**REPORT to the
CHICAGO PLAN COMMISSION from the
DEPARTMENT OF PLANNING AND DEVELOPMENT
DECEMBER 17, 2015**

**FOR APPROVAL: PROPOSED COMMERCIAL MANUFACTURING PLANNED
DEVELOPMENT**

APPLICANT: 1330 W. FULTON, LLC

LOCATION: 1300-1344 WEST FULTON STREET; 301-329 NORTH ADA STREET; 1301-1345 WEST CARROLL AVENUE; 300-330 NORTH ELIZABETH STREET

Pursuant to the provisions of the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, the Department of Planning and Development hereby submits this report and recommendation regarding a proposed Commercial Manufacturing Planned Development for your review and recommendation to the Chicago City Council. The application for the amendment to the Zoning Ordinance was introduced into the City Council on October 14, 2015. Proper legal notice of the public hearing on the application was published in the Chicago Sun-Times on December 2, 2015. The Applicant was separately notified of this hearing.

The Applicant, 1330 W. Fulton, LLC, is seeking approval to rezone an approximately 136,282 square foot site generally bounded by West Fulton Street, North Ada Street, West Carroll Avenue and North Elizabeth Street, within the Kinzie Industrial Corridor, from M2-3 (Light Industry District) to C3-5 (Commercial, Manufacturing and Employment District), prior to establishing a Commercial Manufacturing Planned Development on the same site. The Applicant intends to complete a partially finished office building and parking garage on the site as part of the overall project. A mandatory planned development is necessary pursuant to Section 17-8-0512-A of the Chicago Zoning Ordinance because the completed project will exceed 80' in height. In addition, Section 17-13-0402 of the Chicago Zoning Ordinance requires a public hearing to be held by the Chicago Plan Commission on applications to rezone land within an industrial corridor from an "M" zoning district classification to any other zoning district classification.

BACKGROUND

The west half of the site consists of a partially completed office building shell at approximately 1330 West Fulton Street that was started by the prior owner in approximately 2000 and then stalled for financial reasons. The building shell has sat as a blight on the site ever since. In addition, a parking garage to the north of the office building shell was partially completed as well and currently serves approximately 170 vehicles. The

1

FINAL

east half of the site is improved with six warehouse-type office buildings that are planned to remain as part of the overall project as well.

SITE AND AREA DESCRIPTION

The subject property is generally located at 1330 West Fulton Street and includes the entire block bounded by West Fulton Street, North Ada Street, West Carroll Avenue and North Elizabeth Street.

There are no alleys within the boundaries of the site and it totals approximately 136,282 square feet. The site is currently zoned M2-3 and it is located within the Kinzie Industrial Corridor.

The area surrounding the site is also part of the Kinzie Industrial Corridor and immediately to the north, the Kinzie Planned Manufacturing District. Zoning in the area generally consists of M2-3 and C3-3 (Commercial, Manufacturing and Employment District) and C1-5/C1-3 (Neighborhood Commercial District) districts. The immediate area surrounding the site generally includes warehousing, distribution and office uses. However, the site is part of the larger Fulton Market area which consists of a delicate balance of zones of historic and active industrial users, burgeoning high tech office users, as well as some residential uses and entertainment/restaurant venues.

The subject site is served by public transportation. The CTA's Ashland Station on the Green/Pink Lines and the CTA's Morgan Station on the Green Line are several blocks west and east of the subject site, respectively. Bike routes in the area include Ogden, Racine and Hubbard.

The site is not located within the Lake Michigan and Chicago Lakefront Protection District or a Chicago Landmark District. The property is located within the Kinzie Tax Increment Financing District and the Near West Side Community Area.

PROJECT DESCRIPTION

The project consists of the construction of an approximately eight plus-story commercial building that will predominantly include office space and other commercial uses on the west half of the proposed planned development. As stated, the shell of the proposed office building was previously started by a previous property owner and the proposal involves reusing and building upon this base shell. Similarly, a parking garage that is partially complete and operating will be expanded and will provide approximately 610 parking spaces to serve the entire development upon completion. Up to 160 of these parking spaces will be designated as non-accessory to serve the larger area. In total, the completed commercial building on the west half of the site will include approximately 300,000 square feet of commercial space.

The east half of the site is currently improved with six vintage structures that currently house a variety of office users. These six buildings front on West Carroll Avenue and West Fulton Street while a surface parking area separates the buildings in the middle. The surface parking area is planned to be replaced with a landscaped courtyard serving these

FINAL

buildings while parking for the entire site will be provided via the expanded garage. No physical changes to these buildings are contemplated at this time though Applicant does propose the conversion of the ground floor of these buildings into commercial/retail/restaurant space. These buildings total approximately 166,000 square feet of space.

