way (provided, such figures may be modified as such right-of-way adjustments are finalized and, accordingly, modifications to the public right-of-way and net site area calculations shall be made to the Bulk Table, pursuant to the Minor Change provisions of Section 17-13-0611). To the extent CDOT determines that compensation is payable to the City by the Applicant for existing right-of-way to be vacated, the Applicant shall receive credit on a square footage basis for all right-of-way to be dedicated in determining such compensation.

Any requests for grants of privilege, or any items encroaching on the public way, shall be in compliance with the Planned Development.

Ingress or egress shall be pursuant to the Planned Development and may be subject to the review and approval of the Department of Planning and Development ("DPD") and CDOT. Closure of all or any public street or alley during demolition or construction shall be subject to the review and approval of CDOT.

All work proposed in the public way must be designed and constructed in accordance with CDOT Construction Standards for Work in the Public Way and in compliance with the Municipal Code of Chicago.

Prior to issuance of any Site Plan Approval as contemplated by Statement 15, the Applicant shall submit a site plan and updated traffic study that contemplates the full extent of the proposed development reflected in such site plan and which details the anticipated vehicular and pedestrian impact of such project on both the subject site and area infrastructure. Each site plan approval shall also include review of public transit and active transportation

Applicant: Fleet Portfolio. LLC
Address: 1300-1328 & 1301-1349 West Concord Place / 1624-1698 & 1653-1727 North Throop Street / 1696-1698, 1627-1649 , & 1663-1699 North Ada Street / 1301-1405 West Wabansia Street, Chicago, Illinois

infrastructure, which may include Metra and CTA capacity, Divvy, public bike parking, or any and all other public transit or active transportation amenities that may become available. Review and

approval of such traffic study by CDOT is intended to ensure that the proposed development will not establish an improperly mitigated burden on the existing infrastructure. Further, the Applicant shall cooperate with CDOT to ensure the site plan is consistent with surrounding public way and CDOT plans. The study and site plan shall detail the specific improvements and necessary infrastructure upgrades, which shall be incorporated into the Site Plan Approval. Accordingly, the Applicant or its successors and assigns, agrees to fund the design and installation of the traffic improvements identified by the study at its sole cost. This may include, but is not limited to:

- Installation of traffic signal improvements including ATC Controllers, Super P Cabinets, LED signal heads, and pedestrian countdown timers;
- Smart signal technology including: Signal actuation, network connection, Transit Signal Priority capability, and ongoing data collection for detecting changing traffic patterns;
- Improvements/modifications along various area streets and at various area intersections, including capacity upgrades and traffic control enhancements;
- Establishment of new water taxi station(s);
- Addition of new bike lanes to be incorporated along many of the streets

The conceptual phasing for the installation of traffic improvements warranted as part of this Planned Development is currently anticipated to proceed as set forth below; provided, however, that the Applicant shall have the right to modify the development phasing set forth herein. CDOT and the Applicant shall reasonably cooperate on the final design, scope and timing of the infrastructure, which shall be modified to reflect the updated traffic studies contemplated by this Statement 3. The Applicant shall reasonably cooperate with CDOT and DPD in implementing such improvements; provided, any delays in such implementation, including as a result of the need to acquire interests in property not owned by the Applicant, shall not unreasonably delay issuance of Part II Approvals for improvements within the Planned Development.

- Development Phase: Subareas E and F
Infrastructure: Dominick Bridge (river crossing); Dominick (new street and utilities, river to Throop); Throop/Dominick/Wabansia/Concord/Ada (adjacent existing streetscape upgrades)
- Development Phase: Subarea A
Infrastructure: Willow (new street and utilities, Throop to Dominick; existing streetscape upgrade, Elston to Throop)
- Development Phase: Subareas C, D and G

Applicant: Fleet Portfolio, LLC

EASTM 57615740.9

Infrastructure: Concord (new street and utilities, Dominick to river)

As part of the implementation of the North Branch Framework land use plan, CDOT and DPD shall provide annual reports to the City Council for subject matter referral to the Committee on Transportation regarding traffic improvements made to-date. The Applicant shall reasonably cooperate with CDOT and

DPD in gathering information for such reports, including by providing updated traffic studies, reflecting projected and actual traffic counts and the status of infrastructure construction.

Prior to Part II approval, the Applicant shall enter into a negotiated Perimeter Restoration Agreement ("Agreement") by and between CDOT's Division of Infrastructure Management and the Applicant, pursuant to which the Applicant shall provide improvements and restoration of all public way adjacent to the then-applicable Property, which may include, but not be limited to, the following as shall be reviewed and determined by CDOT's Division of Infrastructure Management:

- Full width of streets
- Full width of alleys
- Curb and gutter
- Pavement markings
- Sidewalks
- ADA crosswalk ramps
- Parkway & landscaping

The Agreement must be executed prior to any CDOT and DPD Part II review permitting. The Agreement shall reflect that all work must comply with current Rules and Regulations and must be designed and constructed in accordance with the CDOT's Construction Standards for work in the Public Way and in compliance with the Municipal Code of Chicago Chapter 10-20. Design of said improvements should follow CDOT's Rules and Regulations for Construction in the Public Way and Street and Site Plan Design Guidelines, provided that such improvements may (be completed in an interim/temporary condition pending construction of future phases. Any variation in scope or design of public way improvements and restoration must be approved by CDOT.

4. This Planned Development consists of Statements; a Bulk Regulations Table; an Existing Land Use Map; a Planned Development Property Line and Boundary Map; an Existing Zoning Map; a Right-of-Way Adjustment Map; a Planned Development Subarea Map; a Planned Development Parcels Map; a Planned Development Site Plan and Design Guidelines prepared by Skidmore, Owings & Merrill LLP and dated January 24, 2019 submitted herein (collectively, the "Plans"). In any instance where a provision of this Planned Development

Applicant: Fleet Portfolio, LLC
Address: 1300-1328 & 1301-1349 West Concord Place / 1624-1698 & 1653-1727 North Throop Street / 1696-1698, 1627-1649 & 1663-1699 North Ada Street / 1301-1405 West Wabansia Street, Chicago, Illinois

conflicts with the Chicago Building Code, the Building Code shall control. This Planned

Development conforms to the intent and purpose of the Chicago Zoning Ordinance, and all requirements thereto, and satisfies the established criteria for approval as a Planned Development. In case of a conflict between the terms of this Planned -Development Ordinance and the Chicago Zoning Ordinance, this Planned Development shall control.

