REPORT to the  
CHICAGO PLAN COMMISSION from the  
DEPARTMENT OF PLANNING AND DEVELOPMENT NOVEMBER 19, 2015

FOR APPROVAL: PROPOSED 2015 AMENDMENT TO BUSINESS PLANNED  
DEVELOPMENT #70, AS AMENDED and,

PROPOSED LAKE MICHIGAN AND CHICAGO LAKEFRONT PROTECTION ORDINANCE APPLICATION NO. 649

APPLICANT: LAKESHORE EAST, LLC

LOCATION: 381-383 EAST WACKER DRIVE

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development ("DPD") hereby submits this report and recommendation regarding a proposed 2015 Amendment to Residential-Business Planned Development #70, as amended, for your review and recommendation to the Chicago City Council. The application for the amendment to the Zoning Ordinance was introduced into the City Council on June 19, 2015.

DPD also submits for your review and approval proposed Lake Michigan and Chicago Lakefront Protection Ordinance Application No. 670 pursuant to Section 16-4-100 of the Lake Michigan and Chicago Lakefront Protection Ordinance. The subject site is located within the Private Use Zone. The lakefront application was filed with DPD June 10, 2015.

Proper legal notice of the public hearing for both the zoning application and lakefront application was published in the Chicago Sun-Times on November 4, 2015. The Applicant was separately notified of this hearing.

The Applicant intends to amend the Lakeshore East Master Plan and Design Standards associated with Subarea E of Residential-Business Planned Development #70 and to construct an approximately 1200' mixed-use building with 410 dwelling units, 210 hotel keys, additional commercial space and accessory parking on an approximately 67,163 square foot site located within Subarea E of Residential-Business Planned Development #70 at approximately 381-383 East

Wacker Drive.

#### BACKGROUND

Residential Business Planned Development #70 was first created in 1969 and includes the area that is generally bounded by North Michigan Avenue, East Randolph Street, North Lake Shore Drive and East Wacker Drive. At that time, the subject area was largely the

#### FINAL

terminus of the Illinois Central Railroad yard in downtown Chicago. Today, the area includes several notable buildings and significant redevelopment projects, including Illinois Center, Aon Center as well as Lakeshore East. Moreover, the planned development is notable as part of a larger area that includes a three level road network, resulting in sub-level, middle-level and upper-level Wacker Drive, Randolph Street and Columbus Drive, to name a few. This road network presents challenges and opportunities for redevelopment.

Lakeshore East, essentially Subarea E of PD #70, is approximately 28 acres in size and is generally bounded by North Columbus Drive, East Wacker Drive, North Lake Shore Drive and East Randolph Street. Lakeshore East is largely a residential/mixed use community that was begun by the Applicant in approximately 2001 and today has been substantially redeveloped with a variety of buildings such as Aqua, Regatta and Shoreham, among others, around a new public park. Lakeshore East is governed by the zoning controls in PD #70 which prescribes the overall development volume, number of dwelling units and hotel keys as well as commercial space that are allowed within the planned development and each Subarea. In addition, Subarea E is governed by the Lakeshore East Master Plan and Design Standards (Master Plan).

The proposed 2015 Amendment to PD #70 includes changes to the Master Plan that will accommodate a new residential/mixed use development project named Wanda Vista. The changes include adjustments to the allowed building heights in Lakeshore East as well as infrastructure and parcelization adjustments. Finally, the elevation drawings, site plans and other supporting exhibits prescribing the Wanda Vista project itself are being included in the proposed 2015 Amendment to streamline the site plan approval process.

#### SITE AND AREA DESCRIPTION

The subject site is officially located within the northeastern most section of the Loop Community Area immediately south of the intersection of North Field Boulevard and East Wacker Drive. East Wacker Drive at this location is improved at the upper, middle and sub levels. North Field Boulevard is currently improved at the sub level but exists as a public right of way at the middle and upper levels as well and essentially splits the subject site into two halves. The difference in height between the upper and sub levels of Field Boulevard and Wacker Drive is approximately 53'. The proposed site is approximately 67,163 square feet as measured at Upper-Level East Wacker Drive which includes the proposed vacation of portions of North Field Boulevard above 22'. The currently vacant site has an address of 381 East Wacker Drive and is referred to as Parcel D within the Master Plan.

