**REPORT to the
CHICAGO PLAN COMMISSION from the
DEPARTMENT of HOUSING and ECONOMIC DEVELOPMENT**

DECEMBER 19, 2013

FOR APPROVAL: RESIDENTIAL BUSINESS PLANNED DEVELOPMENT

APPLICANT: 200 NORTH MICHIGAN OWNER, LLC

**LOCATION: 200 - 214 NORTH MICHIGAN AVENUE
CHICAGO, ILLINOIS**

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Housing and Economic Development hereby submits this report and recommendation on a proposed Residential Business Planned Development for your review and recommendation to the Chicago City Council. The application for this amendment to the Chicago Zoning Ordinance was introduced into the City Council on July 24, 2013. Notice of the public hearing was published in the Chicago Sun-Times on December 4, 2013. The applicant was separately notified of this public hearing.

The applicant, 200 North Michigan Owner, LLC, proposes the construction of a 42-story (476 feet) mixed-use building with 402 residential units, approximately 24,900 square feet of retail space, and 125 accessory parking spaces. This application is a mandatory planned development because the residential building would be higher than 440 feet and would contain more than 400 dwelling units of

multi-family housing in a DX-16 Downtown Mixed-Use District.

The application seeks three Floor Area Bonuses to increase the site's maximum Floor Area Ratio (FAR) from 16.00 to 21.63. The bonuses would consist of 1.44 FAR for upper-level setbacks, 1.79 FAR for parking concealed by occupiable space, and 2.40 FAR for a contribution of \$1,291,931.20 to the Affordable Housing Opportunity Fund.

SITE AND AREA DESCRIPTION

The approximately 0.50-acre site lies in the Loop Community Area. The site is bounded by Upper and Lower North Michigan Avenue on the east, East Lake Street on the south, North Garland Court on the west, and the landmark Carbide and Carbon Building (Hard Rock Hotel) on the north. The site currently contains an older 6-story commercial building that contained retail uses on the lower two floors and offices on the upper floors. The building is largely vacant. The site is within neither the Lake Michigan and Chicago Lakefront

Page 1 of 5

Protection District, nor a Tax Increment Finance (TIF) district, nor an Industrial Corridor, nor a Chicago Landmark District.

As stated above, the remainder of the block is occupied by the Carbide and Carbon Building (Hard Rock Hotel). The site lies in the densely built-up mixed-use East Loop area. Development in the immediate area consists overwhelmingly of tall (20+ stories) buildings constructed between the late 19th Century and the 1970's. Uses include offices, residences, hotels, and ground-floor retail. On the institutional side, Harold Washington College of the Chicago City Colleges lies a block to the east and the Chicago Cultural Center (former Chicago Public Library) lies a block to the south. The Main Branch of the Chicago River is two blocks north and Grant Park/Millennium Park is a block south.

Numerous CTA bus lines on N. Michigan Avenue, E. Wacker Place, and E. Lake Street serve the site. CTA transit service is located on the Loop Elevated (Green, Pink, Orange, Brown, and Purple Lines) at the State/Lake station, on the State Street subway (Red Line) at the Lake Street station, and the Dearborn Street subway (Blue Line) at the Clark/Lake station. The Millennium terminal station for Metra's Electric Line and the South Shore Line is a block to the south.

PROJECT DESCRIPTION

The project would consist of 402 residential units, approximately 24,900 square feet of retail space, and 125 accessory parking spaces. The 402 residential units would consist of 130 efficiency units and 272 1-, 2-, and 3-bedroom units, ranging in size from 524 square-foot efficiencies to 1,645 square-foot 3-bedroom units.

A 5-story base would be topped with 37 stories of tower for a total of 42 stories. The base would contain 8 parking spaces and loading docks in the basement, the retail space and the residential lobby on the ground and second floors, and further parking on the third, fourth, and fifth floors. The base would extend to the property line on all four sides except for the ground floor along E. Lake Street, where it would be set back 3' to 4.5' from the property line.

Floors six and seven, at the start of the tower, would be set back 7.25' from E. Lake Street and 42.75' from the north property line. The sixth floor would contain the residential amenity spaces and the seventh floor would be the lowest residential floor. The eighth floor and above would be residential with the tower continuing to be set back 7.25' from E. Lake Street and an increased setback from the north property line (70.75').

Open space would consist of terraces in the sixth, amenity, floor setbacks and the eighth-floor setback, semi-recessed balconies for eight of the twelve units on each of the typical residential floors, and a root-top pool deck.

In addition to the 2.40 FAR bonus for a \$1,291,631.20 contribution to the Affordable Housing Opportunity Fund, the project is seeking on-site FAR bonuses for upper-level

Page 2 of 5

setbacks and parking concealed by occupiable space. A1.44 FAR bonus would be derived from the 28' setback for the 25 floors above the seventh floor on the tower's north side. A1.79 FAR bonus would come from the use of retail space fronting on N. Michigan Avenue and E. Lake Street to conceal parking space on the ground and second floors.