DESIGN

The proposed buildout of the partially complete office building includes a five story brick and glass

base topped by three-stories of a generally metal panel/aluminum window wall system setback from West Fulton Street. The uppermost partial floor includes metal panel and glass with access to the roof amenity level. The total height of the commercial building is planned to not exceed 139'. The parking garage is planned to be expanded and is planned not to exceed 93' in height. It will include metal screening as the primary cladding.

LANDSCAPING

The project will fully comply with the Chicago Landscape Ordinance and will adhere to the landscaping goals within the Fulton Market Area. A new landscaped courtyard plaza will be developed in the middle of the east half of the site in an area that is currently used for surface parking. Landscaping will be used to frame in this area as well at the point of the current curb cut along North Elizabeth Street.

ACCESS/CIRCULATION

Vehicular access to the building, both in and out, will be achieved via the garage on North Ada Street as is currently the case. The completed garage will include space for approximately 610 spaces. Loading will be achieved via a berth that is accessed via West Carroll Avenue as well as a berth along North Ada Street. The primary pedestrian access to the new building will be via West Fulton Street and North Ada Street. Access to the garage will be via North Ada Street as well as an internal connection between the garage and the proposed commercial building. Finally, access to the garage and proposed commercial building will be achieved via the new courtyard plaza while also affording tenants of the existing buildings access to the garage.

SUSTAINABILITY

The Applicant will provide approximately 10,800 square feet of green roof and will achieve Building Certification for the proposed new commercial building. The Green Roof Diagram included as an exhibit to this report highlights the location and layout of the green roof on the ninth floor of the new building.

BULK/USE

The proposed maximum Floor Area Ratio (FAR) for this Commercial Manufacturing

FINAL

Planned Development will be 5.0, which is the base FAR for the proposed C3-5 zoning district. Per the Chicago Zoning Ordinance, non-accessory parking will be included as floor area as well.

The planned development will allow for a variety of commercial uses that are included in the underlying C3-5 zoning district. Such uses include office, restaurants, retail, day care, artisan and limited manufacturing as well as parking. No residential uses are contemplated or will be allowed under this proposal.

RECOMMENDATION

The Department of Planning and Development has reviewed the project materials submitted by the Applicant. The Chicago Zoning Ordinance in Section 17-13-0400, lays out two types of review and decision making criteria for Map Amendments within Industrial Corridors. The first is that review and decision-making bodies must consider the criteria established in Section 17-13-0308 governing Zoning Map Amendments. The second set of review criteria addresses whether the proposed rezoning will adversely affect the continued viability of the industrial corridor and then proceeds to establish a series of factors to determine industrial viability in Section 17-13-0403. Such factors and an analysis of this proposal follow below:

I. Map Amendments within Industrial Corridors

1) The size of the district:

The district is approximately 854 acres in size and the site consists of approximately 136,282 square feet (3.12 acres).

2) The number of existing firms and employees that would be affected:

Approximately 800 companies employ approximately 15,645 individuals in the industrial corridor. The total number of employees within the district will increase as a result of this proposal. The immediate completion of the shell office building proposal will result in a net gain of employees and firms.

3) Recent and planned public and private investments within the district:

The CTA's new Morgan Station was completed in the last several years and serves residents, employees and visitors to the area. CDOT is in the midst of a streetscape improvement project along West Fulton Street.

4) The potential of the district to support additional industrial uses and increased manufacturing employment:

The Kinzie Industrial corridor is situated to support additional industrial uses. There are approximately 85 vacant properties in the corridor that are available for industrial development therefore this change will not substantially weaken the corridor. The corridor is accessible from I-90/94 Kennedy Expressway and is served by public transportation.

5) The proportion of land in the district currently devoted to industrial uses:

Approximately 60% of the land in the corridor is devoted to non-manufacturing businesses while 40% is devoted to manufacturing uses. 75% of the land in the corridor is zoned planned manufacturing district.

6) The area's importance to the city as an industrial district:

This is an important corridor due to its proximity to public transportation, truck route connections and expressways. The area employs an estimated 15,645 individuals in a diverse assortment of industries.

After reviewing the materials submitted by the applicant and analyzing the proposal with respect to the factors above, the Department of Planning and Development has concluded the following pursuant to the 17-13-0403 addressing the viability of the Industrial Corridor:

The proposed rezoning would not adversely affect the continued industrial viability of the Kinzie Industrial Corridor. There are multiple vacant and/or underutilized parcels in the corridor that are available for industrial development. The current use of the subject parcel is an unfinished office building shell and parking garage, as well as several improved office buildings. There would be no loss of jobs in the Corridor due to the proposed development. In addition, no residential uses will be allowed within the project. Therefore, the change in zoning and the redevelopment of the property will not substantially weaken the Kinzie Industrial Corridor or any established industrial users.