As stated, the site is currently zoned Residential-Business Planned Development #70 (Subarea E), which will not change as part of the 2015 Amendment. While several parcels remain undeveloped within PD #70, the area is currently improved with a variety of residential, mixed use and commercial buildings. Immediately to the west, east as well as south of the subject site are residential towers located within Lakeshore East and known as the Regatta, Coast, Tides and Shoreham. Nearby uses include a grocery store, the Aqua residential/hotel tower, various townhomes and GEMS school. In addition to the multi-level street and pedestrian connections in the area, the defining feature of Lakeshore East is

?

#### FINAL

Lakeshore East Park, a 5.3 acre Chicago Park District facility located in the center of the development, which provides walking paths, open space and a dog park, among other amenities. To the north of the subject site, located within the right of way of Sub-Level East Wacker Drive is a City of Chicago Auto Pound facility. Further north of Wacker Drive is the Chicago River Walk which is improved with a variety of seasonal uses such as kayaking, restaurants and tourism-related

uses.

For broader context, the area to the north of Lakeshore East, across the Chicago River is currently zoned a variety of downtown zoning districts and planned developments that include residential, mixed use and commercial buildings. Uses in this area, which is part of the larger Streeterville area, include City Front Center and the Sheraton Hotel, among others.

The subject site is well served by existing public transit resources. In addition to many nearby bus routes, the Chicago Transit Authority's (CTA) Jackson Park Express bus (#6) is available on East Wacker Drive as well as the Blue Island/26th Street bus (#60) on North Harbor Drive, very close to the proposed Wanda Vista Tower. In addition, the subject site is well served by existing bike infrastructure and will be very well served by the Chicago Pedway System, providing a covered link from the site into the core of the Central Business District.

As stated, the site is located within the Private Use Zone of the Lake Michigan and Chicago Lakefront Protection District. It is not a Chicago Landmark nor is it located within a Chicago Landmark District. The property is also not located within a Tax Increment Financing District.

#### PROJECT DESCRIPTION

The Wanda Vista project consists of the construction of an approximately 98-story mixed use building (93 stories above Upper Wacker Drive) that will include approximately 410 dwelling units, 210 hotel keys, 247 accessory parking spaces and additional commercial space. The entire building is planned to include approximately 1,600,000 square feet of space. The project also includes significant infrastructure improvements and changes to the immediate area to support the proposed development project including the vacation and dedication of portions of Field Boulevard rights of way. Construction is anticipated to commence in the Spring of 2016 and be completed in 2019 and 2020.

#### DESIGN

The design of the building includes a five-story base that will be constructed below the level of Upper Wacker Drive and will largely include parking, mechanicals and other building support services. North Field Boulevard will continue to operate as a publicly dedicated street through the center of the building at the lowest level (lower level five), connecting East South Water Street, within the Lakeshore East area, to Sub-Level East Wacker Drive. Above this lowest level, Field Boulevard will be vacated, allowing lower levels of the proposed building to be built across the entire building site.

[1010]  
FFNAL

Above this five-story base, the building can best be described as four interconnected towers that increase in height from east to west across the site, creating smaller floor plates as height increases with the building. The first tower tops out at approximately eleven stories above Upper-Level East Wacker Drive. The second, third and fourth towers are designed to be approximately 47 stories, 71 stories and 93 stories above Upper-Level East Wacker Drive, respectively. The lower levels of the building (Floors 1-11) will primarily house the hotel functions while the upper floors (Floors 12-93) will primarily house the dwelling units. The tallest portion of the building, on the west side of the site, is planned to be approximately 1200'.

The overall design for the portion of the building above Upper-Level East Wacker Drive is a series of frustums, stacked on each other in an inverted manner that also alternate between the towers. The cladding of the building on all sides includes various types of glazing and stainless steel. A portion of the north facade up to the eleventh floor will extend out from the base, giving the building a prominent entry focal point and multi-level interior space. This portion of the building will be clad with a brushed stainless steel and glass. Balconies are designed into the floor plates for the residential floors, affording many of the units private outdoor amenity space. Additional common outdoor spaces will be provided at various other levels of the building for hotel guests, restaurant patrons and residents, as appropriate. The material callouts on the exhibits to this report detail all of the specific planned materials that make up the building's design.

