**FINAL**

**REPORT to the  
CHICAGO PLAN COMMISSION from the  
DEPARTMENT of PLANNING AND DEVELOPMENT**

**DECEMBER 17, 2015**

**RESIDENTIAL BUSINESS PLANNED DEVELOPMENT**

**CHICAGO WELLS DEVELOPMENT, LLC**

**800-820 NORTH WELLS ST., 200-206 W. CHICAGO AVE., 201-209 WEST INSTITUTE PL.**

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation on a proposed Residential Business Planned Development for your review and recommendation to the Chicago City Council. The application for this amendment to the Chicago Zoning Ordinance was introduced into the City Council on July 29, 2015. Notice of the public hearing was published in the Chicago Sun-Times on December 2, 2015. The applicant was separately

notified of this public hearing.

The applicant filed the application as a mandatory planned development per the requirement of section 17-8-0512 Tall Buildings. The applicant proposes to reclassify the site to an RM-6.5, Residential Multi-Unit District prior to establishing the Residential Business Planned Development.

### **SITE AND AREA DESCRIPTION**

The approximately 20,789 square foot site lies in the Near North Side (8) Community Area. The rectangular shaped site is currently improved by a four (4) masonry buildings with heights ranging from two (2) to four (4) stories. The Site is currently C2-5, Motor Vehicle-Related Commercial District. The site is neither within the Lake Michigan and Chicago Lakefront Protection District, nor within a Chicago Landmark District but is located in the Near North Tax Increment Finance District.

The site is bounded on the north by West Institute Place and Planned Development No. 477 (Moody Bible Institute), on the east by North Wells Street, on the south by West Chicago Ave. and a 2-story commercial building and a public alley on the west of the property. There is a mix of uses along North Wells Street and West Chicago Avenue that include commercial, retail, institutional and accessory parking.

Page 1 of 4

The site is served by the Chicago Transit Authority bus routes #37 (Sedgwick), # 66 Chicago Ave., #156 (Belmont/ Sheridan); The CTA's Brown Line Franklin Chicago rail station provides access to the area located 1/2 mile and west of the site.

### **PROJECT DESCRIPTION**

The applicant proposes to construct a multi-story mixed-use building with ground floor office space, dwelling units, accessory parking and accessory uses. The applicant is seeking an up zoning to a unified RM-6.5 and then to a Residential Business Planned Development. The proposal includes the construction of a 24-story (342') residential tower with 55 dwelling units, 4,087 square feet of office space, and 105 accessory parking spaces. The unit breakdown for the project is as follows: 11 efficiency units, (15) 2-bedroom units, (19) 3-bedroom units and (10) 4-bedroom units.

The project has an estimated total project cost of \$66,469,000.00 and the expected construction time line is 24 to 30 months. The project is anticipated to generate 150 construction jobs and 20 full time jobs.

### **DESIGN**

The multi-story building is primarily comprised of a pre-finished aluminum and glass window system. This architectural vocabulary defines primarily the residential tower fronting West Institute Place, West Chicago Avenue and North Wells Street elevations. The ground floor contains office space that fronts West Chicago Avenue, and is enclosed by a glass storefront. The residential units are contained on floor six through twenty-two with floor twenty-three programed for amenities and mechanical uses.

The townhouse parking garage fronts on North Wells Street and includes only 8 parking spaces,

while the main, 105 accessory parking spaces are accessed via an entry from West Institute Place. The parking garage is concealed along West Institute Place with a townhouse unit. The garage itself conceals all accessory parking spaces with an aluminum and spandrel glass system along the base of the building.

### **ACCESS/CIRCULATION**

The site has vehicular access via North Wells Street and West Institute Place via two proposed curb cuts. Pedestrian access for the residential tower is located along North Wells Street from a residential entry lobby. The ground floor of the proposed building is designed for commercial office space fronting West Chicago Avenue. The design of the base of the building improves the pedestrian experience and is enlivened by a glass facade fronting the street frontage.

