8. The maximum permitted Floor Area Ratio ("FAR") for the Property shall be in accordance with the attached Bulk Regulations and Data Table. For the purposes of FAR calculations and measurements, the definitions in the Zoning Ordinance shall apply. The permitted FAR identified in the Bulk Regulations and Data Table has been determined using a Net Site Area of 28,744 square feet and a base FAR of 16.0. The improvements to be constructed on the Property will utilize the following series of FAR bonuses, all of which are hereby allocated to Sub-Area B:

Base FAR:	16.00

Concealed Above-Ground Parking:	1.02
Green Roof:	0.46

Total FAR:	21.54

9. Upon review and determination, "Part II Review", pursuant to Section 17-13-0610 of the Zoning Ordinance, a Part II Review Fee shall be assessed by DPD. 11. The Applicant shall comply with Rules and Regulations for the Maintenance of Stockpiles promulgated by the Commissioners of the Departments of Streets and Sanitation, Fleet and Facility Management and Buildings, under Section 13-32-125 of the Municipal Code, or any other provision of that Code.
12. The terms and conditions of development under this Planned Development ordinance may be modified administratively, pursuant to section 17-13-0611-A of the Zoning Ordinance by the Zoning Administrator upon the application for such a modification by the Applicant, its successors and assigns and, if different than the Applicant, the legal title holders and any ground lessors.
13. The Applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the Property. Plans for all buildings and improvements on the Property shall be reviewed and approved by the Mayor's Office for People with Disabilities to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility.
14. The Applicant acknowledges that it is in the public interest to design, construct, renovate and maintain all buildings in a manner that provides healthier indoor environments, reduces operating costs and conserves energy and natural resources. In accordance with the Chicago Sustainability Policy, the Applicant shall seek LEED certification (or equivalent alternative certification, such as Energy Star) for the building to be constructed in Sub-Area B; exceed ASHRAE 90.1-2004 or seek LEED certification (or equivalent

alternative certification, such as Energy Star) for the rehabilitation of the existing building in Sub-Area A, and provide a green roof covering 50% of the net roof areas of both Sub-Areas, which is currently estimated to be equivalent to 8,744 square feet. In addition, pursuant to Section 17-4-1015 of the Chicago Zoning Ordinance, this project is seeking to utilize the Green Roof Bonus. The project will provide an additional 2,775 square feet of green roof, bringing the total green roof provided to approximately 66% of the net roof area.

15. The Applicant acknowledges and agrees that the rezoning of the Property from DX-16 Downtown Mixed Use District to this Planned Development triggers the requirements of Section 2-45-110 of the Municipal Code (the "Affordable Housing Ordinance" or "AHO"). Any developer of a "residential housing project" within the meaning of the Affordable Housing Ordinance ("Residential Project") must: (i) develop affordable housing units as part of the Residential Project; (ii) pay a fee in lieu of the development of affordable housing units; or (iii) any combination of (i) and (ii). The Applicant further acknowledges and agrees that the project has received an affordable housing floor area bonus pursuant to former Section 17-4-1004-B of the Zoning Ordinance, as set forth in the attached Bonus Worksheet, and as a result is also subject to the requirements of former Section 17-4-1004-D of the Zoning Code (the "Density Bonus Provisions"). Like the ARO, the Density Bonus Provisions require on-site affordable housing or payment of a fee in lieu of providing affordable housing, but the formulas for calculating the number of required affordable units and the amount of the in lieu payment are different from the formulas in the ARO. If a planned development is subject to both the 2007 ARO and the former Density Bonus