#### LANDSCAPING

The project will fully comply with the Chicago Landscape Ordinance along the proposed and existing public and private rights of way as well as the proposed outdoor pedestrian promenades. Significant landscaping is proposed for the

easternmost end of the proposed extension to Upper Level East Wacker Drive as well as the pedestrian overlook to Lakeshore East Park at Waterside Drive.

#### ACCESS/CIRCULATION

The primary vehicular access to the building is planned via the proposed Upper-Level Field Boulevard, which will connect to an extended Upper-Level East Wacker Drive as well as to Waterside Drive. This upper level includes a dropoff area as well as bypass area for hotel patrons and residents. The residential dropoff will be located on the easternmost side of the site via Upper-Level Field Boulevard. The hotel dropoff area will be constructed on an extended Upper-Level East Wacker Drive, which will also function as a landscaped pedestrian area.

Also at the upper level, access to the garage below is available on the west side of the site while an exit from the garage is planned for the east side of the site. In addition, vehicular access to the building garage is planned via Sub-Level East Wacker Drive, including space for six loading berths. The garage will contain space for approximately 247 vehicles (located on lower levels five thru one) while additional garage parking is planned for a future building project on the site immediately west of the proposed Wand Vista Tower, via

[1010]  
FINAL

an interconnected garage.

Pedestrian access points to the building include via Sub-Level Field Boulevard as well as Upper-Level Field Boulevard and Upper-Level East Wacker Drive. A public access point and elevator to allow pedestrians access to Sub-Level Field Boulevard, Upper-Level Field Boulevard as well as the Pedway system, at approximately the level of Middle-Level Field Boulevard, will be installed completely within the Wanda Vista building. In addition, planned pedestrian improvements on the site include a promenade connection between the north side of the Wanda Vista building and the extended Upper-Level East Wacker Drive, a pedestrian overlook to Lakeshore East Park at Waterside Drive as well as Sub-Level Field Boulevard improvements, especially at the intersection of Sub-Level East Wacker Drive.

The right of way adjustments necessary to accommodate the proposed Wanda Vista project include: 1) Vacation of the air rights at 22' above a portion of Sub-Level Field Boulevard; 2) Vacation of additional portions of Field Boulevard completely; 3) Dedication of portions of private property to widen Sub-Level Field Boulevard; 4) Extension of Upper-Level East Wacker Drive, and; 5) Establishment of easements for the public use of Upper Field Boulevard and connections to Waterside Drive and Upper East Wacker Drive.

#### SUSTAINABILITY

The Applicant will provide approximately 11,000 square feet of green roof and will achieve LEED Silver certification for the Wanda Vista project. The project will also comply with the Storm Water Management Ordinance, implementing best practices in all storm water management. The Green Roof Plan included as an exhibit to this report highlights the locations of the green roofs on the various levels of the building.

#### BULK/USE/DENSITY

PD #70 contains an overall cap on Floor Area Ratio (FAR) volumes, allowed dwelling units, allowed hotel keys and allowed office/retail space throughout the entire PD and by Subarea. Subarea E limits total development to approximately 9,700,000 square feet of space, 4900 dwelling units and 2100 hotel keys. The effective FAR for Subarea E is 11.6.

No changes to the development limits prescribed within PD #70 as outlined above are necessary to accommodate the proposed Wanda Vista project. The Wanda Vista project will contain approximately 1,600,000 square feet of total space and as stated earlier, 410 dwelling units and 210 hotel keys. After the Wanda Vista project is completed, approximately 2,690,000 square feet of space will remain for future development projects within Subarea E of PD #70.

As stated, this proposed 2015 Amendment to PD #70 seeks to amend the Master Plan associated with Subarea E. Specifically, the Master Plan is being adjusted to increase the maximum height allowed for the parcel proposed to be redeveloped for the Wanda Tower

[1010]  
FINAL

project (Parcel D) from 640' to 1200'. The maximum building height allowed for Parcel O, located immediately to the south of the Aqua Building on North Columbus Drive, is proposed to be decreased from 900' to 680'. Other changes to the Master Plan include changes to the parcelization plan and infrastructure adjustments necessary to accommodate the Wanda Vista project.

#### RECOMMENDATION

The Department of Planning and Development has reviewed the proposed Amendment to PD #70 and the materials submitted by the Applicant and compared this proposal to existing development in the community. The area around this project is part of a larger planned development with similar zoning controls while nearby downtown zoning districts are also similar and the proposal represents an opportunity to construct a compatible residential/mixed use development project along East Wacker Drive in Chicago's Loop Community Area.