5. The following uses are permitted in the area delineated herein as a Planned Development : Artist and Business Live/Work Space (on and above the ground floor), Multi-Unit Residential (on and above the ground floor), Single-Room Occupancy, Group Living (including Elderly Housing, Assisted Living, Nursing Home, Student Housing), Detached Houses, Townhouse, Colleges and Universities, Cultural Exhibits and Libraries, Day Care, Hospital, Lodge or Private Club, Parks and Recreation (including, without limitation, community garden and community centers, recreation buildings and similar assembly uses), Postal Service, Public Safety Services, Religious Assembly, School, Minor and Major Utilities and Services, Animal Services, Artist Work or Sales Space, Body Art Services, Building Maintenance Services, Business Support Services (including day labor employment agency), Urban Farms (indoor, outdoor and rooftop), Communication Service Establishment, Building Material Sales, Contractor/Construction Storage Yard, Drive-Through Facility, Eating and Drinking Establishments (all), Entertainment and Spectator Sports (including, without limitation, indoor special event, banquet or meeting halls and small, medium and large venues), Financial Services (excluding payday loan and pawn shops), Food and Beverage Retail Sales (including liquor sales), Lodging (including bed and breakfast, hotel/motel, vacation rental and shared housing unit), Medical Service, Office (including electronic data storage center), Accessory and Non-Accessory Parking, Personal Service, Repair or Laundry Service (Consumer), Residential Storage Warehouse, Retail Sales, Indoor/Outdoor Participant Sports and Recreation, Amusement Arcade, Children's Play Center, Auto Supply/Accessory Sales, Car Wash or Cleaning Service, Light Equipment Sales/Rental (indoor and outdoor), Co-located Wireless Communication Facilities, Business Live/Work Units, Artisan, Limited and General Manufacturing, accessory and incidental uses, and additional uses established by the Zoning Ordinance after the date of establishment of this Planned Development that are consistent with the character of the development, as determined and approved by the Zoning Administrator in accordance with Statement 12.

Public Place of Amusement (PPA) licenses within this Planned Development shall be limited to a maximum aggregate capacity of 7,000 people, provided (i) no single PPA license shall allow for a capacity of over 1,500 people except that Subarea C may contain one venue with a capacity not to exceed 4,500 people, and (ii) no more than 65% of such overall PPA licensed occupancy capacity shall be permitted in any one subarea. Upon the review and approval by the Commissioner of DPD, the foregoing PPA capacity limitations shall not apply to temporary festivals and events in this Planned Development.

Applicant: Fleet Portfolio, LLC
Address- 1300-1328 & 1301-1349 West Concord Place / 1624-1698 & 1653-1727 North Throop Street / 1696-1698, 1627-1649 & 1663-1699 North Ada Street / 1301-1405 West Wabansia Street, Chicago, Illinois
Introduced- July 25, 2018
Plan Commission January 24, 2019

At the request of the Applicant and in spite of this not being a defined term or permitted use in the Chicago Zoning Ordinance as of the date of the establishment of this Planned Development, a casino or other similar gaming or wagering facilities will not be allowed.

Open Space

Notwithstanding the foregoing permitted uses, the following uses are permitted in the Park (as defined in Statement 18): Daycare, Parks and Recreation, Arboretums and Botanical Gardens, Band Shells and Outdoor Theaters, Batting Cage, Beaches, Canoe/Boat Launch, Community Center, Recreation Building and Similar Assembly Use, Community Garden, Conservatories and Greenhouses, Dog Park, Fishing Pier, Forest or Nature Preserve, Harbor Facilities, Ice Skating Rink (indoor and outdoor), Marinas, Miniature Golf, Passive Open Space, Playgrounds including water play areas, Playing Courts (basketball, volleyball, etc.), Playing Fields (baseball, soccer, etc.), Skate Park, Swimming Pools, Tennis Courts (indoor and outdoor), Trails for Hiking, Bicycling, or Running, Cultural Exhibits and Libraries, ' Minor Utility Service, Food and Beverage Retail Sales (including liquor sales), General Retail Sales, Eating and Drinking Establishments (all), Field house, locker rooms or similar buildings that support primary outdoor recreation areas, Kiosks, Accessory Off-Street Parking, Restrooms, Storage and Maintenance Areas/Buildings, Temporary Uses, Wireless Communication Facilities (Co-located and Freestanding), additional uses not listed above when approved as an administrative adjustment, and accessory and incidental uses.

6. On-Premise signs and temporary signs, such as construction and marketing signs, shall be permitted within the Planned Development, subject to the review and approval of the Department of Planning and Development. Off-Premise signs are prohibited within the boundary of the Planned Development.
7. For purposes of height measurement, the definitions in the Chicago Zoning Ordinance shall apply. The height of any building shall also be subject to height limitations, if any, established by the Federal Aviation Administration.
8. The permitted Floor Area Ratio (FAR) identified in the Bulk Regulations Table has been determined using a Net Site Area of 941,864.61 square feet of net site area and a base FAR of 3.0. The improvements to be constructed on the Property will be subject to the North Branch Corridor Overlay Subdistrict A floor area bonus criteria as more specifically described in Section 17-7-0407 and other referenced portions of the Municipal Code of Chicago.

The bonus payment will be split between two funds, as follows: 70% to the North Branch Corridor Bonus Fund and 30% to the Industrial Corridor System Fund. In lieu of paying the City directly, the Department may: (a) direct developers to deposit a portion of the funds with

a sister agency to finance specific local improvement projects or (b) approve proposals for in-kind improvements in furtherance of the goals in the North Branch Framework land use plan.

In this case, DPD has approved the Applicant's proposal to utilize the North Branch Corridor Bonus Funds towards public open space improvements and the extension of the Bloomingdale Trail/606 (the "Projects"). The Applicant shall receive a credit towards the North Branch Corridor Bonus for previous expenditures related to the Projects upon delivery of documentation of such payments to DPD. Future additional Project costs and projects may be approved by DPD. For such Projects, the Applicant shall enter into an agreement with DPD specifying the type of improvements to be provided, the value of the improvements, the timeline for completion of the improvements, and any other terms or conditions the DPD Commissioner (the "Commissioner") deems necessary or desirable. The Applicant shall submit detailed site-specific cost estimates for the Projects, drawings, detailed construction commitments, a construction schedule, and a performance bond for completion of the Projects. The agreement must be in a form approved by the Corporation Counsel. The Applicant shall construct the Projects in accordance with the requirements of Sec. 17-7-0407-H.

9. Upon review and determination, Part II review, pursuant to Section 17-13-0610, a Part II review fee shall be assessed by DPD. The fee, as determined by staff at the time, is final and binding on the Applicant and must be paid, to the Department of Revenue prior to the issuance of any Part II approval.
10. The Open Space & Landscape Plan shall be in substantial conformance with the Landscape Ordinance and any other corresponding regulations and guidelines, including Section 17-13-0800. Final landscape plan review and approval will be by DPD. Any interim reviews associated with site plan review or Part II reviews are conditional until final Part II approval.
11. The Applicant shall comply with Rules and Regulations for the Maintenance of Stockpiles promulgated by the Commissioners of the Departments of Streets and Sanitation, Fleet and Facility Management and Buildings, under Section 13-32-085, or any other provision of the Municipal Code of Chicago.
12. The terms and conditions of development under this Planned Development ordinance including, without limitations, modifications to the exhibits and design guidelines, may be modified administratively, pursuant to Section 17-13-0611-A, by the Zoning Administrator upon the application for such a modification by the Applicant, its successors and assigns and, if different than the Applicant, the legal title holders and any ground lessors. It is hereby acknowledged that many of elements of the exhibits and design guidelines including, but not limited to, sections and access, circulation and open space plans, are illustrative and may

EASTU 57615740.9

Final for Publication

change as the Property is developed. Such modifications shall be permitted if approved by the Zoning Administrator pursuant to Section 17-13-0611-A.

