- 8) Promotes environmentally sustainable development practices (per 17-8-0908-A), as evidenced through the presence of a green roof covering a minimum of 6,840 square feet (25% of roof net site area), and committing to achieve Leadership in Energy and Environmental Design (LEED) certification;
 - 9) Provides inviting and usable open space (per 17-8-0909-A-1) that maximizes exposure to sunlight (per 17-8-0909-B-1), as evidenced by the large entry plaza and the large landscape courtyard space provided on site.

3. Based on the size of the subject property compared to the corridor as a whole and the high overall percentage of current industrial users within the corridor, non-industrial development of this parcel is not anticipated to negatively impact this corridor's ability to attract new or expanding industrial or manufacturing facilities. (17-13-0403-D)
 4. Approximately 85% of the corridor's land area is currently zoned for industrial or manufacturing uses. (17-13-0403-E)
 5. The Brighton Park Industrial Corridor is vital to the City's manufacturing and business community because of its adjacency to dense residential and business neighborhoods and its proximity and accessibility to the Interstate System and the region's public transportation network (CTA bus routes and train lines). Maintaining the boundaries of the corridor and promoting redevelopment of vacant parcels will help stabilize and strengthen the corridor and will supplement the access allowed via expressway and transit connectivity in making the corridor more attractive to the labor pool in the area. (17-13-0403-G)

Regarding the department's opinion on this proposal to redevelop these vacant parcels, in light of the requirements of the Zoning Ordinance and compared to other development in the community, DPD has concluded that this represents an appropriate re-use of the site and supports this development for the following reasons:

- 1) Promotes unified planning and development (per 17-8-0102), as evidenced through the applicant's development plans to establish a school campus on the subject site that takes care to provide some isolation from the remainder of the industrial corridor to the south as well as providing a well thought out site plan that provides easy access to the site for students arriving via car, bicycle or public transit routes;
- 2) Promotes economically beneficial development patterns that are compatible with the character of existing neighborhoods (per 17-8-0103), as evidenced by the design, massing and proposed uses being in context, with the character of the existing development and immediate community;
- 3) Ensures a level of amenities appropriate to the nature and scale of the project (per 17-8-0104), as evidenced by the institutional provisions which are designed to serve their student body, while being in accordance with the requirements of the Chicago Zoning Ordinance;
- 4) Promotes a flexible application of selected bulk, use and development standards to provide a creative, urban design (per 17-8-0105), as evidenced through the various heights, elevation details and building variety;
- 5) Promotes transit, pedestrian and bicycle use, ensures accessibility for persons with disabilities and minimizes conflicts with existing traffic patterns in the vicinity (per 17-8-0904-A-2, 3 & 4), as evidenced through the site's proximity to public transit, the accommodations made on-site for bicycle parking, the site's level of pedestrian accessibility and the provisions made to take advantage of existing traffic patterns to accommodate anticipated vehicular movements;
- 6) Provides a parking that is screened from high traffic public rights-of-way (per 17-08-0904-C-2) by keeping the surface lot along the eastern and southern edges of

REPORT to the
CHICAGO PLAN COMMISSION from the
DEPARTMENT OF PLANNING AND DEVELOPMENT FEBRUARY
18, 2016

**FOR APPROVAL: PROPOSED INDUSTRIAL CORRIDOR MAP AMENDMENT AND
PROPOSED INSTITUTIONAL PLANNED DEVELOPMENT
(APPLICATION NO. 18607)**

APPLICANT: NOBLE NETWORK OF CHARTER SCHOOLS

LOCATION: 2833 W. 47th STREET

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation regarding a proposed map amendment to establish an Institutional Planned Development in the Brighton Park Industrial Corridor for your review and recommendation to the Chicago City Council. This application was introduced into the City Council on December '09; '2015' Proper legal notice of this "public hearing" on the application was published in the Chicago Sun-Times on February 3, 2016. The applicant was separately notified of this hearing.

