JANUARY 16, 2014

FOR APPROVAL: RESIDENTIAL BUSINESS PLANNED DEVELOPMENT

NO. 1219, AS AMENDED

APPLICANT: SMITHFIELD CHICAGO LASALLE, LLC

LOCATION: 118-128 W. CHICAGO AVENUE

801-819 N. LASALLE STREET

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 ofthe Municipal Code of Chicago, the Department of Planning and Development hereby submit this report and recommendation on a proposed Residential Business Planned Development for your review and recommendation to the Chicago City Council. The application for the amendment to the Chicago Zoning Ordinance was introduced into the City Council on December 11, 2013. Proper legal notice of the public hearing on the application was published in the Chicago Sun Times on January 1, 2014. The Applicant was separately notified of this hearing.

The applicant is proposing to amend Residential Business Planned Development No. 1219 previously approved by the Chicago Plan Commission on May 16, 2013 by eliminating the Adopt-A-Landmark Bonus, Increase the Affordable Housing Bonus, and reduce the Floor Area Ratio from 10.15 to 9.75 prior to re-establishing the Residential Business Planned Development No. 1219.

This application is submitted by the Applicant, as a mandatory planned development pursuant to Section 17-4-1003-E, which states that planned development review and approval (per Section 17-13-0600) is required when the proposed project seeks any elimination or reduction in size of an amenity for which a floor area bonus was granted.

SITE AND AREA DESCRIPTION

The project site is a rectangular shaped lot containing 27,709 net square feet and is bounded by North LaSalle Street on the west; West Chicago Avenue on the south; a public alley on the east and Planned Development No. 313. The site is improved with an off premise sign (billboard) on the 118 West Chicago avenue parcel and a 3-5 story masonry building. The site is bounded on the west by Institutional Planned Development No. 477 -Moody Bible Institute. There is a mix of uses along North LaSalle Street and West Chicago Avenue. The site is not located in a Tax Increment Finance District, or in the Lake Michigan and Chicago Lakefront Protection District or in a Chicago Landmark District. The project is also located in the Near North Side Community Area.

1

The site is immediately accessible via public transit from CTA's No. 22 Clark, No. 156 LaSalle and the No. 66 Chicago Avenue bus Lines. The CTA's Chicago Avenue, Franklin Avenue Brown/Purple Line station and the State Street Redline stations are located approximately one half mile from the site and serves the immediate area.

PROJECT DESCRIPTION

The Applicant seeks to eliminate the Adopt-a-Landmark Bonus and increase the Affordable Housing Bonus. The total FAR for the project after elimination of the Adopt-A-Landmark Bonus, reestablishing the Upper Level Set Back Bonus, and increase the Affordable Housing Bonus is a maximum of 9.75 FAR. As a result of the reduced FAR the following changes were made to the project:

- 1) The original project provided five 2-story residential dwelling units on top ofthe parking garage. The revised project now provides for only three 1-story residential dwelling units on top ofthe parking garage. The total unit count for the building has not changed; rather, those two units which have been taken off of the parking garage are now incorporated into the tower ofthe building.
- 2) As a result of the reduction in units on top of the parking garage there is a larger dog run and open space for use by the entire development.
- 3) The retail square footage has increased slightly from 4,044 square feet to 4,200 square feet. It is now shown as two separate units on the site plan, though it can still be used as one space.
- 4) The parking spaces have decreased slightly from 115 to 108.

The project includes a 34-story (353') residential tower with 295 dwelling units for market rate rental, ground floor retail and accessory parking spaces. The project has an estimated total project cost of \$75,000,000 and the expected construction time line is 24 to 30 months. The project is anticipated to generate 150 construction jobs and 20 full time jobs.

DESIGN

The 34-story building is primarily comprised of a pre-finished aluminum and glass window system. This architectural vocabulary defines primarily the residential tower fronting West Chicago Avenue and North LaSalle Street elevations. The ground floor contains the retail space and fronts West Chicago Avenue and is enclosed by a glass store front. The two-hundred and ninety-two residential units are contained in the second floor through the thirty-third floor with the thirty-fourth floor programed for amenities and mechanical uses.

The parking garage fronts North LaSalle Street and includes 108 accessory parking spaces. Above the third floor of the garage are three residential units with a green roof over the garage's net roof. The garage itself conceals the parking spaces with the majority of the elevations covered with a scored pre-cast concrete panels and accentuated metal louvers and painted vertical ribs.

ACCESS/CIRCULATION

The site has vehicular access via West Chicago Avenue along a public alley and pedestrian access for the residential tower is located along North LaSalle Street from a residential entry lobby. The ground floor of the proposed building is designed for commercial storefronts fronting West Chicago Avenue. The design improves the pedestrian experience and is enlivened by a glass facade.

SUSTAINABIHTY

The project will install seven new parkway trees along both West Chicago Avenue and North LaSalle Street and meet CDOT and the City's Landscape Ordinance. The project will satisfy the requirements of the City of Chicago's Sustainable Development matrix. The project anticipates receiving LEED Certification and will provide 11,404 square feet of green roof covering 50% of the net roof area. The project will also comply with the Storm Water Management Ordinance, implementing best practices in stormwater management.

BULK/USE/DENSITY

The site is currently zoned RBPD NO. 1219 and will achieve an F.A.R of 9.75, which the applicant will now achieve via two Density bonuses. The project is taking an additional floor area bonus of 1.0 F.A.R through an Upper Level Set Back Bonus and an additional floor area of 1.75 F.A.R through the Affordable Housing Bonus via a cash payment of \$1,668,090.40 to the City of Chicago Affordable Housing Opportunity Fund.

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant and have concluded that the proposed development would be appropriate for the site for the following reasons:

- 1. The project complies with the Standards and Guidelines for Planned Developments in the Zoning Ordinance (Section 17-8-0900).
 - a. Compliance with Zoning. The proposed Planned Development would increase the maximum Floor Area Ratio (F.A.R.) stipulated but would remain consistent with the surrounding community. This project would have similar uses as the surrounding areas, which include residential, commercial, and accessory parking.
 - b. Approved Plans. The site is identified in the Central Area Action Plan approved by Plan Commission on August 20, 2009 identifies this area ofthe Chicago Avenue and LaSalle Street for high-rise residential or mixed use buildings with complimentary commercial uses as the highest and best economic use for the Near North Side sub-district.
 - c. Pedestrian Orientation. The proposed project will allow unimpeded pedestrian flow on both North LaSalle Street and West Chicago Avenue. The entire street frontage of the building is enlivened by a glass facade looking directly onto the street frontage.

3

- d. Urban and Building Design. The building's modern design emphasizes the contrast among the various types of architectural styles and vocabulary along both West Chicago Avenue and North LaSalle Street.
- 2. The proposed development is compatible with the character of the surrounding area in terms of uses, density, and building scale.

The proposed Planned Development would be consistent in bulk, density, and Floor Area Ratio (F.A.R.) with the surrounding area. The proposed project will achieve a maximum total Floor Area Ratio (F.A.R.) to 9.75. This project would have similar uses as the surrounding

area, which includes residential, commercial, and accessory parking. The height ofthe proposed 34-story mixed-use building is within the context of the surrounding area.

3. The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy.

Transportation, Traffic Circulation and Parking. The pedestrian access point for the residential building is located on North LaSalle Street, and loading will occur internal to the site. The project site plan has received preliminary approval from CDOT and any comments received have been incorporated into the revised application.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that the revised application for a Residential Business Planned Development be approved and the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be "As-Revised, Passage Recommended"