FINAL FOR PUBLICATION

Provisions, the Applicant may elect to comply with either. In this case, the Applicant has elected to comply with the Density Bonus Provisions. In accordance with the formulas set forth in the former Section 17-4-1004-C and the Bonus Worksheet, the Applicant acknowledges and agrees that it must provide a minimum of 28,744 square feet of affordable housing floor area (the "Affordable Units") in the building receiving the affordable housing floor area bonus ("Eligible Building"), with an affordable unit mix comparable to the overall mix and approved by DPD's density bonus project manager, or make a cash payment in lieu of providing Affordable Units in the amount of \$2,023,577.60 ("Cash Payment"). Prior to the issuance of any building permits for the Eligible Building, including, without limitation, excavation or foundation permits, the Applicant must either make the required Cash Payment or, if providing Affordable Units, enter into an affordable housing agreement with the City pursuant to the former Section 17-4-1004-E9 ("Affordable Housing Agreement"). The terms of the Affordable Housing Agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the Affordable Housing Agreement will be recorded against the Eligible Building. The City shall execute partial releases of the Affordable Housing Agreement prior to or at the time of the sale of each Affordable Unit to an income-eligible buyer at an affordable price, subject to the simultaneous execution and recording of a mortgage, restrictive covenant or similar instrument against such Affordable Unit. In addition to the Affordable Housing Agreement, the Applicant acknowledges and agrees that, pursuant to the former Section 17-4-1003-D3, the Bonus Worksheet will serve as an official record of bonuses and amenities. The Applicant must comply with the applicable affordable housing standards and requirements set forth in the former Section 17-4-1004, the terms of which are incorporated herein by this reference. Notwithstanding anything to the contrary contained in the former

Section 17-4-1003-E, the Commissioner of DPD may enforce remedies for breach of the Affordable Housing Agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the Planned Development.

If this Planned Development does not receive city council approval by July 13, 2016, the project will be subject to Section 2-45-115 of the Municipal Code (the "2015 ARO"). In such event, the Applicant shall meet with the Department of Planning and Development to determine the application of the 2015 ARO to the project, and the 2015 ARO requirements will replace and supersede the affordability requirements set forth in this Statement 15.

16. Pursuant to the Chicago Zoning Ordinance (Section 17-8-0911), Planned Developments are to give priority to the preservation and adaptive reuse of Chicago Landmark buildings. The Planned Development includes the Essex Inn, for which the Chicago Landmarks Commission has approved a preliminary landmark recommendation. Work to designated Chicago Landmarks is subject to the review and approval of the Commission on Chicago Landmarks pursuant to the Chicago Landmarks Ordinance, Section 2-120-740.
17. The Plans are hereby approved in their entirety and no further approvals shall be required under this Planned Development or the Zoning Ordinance for the improvements undertaken in accordance with the Plans, other than Part II Approval (per Section 17-13-0610 of the Zoning Ordinance). Applicant and DPD, at either party's request, may continue to evolve the design of the building elevations for the building to be located in Sub-Area B and

changes to such elevations, if any, shall, if mutually agreed, be approved by DPD administratively as a Minor Change.
18. This Planned Development shall be governed by Section 17-13-0612 of the Zoning Ordinance. Should this Planned Development ordinance lapse, the Commissioner of DPD shall initiate a Zoning Map Amendment to rezone the property to the DX-16 Downtown Mixed-Use District.

CHARACTER OF THE PROPOSAL

FIGURE 6 - NARRATIVE

Essex Hotel Owner, LLC (the "Applicant") proposes the historic restoration of the existing 15-story Essex Inn building and the construction of a new, attached 57-story hotel amenity and residential lower directly to its south. The subject property is located on the southwest corner of East 8th Street and Michigan Avenue and is directly to the west of Grant Park. Currently, the property is improved with the Essex Inn hotel.

The overall development will contain a combined maximum FAR of 21.54. The Essex Inn hotel will undergo extensive historic restoration and will contain approximately 290 keys. The new tower building will contain up to 476 residential dwelling units, up to 100 hotel keys and enclosed parking. A number of shared amenities for the residential and hotel uses will be provided, including a seventh-floor rooftop amenity deck, a 50% green roof on the new residential building and other indoor amenities. Additional amenity spaces are located on the second through sixth floors and eighth floor of the new tower. The proposed development will also provide additional landscaping along East 8th Street and South Michigan Avenue that is currently lacking.

The architecture of the new tower takes into consideration its prominent location within the private use zone of

the Lakefront Protection Zone and along Grant Park. The proposed development is intended to continue the important Michigan Avenue street wall south from East 8th Street. Overall, the proposed development will protect and enhance the experience of the lakefront and its parks.