DESIGN

Ground-floor retail spaces would have pedestrian entrances on both N. Michigan Avenue and E. Lake Street. A separate entrance on N. Michigan Avenue would lead to the second-floor retail space. The retail facades on N. Michigan Avenue, E. Lake Street, and N. Garland Court would be metal and vision glass storefronts. Along N. Michigan Avenue, a 15-foot deep space would separate the third to fifth floor parking from the facade. This space would extend all the way from the floor of the second floor, be fronted with vision glass, and be decorated. The south and west facades of the three parking floors would be a combination of two colors of spandrel glass.

All four elevations of the tower would be clad with a mix of vision and spandrel glass. The balconies would have glass railings.

ACCESS and CIRCULATION

The pedestrian entries for the retail spaces on both the ground and second floors would be from the sidewalks on N. Michigan Avenue and E. Lake Street. The entrance for the residential lobby would be on recessed porte-cochere on N. Garland Court.

Access for parking would be from Lower Michigan Avenue. For the basement parking, cars could drive in directly from Lower Michigan Avenue. For the upper-level parking, cars would ascend an internal ramp to the third floor. Loading docks would be located at the basement level under Michigan Avenue.

LANDSCAPING and SUSTAINABILITY

The building would be LEED certified. It would have a green roof on at least 50% of the net roof area (approximately 9,500 square feet), much of that in landscaping on the sixth-floor amenity terrace.

Four raised planters and four parkway trees would be installed along E. Lake Street. The existing concrete planters sitting on N. Michigan Avenue would be relocated to N. Wabash Avenue and replaced by five raised planters with landscaping, but not trees, because Upper Michigan Avenue is on structure. There is no sidewalk on the east side of the narrow N. Garland Court, so no parkway trees would be installed.

RECOMMENDATION

The Department of Housing and Economic Development has concluded that the proposed Residential Business Planned Development would be appropriate for the site and that the project meets the review criteria for planned developments set forth in the Zoning Ordinance (Section 17-13-0900).

Page 3 of 5

1. The project complies with the Standards and Guidelines for Planned Developments in the Zoning Ordinance (Section 17-8-0900).
 - a. Compliance with Zoning. The proposed Planned Development conforms to the standards and requirements of the DX-16 Downtown Mixed-Use District. The application proposes to increase the maximum Floor Area Ratio (F.A.R.) from 16.00 to 21.63 with three Floor Area Bonuses. The bonuses would consist of 1.44 FAR for upper level setbacks, 1.79 FAR for parking concealed by occupiable space, and 2.40 FAR for a payment of \$1,291,931.20 to the Affordable Housing Opportunity Fund. The approximately 0.50-acre site in a DX-16 district, after a 15% Minimum Lot Area reduction for payment to the Affordable Housing Opportunity Fund and a discretionary 40% increase in allowable residential units, supports the proposed 402 residential units in a mix of 272 standard units and 130 efficiency units. All the uses proposed by the application are permitted in a DX-16 district. There is no maximum building height in a DX-16 district.
 - b. Approved Plans. The proposed mix of residential and business uses conforms to the Central Area Action Plan approved by the Chicago Plan Commission in 2009.
 - c. Transportation, Traffic Circulation and Parking. The proposed project is located in a densely developed mixed-use area. Most activities are within walking distance. The site is served by numerous CTA bus lines, and the site lies within two blocks of stations for two commuter rail lines and six of the CTA's eight transit lines. A seventh CTA transit line lies within four blocks. In view of this proximity to transit and the small average unit size (less than 800 square feet), the required parking is low, 125 spaces for the 402 residential units and no parking for the retail use. All the parking that is provided, as well as the loading access, is located on Lower Michigan Avenue.
 - d. Pedestrian Orientation. The building has been designed to provide active uses along all three street frontages. The residential entry & lobby is located on N. Garland Court. The frontages on E. Lake Street and N. Michigan Avenue feature two stories of glass-fronted retail space. Furthermore, along N. Michigan Avenue, the parking on levels three

through five is screened from the street by a 15-foot deep, glass-fronted decorative space. Parkway trees in raised planters will enhance the pedestrian experience along E. Lake Street and new landscaped raised planters will enhance the pedestrian environment along N. Michigan Avenue. The only curb cuts will be on Lower Michigan Avenue and N. Garland Court.

Page 4 of 5

2. The proposed development is compatible with the character of the surrounding area in terms of uses, density, and building scale.

The proposed Planned Development would fit well with the surrounding area. The neighboring blocks contain many buildings or a similar height. The proposed 21.63 F.A.R. is comparable to much of the existing development. The placement of the tower close to E. Lake Street with an approximately 70 -foot setback from the Carbide and Carbon Building allows a clear view of that landmark from the south and provides light and open space for both buildings. Residential high-rise and ground floor retail uses are common in the area.

3. The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy.

The proposed site plan and a traffic study for the Planned Development have been reviewed by the Chicago Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and all comments, which have been received, are addressed in the revised application.

Based on the foregoing, it is the recommendation of the Department of Housing and Economic Development that the revised application for an Residential Business Planned Development be approved and that the recommendation to the City Council Committee on Zoning, Landmarks, and Building Standards be: "As Revised, Passage Recommended."
