**Type 1 Rezoning Narrative in Support of a Map Amendment from RS-3 to BI-1 for  
the Property Commonly Known as 6141 North Pulaski Road**

The subject property is 51,820 square feet in area and is currently improved with a 51,340<sup>1</sup> square foot skilled-nursing facility and 32 accessory parking spaces. Applicant proposes to construct an approximately 1,240 square foot second-floor building addition to the existing facility, which addition is intended to be used as a physical therapy center to support the skilled-nursing care operations conducted at the subject property. In conjunction with that addition, Applicant proposes to remove the existing porte-cochere and replace it with a new porte-cochere of similar dimensions.

Upon construction of the proposed building addition, the floor area ratio will be 0.86. Existing minimum building setbacks are as follows:

- North - 10.00 feet from West Granville Avenue
- East - 35.07 feet from the public alley
- South-15.30 feet
- West - 15.31 feet from North Pulaski Road

The existing minimum building setbacks identified above will remain unchanged by the proposed second-floor building addition.

The existing building height, as measured from the bottom of the roof joist, is 19 feet, 2 inches. The existing building height will remain unchanged by the proposed second-floor building addition.

# FINAL FOR PUBLICATION

Includes 8,020 square foot basement area. However, that area is excluded from the floor area ratio because the basement is more than 50% below grade.
