- (o) The amendment of this Planned Development concerning development of Parcels P21B and P21C triggers the requirements of Section 2-45-110 of the Municipal Code (the "Affordable Requirements Ordinance" or "ARO"). Any developer of a "residential housing project" within the meaning of the Affordable Requirements Ordinance ("Residential Project") must: (i) develop affordable housing units as part of the Residential Project; (ii) pay a fee in lieu of the development of affordable housing units; or (iii) any combination of (i) and (ii). Further, the amendment of this Planned Development is subject to Section 17-4-1004-D of the Zoning Code, which also requires on-site affordable housing or payment of a fee in lieu of providing affordable housing for rezonings in DC, DX and DR districts that increase the base floor area ratio. If a planned development is subject to the requirements of both sections (2-45-110 and 17-4-1004-D), the developer may elect to satisfy the ARO requirements by complying with the affordable housing floor area bonus provided for in Section 17-4-1004. In accordance with the formulas set forth in Section 17-4-1004-C and the Bonus Worksheet, the owner of Parcels P21B and P21C acknowledges and agrees that it must provide either a minimum of at least 21,680 square feet of floor area (the "Affordable Units") in the building receiving the affordable housing floor area bonus ("Eligible Building"), with an affordable unit mix comparable to the overall mix and approved by the Department of Planning and Development prior to issuance of the first building permit, or make a cash payment in lieu of providing affordable housing in the amount of \$2,983,168 ("Cash Payment"), or \$100,000 per unit ("Pro Rata Amount"). Prior to the issuance of any building permits for the Eligible Building, including, without limitation, excavation or foundation permits, the owner of Parcels P21B and P21C must either make the required Cash Payment or provide a performance bond or other security in the amount of the Cash Payment ensuring construction of the Affordable Units. If the owner of Parcels P21B and P21C elects to construct the Affordable Units, it must also enter into an Affordable Housing Agreement with the City pursuant to Section 17-4-1004-E9 prior to the issuance of any building permits for

the Eligible Building, including, without limitation, excavation or foundation permits. The terms of the Affordable Housing Agreement and any amendments thereto would be incorporated herein by this reference. The owner of Parcels P21B and P21C acknowledges

and agrees that the Affordable Housing Agreement would be recorded against the Eligible Building and would constitute a lien against each Affordable Unit in an amount equal to the Pro Rata Amount. The City shall execute partial releases of the Affordable Housing Agreement prior to or at the time of the sale of each Affordable Unit to an income-eligible buyer at an affordable price, subject to the simultaneous execution and recording of a mortgage, restrictive covenant or similar instrument against such Affordable Unit. In addition to the Affordable Housing Agreement, the owner of Parcels P21B and P21C acknowledges and agrees that, pursuant to Section 17-4-1003-D3, the Bonus Worksheet will serve as an official record of bonuses and amenities. The owner of Parcels P21B and P21C must comply with the applicable affordable housing standards and requirements set forth in Section 17-4-1004, the terms of which are incorporated herein by this reference. Notwithstanding anything to the contrary contained in Section 17-4-1003-E, the Commissioner of the Department of Planning and Development may enforce remedies for breach of the Affordable Housing Agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the Planned Development.

12. Publicly dedicated improvements, including streets, sidewalks, transit and open space amenities shall be designed, constructed and maintained in accordance with the exhibits described in Statement 2 hereof and the "Cityfront Center Internal Design Standards: Section I", dated September 12, 1986.
13. The property owner(s) adjacent to the Chicago River shall develop a continuous pedestrian esplanade along the Chicago River's edge. Completion of the esplanade will occur as follows:
 - a) The east right-of-way line of McClurg Court to the west right-of-way line of Lake Shore Drive shall be improved concurrently with development of adjacent parcels south of East North Water Street (Parcels 14,16, and 18). However, if Parcel 18 should be developed before the construction of DuSable Park, then the owner(s) of Parcel 18 shall, at the time of application for superstructure Part II, place in escrow money equivalent to the cost of constructing such a connection, as determined by the Commissioner of the Department of Planning and Development, unless an agreement between the Developer of Parcel E.3 and the Chicago Park District as referenced in Statement Number 11 (m) above provides otherwise.

