may request such additional information as the department determines may be necessary or useful in evaluating the extent to which M/WBEs and city residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and city residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

16. The Applicant acknowledges and agrees that the rezoning of the Property from the M1-2 Limited Manufacturing/Business Park District/M2-2 Light Industry to the B3-3 Community Shopping District and then to this Planned Development ("PD") No. _____ is an "entitlement" that triggers the requirements of Section 2-44-085 of the Municipal Code of Chicago (the "ARO"). The PD is located in an inclusionary housing area within the meaning of the ARO and permits the construction of 136 dwelling units. The Applicant intends to construct a 136-unit rental building.

Developers of rental projects in inclusionary housing areas with 30 or more units must provide between 10% and 20% of the units in the residential development as affordable units, depending on the average depth of affordability provided, as described in subsection (F)(2) of the ARO. Regardless of the applicable percentage of affordable units in the rental project, developers must construct at least 25% of the affordable units on-site and another 25% on-site or off-site (collectively, the "Required Units"), and may satisfy the balance of their affordable housing obligation through: (a) the establishment of additional on-site or off-site affordable units; (b) payment of a fee in lieu of the establishment of on-site or off-site affordable units; or (c) any combination thereof. All on-site affordable units must be accessible dwelling units, as required under subsection (W)(10) of the ARO, and developers must give preference in leasing accessible units to people with disabilities, as specified in the ARO rules. All off-site affordable units must have at least two bedrooms and must be located in a downtown district, inclusionary housing area, or community preservation area. Whether on-site or off-site, developers must give preference in leasing affordable units of two bedrooms or more to multi-person households, as specified in the ARO rules. If a residential project is located in a transit-served location, off-site units must be located in a substantially comparable transit-served location.

The Applicant has elected the 10% option as set forth in the chart in subsection (F)(2) of the ARO. As a result, the Applicant's affordable housing obligation is 13.6 affordable units (10% of 136) and half of those affordable units are Required Units. Pursuant to subsection (T) of the ARO, the Applicant must provide an additional unit to satisfy the fractional obligation of 0.5 or greater. The Applicant has agreed to satisfy its affordable housing obligation by providing seven (7) affordable units in the rental building in the PD and making a payment to the Affordable Housing Opportunity Fund in lieu of the establishment of seven (7) affordable units in the amount of \$268,484 per unit for a total payment of \$1,879,388, as set forth in the Affordable Housing Profile (AHP) attached hereto. The Applicant agrees that the affordable rental units must be affordable to households at 30% of the Chicago Primary Metropolitan Statistical Area Median Income (AMI), as updated annually.

If the Applicant requests to change its method of compliance with the ARO after the passage of this PD, the Applicant shall update and resubmit the AHP to DOH for review and approval. DOH may adjust the AHP in accordance with the ARO without amending the PD, provided however, any request to relocate affordable units from on-site to an off-site location requires an informational presentation to the Plan Commission. Prior to the issuance of any building permits for any residential building in the PD, including, without limitation, excavation or foundation permits, the Applicant must make the required

Cash Payment and execute and record an Inclusionary Housing Agreement ("IHA") in accordance with subsection (N) of the ARO. The Cash Payment will be recalculated at the time of payment and may be adjusted based on changes in the consumer price index in accordance with the ARO. The terms of the IHA and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the IHA will be recorded against the PD, and will constitute a lien against such property. The Commissioner of DOH may enforce remedies for any breach of this Statement 16, including any breach of any IH A, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the PD.

This statement does not include all ARO requirements and options. It is intended to provide an overview of the application of the ARO to this PD. In the event of any conflict between this statement and the terms and conditions of the ARO, the ARO shall govern.

17. Pursuant to the Chicago Zoning Ordinance (Section 17-8-0911), a Planned Development (PD) gives priority to the preservation and adaptive reuse of Chicago Landmark buildings. The PD includes the Ludlow Typograph Company Building, identified as a Character Building in the North Branch Framework Plan, which the Applicant consents to and will diligently pursue landmark designation. Work to designated Chicago Landmarks is subject to the review and approval of the Commission on Chicago Landmarks pursuant to the Chicago Landmarks Ordinance, Section 2-120-740. Once the building is landmarked the project is eligible to receive a parking exemption per 17-10-0102-A-1 in the Chicago Zoning Ordinance. No Part II permit shall be released until the building receives landmark designation approved through City Council or the Applicant shall provide the minimum 132 accessory parking spaces and 66 bicycle parking spaces per Section 17-10-0207 in the Chicago Zoning Ordinance.
18. This Planned Development shall be governed by Section 17-13-0612 of the Zoning Ordinance. Should this Planned Development ordinance lapse, the Commissioner of DPD shall initiate a Zoning Map Amendment to rezone the property to the B3-3 Community Shopping District.

Re: Proposed Residential Business Planned Development and Industrial Corridor Map Amendment - 2032 N. Clybourn

Avenue

On November 18, 2021, the Chicago Plan Commission recommended approval of the proposed Residential Business Planned Development and Industrial Corridor Map Amendment within the North Branch Industrial Corridor, submitted by Annexation LLC, for the property generally located at 2032 North Clybourn Avenue. The applicant proposes to rezone the site from MI-2 (Limited Manufacturing/Business Park District) and M2-2 (Light Industry District) to B3-3 (Community Shopping District) and then to a Residential Business Planned Development to permit the reuse of the existing 5-story building with 136 residential units, approximately 9,000 square feet of retail/commercial, and 86 accessory parking spaces. A copy of the proposed ordinance, planned development statements, bulk table and exhibits are attached. I would very much appreciate your assistance in having this introduced at the next possible City Council Committee on Zoning.

Also enclosed is a copy of the staff report to the Plan Commission which includes the Department of Planning and Development, Bureau of Zoning recommendation and a copy of the resolution. If you have any questions in this regard, please do not hesitate to contact Emily Thrun at 312-744-0756.
