FINAL

REPORT to the  
CHICAGO PLAN COMMISSION from the  
DEPARTMENT OF PLANNING AND DEVELOPMENT

JANUARY 21, 2016

PROPOSED PLANNED  
DEVELOPMENT ( APPLICATION NO. 18511)

APPLICANT:

1920 N. MILWAUKEE AVENUE

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation on a proposed Planned Development for your review and recommendation to the Chicago City Council. The application was introduced to the Chicago City Council on September 24, 2015. Notice of this public hearing was published in the Chicago Sun-Times on January 6, 2016. The Applicant was separately notified of this public hearing.

The property is identified as 1920 N. Milwaukee Avenue and is located on the southeast corner of the intersection of North Milwaukee Avenue and North Western Avenue. The applicant 1920, LLC proposes to construct a six-story mixed-use building with an amenity penthouse.

The site is currently zoned M1-1 Limited Manufacturing / Business Park District and B3-2 Community Shopping District the applicant sees to change the zoning designation to that of a C1-5 Neighborhood Commercial District prior to establishing the residential business planned development. This request is being submitted as a mandatory planned development pursuant to section 17-8-0512 of the Chicago Zoning Ordinance which states that a building which exceeds 80'-0" in height in a C1-5 underlying zoning designation must be reviewed and approved by the Chicago Plan Commission.

**PROJECT BACKGROUND AND DESCRIPTION**

The Applicant and Owner, 1920, LLC has filed this planned development and their proposed project involves the demolition of the one story retail building which currently exists on the subject site. Following demolition the applicant proposes to construct a six-story plus amenity penthouse mixed-use building with approximately 6,000 square feet of retail space on the ground floor and fourty-four dwelling units on the floors above, one loading berth and ten (10) parking spaces will be provided on site.

FINAL

### **SITE AND AREA DESCRIPTION**

The subject property is located on the southeast corner of the intersection of North Milwaukee Avenue and North Western Avenue and is located adjacent to a mix of land uses. East of the site are parcels of land zoned M1-1 Limited Manufacturing / Business Park District, C1-2 Neighborhood Commercial District, RS-3 Residential Single-Unit (Detached House) District, and RT-4 Residential Two-Flat, Townhouse and Multi-Unit District. North of the site are parcels of land zoned M1-2 Limited Manufacturing / Business Park District, B3-2 Community Shopping District, and B3-5 Community Shopping District. West of the site are parcels of land zoned B2-2 Neighborhood Mixed-Use District, B3-2 Community Shopping District, and C1-2 Neighborhood Commercial District. South of the site are parcels of land zoned RM-5 Residential Multi-Unit District, B3-3 Community Shopping District, and C1-2 Neighborhood Commercial District. The site is not in the Lake Michigan and Chicago Lakefront Protection District. The site is not located within any Tax Increment Financing (TIF) District.

The CTA's bus route # 49 (Western), route #56 (Milwaukee), and route #73 (Armitage), all run on streets within a half-mile of the site. The Western station along the CTA's Blue Line is immediately adjacent to the project site. The Clybourn METRA station is approximately one mile to the east of the subject site.

### **DESIGN AND LANDSCAPING**

The proposed mixed-use building would incorporate all of the following as suggest under section 17-8-0905-B of the Chicago Zoning Ordinance: a building located abutting the public sidewalk, doors, windows and active uses immediately adjacent to the public sidewalk, primary pedestrian entrances located at sidewalk level, and at least 60% of the street facing facades between 2 feet and 8 feet in height being comprised of clear non-reflective windows allowing views of indoor commercial space. The building would be finished with a combination of modular masonry system and metal panel system. The elevations of the building would incorporate aluminum frame windows and storefront systems as shown on the elevations.

The entire planned development will be in compliance with the requirements of the Chicago Landscape Ordinance specifically in terms of parkway tree planting.