Based on that analysis, the Department of Planning and Development has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. The project meets the purpose and criteria set forth in Chapter 17-8 of the Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare. Specifically, this project meets the following provisions of Chapter 17-8:

Promotes pedestrian interest, safety and comfort by creating safe and attractive walkways and pedestrian routes and by emphasizing building entries through architecture and design (per 17-8-0905-A), as evidenced by the project's incorporation of improved pedestrian paths and the significant building entrance;

Upper-story setbacks should be used to reduce the apparent mass and bulk of tall buildings (per 17-8-0907-B) as evidenced by the proposal's incorporation of significant setbacks in the overall building's design;

Reinforces desirable urban features found within the surrounding area, such as siting patterns, massing arrangements and streetscape characteristics (per 17-8-0906-A), as evidenced by the compatibility of the project's mass and site design with the surrounding buildings in the Lakeshore East area and more broadly, in the Loop community area;

Provides adequate, inviting, usable and accessible open space for workers, visitors and residents, provides a sense of place associated with the development and provides substantial landscaping of the open areas (per 17-8-0909-A), as evidenced by the incorporation of a pedestrian promenades overlooking Lake Shore East Park and East Wacker Drive;

Conserves non-renewable energy and scarce materials (per 17-8-0908-A) as evidenced by the project's goal of LEED Silver certification;

[1010]  
FINAL

Promotes the safe and efficient circulation of pedestrians, cyclists and motor vehicles (per 17-8-0904-A1) as evidenced by the project's site plan that provides appropriate drop-off, bypass and through connections between the site and surrounding Lakeshore East area, including an enclosed publically accessible connection to the lower level, upper level and Pedway level of the project; and

All sides and areas of the buildings that are visible to the public are treated with materials, finishes and architectural details that are of high-quality and appropriate for use on primary street-facing facade (17-8-0907-A-4), as evidenced through the material callouts in this report and on the elevations.

The site lies within the boundaries of the Central Area Action Plan, which was adopted by the Chicago Plan Commission on August 20, 2009. The project is completely consistent with the Central Loop Sub-district of the Central Area Action Plan which supports the residential development of Lakeshore East.

The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy. The proposed project has been reviewed by the Mayor's Office for People with Disabilities and the Department of Transportation and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and no comments have been received which have not been addressed in the application.

The project will comply with the requirements for access in case of fire and other emergencies.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that this application for a Residential Business Planned Development be approved and that the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be "Passage Recommended".

The Department of Planning and Development has reviewed the project materials submitted by the Applicant with regards to the Policies and Purposes of the Lake Michigan and Chicago Lakefront Protection Ordinance and has concluded that the proposed development would be in compliance with the applicable Policies of the Lakefront Plan of Chicago and the Purposes of the Lake Michigan and Chicago Lakefront Protection Ordinance, as they apply to development in the Private Use Zone, specifically:

Policy No. 10 (Ensure a harmonious relationship between lakeshore parks and community edges but in no instance allow private development east of Lake Shore Drive): The proposal consists of an appropriate residential infill project that will reinforce the multi-unit residential district that exists in this area of the City and minimally impact the lakefront park system.

Policy No. 8 (Increase personal safety): The proposal will improve personal safety by providing an improved link under East Wacker Drive for pedestrians accessing the Chicago River Front and will provide improved vehicular and pedestrian safety

[1010]  
FINAL

by connecting Upper Wacker Drive, North Field Boulevard and Waterside Drive; and,

3. Policy No. 14 (Coordinate all public and private development within the water, park and community zones): This site is located within the Private-Use Zone and the development has been coordinated with the appropriate City departments and community to minimize the impact of construction and to ensure it remains in context with the surrounding neighborhood.

With respect to the Policies not enumerated here, the Department of Planning and Development has determined that they are either not applicable to development in the Private Use Zone or that the proposed project will not have a detrimental effect on the Lake Michigan shoreline or any wildlife habitats therein. This is because the proposed project is separated from the shoreline, does not reduce existing open space or wildlife habitat and does not interfere with existing access to, or use of, the lake and its parks.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that this development application, being in conformance with the provisions of the Lake Michigan and Chicago Lakefront Protection Ordinance, be approved, subject to compliance with the Site and Landscape Plans and Building documents dated November 20, 2014 and presented before you today.
