PROJECT SUMMARY

The project consists of the development of a 80' residential building (6 stories plus partial 7th) with 99 dwelling units and 99 enclosed parking spaces on an approximately 25,926 square foot site. The project will provide 2,624 square feet of photovoltaic cells on the roof and will achieve LEED certification. The dwelling units will consist of a mix of efficiencies, one, two and three bedroom units. The enclosed parking will be accessed via West Liberty Street and South Union Street. The main pedestrian entrance to the building will be from West 14th Street. The site would be rezoned from M1-3 to B2-5 prior to establishing the proposed Residential Planned Development. (See Exhibits)

BULK/USES/DENSITY/ARO

The PD will cap the Floor Area Ratio for the project at 5.00. The PD will allow for residential units, accessory parking and accessory uses. The Minimum Lot Area (MLA) for the project is 261 and the percentage of efficiencies will be less than 30%. The Applicant filed the project within the deadline established under the City of Chicago's 2007 ARO (Affordable Requirements Ordinance). The Applicant will comply with the ARO by paying \$1,000,000 (\$100,000 x 10 units) into the Affordable Housing Fund.

ZONING CONTEXT (site in green):

2

EXISTING AERIAL (site in red, building since demolished):

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant and compared this proposal to existing development in the community. The area around this project consists of a large mixed use/residential planned development surrounding the site while the Dan Ryan expressway (1-90/1-94) is immediately east of the site. The project represents an opportunity to construct a compatible residential infill project along South Union Street, West Liberty Street and West 14th Street in Chicago's Near West Side Community Area.

Based on that analysis, the Department of Planning and Development has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. The proposed rezoning of the subject property is appropriate under Chapter 17-13 of the Zoning Ordinance. Specifically, the proposed B2-5 underlying zoning classification and the project is 1) consistent with plans for the area, including the Roosevelt Union Tax Increment Financing Area (17-13-0308-A); 2) appropriate because of growth and development trends (17-13-0308-B); 3) compatible with the character of the surrounding area in terms of uses, density and building scale (17-13-0308-C); 4) compatible with surrounding zoning districts (17-13-0308-D) and, 5) the public infrastructure facilities and city services will be adequate to serve the

J)

FINAL

proposed development at the time of occupancy (17-13-0308-E).

2. The project meets the purpose and criteria set forth in Chapter 17-8 of the Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare. Specifically, this project meets the following provisions of Chapter 17-8:
 - a. Promotes economically beneficial development patterns that are compatible with the character of existing neighborhoods (per 17-8-0103), as evidenced through the project's design and massing remaining within the context of adjacent structures;
 - b. Promotes that primary pedestrian entrances be located at sidewalk level and help to provide building identity and presence on the street (per 17-8-0905-B) as evidenced
 - c. Promotes green design by conserving non-renewable energy and scarce materials (per

- 17-8-0908-A) as evidenced by the proposed photovoltaic cells incorporated into, and LEED certification sought, as part of the project; and,
- d. All sides and areas of the buildings that are visible to the public are treated with materials, finishes and architectural details that are of high-quality and appropriate for use on primary street-facing facade (17-8-0907-A-4), as evidenced through the material callouts in this report and on the elevations.

3. The project has been reviewed and approved by the Chicago Department of Transportation, Mayor's Office for People with Disabilities and the Fire Department.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that this application for a Residential Planned Development be approved and that the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be "Passage Recommended".
