REPORT to the CHICAGO PLAN COMMISSION from the DEPARTMENT OF PLANNING AND DEVELOPMENT BUREAU OF ZONING AND LAND USE

JANUARY 16, 2014

LAKE MICHIGAN AND CHICAGO LAKEFRONT
PROTECTION ORDINANCE APPLICATION NO. 632
AND RESIDENTIAL BUSINESS PLANNED DEVELOPMENT

ELM STATE PROPERTY, LLC

1149-67 NORTH STATE STREET

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation on a proposed Institutional Planned Development for your review and recommendation to the Chicago City Council. The application for this amendment to the Chicago Zoning Ordinance was introduced into the City Council on July 24, 2013. Notice of the public hearing was published in the Chicago Sun-Times on January 1, 2014. The applicant was separately notified of this public hearing.

The site is currently zoned DX-7, Downtown Mixed-Use District and is also located within the Lake Michigan and Chicago Lakefront Protection District. The applicant proposes to rezone the site to a Residential Business Planned Development to allow the construction of a residential condominium building with retail on the ground floor. The building as designed will allow for a 25-story mixed-use building with ground floor retail, 40 dwelling units, and 74 accessory parking spaces.

This application is submitted by the Applicant, as a mandatory planned development pursuant to Section 17-8-0511 Tall Buildings, which states that a planned development review and approval is required when the proposed project meets or exceeds 155 feet in the DX-7 Downtown Mixed-Use District.

SITE AND AREA DESCRIPTION

The approximately 0.5-acre site is located at State Street between Division and Elm Streets. It is located in the

Near North Side Community Area. The rectangular-shaped site is bounded by Division Street on the north, residential and business property on the east, Elm Street on the south and State Street on the west. The CTA Red Line tunnel extends directly below the southeast corner of the site. A 10-foot wide private alley abuts the east side of the southern half of the site.

1

The site itself includes one two-story commercial building and one vacant three-story residential building with ground floor retail space. The site is within the Private Use Zone of the Lake Michigan and Chicago Lakefront Protection District and within the Gold Coast Historic District. State Street abutting the site is a Pedestrian Street. There are no buildings on the site that are Chicago Landmarks and no buildings that have been rated as potentially significant in the broader context of the city, state, or county ("red") or as potentially significant in the context of the surrounding community ("orange") by the Chicago Historic Resources Survey.

The site is served by the CTA's #36 (Broadway) bus line. The nearest CTA train station is the Clark/Division Red Line station located approximately two blocks west of the site.

PROJECT DESCRIPTION

The existing two-story commercial building on the north half of the site would remain. The three-story building on the south side of the site would be razed to be replaced by a twenty-five-story, 335-foot tall condominium residential building with ground floor retail space.

The new building would contain forty (40) three-bedroom units, 74 off-street parking spaces, and an amenities floor with common space. Retail space would be located on the ground level fronting State Street.

DESIGN

The facade of the residential floors of the building would be clad with a metal and glass wall system and the rooftop mechanical equipment would be screened by with the same materials. The upper residential floors would be set back significantly from both the north and west property lines. The retail space would be setback approximately 3 feet from the west property line, with the parking podium above creating an overhang.

The 4-story parking podium would extend to the north, south and west property lines and to the private alley on the eastern side. The Elm Street and State Street facades would be clad in an architectural masonry wall panel system. The north elevation facade would be clad in a synthetic stucco wall system. The east facade would be comprised of painted architectural concrete on the ground floor and a synthetic stucco wall system above.

ACCESS and CIRCULATION

Motor vehicle access to the parking podium would be via a new curb cut on Elm Street at the southeast corner of the site adjacent to the private alley. The residential lobby entryway would be off Elm Street, while two retail entrances would be located on the State Street side. Two off-street parking spaces would be accessed from the private alley and a loading dock would be accessed from the public alley at the northeast corner of the new building.

LANDSCAPING and SUSTAINABILITY

Street trees would be planted on Elm Street adjacent to the site. The building would have a total 50.1% green roof comprised of space located on various floor levels including the top floor, private balconies on the 23rd and 25th floors, and landscaped planters on the amenities level on the 5th floor.