13. The Applicant acknowledges that it is in the public interest to design, construct, renovate and maintain the project in a manner which promotes, enables and maximizes universal access throughout the Property. Plans for all buildings and improvements on the Property shall be reviewed and approved by the Mayor's Office for People with Disabilities to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility.
14. The Applicant acknowledges that it is in the public interest to design, construct and maintain all buildings in a manner that provides healthier indoor environments, reduces operating costs and conserves energy and natural resources. The Applicant shall obtain the number of points necessary to meet the requirements of the Chicago Sustainable Development Policy, in effect at the time the Part II review process is initiated for each improvement that is subject to the aforementioned Policy and must provide documentation verifying compliance.
15. Prior to the Part II approval (Section 17-13-0610 of the Chicago Zoning Ordinance) for any buildings, the Applicant shall submit a site plan, landscape plan and building elevations (a "Site Plan Submittal") for the specific Sub-Area(s) or portion of specific Sub-Area(s) for review and approval by DPD (each, a "Site Plan Approval"). Upon submittal, DPD and the Applicant shall notify of the Alderman of the ward in which a Site Plan Submittal is located and, in conjunction with such Site Plan Submittal, the Applicant shall be subject to a public review process that is facilitated by such Alderman. Review and approval by DPD is intended to assure that specific development components substantially conform with the Planned Development and to assist the City in monitoring ongoing development, including the development of the riverwalk and Park as set forth in Statement 18. Site Plan Submittals (Section 17-13-0800) need only include that portion of the Property for which approval is being sought by the Applicant. If the Applicant is seeking approval for a portion of the Property that represents less than an entire Sub-Area, only a Site Plan Submittal for such portion of the Property shall be required.

Provided the Site Plan Submittal required hereunder is in general conformance with this Planned Development and the Design Guidelines, and provided Applicant has timely provided all Site Plan Submittals, the Commissioner shall issue such Site Plan Approval and the Plan Commission shall conduct its review hearing of the Site Plan Submittal. Following approval by DPD, the approved Site Plan Approval, supporting data and materials shall be made part of the main file and shall be deemed to be an integral part of the PD.

Site Plan Submittals shall include all other information necessary to illustrate substantial conformance to the PD and Design Guidelines.

16. Subject in all cases to the other statements, terms, regulations and provisions of this Planned Development, the Applicant shall have the right to designate additional subareas within the Planned Development from time to time in order to promote orderly development, to facilitate financing, acquisition, leasing or disposition of the Property or relevant portions thereof, to designate zoning control or to otherwise administer this Planned Development. The designation and re-designation of subareas shall not in and of itself require an amendment to this Planned Development and shall be approved as a minor change, pursuant to Section 17-13-0611; included in such minor change, the Applicant shall provide notice of all material terms of any such designation to DPD, including the designated area and the bulk regulations that will apply therein, for DPD's administrative purposes to facilitate Part II review for any such designated subarea. In furtherance of the foregoing, and in all cases subject to the other statements, terms, regulations and provisions of this Planned Development, the Applicant may allocate or assign previously unused development rights under the Planned Development from other designated or to be designated subareas including, but not limited to, floor area and floor area ratio, signage, building height, dwelling units and parking; provided, however, that (i) no allocated floor area per subarea may be exceeded by more than 50% above the originally approved levels, (ii) the overall regulations and limitations set forth in the Bulk Regulations and Data Table and the Plans applicable to the entirety of the Planned Development shall not be exceeded or increased as a result of any such allocation(s) or assignment(s), and (iii) all such allocation(s) or assignment(s) of development rights are subject to the terms of Section 17-13-0611 and the Design Guidelines of this Planned Development.
17. The Applicant acknowledges and agrees that the rezoning of the Property from the M3-3 Heavy Industry District to the C2-3 Motor Vehicle-Related Commercial District, and then to this Planned Development, triggers the requirements of Section 2-44-080 of the Municipal Code of Chicago ("Affordable Requirements Ordinance" or "ARO"). The Applicant for this Planned Development ("Lincoln Yards South") shares common ownership with the applicant for the adjacent planned development ("Lincoln Yards North," and together with Lincoln Yards South, "Lincoln Yards"), and it is expected that TIF assistance may be used in connection with the construction of public improvements and related TIF expenditures that may facilitate both projects. Accordingly, the Applicant acknowledges and agrees that both projects will be subject to the special requirements for TIF-financed projects in the ARO. Any developer of a "residential housing project" within the meaning of the ARO must: (i) set aside 20% of the housing units in the residential housing project

("ARO Units") as affordable units if the project receives TIF assistance, or with the approval of the Commissioner of the Department of Housing ("DOH") and the Commissioner of DPD (together, for purposes of this Statement 17 only, the "Commissioner"), provide the ARO Units in an approved off-site

10

EASTM 57615740.9

location; (ii) pay a fee in lieu of the development of the ARO Units; or (iii) any combination of (i) and (ii); provided, however, that residential housing projects with 20 or more units must provide at least 25% of the ARO Units on-site or off-site ("Required Units"). The Planned Development permits the construction of a maximum of 2,500 residential units. If the Applicant constructs the maximum number of units permitted hereunder, the Applicant's affordable housing obligation is 500 ARO Units (20% of 2,500), 125 of which are Required Units (25% of 500).

Due to the scale of this Planned Development, and its anticipated local and regional impacts, the City and the Applicant have agreed to establish modified affordable housing requirements. Except as modified herein, the requirements in Section 2-44-080 shall remain in full force and effect.

a) On-Site Unit Requirement. The Applicant has agreed to provide 50% of the overall ARO Unit requirement for Lincoln Yards (North and South) anywhere in Lincoln Yards, provided that on-site ARO Units must be reasonably dispersed throughout the two planned developments, such that no single building or floor therein has a disproportionate percentage of ARO Units in accordance with Section 2-44-080 (U)(1). The Applicant shall have the right to substitute on-site rental ARO Units for on-site owner-occupied ARO Units, provided the unit type, bedroom count, and square footage of such rental units are comparable to the owner-occupied units that would otherwise be required. Notwithstanding the foregoing, the Applicant agrees to provide reasonable consideration to providing on-site, owner-occupied ARO Units. To the extent that a rental building in Lincoln Yards accommodates ARO Units generated by an owner-occupied building, such rental building may include up to 40% ARO Units without violating Section 2-44-080 (U)(1). Pursuant to 2-44-080 (U) (7), on-site ARO Units must be constructed, completed, ready for occupancy, and marketed concurrently with or prior to the market rate units in a residential housing project or phase thereof. This means that, at any point in time, at least 10% of the total number of housing units (either constructed or under construction) in Lincoln Yards must be ARO Units. For example, if the Applicant receives a permit to build 100 units, the Applicant would be required to construct a minimum of 10 of the 100 units as ARO Units, calculated as follows: $100 \text{ housing units} * 20\% = 20 \text{ ARO Units} * 50\% = 10 \text{ ARO Units}$ (minimum on-site requirement). In this formula, 20% represents the ARO set-aside percentage for projects that receive TIF assistance, and 50% represents the minimum percentage of ARO Units the Applicant has agreed to provide on-site. A simplified expression of the above formula is $100 \text{ housing units} * 10\% = 10 \text{ ARO Units}$.

