REPORT to the
CHICAGO PLAN COMMISSION from the
DEPARTMENT of PLANNING AND DEVELOPMENT

FEBURARY 18, 2016

RESIDENTIAL BUSINESS PLANNED DEVELOPMENT

WICKER PARK APARTMENTS, INC

708-712 WEST GRAND AVENUE

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation on a proposed Residential Business Planned Development for your review and recommendation to the Chicago City Council. The application for this amendment to the Chicago Zoning Ordinance was introduced into the City Council on September 24, 2015. Notice of the public hearing was published in the Chicago Sun-Times on February 3, 2016. The applicant was separately notified of this public hearing.

The applicant filed the application as a mandatory planned development per the requirement of section 17-8-0512 Tall Buildings. The applicant proposes to reclassify the site to C1-5, Neighborhood Commercial District prior to establishing the Residential Business Planned Development.

SITE AND AREA DESCRIPTION

The approximately 23, 854 square foot site lies in the West Town (24) Community Area. The triangular shaped site is currently improved by a four (4) masonry buildings with heights ranging from two (2) to four (4) stories. The site is currently M2-3, Light Industry District. The site is neither within the Lake Michigan and Chicago Lakefront Protection District, nor within a Chicago Landmark District but is located in the River West Tax Increment Finance District. The site is bounded on the north and east by the METRA Tracks, on the south by West Grand Avenue, on the west by a public alley. There is a mix of uses along West Grand Avenue that include commercial, retail, institutional and accessory parking.

The site is served by the Chicago Transit Authority bus routes #8 Halsted Street bus line; The CTA's Grand and Milwaukee Blue line station provides access to the area and is located one 1/2 mile west of the site.

PROJECT DESCRIPTION

The applicant proposes to construct a multi-story mixed-use building with ground floor retail, 105 dwelling units, accessory parking and accessory uses. The applicant is seeking an up zoning to a C1-5, Neighborhood Commercial District to a Residential Business Planned Development. The proposal includes the construction of a 9-story (104'-10") residential tower, 6,592 square feet of commercial retail space, and 45 accessory parking spaces. The unit breakdown for the project is as follows: 24 studio units, (49) One-bedroom, and (35) two-bedroom units.

The project has an estimated total project cost of \$20,000,000.00 and the expected construction time line is 18 months. The project is anticipated to generate 100 construction jobs and 20 permanent full time jobs.

DESIGN

The multi-story building is primarily comprised of an architectural composite metal panel system and a Terracotta Rain Screen System. The facades are further defined and glass window system. This architectural vocabulary defines primarily the residential tower fronting West Grand Avenue

elevation. The ground floor contains commercial retail space and fronts West Grand Avenue, and is enclosed by a glass storefront. The residential units are contained on two through nine with the roof top programmed for amenities and mechanical uses. The remaining elevations of the base of the building include scoured concrete and masonry, Cordova Stone ground face.

ACCESS/CIRCULATION

The site has vehicular access via an existing public alley. Pedestrian access for the residential tower is located along West Grand Avenue from a residential entry lobby. The ground floor of the proposed building is designed for commercial retail space fronting West Grand Avenue. The design of the base of the building improves the pedestrian experience and is enlivened by a glass store front facade fronting the street frontage.

LANDSCAPE / SUSTAINABILITY

The project will install new parkway trees along West Grand Avenue (4 trees). The project will comply with the City's Landscape Ordinance. The project will also comply with the Storm Water Management Ordinance, implementing best practices in stormwater management. The project will satisfy the requirements of the City of Chicago's Sustainable Development matrix: The project anticipates receiving building certification and will provide approximately 9,457 square feet of green roof covering 50% of the net roof area.

BULK/USE/DENSITY

The site will be rezoned to a C1-5 District and has a maximum allowable Floor Area Ratio (F.A.R) of 5.0. This proposed Residential Business Planned Development will achieve an F.A.R of 4.25. Based on the project's net site area of 23,854 square feet the blended Minimum Lot Area would permit 105 dwelling units under the C1-5 District.

Page 2 of 4

The developer has opted to reduce the FAR of the building from a 5.0 FAR to 4.25 FAR to permit the scale and bulk of the building to be in character with the surrounding area.

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the applicant and has concluded that the proposed application for a Residential Business Planned Development would be appropriate for the site and that the project meets the review criteria for planned developments set forth in the Zoning Ordinance (Section 17-13-0900).

1. The project complies with the Standards and Guidelines for Planned Developments in the Zoning Ordinance (Section 17-8-0900).
 - a. Compliance with Zoning. The proposed building would conform to all the requirements and restrictions of the C1-5, District for uses, height, floor area ratio, and density.
 - b. Transportation, Traffic Circulation and Parking: The site has vehicular access via an existing public alley and directly accessible from West Grand Avenue. The pedestrian access for the residential tower is located along West Grand Avenue and is identified via a residential entry lobby. Loading will occur internal to the building envelope and foot print and be accessed

from an existing alley.

- c. Pedestrian Orientation. The proposed project will allow unimpeded pedestrian flow on West Grand Avenue. Residential patrons will access the residential entry lobby through West Grand Avenue.
- d. Urban and Building Design. The building's modern design emphasizes the contrast among the various types of architectural styles and vocabulary along West Grand Avenue. The building materials include an architectural composite metal panel system and a Terracotta Rain screen System. The facades are further defined with a glass window system.

The ground floor contains commercial retails space and fronts West Grand Avenue, and is enclosed by a glass storefront. The residential units are contained on two through nine with the rooftop programed for amenities and mechanical uses. The remaining elevations of the base of the building include scoured concrete and masonry, Cordova Stone ground face.

- 2. The proposed development is compatible with the character of the surrounding area in terms of uses, density and building scale. Current development north and south of the site is comprised of a mix of uses along W. Grand Avenue and further along N. Halsted Street which include residential and commercial uses. The permitted uses are allowed within the project's underlying zoning of C1-5 District.

Page 3 of 4

- 3. Approved Plans. The site is identified in the Near Northwest Side Plan approved by Plan Commission on September 19, 2002, and is identified as a redevelopment opportunity site. The plan identifies this site for a mixed use building with complimentary commercial uses as the highest and best economic use for the site.
- 4. The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy.

The proposed Planned Development has been reviewed by the Chicago Department of Transportation's and all requested changes have been made. Copies of this application have been circulated to other City departments and agencies and all comments received have been addressed in the revised application.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that the revised application for a Residential Business Planned Development for WICKER PARK APARTMENTS, INC, be approved and that the recommendation to the City Council Committee on Zoning, Landmarks and Building Standards be: "As Amended, Passage Recommended."