MANDATORY PLANNED DEVELOPMENT - THE PROJECT EXCEEDS THE HEIGHT THRESHOLD OF 440' (620') AND THE UNIT THRESHOLD OF 400 (476) IN A DX-16 ZONING DISTRICT PER SECTIONS 17-8-0512-B and 17-8-0513-B, RESPECTIVELY

PROJECT SUMMARY

The project is located across the street from Grant Park at 800 South Michigan Avenue in Chicago's Near South Side Community Area and the Michigan Boulevard Historic (Landmark) District. The project is also located within the Lake Michigan and Chicago Lakefront Protection District.

The overall 28,744 square foot site is currently zoned DX-16 (Downtown Mixed-Use District) and will remain as such prior to establishing the proposed Residential Business Planned Development. The Applicant intends to create two subareas within the boundaries of the proposed planned development.

Subarea A, located at 800 South Michigan Avenue consists of an existing 160' building known as the Essex Hotel and will be rehabbed to include 290 hotel keys. The Essex Hotel was recommended to be a Chicago Landmark by the Chicago Commission on Landmarks on May 5, 2016. Subarea B, located at approximately 812 South Michigan Avenue is currently improved with a parking garage; the property will be redeveloped to include the proposed tower.

1

FINAL

The proposed residential building to be located within Subarea B is planned to consist of a 46-story tower on top of an 8-story base. The base primarily includes the parking levels, with 100 parking spaces, concealed behind the front facade of the building, and various amenity areas. Residential amenity space will be located in front of the concealed parking floors on levels 2-6. Levels 7 and 8 will include additional amenity space as well as a pool and outdoor terraces located along the north and south sides of the building. Floor 8 also includes a 4 story atrium. The first floor will consist of the main pedestrian entrance, residential lobby space, hotel lobby space and a small amount of commercial space that will front on Michigan Avenue.

Floors 9-11 include dwelling units located behind the atrium space while floors 12-14 consist entirely of residential units with a distinctive floor plate due to the location of these floors in the building. Floors 15-54 are all residential floors and include the floor plate typical of the remainder of the tower. The total height of the tower will not exceed 620'.

Loading access to the tower will be achieved via a private drive located in between South Michigan Avenue and South Wabash Avenue. Vehicular (passenger) car access to the tower will be achieved via East 9th Street. The building is planned to contain an internal vehicular lift system to be operated

by a valet.

The building will contain a mix of varying-sized rental apartments, totaling 476 units. The overall average unit size will be approximately 800 square feet. The building will contain various indoor and outdoor amenity levels, including private balconies, totaling approximately 17,000 square feet. The project will provide an 11,549 square foot green roof (approximately 66% of the net roof area) and will achieve LEED (Leadership in Energy and Environmental Design) certification. (See Exhibits)

BULK/USES/DENSITY/ARO

The PD would cap the total (overall) FAR for the project at 21.54, which includes the base FAR of 16 plus the following bonuses:

- 4.00 FAR from the Affordable Housing Bonus
- 1.02 FAR from the Concealed Parking Bonus
- .06 FAR from the Upper-Level Setback Bonus
- .46 FAR from the Green Roof Bonus

The FAR for Subarea A (the Essex Hotel) would be 11.01 while for Subarea B (proposed tower) it would be 27.00. The PD would allow for residential, commercial, hotel and accessory parking uses. The project is seeking the MLA Reduction for Affordable Housing and the Minimum Lot Area (MLA) for the project is 84.95. The project will include no more than 50% efficiency units, per Section 17-4-0409-A of the Chicago Zoning Ordinance.

The Applicant filed the project within the deadline established under the City of Chicago's 2007 ARO (Affordable Requirements Ordinance). The Applicant is seeking the Affordable Housing Bonus and will be complying with the ARO by paying an in-lieu fee of \$2,023,578.

EXISTING AERIAL (site in yellow):

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant and compared this proposal to existing development in the community. The area around this project consists of a mix of downtown zoning districts and planned developments and the project represents an opportunity to construct a compatible residential infill project along South Michigan Avenue within the Michigan Boulevard Historic (Landmark) District, Chicago and Lake Michigan Lakefront Protection District and Near South Side Community Area.