b) In-Lieu Fee Requirement. The Applicant has agreed to pay a fee in lieu of the development of 25% of the overall ARO Unit requirement for Lincoln Yards. This

(c)

(d)

Applicant: Address:

Introduced'

means that, at any point in time, the Applicant must pay the "in lieu fee" for at least 5% of the total number of housing units under permit. Using the above example, in order to receive a permit to build 100 units, the Applicant would be required to pay the "in lieu fee" for a minimum of 5 ARO Units, calculated as follows: $100 \text{ housing units} \times 20\% = 20 \text{ ARO Units} \times 25\% = 5 \text{ ARO Units}$ (minimum "in lieu" fee requirement). In this formula, 20% represents the ARO set-aside percentage for projects that receive TIF assistance, and 25% represents the minimum percentage of ARO Units for which the Applicant has agreed to pay the fee in lieu. A simplified expression of the above formula is $100 \text{ housing units} \times 5\% = 5 \text{ ARO Units}$ (minimum "in lieu" fee requirement).

Flexible Percentage. The Applicant may satisfy the remainder of its affordable housing obligation by any of the methods permitted under the ARO (on-site, off-site, or in lieu fee), provided that (i) the prohibition on rezoning for off-site units specified in Section 2-44-080 (V)(3) of the ARO shall not apply to off-site ARO Units; (ii) except as provided in (iii) below, the off-site ARO Units may be located within a three-mile radius from Lincoln Yards and within a low-moderate income area; and (iii) off-site owner-occupied ARO Units provided under subsection (d)(ii) below may be built anywhere in the City.

Off-Site Units. The Applicant may obtain credit for off-site ARO Units in two ways:

- i) First, the Applicant may undertake the development of new off-site ARO Units, or purchase and convert existing off-site market-rate units to ARO Units, as set forth in and in accordance with the ARO.
- ii) Second, with the Commissioner's approval, which approval shall be in the Commissioner's sole discretion, the Applicant agrees provide reasonable consideration to making a financial contribution ("Off-Site Payment") to a Third Party Developer (as hereinafter defined) for the creation of off-site ARO Units in a Third Party Affordable Housing Development (as hereinafter defined). The Applicant shall receive a credit for delivery of ARO Units in the amount of the sum of: (A) the number resulting from dividing the Off-Site Payment by the then-applicable "in lieu fee" for an ARO unit in the higher income district, and (B) the number resulting from multiplying the Remaining Affordable Units (as hereinafter defined) by a fraction, the numerator of which is the Off-Site Payment and the denominator of which is the total project budget for the Third Party Affordable Housing Development, including soft costs. The Applicant shall be deemed to have satisfied all requirements with respect to the creation of off-site ARO Units under this subsection (d)(ii) upon the closing of all financing for the construction of the Third Party Affordable Housing

Fleet Portfolio, LLC

1300-1328 & 1301-1349 West Concord Place / 1624-1698 & 1653-1727 North Throop Street / 1696-1698, 1627-1649 & 1663-1699 North Ada Street / 1301-1405 West Wabansia Street, Chicago, Illinois July 25, 2018 on: January 24, 2019

EASTM 57615740.9

Development, provided the Third Party Developer has executed and recorded a

regulatory agreement or other instrument obligating the Third Party Developer to use such financing to construct the Third Party Affordable Units. In order to receive a reduction in the amount of the in lieu fee pursuant to Section 2-44-080(F), the Applicant must provide at least 25% of the total ARO Unit requirement (or 125 units if the maximum number of 2,500 residential units is constructed in the Planned Development) to an authorized agency pursuant to 2-44-080 (Q).

As used herein, the following terms shall have the following meanings:

"In Lieu Fee Affordable Units" means the affordable units calculated pursuant to (d)(ii)(A) above.

"Third Party Affordable Housing Development" means a residential housing project where at least 20% of the housing units are Third Party Affordable Units, and which receives public financing from the City or State.

"Third Party Affordable Units" means rental or for sale housing units that, at a minimum, qualify as "affordable housing" under the ARO and meet the standards set forth in the definition of "eligibility criteria" in the ARO, including the modified eligibility criteria if the Applicant receives TIF assistance.

"Third Party Developer" means a developer of affordable housing, and not a related entity of the Applicant.

"Remaining Affordable Units" means the total number of Third Party, Affordable Units in the Third Party Affordable Housing Development minus the In Lieu Fee Affordable Units.

Example of Off-Site Credit Calculation. For purposes of illustration, if the Applicant contributes \$1,305,340 to a Third Party Affordable Housing Development containing 50 Third Party Affordable Units with a total project budget of \$10 million, the Applicant would receive a credit for 15 ARO Units, calculated as follows: First, under (d)(ii)(A) above, \$1,305,340 (Off-Site Payment) divided by \$130,534 (2019 "in lieu fee" in the higher income area) = 10 In Lieu Fee Affordable Units; and second, under (d)(ii)(B) above, \$1,305,340 (Off-Site Payment) divided by \$10 million (total project budget) = 13% x 40 (Remaining Units) = 5 additional ARO units.

Applicant: Fleet Portfolio, LLC
Address: 1300-1328 & 1301-1349 West Concord Place / 1624-1698 & 1653-1727 North Throop Street / 1696-1698, 1627-1649 & 1663-1699 North Ada Street / 1301-1405 West Wabansia Street, Chicago, Illinois
Introduced: July 25, 2018
Plan Commission: January 24, 2019

lication

- (e) Incentive for Larger Units. The Commissioner may reduce the ARO Unit requirement in exchange for ARO Units with more bedrooms than would otherwise be required, as follows:
- (i) one 2-bedroom unit is equivalent to 1.25 studio or one-bedroom units; and
 - (ii) one 3-bedroom unit is equivalent to 2.5 studio units or 2 one-bedroom units.

The Applicant acknowledges and agrees that in connection with the development of either Lincoln Yards North or Lincoln Yards South: (i) with respect to rental housing, one-half of the ARO Units must be affordable to households earning up to sixty percent (60%) of the area median income, and the other half must be affordable to households earning up to fifty percent (50%) of the area median income; and (ii) with respect to owner-occupied housing, one-half of the ARO Units must be affordable to households earning up to one hundred percent (100%) of the area" median income, and the other half must be affordable to households earning up to eighty percent (80%) of the area median income.

If no TIF assistance is provided for any public improvements or other TIF expenditures in connection with Lincoln Yards North or Lincoln Yards South, the Applicant's affordable housing obligation would be reduced to 250 ARO units at maximum build-out (10% of 2,500) and the ARO units would not be subject to the modified income eligibility and affordability standards set forth in the ARO for projects receiving TIF assistance, but in all other respects the provisions of this Statement 17 shall apply, except for the option to make an Off-Site Payment under (d)(ii) above, which will no longer be available as a method of satisfying the Applicant's ARO obligation.