14. The developer of Parcels P21B and P21C (the Kraft Parcel), shall substantially renovate the existing 70,000 square foot park on Parcel P21B in accordance with the Landscape Plan, the Landscape Sections, and the Landscape Plant list. Such renovation shall be commenced no later than three (3) months following issuance of the first occupancy permit for the residential building to be constructed on Parcel P21C as permitted by this Planned Development, and shall be completed no later than one (1) year thereafter. 15. Traffic studies completed by developers and the City of Chicago project significant peak hour traffic volume increases on Illinois Street and Grand Avenue in particular as a result of new development. Membership and participation in the Illinois-Grand Corridor Transportation Management Association shall also be required prior to the issuance of any Part II development approval.
16. Prior to the issuance by the Department of Planning and Development of a determination pursuant to Section 17-13-0610 of the Chicago Zoning Ordinance ("Part II approval") for development or redevelopment of any development parcels within the planned development,

Design Description

Containing a series of interconnected play areas for children of all ages and their families, the pocket park along E. Illinois Street will be an amenity for residents of the Streeterville neighborhood and for visitors. Conventional play equipment including swings and a slide will be coupled with opportunities for sensory play that engages children with the nature that surrounds the play area. Some areas will have topography to encourage different ways to play, while bleacher-style seating will provide a place for all to stop and

rest or to gather groups together for more structured activities. Planting is integrated to provide seasonal interest and shade.

LOCATION: 465 NORTH PARK DRIVE

[THE AREA GENERALLY BOUNDED BY NORTH MICHIGAN AVENUE, EAST
NORTH WATER STREET, NORTH CITYFRONT PLAZA DRIVE, EAST
ILLINOIS STREET, NORTH ST. CLAIR STREET, EAST GRAND AVENUE,

LOCATED EAST OF LAKE SHORE DRIVE KNOWN AS DU SABLE PARK]

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation on a proposed amendment to Residential-Business Planned Development No. 368 for your review and recommendation to the Chicago City Council. The Department of Planning and Development also submits for your review and approval proposed Lake Michigan and Chicago Lakefront Protection Ordinance Application No. 671.

The application for this amendment to the Chicago Zoning Ordinance was introduced into the City Council on June 17, 2015. The Lake Michigan and Chicago Lakefront Protection Ordinance application was submitted to the Department of Planning and Development on June 10, 2015. The portion of the Planned Development situated east of N. Columbus Drive (Subareas B, C, D, E, and F) lies within the Private Use Zone of the Lake Michigan and Chicago Lakefront Protection District. Notice of the public hearing was published in the Chicago Sun-Times on September 30, 2015. The applicant was separately notified of this combined public hearing.

The applicant, 465 N. Park Drive, LLC, proposes to amend the Planned Development to make changes to Subarea B and the overall Planned Development to increase the maximum number of dwelling units on Parcel P8. This change is proposed in order to construct a 47-story building with approximately 444 residential units.

BACKGROUND INFORMATION

Residential-Business Planned Development No. 368 (known variously as Cityfront Center or River East) was adopted in 1985, and has been amended in 1998, 2002, 2003, 2006, 2007, 2008, 2012, and twice in 2015. The Planned Development is located in the south Streeterville neighborhood and is generally bounded by N. Michigan Avenue, E. North Water Street, N. Cityfront Plaza Drive, E. Illinois Street, N. St. Clair Street, E. Grand Avenue, N. Lake Shore Drive, and the Chicago River. It also includes Du Sable Park on the east side of N. Lake Shore Drive. The current Planned Development No. 368 consists of six Subareas (A, B, C, D, E, and F).

