Bulk Regulations Table shall apply. Notwithstanding the preceding provisions of this Statement 8, the Property currently has, and shall be permitted to continue having, an aggregate, existing floor area (as measured for the purposes of determining FAR in accordance with Sections 17-17-0305-A and 17-17-0305-B of the Zoning Ordinance) of 1,230,000 square feet (the "Maximum Net Floor Area") on a Net Site Area of 136,652 square feet; resulting in a Maximum FAR of 9.0. 9. Upon review and determination pursuant to Section 17-13-0610 of the Zoning Ordinance ("Part II Review"), a Part II Review Fee shall be assessed by the Department of Housing and Economic Development.. The fee, as determined by staff at the time, is final and binding on the Applicant and must be paid to the Department of Revenue prior to the issuance of any Part II approval. The Part II fee shall be assessed only against the floor area, as measured for FAR purposes under the Zoning Ordinance, that is added to the Building, without any offset for the corresponding floor area being removed from the Building.
10. Parking for the Property, as of the effective date of this Planned Development, is provided within an existing, indoor, multi-level garage that includes tandem parking spaces and is generally deficient with respect to other current parking design standards required by the Zoning Ordinance and other applicable provisions of the Municipal Code (including, but not limited to, Section 17-10-1000 and all standards of Section 17-10 relating to minimum parking space dimensions, handicapped-accessibility, vertical clearance and drive aisle dimensions). Renovations to the Property's garage and surface parking area to the east of the Building, when undertaken by the Applicant, shall be completed in accordance with this Statement 10, in accordance with the Bulk Table and substantially in accordance with the Sub-Basement Plan, Basement Plan, Level 1 Plan and Level 2 Plan. Such renovations and installation will: i) reduce, but will not eliminate some of the existing non-conformities with respect to off-street parking at the Property; and, ii) will increase the number of tandem spaces, but to no more than fifty-two (52) such spaces. Any tandem parking spaces within the Property, before or after renovations, may be utilized only by residents of the Property and their guests. In accordance with the Maximum Net Floor Area, parking spaces located on any levels located more than fifty percent (50%) above grade shall be used exclusively for accessory parking. Pursuant to the stipulations of Section 17-10-0503, and provided the applicant submits a written request to the Zoning Administrator with adequate supporting information, such as residential and non-residential occupancy levels and parking vacancy levels at the Property, and the Zoning Administrator determines in writing that the following will be in the interest of public convenience and will not have a significantly detrimental impact on the general welfare of the neighborhood or community, up to twenty-five percent (25%) of the accessory parking spaces provided in the Planned Development may be leased on a daily, weekly or monthly basis to persons who are not residents, tenants, patrons, employees or guests of the Planned Development.