Prior to the issuance of any building permits for any residential building or phase of development containing residential units in the Planned Development, including, without limitation, excavation or foundation permits, the Applicant must make the required cash payment and/or execute and record an affordable housing agreement in accordance with Section 2-44-080 (L) for that building or phase. The cash payment will be calculated at the time of payment (including partial payments for phased developments) and will be based on the then-applicable in lieu fee, as such fee may be adjusted based on changes in the consumer price index in accordance with the Affordable Requirements Ordinance. In addition, prior to the issuance of any building permits for any building or phase of development containing residential units, the Applicant must submit to DOH and DPD for their review and approval a plan or update, as applicable, describing how the Applicant intends to satisfy its ARO obligation under subsection (c) above. If at any time the Applicant provides more ARO Units than would otherwise be required in accordance with an approved Affordable Housing Profile Form, such units shall be credited towards the Applicant's overall ARO Unit requirement. If the Applicant subsequently reduces (or increases) the number of housing units in the Planned Development, the number of required ARO Units shall be adjusted accordingly.

Applicant: Fleet Portfolio, LLC

-The terms of the affordable housing agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the affordable housing agreement will be recorded against the Property, or the applicable portion thereof, and will constitute a lien against such property. The Commissioner of DOH and the Commissioner of DPD may enforce remedies for any breach of this Statement 17, including any breach of any , affordable housing agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the Planned Development.

18. The Applicant acknowledges the importance of the Chicago River as a resource for both commerce and recreation and also acknowledges the City's goals of improving the appearance, quality and accessibility of the river, as contained in the waterway planned development guidelines in the Chicago Zoning Ordinance (Section 17-8-0912) and the Chicago River Corridor Design Guidelines and Standards, as amended. The Applicant also acknowledges the desirability to include wildlife habitat and other natural features in or near the water's edge and shall work with the City and interested parties to provide such features to the extent practical. To further these goals, the Applicant agrees, as set forth in the Plans, to: (a) provide a landscaped 30-foot-wide river setback and continuous riverside trail as indicated on the Site Plan (the "Riverwalk") as portions of the Property adjacent to the Chicago River are developed and, (b) permit connection of such setback and trail to the setback and trails of adjacent properties when the river edges of the adjacent properties are similarly improved. The Applicant shall permit un-gated and unobstructed public access to the river setback, and provide informational and wayfinding signage at all entries that the Riverwalk is open to the public, free of charge, during normal park hours from 6:00am to 11:00pm every day of the year (subject to occasional partial closure for private use provided that a path providing access during such closures shall be maintained through the N river setback). The Riverwalk improvements shall be constructed in conjunction with adjacent riverfront development parcels and shall be completed prior to receipt of the Certificate of Occupancy for such adjacent parcels, provided that plantings may be delayed if consistent with good landscape practice, but not longer than one year following receipt of the final Certificate of Occupancy for the first principal building within such development phase, if due to delays in permitting by any governmental or quasi-governmental authorities having jurisdiction over such improvements including, without limitation, the U.S. Army Corps of Engineers, the Metropolitan Water Reclamation District of Greater Chicago, the Illinois Department of Natural Resources - Office of Water Resources, the Coast Guard and CDOT or if due to delays or inability to perform such acts due to causes beyond the reasonable control of the Applicant.

In addition to the Riverwalk, and subject to the receipt of all necessary permits and approvals, the Applicant or its successors and assigns, at its sole cost, shall design and construct the open space improvements in Subarea B (hereinafter the "Park"). Upon

^ completion of the Park, the Applicant, its successors and assigns and, if different than the Applicant, the legal title holders and any ground lessors, shall be responsible for maintaining and managing the Park for the purposes set forth herein, including ensuring that the Park's landscaping is well maintained, that the vegetation and plantings are kept in a healthy condition and that the Park facilities are clean, well lit, litter free and clear of snow (hardscaped areas) and debris. The Applicant shall provide sufficient liability insurance coverage for the operation of the Park for public use, and provide for the creation of a park advisory council, as defined by the Chicago Park District Code, to include community representation for the coordinated programming of the park. The Applicant shall provide informational and wayfinding signage at all entries that the Park is open to the public (subject to occasional partial closure for private use provided that a path providing access during such closures shall be maintained through the Park), free of charge, during normal park hours from 6:00am to 11:00pm every day of the year. During winter months, the Applicant may enclose portions of the Park in a temporary climate-controlled manner with access managed in accordance and compliance with the Chicago Park District Code. The maintenance and management obligations contained herein shall continue for the life of this Planned Development.

The Park improvements shall be constructed as follows:

- Interim Park improvements: An interim park that includes one temporary multipurpose recreational field, walking paths and parking (as approved by DPD as part of Site Plan Approval) shall be constructed on a portion of the land located west of North Throop Street and south of West Wabansia Avenue by December 31, 2020. The interim parking required herein shall not be subject to standard irrigation, landscaping, streetscape, surfacing and drainage requirements, as reviewed and approved by DPD and CDOT. The park advisory council shall be established within 6 months from the completion of the interim park improvements.
- Final Park improvements: The Park improvements shall be completed prior to issuance of a certificate of occupancy for the building that crosses the threshold of 50% of the total allowed floor area in the Planned Development.

Park improvements may be delayed if consistent with good landscape practice, but not longer than one year following the timing for construction of the final open space improvements set forth herein.

Prior to issuance of the first building permit for the Planned Development, the Applicant will enter into a development and maintenance agreement (the "DEMA") with the City for the construction, maintenance, and management of the Park' and the Riverwalk. The DEMAs obligations shall be binding upon the Applicant, its successors and assigns, including but not limited to a homeowners or master association whose purpose includes maintaining the Park and the Riverwalk. Upon completion of the Park, the public access provided for herein

Applicant: Fleet Portfolio, LLC
Address: 1300-1328 & 1301-1349 West Concord Place / 1624-1698 & 1653-1727 North Throop Street / 1696-1698, 1627-1649 & 1663-1699 North Ada Street / 1301-1405 West Wabansia Street, Chicago, Illinois
Introduced: July 25, 2018
Plan Commission: January 24, 2019

shall be memorialized in a public access easement agreement (which may be included in the DEMA) with and for the benefit of the City. The recording and other costs associated with establishing the easement shall be the responsibility of the Applicant. A copy of said public access easement agreement shall be on file with DPD.

The Commissioner is hereby authorized to enter into the DEMA (or more than one DEMA if the Commissioner deems necessary depending on the phasing of the development) and all other documents contemplated by the Statement and, in his/her sole discretion, may modify by minor change the foregoing requirements, without further City Council approval, for the DEMA(s) and public access easement agreement(s) so as to permit alternate forms of achieving compliance with the Applicant's construction, maintenance and management obligations and public access rights, such as, by means of example and not limitation, one or more restrictive covenants or owners' reciprocal easement and operation agreements in form and substance acceptable to the City which expressly grant the City necessary enforcement, self-help and lien rights as may be necessary to assure compliance with this Statement.