The original plan was to develop 20 million square feet of space, nearly 75 percent commercial. Nearly 6,000 new dwelling units were allowed in the portion east of Columbus Drive. Most of the commercial space was projected as office space, with retail space capped at one-half million square feet. There was also provision for 4,000 hotel rooms.

In 1998, the planned development was amended to reduce the height and bulk of future development, increase the open space and landscaping, provide for traffic and transit-related improvements, and expand the boundaries to include property known as the Kraft site. It also raised the number of permissible hotel rooms by over 40% to 5,680.

In 2003, the planned development was amended to adjust the net site areas and floor area ratios for Subarea F and the total Planned Development, No. 368 in order to accommodate a larger park (70,000 square feet) with an underground parking facility without reducing the allowable development on Subarea F.-.

In 2006, the Planned Development was amended to create Subarea G out of Subarea D and to allow a 2,000-foot-tall building (the "Spire") with 300 dwelling units and 150 hotel rooms on the new Subarea G. The 2007 amendment eliminated Subarea G by combining it with Subarea E (DuSable Park), increasing the number of residential units permitted in the 2000-foot tall tower from 300 to 1200, and removing the hotel use.

In 2008, the Planned Development was amended to increase the permitted height on Parcel 7 of Subarea B from 450 feet to 1200 feet. The 2012 amendment increased the permitted number of dwelling units in Subarea B from 400 to 671 by converting 394 of the permitted 2000 hotel keys to 197 residential units and adding another 74 residential units.

The first 2015 amendment, approved on January 15, 2015, pertained only to Subarea F. In that subarea, it increased the Net Site Area, increased the permitted number of dwelling units from 1000 to 1118, increased the permitted floor area with three Floor Area Bonuses, and increased the permitted height from 280 feet to 785 feet. Overall Planned Development numbers for Net Site Area, permitted dwelling units, and floor area were accordingly adjusted.

The second 2015 amendment, approved on May 6, 2015, was a technical amendment to Statement No. 21 of the Planned Development Statements, extending the expiration date of the Planned Development as it related to Subparcel E.3 (the Chicago Spire) to 2018.

This was done in order to assure that the public benefits previously committed for development of the site remained in place and to assure ample time for public and community input on any revised development plans for the site.

Subarea B, the subject of this proposed amendment, is bounded by E. Illinois Street on the north, N. New Street on the east, the Main Branch of the Chicago River on the south, and N. Columbus Drive west. Specifically, development Parcel P8 is located at the southeast corner of E. Illinois Street and N. Park Drive, extending east to N. New Street and 160 feet south of E. Illinois Street.

The site is currently vacant. In addition to Parcel P8, Subarea B also contains the 30-story, 1,206-room Sheraton Hotel (Parcels P6A and P6B) along the river, the 52-story, 400-hotel room, 398-dwelling unit Loew's property (Parcels P7 and P7A) to the immediate south of Parcel P8, and a two-level parking garage topped with the Park District's Ogden Plaza Park along N. Columbus Drive.

PROPOSED PLANNED DEVELOPMENT CHANGES

The applicant, 465 N. Park Drive, LLC, proposes to amend the Planned Development to increase the maximum number of permitted dwelling units on both Subarea B and the overall Planned Development. This change is proposed in order to construct a 47-story building with approximately 444 residential units.

PROJECT DESCRIPTION

The site (Parcel P8) contains approximately 0.79 acres and has frontage on N. Park Drive, E. Illinois Street, and N. New Street. The applicant proposes to construct a 47-story residential tower on the site with 444 residential rental units, as well as approximately 11,600 square feet of ground floor retail space, residential support space, and amenity space.