II. Zoning Map Amendments

The review and decision-making criteria of Section 17-13-0400 addressing Zoning Map Amendments within Industrial Corridors also requires review under Section 17-13-0308 covering Zoning Map Amendments:

A) ZONING CONSISTENCY

The site identified is located towards the eastern section of the Kinzie Industrial Corridor. The applicant seeks to rezone the property from a M2-3 District to a C3-5 District. The proposed rezoning is generally consistent with the Chicago Sustainable Industries initiative which recognizes a need to examine the effectiveness of industrial corridors. The rezoning will also allow for the completion of a stalled development project and blighted parcel in the area.

B) ZONING APPROPRIATENESS

The rezoning of this relatively small site in the corridor from an M2-3 District to a C3-5 District would not adversely affect the remainder of the Kinzie Industrial Corridor. The proposed project and zoning will not allow any residential uses.

C) DEVELOPMENT COMPATIBILITY

The proposed development project is compatible with the surrounding area. The proposal includes the completion of a partially built office building and parking garage while existing buildings in the proposal will also remain. The scale and height of the proposed commercial building is also

compatible with the surrounding area.

D) PROPOSED CLASSIFICATION COMPATIBILITY

The proposed C3-5 zoning classification is generally compatible with the surrounding zoning classifications. The site is surrounded by other M2 districts but a few parcels are zoned C1 and C3.

E) ADEQUACY OF INFRASTRUCTURE AND CITY SERVICES

The development site currently is improved with a partially built commercial building and public garage and is served by existing infrastructure in the area.

Based on the foregoing, it is the recommendation of the Department of Planning and Development that the application for a Zoning Map Amendment in the Kinzie Industrial Corridor be approved and that the recommendation to the City Council Committee on Zoning, Landmarks, and Building Standards be "Passage Recommended."

In addition, the Department of Planning and Development has reviewed the project materials submitted by the Applicant and compared this proposal to existing development in the community. The area around this project consists generally of M2-3 (Light Industry District), C1 and C3 zoning districts and the proposal represents an opportunity to complete construction of a partially constructed and compatible commercial/office development project along West Fulton Street in Chicago's Near West Side Community Area.

Based on that analysis, the Department of Planning and Development has concluded that this proposal is appropriate for this site and supports this development for the following reasons:

1. The project meets the purpose and criteria set forth in Chapter 17-8 of the Zoning Ordinance and its adoption would not have any adverse impact on the public's health, safety or welfare. Specifically, this project meets the following provisions of Chapter 17-8:
 - a. Creates safe and attractive walkways and pedestrian routes (per 17-8-0905A1) by transforming an otherwise unfinished building shell into a new commercial building that is built to the lot line along West Fulton Street and North Ada Street;
 - b. Upper-story setbacks should be used to reduce the apparent mass and bulk of tall buildings (per 17-8-0907-B) as evidenced by the proposal's

- incorporation of a significant setback on West Fulton Street at the sixth floor;
 - c. Reinforces desirable urban features found within the surrounding area, such as siting patterns, massing arrangements and streetscape characteristics (per 17-8-0906-A), as

evidenced by the project's height, mass and site design's overall compatibility with the surrounding buildings in the Near West Side Community Area;

- d. Provides adequate, inviting, usable and accessible open space for workers and visitors associated with the development and provides substantial landscaping of the open areas (per 17-8-0909-A), as evidenced by the incorporation of a new landscaped courtyard plaza on the eastern half of the site;
- e. Conserves non-renewable energy and scarce materials (per 17-8-0908-A) as evidenced by the project's goal of Building Certification;
- f. All sides and areas of the buildings that are visible to the public are treated with materials, finishes and architectural details that are of high-quality and appropriate for use on primary street-facing facade (17-8-0907-A-4), as evidenced through the material callouts in this report and on the elevations.

2. The public infrastructure facilities and city services will be adequate to serve the proposed development at the time of occupancy. B.2 (a-e) With respect to Section V, paragraph B.2 (a-e), the Authorized Representative certifies based on the Authorized Representative's knowledge, information, and belief; upon due inquiry, that such statements are accurate with respect to the trustee of the Disclosing Party. Based on the Authorized Representative's knowledge, information, and belief, upon due inquiry, JPMorgan Chase & Co. and/or its subsidiaries (collectively, the "Firm") are defendants or putative defendants in numerous legal proceedings, including private civil litigations and regulatory/government investigations. The litigations range from individual actions involving a single plaintiff to class action lawsuits with potentially millions of class members. Investigations involve both formal and informal proceedings, by both governmental agencies and self-

regulatory organizations. These legal proceedings are at varying stages of adjudication, arbitration or investigation, and involve each of the Firm's lines of business and geographies and a wide variety of claims (including common law tort and contract claims and; statutory antitrust, securities and consumer protection claims), some of which present novel legal theories. Based on current knowledge, the Firm believes it has asserted meritorious defenses to the claims asserted against it in its currently outstanding legal proceedings, intends to defend itself vigorously in all such matters and does not believe that any pending legal proceeding would have a material effect on the Firm's performance of the services contemplated by the RFP.