19. The Applicant acknowledges that it is the policy of the City to maximize opportunities for Minority and Women-owned Business Enterprises ("M/WBEs") and city residents to compete for contracts and jobs on construction projects approved through the planned development process. To assist the City in promoting and tracking such M/WBE and city resident participation, an applicant for planned development approval shall provide information at three points in the City approval process. First, the applicant must submit to DPD, as part of its application for planned development approval, an M/WBE Participation Proposal. The M/WBE Participation Proposal must identify the Applicant's goals for participation of certified M/WBE firms in the design, engineering and construction of the project, and of city residents in the construction work. The City encourages goals of 26% MBE and 6% WBE participation (measured against the total construction budget for the project or any phase thereof), and (ii) 50% city resident hiring (measured against the total construction work hours for the project or any phase thereof). The M/WBE Participation Proposal must include a description of the Applicant's proposed outreach plan designed to inform M/WBEs and city residents of job and contracting opportunities. Second, at the time of the Applicant's submission for Part II permit review for the project or any phase thereof, the Applicant must submit to DPD (a) updates (if any) to the Applicant's preliminary outreach plan, (b) a description of the Applicant's outreach efforts and evidence of such outreach, including, without limitation, copies of certified letters to M/WBE contractor associations and the ward office of the alderman in which the project is located and receipts thereof; (c) responses to the Applicant's outreach efforts, and (d) updates (if any) to the applicant's M/WBE and city resident participation goals. Third, prior to issuance of a Certificate of Occupancy for the project or any phase thereof, the Applicant must provide DPD with the actual level of M/WBE and city resident participation in the project or any phase thereof, and evidence of such participation. In addition to the foregoing, DPD may

Applicant: Fleet Portfolio, LLC

Introduced: July 25, 2018
Plan Commission: January 24, 2019

request such additional information as DPD determines may be necessary or useful in evaluating the extent to which M/WBEs and city residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and city residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

20. The Applicant acknowledges that the Property is located in the North Branch Industrial Corridor Industrial Corridor Conversion Area, and has undergone a "rezoning" within the meaning of Chapter 16-8 of the Municipal Code (the "Industrial Corridor System Fund Ordinance"). As a result of this rezoning, the Planned Development is subject to the conversion fee provisions of the Industrial Corridor System Fund Ordinance. The purpose of the conversion fee is to mitigate the loss of industrial land and facilities in conversion areas by generating funds for investment in receiving industrial corridors in order to preserve and enhance the city's industrial base, support new and expanding industrial uses, and ensure a stable future for manufacturing and industrial employment in Chicago. The Applicant is required to pay the conversion fee in full prior to the issuance of the first building permit for any building in the Planned Development; provided, however, if the Planned Development is constructed in phases, the conversion fee may be paid on a pro rata basis as the first building permit for each subsequent new building or phase of construction is issued. The amount of .> the conversion fee due prior to the issuance of a building permit shall be calculated based on the fee rate in effect at the time of payment. The Applicant shall record a notice against the Property to ensure that the requirements of the Industrial Corridor System Fund Ordinance are enforced in accordance with Section 16-8-100.
21. Construction of the improvements contemplated by this Planned Development may be completed in phases over a period of years. Unless construction of the interim Park required by Statement 18 has commenced within six years following adoption of this Planned Development (subject to extension for one additional year as set forth in Section 17-13-0612 of the Chicago Zoning Ordinance), then this Planned Development shall expire, the Zoning Administrator shall initiate a Zoning Map Amendment to rezone the site to the C2-3 Motor Vehicle-Related Commercial District.

Introduction

Purpose

All development within the Lincoln Yards Planned Development 'must substantially comply with the Design Guidelines of the North Branch Framework adopted by the Chicago Plan Commission on May 18,2017, or as amended, with the Chicago River Corridor Design Guidelines and Standards, or as amended, and with the design standards and guidelines outlined in the Zoning Ordinance, Section 17-8-0900 Standards and Guidelines.

The guidelines listed below provide additional standards for buildings and the public realm, to complement the specific context of this planned development. These guidelines also provide a foundation for the review of individual projects to ensure each element within Lincoln Yards upholds the goals for the entire development.

The Lincoln Yards South Design Guidelines are intended to provide space for flexibility, creativity and design innovation.

The guidelines support the idea that each building should reflect its own position, program, and function within the development, but should also respect the patterns and relationships with adjacent buildings, open spaces, the river, and the surrounding community.

Public Realm Guidelines

Public Realm and Open Space Framework

Inspired by the world's best places and Chicago's best neighborhoods, the publicly accessible open space and public realm will include active, vibrant streets, wide, pedestrian-scaled sidewalks, and welcoming green spaces. All public realm and open space areas are to be well-lit, safe and publicly accessible. Publicly accessible open spaces will be designed to the applicable standards of Chicago Park District Parks.

- Landscape spaces shall be designed to include a variety of different native and non-invasive trees, shrubs, and perennials that provide for seasonal interest.
- A variety of recreational amenities shall be integrated within the site and used to activate spaces for all ages.
- Interpretive signage shall be provided across the development to bring awareness to the cultural context and history of the site.
- A site-wide wayfinding signage system shall be implemented throughout the development.
- Open space landscape design shall incorporate best practices for wildlife habitat creation and biodiversity.
- Provide public, universal accessibility across the entire site to connect open spaces with the street network. Stair and ramp designs

shall avoid blank walls and unactivated ramps.

Lincoln Yards South Park

The Lincoln Yards South Park space will provide publicly accessible open space with recreational field programming for the larger community.

Park elements will include:

- Recreational sport fields, including soccer, baseball/ softball, track, basketball and tennis courts and other programming to be confirmed prior to Site Plan Approval.
- Children's play area
- Connection to the Riverwalk

Hardscaped Open Space

A variety of publicly accessible, hardscaped open spaces are integrated throughout the development offering connective areas to the community and Riverwalk. as well as additional open space areas for gathering and programming.

- Hardscaped open spaces should be visible, publicly accessible and promote interaction.
- Hardscaped open spaces are to be welcoming spaces.
- Hardscaped open spaces offer an opportunity for additional spaces for activation and open space programming such as cafe areas, markets, and community gathering.
- Hardscaped open spaces between buildings should serve as pedestrian connections through the development as well as parking and service entrances. These open spaces should be designed with pedestrian priority.
- Hardscaped open spaces should incorporate native ' planting areas and integrated best practices for stormwater management.

Introduced	July 25, 2018
Plan Commission	January 24, 2019

Final for Publication

LYS Design Guidelines

Riverwalk and River Access

- The Riverwalk shall provide public access along an active promenade that engages the river by bringing people to the water's edge and is punctuated by larger open space areas.
- Establish clear pedestrian and bicycle connections to the Riverwalk through adjacent hardscaped open spaces, adjacent bridge crossings, and through park areas.
- The Riverwalk is to include either a separated path for 12'-wide bicycle path and 8'-wide pedestrian path, or a multi-use path of min 16'-wide that will accommodate pedestrians and cyclists in both directions.
- Flexible and programed zones along the Riverwalk are to be located outside of the area of the multi-use paths.
- Where feasible, the Riverwalk shall incorporate functional areas of riparian edge restoration along the Riverwalk integrated into an educational and interpretive programmatic system.
- At key locations, provide features allowing pedestrians closer access to the water with overlooks and tiered steps.
- Where possible, incorporate a canoe and kayak access point.
- Incorporate water taxi stops along the Riverwalk with a light footprint near Concord Place.
- The Riverwalk shall be designed to accommodate future extensions.
- The Riverwalk will incorporate the Chicago River brand signage with directional, wayfinding, and mile marker signs.