The building's base would fill almost the entire site with a small setback from the corner of N. Park Drive and E. Illinois Street. The ground floor would contain an auto court and residential lobby on N. Park Drive and approximately 11,600 square feet of retail space fronting on E. Illinois Street and N. New Street. The second, third, and fourth floors of the base would contain 181 accessory parking spaces fronted by 27 residential units along N. Park Drive and E. Illinois Street. The tower would rise from the base in progressively smaller floor plates. At the fifth floor, the tower would cover approximately a third of the base. The fifth floor would contain residential amenity spaces and access to the amenity deck on the roof of the building base. Floors 6-36 would contain twelve residential units, apiece; and the penthouse floors, 37 - 47, would contain six units, apiece.

The current Planned Development permits a maximum of 671 residential units in Subarea B. Currently, 398 residential units have been built in the subarea, leaving 273 units available. The application proposes to increase the maximum number of residential units in Subarea B to 842, an increase of 171 units, which, combined with the 273 units available, would be sufficient for the proposed development's 444 residential units. The total number of residential units permitted in the Planned Development would rise from 5,969 to 6,140.

3

Finally, the maximum height currently assigned to Parcel P8 is 590 feet. This Planned Development measures "maximum height" to the ceiling of the highest habitable floor, in this case, the 47th floor; it allows another 65 feet ("absolute height") for mechanical floors and roof-top structures. The absolute height of this proposed development would be 535 feet,

DESIGN

The base of the building would be generally built to the property lines on all four sides, except at the

corner of N. Park Drive and E. Illinois Street. There, the corner of the base would be elliptically rounded and set back from the corner. Cladding of the base and tower would be a high-performance aluminum-and-glass curtainwall system. The wall separating the base from the hotel-residential building to the south would be a masonry wall panel system. Eighteen of the twenty-seven residential units in the base would have recessed balconies with glass railings.

The tower would consist of several interconnected elliptical shapes narrowing at the fifth, sixth, and thirty-seventh floors. The footprint of the last eleven floors would be less than 20% of the site area. Approximately a third of the units in the tower would have balconies, recessed or projecting. Mechanical equipment screened by architectural metal louvers would occupy the final thirty-five feet of the tower.

ACCESS and CIRCULATION

The pedestrian entries to the residential lobby would be located on N. Park Drive. An auto court off of N. Park Drive tucked under the south end of the building would provide a drop-off area for the residents. A two-way drive, also tucked under the building, would extend east from the auto court to N. New Street. This drive would provide access to the two loading docks and the accessory parking on the upper levels of the building base.

There would be 181 accessory parking spaces (0.41 space per residential unit), including two ride-share spaces. Although the Planned Development would require 244 parking spaces (0.55 space per residential unit), the presence of the multi-level public garage across the street beneath Ogden Plaza Park could make up for any eventual deficiency.

LANDSCAPE and SUSTAINABILITY

The proposed building would be LEED Certified. The developer would install in-ground planters along all three peripheral streets and eleven parkway trees along E. Illinois Street and N. New Street. There would be a major landscaped amenity deck at the fifth floor with a swimming pool, grill and outdoor living areas, a fire pit, and a dog run. There would be smaller landscaped decks at the sixth and thirty-seventh floors, plus a green roof on the highest level. All told, there would be approximately 13,482 square feet of Total Green Roof on the building.

RECOMMENDATIONS

The Department of Planning and Development has reviewed the project materials submitted by the applicant and has concluded that the proposed amendment to

4

Residential-Business Planned Development No. 368 would be appropriate for the following reasons:

- 1) The project meets the criteria and objectives for Planned Developments as set forth in Section 17-13-0900 of the Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety, or welfare.

The proposed amendment would be in keeping with the existing Planned Development and the Planned Development's base zoning, DX-12 Downtown Mixed-Use District. The project's proposed uses - residential, retail, and accessory uses - are permitted in Subarea B. The increase in the number of residential units by 171 units to 842 in

Subarea B and 6,140 overall - is compatible with the residential density allowed under the DX-12 district.

The project's "absolute height" (535 feet) would be less than the permitted "absolute height" of 590 feet.

- 2) The proposed development is compatible with the character of the surrounding area in terms of uses, density and building scale.