### **LANDSCAPE / SUSTAINABILITY**

The project will install new parkway trees along West Chicago Avenue (3 trees), West Institute Place (2 trees) and North Wells Street (6 trees). The project will provide a total of 11 new parkway trees and will comply with CDOT and the City's Landscape Ordinance.

Page 2 of 4

The project will also comply with the Storm Water Management Ordinance, implementing best practices in stormwater management. The project will satisfy the requirements of the City of Chicago's Sustainable Development matrix. The project anticipates receiving Building Certification and will provide approximately 8,126 square feet of green roof covering 50% of the net roof area.

### **BULK/USE/DENSITY**

The site will be rezoned to an RM-6.5 and has a maximum allowable Floor Area Ratio (F.A.R) of 6.6. This proposed Residential Business Planned Development will achieve an F.A.R of 7.57, through section 17-2-0304-C Premium. The section states that a multi-unit residential building located in an RM-6.5 district on lots that permit 50 or more dwelling units, are eligible for floor area ratio premiums in accordance with the following:

For each one percent decrease in the number of dwelling units below the maximum number permitted under Sec.17-2-0303-A, a 0.50% increase in the allowable floor area ratio is allowed, provided that the floor area ratio is not increased by more than 25% over the otherwise applicable maximum under Sec. 17-2-0304-A.

Based on the projects net site area of 20,789 square feet the Minimum Lot Area would permit 74 dwelling units under the RM 6.5 District. The developer has opted to reduce the density of the building and develop 55 dwelling units. The reduction in dwelling units from 74 to 55 would permit the developer an increase of 0.97 FAR for a total maximum of 7.57 FAR (6.6 FAR x 114.68% = 7.57 FAR). The premium as defined by the above referenced section cannot exceed a maximum FAR of 8.125.

### **RECOMMENDATION**

The Department of Planning and Development has reviewed the project materials submitted by the applicant and has concluded that the proposed application for a Residential Business Planned Development would be appropriate for the site and that the project meets the review criteria for

planned developments set forth in the Zoning Ordinance (Section 17-13-0900).

1. The project complies with the Standards and Guidelines for Planned Developments in the Zoning Ordinance (Section 17-8-0900).
  - a. Compliance with Zoning. The proposed amendment to the Planned Development would conform to all the requirements and restrictions of the RM-6.5 Residential Multi-Unit District for uses, height, floor area ratio, and density.
  - b. Transportation, Traffic Circulation and Parking: The site has vehicular access via a proposed curb cut from North Wells Street and an additional curb cut from West Institute Place. The pedestrian access for the residential tower is located along North Wells Street and is identified via a residential entry lobby.

Page 3 of 4

Loading will occur internal to the building envelope and foot print and be accessed from a proposed curb cut from West Institute Place.

- c. Pedestrian Orientation. The proposed project will allow unimpeded pedestrian flow i on North Wells Street and West Chicago Avenue. Residential patrons will access the residential entry lobby through North Wells Street.
- d. Urban and Building Design. The building's modern design emphasizes the contrast among the various types of architectural styles and vocabulary along North Wells Street and West Chicago Avenue. The building materials of the building include architectural window system, spandrel glass (at the garage levels), metal panel system, brick veneer at the townhome elevations, and concrete columns are of high quality.

The design of the building's base and the materials of the building conceal the parking garage from the public view along North Wells Street and West Institute Place.

2. The proposed development is compatible with the character of the surrounding area in terms of uses, density and building scale.

Current development north and south of the site is comprised of a mix of uses along North Wells Street which include residential, office, institutional and commercial uses. The permitted uses of office and multi-unit residential uses are those allowed within the project's underlying zoning of RM-6.5, Residential Multi-Unit District.

3. The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy.

The proposed Planned Development has been reviewed by the Chicago Department of Transportation's and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and all comments received which have been addressed in the revised application.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that the revised application for a Residential Business Planned Development for CHICAGO WELLS DEVELOPMENT, LLC, be approved and that the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be: "As Amended, Passage Recommended."