Based on that analysis, the Department of Planning and Development has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. The proposed rezoning of the subject property is appropriate under Chapter 17-13 of the Zoning Ordinance. Specifically, the proposed DX-16 underlying zoning classification and the project is 1) consistent with plans for the area, including the Central Area Action Plan (17-13-0308-A); 2) appropriate because of growth and development trends (17-13-0308-B); 3) compatible with surrounding zoning districts (17-13-0308-D); and 4) the public infrastructure facilities and city services will be

4

FINAL

adequate to serve the proposed development at the time of occupancy (17-13-0308-E).

2. The project meets the purpose and criteria set forth in Chapter 17-8 of the Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare. Specifically, this project meets the following provisions:
 - a. Provides adequate bicycle parking and vehicle parking, while minimizing the adverse visual impact of any off-street parking areas (per 17-8-0904-A7) as evidenced by the proposed bicycle storage space devoted on site and concealed parking structure;
 - b. Provides street-level spaces within buildings that are designed to accommodate active uses or to otherwise engage pedestrian interest (per 17-8-0905-A2) as evidenced by the project's street level facade composed primarily of glass providing an engaging experience for pedestrians entering or moving past the building lobby or commercial space;
 - c. All sides and areas of the buildings that are visible to the public are treated with materials, finishes and architectural details that are of high-quality and appropriate for use on primary street-facing facade (17-8-0907-A-4), as evidenced through the material callouts in this report and on the elevations;
 - d. Provides that buildings have a clearly defined vertical appearance, comprised of a base, midsection and top (per 17-8-0907-B1) as evidenced by the overall design of the structure;

- e. Provides that upper-story setbacks should be used to reduce the apparent mass and bulk of tall buildings and should be used to convey a sense of sculpting to the tower and the top floors of the building (per 17-8-0907-B3) as evidenced by the tower's proposed uniquely sculpted design; and,
- f. Promotes green design by conserving non-renewable energy and scarce materials (per 17-8-0908-A) as evidenced by the project's proposed green roof and LEED certification.

3. The project has been reviewed and approved by the Chicago Department of Transportation, Mayor's Office for People with Disabilities and the Fire Department.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that this application for a Residential Business Planned Development be approved and that the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be "Passage Recommended".

The Department of Planning and Development has also reviewed the project materials submitted by the Applicant with regards to the Policies and Purposes of the Lake Michigan and Chicago Lakefront Protection Ordinance and has concluded that the proposed development would be in compliance with the applicable Policies of the Lakefront Plan of Chicago and the Purposes of the Lake Michigan and Chicago Lakefront Protection Ordinance, as they apply to development in the Private Use Zone, specifically:

5

FINAL

1. Policy No. 8 (Increase personal safety): The proposal will activate an underutilized piece of valuable urban land bringing new residents and activity to this part of South Michigan Avenue;
2. Policy No. 10 (Ensure a harmonious relationship between lakeshore parks and community edges but in no instance allow private development east of Lake Shore Drive): The proposal consists of an appropriate residential infill project that will appropriately frame Grant Park directly to the east; and,
3. Policy No. 14 (Coordinate all public and private development within the water, park and community zones): This site is located within the Private-Use Zone, and the development has been coordinated with the appropriate City departments and community to minimize the impact of construction and to ensure it remains in context with the surrounding neighborhood.

With respect to the Policies not enumerated here, the Department of Planning and Development has determined that they are either not applicable to development in the Private Use Zone or that the proposed project will not have a detrimental effect on the Lake Michigan shoreline or any wildlife habitats therein. This is because the proposed project is separated from the shoreline, does not reduce existing open space or wildlife habitat and does not interfere with existing access to, or use of, the lake and its parks.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that this development application, being in conformance with the provisions of the Lake Michigan and Chicago Lakefront Protection Ordinance, be approved, subject to compliance with the exhibits including site and Landscape Plans and elevation drawings dated May 19, 2016 and presented before you today.