The uses of the proposed building, residential and ground floor retail, are the predominant uses in this portion of the Planned Development and the general neighborhood. The proposed building is shorter than both the ■ neighboring Loew's development by 100 feet and the recently approved building at 451 E. Grand Avenue by 315 feet.

- 3) The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy.

The proposed Planned Development has been reviewed by the Chicago Department of Transportation and all requested changes have been made. The Department of Planning and Development has circulated copies of this application to other City departments and agencies and no comments have been received which have not been addressed in the revised application.

- 4) The project would comply with the requirements for access in case of fire and other emergencies.

Also, the Department of Planning and Development has reviewed the proposal with regards to the requirements of the Lake Michigan and Chicago Lakefront Protection Ordinance and has concluded that the proposed development would be in compliance with the applicable Policies of the Lakefront Plan of Chicago and the Purposes of the Lake Michigan and Chicago Lakefront Protection Ordinance as they apply to development in the Private Use Zone, particularly:

5

- 1) Policy No. 3 (Continue to improve the water quality and ecological balance of Lake Michigan) and Purpose No. 3 (To maintain and improve the quality of the waters of Lake Michigan). A vegetated ("green") roof system and on-site storm water retention systems will reduce storm water run-off. All sanitary and storm water runoff will be directed to the City's sewer system and will not enter Lake Michigan.
- 2) Policy No. 10 (Ensure a harmonious relationship between the lakeshore parks and the community edge, but in no instance will further private development be permitted east of Lake Shore Drive). The tall, slender profile of the proposed development and its two-block setback from Lake Shore Drive will minimize its visual effect on the lakefront. Development of this vacant site with ground floor retail and residential uses will enhance this pedestrian corridor connecting N. Michigan Avenue and the lakefront at Navy Pier.

- 3) Purpose No. 10 (To insure that development of properties adjacent to the Lake or Lakefront Parks is so defined as to implement the above-stated purposes). The proposed project would comply with the accompanying proposed amendment to the site's Residential-Business Planned Development No. 368 for uses and residential density.
- 4) Policy No. 14 (Coordinate all public and private development within the water, park, and community zones). The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy. The proposed development has been reviewed by the Chicago Department of Transportation and all requested changes have been made. The Department of Planning and Development has circulated copies of this application to other City departments and agencies and no comments have been received which have not been addressed in the revised application.
- 5) With respect to the Policies and Purposes not enumerated here, the Department of Planning and Development has determined that the proposed project will not have a detrimental effect on the Lake Michigan shoreline or any wildlife habitats therein. In addition, no new roadways are proposed as part of this project.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that the revised application for an amendment to Residential-Business Planned Development No. 368 be approved and that the recommendation to the City Council Committee on Zoning be: "As Revised, Passage Recommended."

Further, based on the findings in this report, it is also the recommendation of the Department of Planning and Development that the Chicago Plan Commission approve Lake Michigan and Chicago Lakefront Protection Ordinance Application No. 671, as revised, as being in conformance with the provisions of the Lake Michigan and Chicago Lakefront Protection Ordinance subject to the terms of the corresponding Planned Development.

POTENTIAL IMPACT OF THE PROPOSAL

I. Fourteen Basic Policies

1. Complete the publicly owned and locally controlled park system along the entire Chicago lakefront.

This policy does not apply because the proposed project is located in the Private Use Zone. The proposal removes no publicly owned and locally controlled park areas from the lakefront. The proposal supports this policy by enhancing the pedestrian experience on the routes to the lakefront.

2. Maintain and enhance the predominantly landscaped, spacious and continuous character of the lakeshore parks.

This policy does not apply because the proposed project is located in the Private Use Zone. The proposal does not impact the open, landscaped character of the lakeshore parks.

3. Continue to improve the water quality and ecological balance of Lake Michigan.

Since the site is remote from the Lake itself, the proposal has no direct impact upon the water quality and ecological balance of Lake Michigan. All infrastructure and building development will conform to all applicable regulations concerning water purity and quality.