2

BULK/USE/DENSITY

The site is currently zoned DX-7. The project would make use of the affordable housing FAR bonus for an additional 1.75 FAR, for a total FAR of 8.75. The new building would also make use of FAR available from the portion of the site encompassing the existing 2-story building.

At 40 units, the proposed development is far below the maximum threshold of 200 dwelling units for the DX-7 district. The neighborhood surrounding the project site includes many residential and mixed-use residential/commercial buildings, several of which are of similar height as the proposed building.

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant for a planned development and have concluded that the proposed development would be appropriate for the site for the following reasons:

- 1. The project meets the criteria and objectives set forth in Section 17-8-0900 of the Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety, or welfare;
- 2. The proposed development is compatible with the character of the surrounding area which includes primarily residential and mixed residential/commercial uses similar to the proposed development as well as several buildings of similar height and similar or greater density;
- 3. The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy. The proposed Planned Development has been reviewed by the Chicago Department of Transportation and all requested changes have been made;
- 4. Motor vehicle parking would be accessed from the private alley and by a driveway from Elm Street. Pedestrian/vehicle conflicts will be minimized by the significant setback of the parking entrance door, providing a greater site angle for drivers, and by a pedestrian warning light at the entrance;
- 5. Pedestrian Orientation. The proposed project will allow unimpeded pedestrian flow on North State Street. The entire street frontage of the building is enlivened by a glass facade looking directly onto the street frontage. The pedestrian environment surrounding the proposed development will be enhanced by the setback of the retail space from the public sidewalk along State Street, and by the new proposed parkway planters and trees along Elm Street; also located within the Lake Michigan and Chicago Lakefront Protection District.
- 6. Urban and Building Design. The building's modern design emphasizes the contrast among the various types of architectural styles and vocabulary along North State Street.

7. Copies of the application have been circulated to other City departments and agencies and no comments have been received; the project will comply with the requirements for access in case of

fire and other emergencies.

The Department of Planning and Development has reviewed the project materials submitted by the applicant for Lakefront application No. 632 and has concluded that this proposal would be in compliance with the applicable Policies of the Lakefront Plan of Chicago and the Purposes of the Lake Michigan and Chicago Lakefront Protection Ordinance, as they apply to development in the Private-Use Zone, specifically:

• Policy No. 3 (Continue to improve the water quality and ecological balance of Lake Michigan) and Purpose No. 3 (To maintain and improve the quality of the waters of Lake Michigan).

A vegetated green roof system and on-site storm water retention systems will reduce storm water runoff. All sanitary and storm water runoff will be directed to the City's sewer system and will not enter Lake Michigan.

Policy No. 8 (Increase personal safety)

The project will maintain and possible enhance pedestrian activity near the subject site. Additionally, the completion of the previously stalled project will provide a better aesthetic quality for the adjacent properties and for the pedestrians walking through the area.

 Policy No. 10 (To ensure a harmonious relationship between the lakeshore parks and the community edge, but in no instance will private development be permitted east of Lake Shore)

The proposed development falls within the Private-Use Zone of the Lake Michigan and Chicago Lakefront Protection District and has been and will continue to be consistent and conform to the District's restrictions and regulations. The site will be developed with a 25-story 40 dwelling unit building that is within the context of the surrounding neighborhood and will continue to maintain this harmonious relationship.

 Policy No. 14 (Coordinate all public and private development within the water, park and community zones)

The applicant is committed to working with the community to ensure that the proposed development of the subject property will have minimal impact on the surrounding neighborhood.

• Purpose No. 10 (To insure that development of properties adjacent to the Lake or Lakefront Parks is so defined as to implement the above-stated purposes).

Page 4 of 5

The proposed project will be constructed in accordance with all applicable provisions of the Chicago Zoning Ordinance and Building Code.

With respect to the Policies and Purposes not enumerated here, the Department of Planning and

Development has determined that they are either not applicable to development in the Private-Use Zone or that the proposed project will not have a detrimental effect on the Lake Michigan shoreline or any wildlife habitats therein. The proposed project is separated from the shoreline, does not contemplate the introduction of new roadways, does not reduce existing open space and does not interfere with existing access to, or use of, Lake Michigan and its park system.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that the revised application for a Residential/Business Planned Development and Lake Michigan and Chicago Lakefront Protection Ordinance (Application No. 632) be approved and that the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be: "As Amended, Passage Recommended."