Site and Riverfront Ecology

- The Riverwalk design will enhance ecological conditions and aid in the restoration of the river.
- Where the site allows, the Riverwalk will incorporate wetland elements, to encourage habitat for various aquatic and terrestrial species.
- Where the site allows, the Riverwalk will include instream habitat to improve conditions for fish and other aquatic species.
- Where the site allows, the Riverwalk will include native habitat and natural riverbank conditions to improve the environment for resident and migratory birds, pollinators, and other native species.

Riverwalk Activation

- Locate active uses such as building amenity areas and commercial areas facing the Riverwalk.
- Buildings facing the Riverwalk should have entrances facing the Riverwalk.

New Bridge and Underpass Paths

- New bridges and underpass paths shall be designed to provide high-quality experience for all users including pedestrians, bicyclists and motor vehicles, and to minimize impacts on adjacent buildings, riverwalks and open spaces.
- Design treatments and materials should be specific to context.
- Integrate best practices in bridge and underpass lighting.
- Maximize landscape opportunities and incorporate artistic elements.
- Design pedestrian and bicycle-oriented uses at underpasses where clearances allow, such as bicycle racks, dog park, skate park, and art installations.

Street Design and Streetscapes

- All streets and streetscapes should follow the Complete Streets Chicago Design Guidelines and the Vision Zero Action Plan, and shall include multi-modal facilities within the public way. This approach will create safe and welcoming streetscapes for all users, and include high quality materials, lighting, landscaping, and sidewalk furnishings.
Intersection design will prioritize pedestrian crossings and movement. All final street designs will be coordinated with CDOT at each phase of the development.
- The designs will incorporate sustainable design features into the streetscape design using CDOT's Sustainable Urban Infrastructure Guidelines, utilizing streets and connective open spaces to manage stormwater.
- Street specific elements shall be reviewed and approved by CDOT at each phase of development to ensure they follow these standards and reach the highest and best use of the public way.
- Street designs will include a landscape zone of a minimum width of 5 feet.

Applicant Fleet Portfolio, LLC
Address 1300-1328 & 1301-1349 West Concord Place / 1624-1698 A 1653-1727 North Throop Street /
1696-1698 1627-1649 & 1663-1699 North Ada Street / 13C1-1405 West Wauoans, a Street Chicago, Illinois
Introduced July 25, 2018
Plan Commission January 24, 2019

LYS Design Guidelines

Dominick Street:

- Dominick Street should be designed as an extension of the adjacent park.
- Locate vehicle drop-off areas at key locations.
- Pedestrian crossings linking east to west across the street should prioritize the pedestrian.

Internal Laneways:

- Design is to prioritize the pedestrian with sidewalk zones separated from vehicular movement.

- Loading and service can be accommodated off internal laneways.

Ground Floor Guidelines

Street Level Activation

- Reserve the ground levels of buildings for the most active and public functions. The ground level facades are to emphasize transparency.
- Visually connect the ground floor activities with the adjacent public realm.
- Primary building entrances are to be visible from the street and easily accessible, and evident in daytime and at night.
- ' Tenant signage for each building should be considered as part of the facade design to ensure consistency of placement, size, materials, and method of illumination.
- Undeveloped parcels may support interim uses including, ■ but not limited to, open space, pop-up markets, and surface parking. Interim use plan improvements and time frame shall require review and approval by DPD.

Service and Parking

- Service areas to be located so as to not negatively impact important streets or building entrances.
- Where possible, access to loading and parking should not occur directly from Dominick Street or Cortland Street, unless constrained by specific site conditions.
- Loading and parking access should not occur near roadway intersections.
- Curb cuts should not exceed 20' in width for service entrances, unless constrained by specific site conditions. Parking garage entrances should not exceed the minimum required.

- Setback loading docks off the public way, to minimize conflicts within the public way.
- Incorporate internal service areas as much as possible.
- Vehicle drop-off zones are to be coordinated with primary building entrances.

Built Form Guidelines

Base Building/Podium

- Buildings are to enhance the urban fabric and character of the North Branch river corridor, and shall follow the design guidelines for the building's specific Character Zone.
- Maintain a consistent street wall at the building base to define an urban street environment except for setbacks that create inviting open spaces.
- Extend the building base to the sidewalk to define an urban street environment.
- Integrate transparency and avoid blank walls on the ground floor of primary streets and pedestrian pathways.
- Parking garage entries should be integrated into the facade of the building.
- Where possible, design podium rooftops as participatory spaces accommodating building amenities and landscaping.
- Podium and tower designs should relate to each other to provide a cohesive expression.
- Podium design and scale shall follow the design guidelines of the building's specific Character Zone.
- When parking is located within a building podium, incorporate architectural screens consistent with the building facade.

Height and Massing

- Stagger taller buildings to maximize views and sunlight exposure.
- Taller buildings should consider orientation and slenderness. -
- Building massing shall achieve a varied and distinctive skyline.
- Step down the heights of buildings to transition to the scale of surrounding neighborhoods.
- Buildings should be delineated with building steps, recesses and setbacks to divide the facade into smaller

Applicant Fleet Portfolio, LLC
Address 1300-1328 & 1301-1349 West Concord Place / 1624-1698 & 1653-1727 North Throop Street /
1696-1698, 1627-1649 & 1663-1699 North Ada Street / 1301-1405 West Wabansia Street, Chicago, Illinois
Introduced July 25, 2018
Plan Commission January 24, 2019

Final for Publication

masses consistent with context and the pedestrian scale.

- To preserve access to light, a minimum separation of 40' between towers is required.
- Where site constraints permit, towers will be oriented to maximize passive cooling, natural lighting, and energy efficiency.
- All rooftop mechanical systems should be concealed from pedestrian view within an architectural enclosure consistent with the overall building.
- Balconies shall be integrated with the building facade design.

Material Guidelines for Buildings

- The aesthetic quality and durability of materials is to support and promote the quality of the public realm.
- Design all building facades considering the composition and architectural expression of the building as a whole.
- Promote architectural and urban design, sustainability, innovation, longevity, and creative expression with visionary design, and high-quality materials.
- Colors and finishes of the materials should reinforce the character zone identity.
- The finish and detailing of building materials is to be consistent with the intent for architectural quality throughout Lincoln Yards.
- Buildings will not be clad with low quality materials or materials with low aesthetic value such as EIFS, unfinished CMU, or residential type thin brick, vinyl or metal siding.
- Buildings will employ architectural materials consistent with contemporary building practices, such as high-quality wall systems in glass, metal, masonry, architectural concrete, or hardwood. Glazing shall not be highly reflective or mirrored.

