

WHEREAS, the City Council of Chicago has demonstrated its commitment to decisive environmental action, efficient governance, and equitable policies benefiting all Chicagoans; and,

WHEREAS, the City Council of Chicago, on behalf of all its constituents, has an obligation to investigate all possible alternatives to the existing arrangements to provide superior energy delivery while addressing broader equity and environmental concerns; therefore,

NOW BE IT ORDERED, the Department of Fleet & Facilities Management shall commission a municipalization feasibility study to explore alternative options to the existing franchise arrangement. This feasibility study shall include full municipalization of ComEd's utility facilities, as specified by Section 5 of the Franchise Agreement, and an analysis of the socioeconomic, financial, and environmental impacts of each possible alternative. The study shall be conducted by an expert third-party to be completed and delivered to City Council no later than December 1, 2019; and,

NOW BE IT ORDERED, the City of Chicago and its appropriate department(s) shall review ComEd's books, accounts, correspondence, documents and data, as enabled by the Franchise Agreement, to the extent that is necessary to gather any and all necessary information about ComEd, including but not limited to its operations, assets, and finances, that the City may require to inform and conduct the full exploration of options surrounding the succession of the existing Franchise Agreement.
