PD 173 - FLOOR AREA RATIO

PD Gross Site Area: 71,730.87 SF PD Net Site Area:
46,253.3 SF

In the request for an amendment to PD 173 the developer is not asking for an increase in Floor Area Ratio.

The original PD allowed a FAR of 18 x lot area (46, 253.3 sf) = 832,560.12 sf allowable square feet. The gross building built was 597,820sf (Citation: Letter from McHugh) The former American Library Assn building area is 32,479sf The total existing is 630,299sf The available square feet buildable from the present PD 173 is 202,262.12sf

The developer wants to add, nominally, 42,000sf.
The total proposed - existing and new - would be 672,299sf.
This would still be 160,261 SF under the allowed in PD 173.

The as-built floor area ratio would be: 670,299 sf / 46,253.3 sf = 14.49

Existing and Proposed Height:

Existing Height: 63' Proposed addition: 36'-6" Total
Proposed Height: 99'-6"

Proposed Estimated Cost: \$19.5 Million

Lead Organization: 50 Huron Properties LLC

Plan Goals: To establish a Class A, post-acute, skilled nursing rehabilitation center with advanced infection controls including negative pressure rooms, HEPA filtration, ultraviolet germicidal particle elimination and staffing protocols designed around healthcare related infection prevention. The building will contain indoor parking, floor-to-ceiling windows, voice-initiated elevators and the most modern safety systems.

Public Benefits:

The development will be an adaptive re-use of an existing building, thus minimizing the environmental impact, reducing construction refuse, and shortening construction time. Creation of 24 underground parking spaces.

FINAL FOR PUBLICATION

The entire building will be handicapped accessible and meet or exceed City of Chicago MOPD standards. RCI will develop a model of collaboration with the physician/nursing community and other clinicians by recording and disseminating outcomes and maintaining a performance metric over a two-year period. By encouraging collaborative conversations around chronic healthcare issues, focusing on innovation in healthcare, including infection control, surgery recovery, and rehabilitation therapies, RCI hopes to shift the culture increasingly toward the preventative dimension of patient recovery. RCI will employ over 100+ FT healthcare and office professionals. During the development, over 180+ union scale construction jobs will be created. Previous occupant was a non-for-profit and was exempt from real estate taxes for 45 years. The new use is a for-profit and will generate annual real estate tax.