4. Preserve the cultural, historical and recreational heritage of the lakeshore parks.

This policy does not apply because the proposed project is located in the Private Use Zone. This heritage will be respected under the proposal.

5. Maintain and improve the formal character and open water vista of Grant Park with no new above ground structures permitted.

Applicant: 465 N. PARK DRIVE, LLC
Premises: PD 368 SUB-AREA B PARCEL 8
Date: JUNE 10, 2015
CPC DATE: October 15, 2015

Zone. The proposal is remote from and does not affect the formal character or the open water vista of Grant Park.

6. Increase the diversity of recreational opportunities while emphasizing lake-oriented leisure time activities.

Pedestrian routes to the Lakefront Parks and Chicago River will enhance the recreational activities of residents and visitors.

7. Protect and develop natural lakeshore park and water area for wildlife habitation.

This policy does not apply because the proposed project is located in the Private Use Zone. Existing lakeshore park and water areas for wildlife habitation are not adversely impacted. The site contains no natural lakeshore park or water areas.

8. Increase Personal Safety.

The proposed development will add to safety and security in the area. The presence of residents and visitors in the area will transform a vacant lot into a vibrant, safe neighborhood.

9. Design all lake edge and lake construction to prevent detrimental shoreline erosion

This policy does not apply because the proposed project is located in the Private Use Zone. The Applicant's proposal includes no lake edge or in-lake construction.

10. Ensure a harmonious relationship between the lakeshore parks and the community edge, but in no instance will further private development be permitted east of Lake Shore Drive.

Applicant: 465 N. PARK DRIVE, LLC
Premises: PD 368 SUB-AREA B PARCEL 8
Date: JUNE 10, 2015
CPC DATE: October 15, 2015

Although the site includes no land east of Lake Shore Drive, the proposed development will enhance the pedestrian routes to the lakeshore parks and the surrounding community.

11. Improve access to the lakeshore parks and reduce through vehicular traffic on secondary park roads.

The proposal does not include vehicular access to Lakeshore parks and will minimize vehicular traffic on secondary park roads.

12. Strengthen the parkway characteristics of Lake Shore Drive and prohibit any roadway of expressway standards.

This policy does not apply because the proposed project is located in the Private Use Zone. The proposal does not include any roadway of expressway standards.

13. Ensure that all port, water supply and public facilities are designed to enhance lakefront character.

This policy does not apply because the proposed project is located in the Private Use Zone. There are no port activities for the site. All water supply and public facilities will be designed so as to preserve and where possible enhance the character of the lakefront.

14. Coordinate all public and private development within the water, park and community zones.

The Applicant has engaged in extensive discussions with a wide variety of authorities, government agencies and private entities to ensure the proper coordination of this proposal.

VI and IX of this ordinance, the permitted use, special use, lot area per dwelling unit and floor area ratio provisions of the Chicago Zoning Ordinance, Chapter 194A of the Municipal Code of Chicago, shall govern except where such provisions are in substantial conflict with the purposes of this Ordinance or the Fourteen Basic Policies of the Lakefront Plan of Chicago.

Metropolitan Life Insurance Company, a New York domestic stock life insurer, was incorporated on March 24, 1868 and became a direct, wholly-owned subsidiary of MetLife, Inc., a publicly traded Delaware corporation and the ultimate parent of MLIC, on April 7, 2000. As of today's date, MetLife, Inc. is the only company that holds beneficial ownership of more than 7.5% of MLIC's common stock.

The Board of Directors of MetLife, Inc., as an entity, but not any Director in his or her individual capacity, is deemed under Securities and Exchange Commission (SEC) rules to beneficially own the shares of MetLife, Inc. common stock held by the MetLife Policyholder Trust; those shares exceed 7.5% of the outstanding common stock of MetLife, Inc. Because MetLife, Inc. is a publicly-traded company, we do not know whether other persons have a beneficial ownership of 7.5% or more of MetLife, Inc. common stock.