The applicant, Noble Network of Charter Schools, is seeking approval of this Zoning Map amendment for property generally located at 2833 West 47th Street. The applicant is proposing to construct a two-story school with an outdoor soccer field as well as onsite surface parking for approximately 93 vehicles, the applicant is requesting that the subject property be rezoned from M2-2 (Light Industry District) to a C3-3 (Commercial, Manufacturing and Employment District) prior to establishing this Institutional Planned Development.

This project has been submitted pursuant to Section 17-13-0402, which states that Plan Commission review and recommendation is required when the proposal involves the rezoning of land within an industrial corridor from an M zoning district to a non-M zoning district. In addition, this request is being submitted as a mandatory planned development pursuant to Section 17-8-0504, due to the proposed campus size exceeding a net site area of two acres.

PROJECT BACKGROUND

The subject site was most recently the home of a bottling plant for the Royal Crown Company. In 2013 the building was demolished and the site remains a vacant lot today. The site is situated within the Brighton Park Industrial Corridor is generally located on the southwest side of the City of Chicago. The corridor covers property bounded by 47th Street

FINAL

on the north, Lawndale Avenue on the west, 53 Street on the south, and Campbell Avenue on the east.

The corridor is approximately 400 acres in size and contains approximately 57 businesses, employing 3,946 individuals; approximately 85% of the land within this corridor has a current, active industrial use. The subject site is located along the far northern border of the industrial corridor,

SITE AND AREA DESCRIPTION

The subject property is currently vacant and located within the Brighton Park Community Area and the Stevenson/Brighton Tax Increment Finance District. The subject site is surrounded by various different zoning designations and land uses. North of the subject site immediately across 47th Street are parcels of land zoned B1-3 (Neighborhood Shopping District), B3-1 (Community Shopping District), and B3-2 (Community Shopping District). West of the subject site are parcels of land zoned M2-1 (Light Industry District) and M2-2 (Light Industry District). South of the site are parcels of land zoned M2-2 (Light Industry District) and M2-3 (Light Industry District). East of the subject site are parcels of land zoned RT 3.5 (Residential Two-Flat, Townhouse and Multi-Unit District), B3-1 (Community Shopping District), M1-2 (Limited Manufacturing/Business Park District), and M2-2 (Light Industry District):

The site is not located within the boundaries of the Lake Michigan and Chicago Lakefront Protection District; in addition, it is not located within the boundaries of a Chicago Landmark District and does not contain any designated local or national landmark structures or sites.

The site is served by train stations located at Kedzie Avenue and Western Avenue along the CTA Orange Line both located approximately one half mile from the subject site. The site is also served by the Chicago Transit Authority's bus routes #47 (47th Street), #48 (South Damen), #49 (Western), #51 (51st Street), #52 (Kedzie/California), #55 (Garfield), #62 (Archer), and #94 (South California) which all have routes and stops that lie within one mile of the subject site.

PROJECT DESCRIPTION

The applicant is proposing to construct a two-story charter high school along with an outdoor soccer field and onsite parking stalls for 93 vehicles. It is anticipated that the school will accommodate 1000 children in grades 9-12 and will operate with 75 staff members. Initial estimates pegged the cost of the project at somewhere between 20 and 23 million dollars.

The school anticipates being ready to open the doors of the facility for the 2017-2018 school year with (2) classes a true freshman class and a sophomore class that would begin in the 2016-2017 school year at an offsite temporary incubation location.

FINAL

DESIGN

The site plan of the building is laid out with a crescendo in mind. The coil shape begins with shortest point of the building and gradually increases as you move along the coil to terminate at the tallest portion of the building which will house the gymnasium and multipurpose rooms. The building is primarily finished in a combination of a porcelain wall panel system and a metal wall panel system. Incorporated into small sections on each elevation are areas which will be finished with glass panel systems which will incorporate the use of both clear glass panels as well as colored spandrel glass panels. The anticipated color palette is to be comprised largely of neutral gray tones accented with yellow and or golden hues, additional accents in light blue may also be part of the scheme.

