January 21, 2011

RE: Proposed amendment to Institutional Planned Development No. 501 for the property generally located at 2015-2049 North Point Street and 2721-2739 West Francis Place.

On January 20, 2011, the Chicago Plan Commission recommended approval of the proposed amendment to Institutional Planned Development No. 501 submitted by The Board of Education. A copy of the proposed amendment is attached. I would very much appreciate your assistance in having this introduced at the next possible City Council Committee on Zoning hearing.

Also enclosed is a copy of the staff report to the Plan Commission which includes the Department of Housing and Economic Development, Bureau of Planning and Zoning recommendation and a copy of the Resolution. If you have any questions in this regard, please do not hesitate to contact me at 744-5777.

PROPOSED AMENDMENT TO INSTITUTIONAL PLANNED DEVELOPMENT NO. 501

THE BOARD OF EDUCATION, CITY OF CHICAGO

2015-49 NORTH POINT STREET AND 2721-39 WEST FRANCIS PLACE

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Housing and Economic Development hereby submits this report and recommendation on a proposed Institutional Planned Development for your review and recommendation to the Chicago City Council. The application for the Chicago Zoning Ordinance was introduced into the City Council on November 3, 2010. Proper legal notice of the public hearing on the application was published in the Chicago Sun Times on January 5, 2010. The Applicant was separately notified of this hearing.

The site is currently zoned Institutional Planned Development No. 501. This development is being

submitted by the Applicant, as a Planned Development pursuant to Section 17-13-0611-B, which states that a Planned Development review and approval is required when the proposed amendment is deemed a change of character to the overall development.

PROJECT BACKGROUND

The Salomon Chase School is located on site and is currently zoned Institutional Planned Development No. 501 and RS-3 Residential Single Unit District. The City Council approved Institutional Planned Development No. 501 on June 27, 1990. The original Planned Development was approved with a maximum allowed floor area ratio of 1.40, fifteen off-street parking spaces and a maximum height of 56 feet.

SITE AND AREA DESCRIPTION

The total net site area is 61,819 square feet. The school site is bounded by North Point Street and West Francis Place. The main public entrance of the school is along North Point Street. The site is located in the Logan Square Community Area and is in the Fullerton/Milwaukee Tax Increment Finance District. The site is not located in a Designated Chicago Landmark District, an industrial corridor or the Lake Michigan and the Chicago Lakefront Protection District. The site is primarily surrounded by a Residential District.

FINAL FOR PUBLICATION

The site is immediately accessible via public transit from CTA's # 52 Kedzie/California bus lines and the # 73 Armitage bus line. The site is also served by two CTA train stations the Western Blue Line station and the California Blue Line station both located approximately half-mile from the site.

PROJECT DESCRIPTION

The Chicago Board of Education is seeking to amend the zoning of this property from its current Planned Development designation to an underlying RM 4.5 Multi-Unit District and then back to Institutional Planned Development No. 501, as amended. Chase School has inadequate play and open space areas. As a result, the purpose of the rezoning is to allow the Board to eliminate the on-site parking requirement and replace it with a new playground for the students at the school. The school staff currently parks on a private alley around the perimeter of school building.

The proposed project will involve the construction of a new artificial turf playground area for the School. The proposed site plan retains sufficient area for student drop-off and pick-up along North Point Street. No other changes are proposed to the existing main and annex school buildings or planned development.

ACCESS/CIRCULATION

There are two existing driveways that provide access to the Planned Development. They will

continue to be accessed by vehicles from the existing driveway along North Point Street and West Francis Place.

LANDSCAPING AND SUSTAIN ABILITY

Project will eliminate 3,800 square feet of asphalt/ concrete and replace it with 3,800 square feet of artificial turf play area.

BULK/USE/DENSITY

The site is currently zoned Institutional Planned Development No. 501. The overall site boundaries do not change. The proposed development has a maximum F.A.R of 1.40 and will increase to a maximum F.A.R of 1.70 which is permitted in the proposed RM 4.5 underlying zoning district. The allowed maximum height for the project will increase from 56 feet to 70 feet. The height of the building is currently 70 feet and will not change due to this amendment. The building is an existing Chicago Public School and has a current enrollment of 482 students and 40 employees. The school was built in 1894 and the annex building was constructed in 1991.

Directly north and east of the site is a large RS-3 Residential District and directly west is an RM-5 Multi-Unit corner lot. Adjacent to the site are 2 single family building zoned RS-3 Residential District. Further south is Armitage Avenue primarily zoned B2 Neighborhood

MixedrUse District and B3 Community Shopping District.

RECOMMENDATION

The Department of Housing and Economic Development has reviewed the project materials submitted by the Applicant and have concluded that the proposed development would be appropriate for the site for the following reasons:

1. The Project complies with the requirements for access in case of fire emergencies. The Site Plan has been reviewed and approved by the Fire Prevention Bureau on behalf of the City and received CDOT site plan approval; and
2. The Project has received preliminary site plan approval from the Mayor's Office for People with Disabilities; and
3. The public infrastructure facilities and city services will be adequate to serve the development; and

4. The Project will eliminate 3,800 square feet of asphalt/ concrete and replace it with 3,800 square feet of artificial turf and play area.

Based on the foregoing, it is the recommendation of the Department of Housing and Economic Development that the revised application for an amendment to Institutional Planned Development No. 501 be approved and the recommendation to the City Council Committee on Zoning be "As-Revised, Passage Recommended".