### **ACCESS / CIRCULATION**

All parking stalls will be provided within the proposed building. The parking will be accessed from an overhead entry door located along the public alley at the rear of the building running parallel to the CTA train tracks. Additionally the applicant will provide interior accommodations for bicycle parking and/or storage. The subject site also has one loading berth to serve the building this loading area will be also be accessed from the overhead door accessed from the public alley.

**FINAL**

## **SUSTAINABILITY**

The subject site will be designed to be in compliance with the current City of Chicago Sustainable Development policy as set forth in the Department of Planning and Development's Green Matrix. The building will accommodate a 50% green roof and will obtain building certification.

## **BULK / USE / DENSITY**

The proposed building will have a maximum building height of 85'-0". The current maximum allowable Floor Area Ratio (FAR) for the proposed underlying zoning district (C1-5) is 5.0, and the development will be held to this maximum. All remaining bulk, use and density items will be in substantial compliance with the stipulations of Section 17-3-0400 for C1-5 zoning districts, pursuant to section 17-8-0901.

## **RECOMMENDATION**

The Department of Planning and Development (DPD) has reviewed the project materials submitted by the Applicant and compared this proposal to the requirements of the Chicago Zoning Ordinance and existing development in the community. The area around this project is a diverse mix of commercial, retail, light manufacturing, and residential uses and is accessible from numerous forms of public transit. Based on that analysis, DPD has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. Promotes economically beneficial development patterns that are compatible with the character of existing neighborhood (per 17-8-0103), as evidenced by the design of the building which will add retail options for the local residents, enliven the stretch of Milwaukee Avenue where the subject proposal is located, and by keeping in context with buildings in the surrounding area in terms of size, scale and use.
2. Promotes transit, pedestrian and bicycle use, ensures accessibility for persons with disabilities and minimizes conflicts with existing traffic patterns in the vicinity (per 17-8-0904-1-2, 3 & 4), as evidenced through the site's close proximity to various methods of public transit, the accessibility accommodations provided in the building, the pedestrian and bicycle accessibility provided, and lastly, that the design of the building fits current existing traffic patterns at the site;
3. Provides buildings abutting the sidewalk with doors windows and active use adjacent to it (per 17-8-0905-B-1), as evidenced by the site plan provided showing the building edge immediately adjacent to the public sidewalk and that it is to be improved with retail uses which will provide windows, door and active uses adjacent to the public sidewalk;
4. Provides structures that allow for pedestrian entrance from the surrounding sidewalks (per 17-8-0905-B-2), as evidenced by the construction of the building to the edges of the site's property lines

FINAL

- and by providing access via entrances directly onto the public sidewalk from the building;
5. All sides and areas of the buildings that are visible to the public should be treated with materials, finishes, and architectural details that are of high-quality and appropriate for use on primary public-right-of-way-facing facade (per 17-8-0907-A-4), as evidenced through the information contained within this report, the materials as called out on the

elevations in the exhibits to this planned development, and the corresponding proposal renderings;

6. Promotes environmentally sustainable development practices (per 17-9-0908-A), as evidenced by the project providing a 50% green roof and committing to obtain building certification.

The project meets the purpose and criteria set forth in the Chicago Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare:

1. Per 17-13-0308-C, the proposed development is compatible with surrounding commercial, retail, light manufacturing and residential developments in terms of land use, as well as, the density and scale of the physical structure.
2. Per 17-13-0308-D, the proposed underlying zoning for this planned development (C1-5) is consistent with other business and commercial zoning districts , both adjacent to this site and in the immediate area.
3. Per 17-13-0308-E, the public infrastructure facilities and City services will be adequate to serve the proposed development at the time of occupancy and the project will comply with the requirements for access in case of fire and other emergencies. The proposed project has been reviewed by the Mayor's Office for People with Disabilities and the Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and no comments have been received which have not been addressed in the application.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that this application for the establishment of a Planned Development be approved and that the recommendation to the City Council Committee on Zoning Landmarks and Building Standards be "Passage Recommended".