LANDSCAPING

The entire planned development, including the surface parking lot, will meet the requirements of the Chicago Landscape Ordinance. In addition to those requirements the proposed site plan includes an artificial turf soccer field, a landscaped entry plaza which provides access into the school building and serves as an entry point into a large open courtyard. The open courtyard at the center of the building will have hard-scape walking paths providing access between the four wings of the facility, the courtyard provides various areas to be planted with grass.

ACCESS/CIRCULATION

Access to the school facility for students is provided off of the north entry along 47th street an additional entry point for staff is located on the southern edge of the building bicycle parking spaces are provided adjacent to each of these entry points. A pick-up and drop off lane will be provided via a one way traffic, pattern accessed by driveway along the 47th street frontage (access to this driveway will be restricted to right turn only from 47th Street per CDOT recommendations). Vehicle parking is provided to the east of the facility and to the south of the facility, these stalls can be accessed via a two-way traffic driveway along South Richmond Street and a one-way inbound driveway accessed from the 47th Street frontage. Additional access east to California Avenue is provided along a private roadway to the south of the subject site access along the private roadway is guaranteed for the school via recorded easement, however, other industrial users will also be using the private roadway to reach destinations to the east of this property.

Individuals arriving via public transportation would access the property from the 47th Street entry area. It is anticipated that people would either be dropped off via CTA bus along 47th Street; or, arriving by foot along 47 Street after exiting the CTA Orange Line via stations at either Kedzie Avenue or Western Avenue, both located within approximately one-half mile of the site.

SUSTAINABILITY

This development will have a green roof covering at least 6,840 square feet which is equivalent to 25% of the net roof area and will be Leadership in Energy and Environmental Design (LEED) certified. The aforementioned improvements would place the development in compliance with the guidelines of the Sustainable Policy of the Department of Planning and Development.

FINAL

BULK/USE/DENSITY

The current maximum allowable Floor Area Ratio (FAR) for the proposed underlying zoning (C3-3) is 3.0; however, under this planned development the FAR will be limited to a maximum of 1.0. All remaining bulk, use and density items will be in substantial compliance with the stipulations of Section 17-3-0400 for C3-3 zoning districts, pursuant to section 17-8-0901.

RECOMMENDATION

The Department of Planning and Development has examined the project materials submitted by the applicant pursuant to Sections 17-13-0302 and 17-13-0400 with respect to the review and decision making criteria identified therein. Regarding the decision as to whether this legislative action would be in the best interest of the public's health, safety and general welfare, while balancing those answers against the rights of individual property owners, per Section 17-13-0308, the following was considered:

1. The proposed rezoning is consistent with the City's goal of improving the support service and job prospects in its industrial corridors. The Stevenson/Brighton Park Industrial Corridor Tax Increment Finance District Redevelopment Area Plan identifies this parcel for re-use under the Mixed-Use 1 category which includes Commercial, Industrial and Public Institutional Uses. Based on the proposed land use map contained in the TIF Redevelopment Plan the proposed educational, employment and community benefit potential of this proposal is supported. Furthermore, this proposed development is not seeking to utilize any TIF incentive from the City. (17-13-0308-A)
2. This is an appropriate rezoning of land to accommodate a use that will bring vitality to this portion of the corridor which does not have intense industrial or commercial activity. (17-13-0308-B)
3. The character of this proposal is consistent with the community and will compliment the current uses adjacent to this site. Specifically the proposed school would be compatible to an existing grade school located on the north side of 47th Street. (17-13-0308-C)
4. The public infrastructure facilities and City services will be adequate to serve the proposed development at the time of occupancy and the project will comply with the requirements for access in case of fire and other emergencies. The proposed project has been reviewed by the Mayor's Office for People with Disabilities, the Chicago Fire Department, and the Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and no comments have been received which have not been addressed in the application. (17-13-0308-E)

Regarding the impact this rezoning would have on the viability of the industrial corridor, per Section 17-13-0403, the following was considered:

1. The corridor is approximately 400 acres; the subject site is approximately 5.5 acres, representing less than 1.5% of the corridor. (17-13-0403-A)
2. There are approximately 57 businesses, employing 3,946 individuals in the corridor. The rezoning and redevelopment of this site would not impact any of those