Building Performance

Building envelopes will support environmentally responsible design by reducing heat loads, improving energy efficiency, maximizing occupant comfort, and using sustainable materials.

Prioritize energy efficiency and human health.

Respond to seasonal wind patterns and opportunities for natural ventilation.

Treat all forms of water as valuable resources.

Character Zone Guidelines

Lincoln Yards includes a series of character zones based on primary building use, surrounding site features, and the relationship to adjacent open spaces. Buildings within a character zone should complement each other through unifying design principles. Each of these zones carefully responds to unique site opportunities and proposed building placements, to frame and animate public spaces at the street level. These guidelines reinforce the urban design vision by prioritizing a vibrant mix of uses (live, work, shopping and recreation). They provide countless opportunities for social interaction along broad tree-lined sidewalks and generous open spaces proposed on both sides of the river, bringing access and amenities to adjacent neighborhoods.

South Dominick Corridor Character Zone

Located along the future extension of Dominick Street, the corridor has a prominent building address, and direct adjacency to the large recreational park in Lincoln Yards South. South Dominick Street will be the primary active street. Here, a continuous pedestrian experience from LY North will be reinforced by its outlook to the riverfront and large publicly accessible park.

The South Dominick Corridor will be a unique experience within Lincoln Yards with its own character and identity. Its western edge will be defined by

retail and active uses along the base of buildings. This formal street address will frame the large park to the east by creating a podium of about 4-6 floors which relates to the pedestrian areas in a human context. Residential and office towers are set back from the street-wall and open to the sky above it. The eastern edge will flow seamlessly from the new bridge crossing the river to the park and the South Riverfront District.

Building Typology and Massing

- Primarily office, residential and mixed-use
- Building podium heights average 4-6 floors.
- Create a consistent podium elevation on the Dominick Street elevation.
- Step buildings back from the Dominick Street edge above the podium level.
- Building siting and massing should ensure visual permeability beyond.
- Create a distinctive skyline along the corridor.
- Stagger taller buildings to maximize views and sunlight exposure.

Applicant	Fleet Portfol c. LLC
Address	1300-1328 & 1301-1349 West Corcord Place / 1624-1698 4 1653-1727 North Throop St-eet / 1696-1698.1627-1649 & 1663-1699 North Ada Street / 1301-1405 West Wabansia Street. Chicago. Nlairois
Introduced	July 25.2013-
Plan Commission	January 24. 20'9

LYS Design Guidelines

- Residential buildings are to be slender in shape, maximizing views of the sky between buildings.
- Consider building steps, recesses and setbacks to delineate the massing into smaller elements.

Activation

- The most public, active uses are to be located along Dominick Street.
- Primary building entrances are to be located along Dominick Street.
- Building siting should reinforce the urban street framework along Dominick Street.
- Consider participatory spaces on podium rooftops accommodating building amenity spaces.

Access

- Extend the existing street network connecting to the new Dominick Street extension.
- Locate vehicular access points for parking and loading on east-west streets or Ada Street.
- Locate dedicated drop-off zones adjacent to primary building entrances on Dominick Street and east-west streets as needed.

Building Materials

- As a primarily mixed use that serves as a frame to the recreational park space to the east, consider design elements that achieve a successful fit and transition . between a building and the scale of these recreational spaces.
- Ensure that future buildings along Dominick Street are attractive and well-proportioned and the predominant materials complement the relationship to existing character of the area.
- Maximize opportunities to engage the pedestrian and enable an active and vibrant street front along Dominick Street facing the park with special attention to the building base / podium.
- Where appropriate, material variation, setbacks with landscape rooftops and other amenity spaces can be utilized to break down building mass into

a composition of well-scaled components, introduce architectural diversity and placemaking, while adhering to a unifying identity of place.

- Facade articulation to respond to sustainability aspects, the quality of adjacent park space, and views.
- The parking for the commercial buildings is primarily located in shared parking garages on Parcels E.1 and E.2. The shared garages will also provide parking for the recreational park users.
- A private laneway located between Parcel E.1 and E.2 is intended to provide pedestrian and vehicular access through the development.

Iconic Sites

- Parcel A.1 located on the north end of the corridor along the river is an important, iconic site. As a highly visible location, the building design requires a higher design expectation.
- The larger floor plate office buildings should be designed with clear architecture expression and stepping that reduces the overall bulk and massing of the buildings.

Introduced	July 25, 2018
Plan Commission	January 24, 2019

Final for Publication

LYS Design Guidelines

South Riverfront District Character Zone

Located with a unique relationship to the site, the riverfront district is bounded by the river to the east and the large recreational park to the north. It also bridges the gap between the natural experience along the riverfront, existing businesses and the urban fabric of Lincoln Yards. This district will be a vibrant, pedestrian-oriented place lined with a mix of uses, restaurants, and shopping along an internal network of smaller-scaled laneways. A series of small blocks allow for turning corners frequently, creating a pleasant walking experience. The South Riverfront will establish its own distinct identity as a memorable mixed-use waterfront district defined by lower-scaled buildings, and is sustained by a mix of uses that feed streets with activity through the day. Varying scales of outdoor spaces and pedestrian-oriented laneways are woven throughout the district. The laneways connect the riverfront and park spaces and can host gatherings, festivals, performances and public art, as well as the day-to-day needs of residents, workers and visitors.

Building Typology and Massing

- Primarily mixed-use district
- Lower scaled buildings stepping down to the river and park.
- Building podium heights average 2-3 stories.

Activation

- Unique to the Riverfront District is a series of pedestrian oriented laneways intended to be activated with ground floor uses and amenity spaces.
- Locate residential and commercial office entrances on Dominick Street and Concord Place.
- Consider participatory spaces on podium rooftops accommodating building amenity spaces

Access

- Establish multiple pedestrian connections to the Riverwalk.
- Create a clear connection and relationship to the adjacent Lincoln Yards South Park.
- Integrate pedestrian-oriented laneways through the district. Size the laneways accordingly to accommodate emergency access.
- Residential building parking can be located within the building podiums, but must be screened from view and integrated into the architectural expression of the facade.
- If required due to site constraints, loading and access can be located on Concord Place or Dominick Street. It must be screened and integrated into the overall building facade.

Building Materials

- Buildings should reflect the distinctive qualities of lower-scaled riverfront district by incorporating landscape, industrial heritage and cultural assets to enhance sense of place and a distinct identity.
- Lower building levels should incorporate materials appropriate to their interface with the network of pedestrian streets, plaza areas, and riverfront.
- Encourage variety of materials at the ground floor to enhance the pedestrian experience. Where relevant, lower active levels can incorporate 'industrial' materials, such as stone and masonry, steel and concrete, with a mix of glazing that can be integrated with one another.
- Where appropriate, material variation, setbacks with landscape rooftops and other amenity spaces can be utilized to break down building mass into a composition of well-scaled components, introduce architectural diversity and placemaking, while adhering to a unifying identity of place.
- Facade articulation to respond to sustainability aspects, the quality of adjacent park space, and views.
