**FINAL**

**REPORT to the  
CHICAGO PLAN COMMISSION from the  
DEPARTMENT OF PLANNING AND DEVELOPMENT**

**MAY 19, 2016**

**PROPOSED PLANNED  
DEVELOPMENT (APPLICATION NO. 18541)**

**BRODER 1730 WW LLC.**

**1730 WEST WRIGHTWOOD AVENUE**

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation on a proposed Planned Development for your review and recommendation to the Chicago City Council. The application was introduced to the Chicago City Council on September 24, 2015. Notice of this public hearing was published in the Chicago Sun-Times on May 4, 2016. The Applicant was separately notified of this public hearing.

The property is identified as 1730 W. Wrightwood Avenue. The applicant, Broder 1730 WW LLC, proposes to construct three four-story residential buildings containing a total of 76 dwelling units along with 76 vehicle parking stalls on the subject site.

This request is being submitted as a mandatory planned development pursuant to Section 17-8-0513 -A, due to the fact that the project exceeds the unit-count threshold of 50 units in a RM- 5 underlying zoning designation.

**PROJECT BACKGROUND AND DESCRIPTION**

The site consists of approximately 92,402 square feet and is currently improved with a vacant factory facility and a surface parking lot. The applicant proposes to demolish the existing structure, followed by a proposal to construct three four-story residential buildings. The southernmost residential building will be comprised of 44 for-sale units while the middle and northernmost residential building will be comprised of a total of 32 (16 in each building) rental dwelling units. 76 Vehicle parking stalls will be constructed within the development.

FINAL

FINAL

### **DESIGN**

The buildings are proposed to be primarily finished in brick accented by limestone capping and pre-finished metal panels. In addition the building will contain typical balcony installations and typical window and door assembly systems.

### **LANDSCAPING AND SUSTAINABILITY**

The entire planned development will be compliant with the requirements of the Chicago Landscape Ordinance.

The subject site will be designed to be in compliance with the current City of Chicago Sustainable Development policy and will provide a vegetated roof equivalent to a minimum of 50% of the net roof area which equates to approximately 14,325 square feet of area. Additionally the subject buildings will obtain a LEED certification.

### **ACCESS / CIRCULATION**

Access to the site is achieved via a single driveway located along the private street commonly referred to as North Hermitage Avenue. The driveway provides access to an internal parking garage which contains a total of 76 vehicular parking stalls. The applicant plans to provide a few additional parking spaces for visitors which will be placed parallel to the Hermitage Avenue curb line. All vehicle parking and bicycle parking/storage will be designed to be compliant with Chapter 10 of the Chicago Zoning Ordinance.

### **BULK / USE / DENSITY**

The current maximum allowable Floor Area Ratio (FAR) for the proposed underlying zoning district (RM-5) is 2.0; the proposed planned development is designed for and will be limited to a maximum FAR of 1.80. All remaining bulk,

FINAL

use and density items will be in substantial compliance with the stipulations of Section 17-2-0300 for RM-5 zoning districts.

### RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant and compared this proposal to the requirements of the Chicago-Zoning Ordinance and existing development in the community. The area around this project is primarily composed of a mixture of retail, business and residential uses and is accessible from various forms of public transit. Based on that analysis, DPD has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. Promotes economically beneficial development patterns that are compatible with the character of existing neighborhood (per 17-8-0103), as evidenced by the design of the project, and the fact that the proposed bulk, density, and uses are in context with the character of the adjacent properties and also meet the needs of the immediate community;
2.
