September 12, 2017

Honorable Anna Valencia City Clerk
121 North LaSalle Street, Room 107 Chicago,
Illinois 60602

Dear Ms. Valencia:

I am submitting to you the Comprehensive Annual Financial Report (CAFR) thereto for the year ended December 31, 2016. This report is accurate in all material respects and is prepared in a manner designed to present fairly the financial position and results of operations of the various funds.

Sincerely,

Erin Keane City Comptroller

OFFICE OF THE MAYOR

CITY OF CHICAGO

RAHM EMANUEL MAYOR

June 30, 2017

Dear Chicagoans:

Thank you for your interest in the City of Chicago's Comprehensive Annual Financial Report

(CAFR) for the 2016 fiscal year.

In 2016, Chicago continued to make progress on addressing the City's financial legacy liabilities, reducing our structural deficit through savings and sustainable revenue growth, and identifying stable funding sources for the Municipal and Laborers' pension funds. Additionally, the general fund balance shows growth again in 2016, which is a direct result of cost savings and reform measures instituted by the City over the prior six budgets. This progress will endure in 2017 as the City continues to pursue sustainable and responsible financial practices.

The 2016 CAFR also reflects the significant progress we have made over the years in improving our financial reporting. This year, the independent auditors found no material weakness, representing five straight years of no material weaknesses.

While we have made notable progress, we will continue to follow a deliberate reform and invest strategy to secure the Chicago's long-term financial future and to ensure ongoing economic growth in all neighborhoods across the City.

Mayor

Sincerely,

CITY OF CHICAGO THE
CITY COUNCIL RAHM
EMANUEL, Mayor

PART I INTRODUCTORY SECTION

7

Department of Finance city of chicago

June 30, 2017

To the Honorable Mayor Rahm Emanuel, Members of the City Council, and Citizens of the City of Chicago:

We are pleased to submit the Comprehensive Annual Financial Report (CAFR) of the City of Chicago for the fiscal year that ended December 31, 2016. State law requires that all governmental units publish, within six months of the close of each fiscal year, financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited by a licensed public accountant.

Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all

disclosures, rests with management. The purpose of the CAFR is to provide complete and accurate financial information which complies with the reporting requirements of the Municipal Code of Chicago (Code). The City's financial management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the government are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with GAAP.

The internal control structure is designed to provide reasonable but not absolute assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefits likely to be derived and that the valuation of costs and benefits requires estimates and judgments by management.

The Code also requires that the City's basic financial statements are audited by independent certified public accountants selected by the Committee on Finance of the City Council. This requirement has been met, and the unmodified audit opinion rendered by Deloitte & Touche LLP is included in the financial section of this report. The audit was conducted as a subcontractor arrangement between Deloitte & Touche LLP and a consortium of Chicago-based minority- and women-owned certified public accounting firms.

In addition to meeting the requirements set forth in the Code, an additional audit (Single Audit Act Amendments of 1996, Government Auditing Standards, and Office of Management and Budget's (OMB) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards) designed to meet the requirements of the OMB Uniform Guidance, a government-wide framework for grants management, is performed annually. GAAP requires that management provide a narrative introduction, overview and analysis to accompany the basic financial statements in the form of a Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government. The City of Chicago, incorporated in 1837, currently occupies a land area of approximately 228 square miles and, according to the 2010 census, serves a population of over 2.69 million residents. The City is a "home rule" unit of local government under Illinois law and is governed by an elected mayor and city council. The Mayor, the Chief Executive Officer of the City, is elected by general election for a four-year term. The City Council, the City's legislative body, consists of 50 members, each representing one of the City's 50 wards. The members of the City Council are elected through popular vote by ward for four-year terms. The City provides public safety, street maintenance and sanitation, transportation infrastructure, water, sewer, health, cultural, aviation and human services.

City employees are covered by one of four pension plans that are responsible for providing certain pension benefits and that receive funding from the City. These four plans include the Municipal Employees' Annuity and Benefit Fund, Laborers' and Retirement Board Employees' Annuity and Benefit Fund, Policemen's Annuity and Benefit Fund, and Firemen's Annuity and Benefit Fund. These component units are included in the City's reporting entity. Additional services are provided to residents by the Chicago Public Schools, Chicago Park District, Chicago Transit Authority, City Colleges of Chicago and the Chicago Housing Authority. However, these component units are not included in the City's reporting entity.

Annual budgets are adopted for all of the City's funds, including the general fund and certain special revenue and enterprise funds: On or before October 15, the Mayor submits a proposed budget of expenditures and the means of financing them to the City Council for the upcoming fiscal year, which runs the calendar year. The City Council is required to hold at least one public hearing regarding the proposed budget, and the budget recommendation must be made

available for public inspection at least ten days prior to the passage of the annual appropriation ordinance, which must be enacted by December 31. Additional information on the budgetary process can be found in Note 3 in the notes to financial statements.

Local Economy. Chicago continues to have one of the world's most diverse economies, with no single sector employing more than 14 percent of the City's workforce. This diversity provides financial stability from mature industries in business and financial services, manufacturing, transportation and warehousing, education and healthcare, and enables the City to promote the growth of emerging industries in technology, tourism, biotech, and life sciences. According to the Bureau of Labor and Statistics, the Chicago metropolitan area had an unemployment rate of 5.8 percent in 2016.

More than 400 major corporate headquarters (with at least 1,000 employees) are located in the Chicago metropolitan area, including 31 in the Fortune 500. In 2016, World Business Chicago tracked more than 350 business expansions in Chicago, leading to the city being named the "Top Metro" in the United States for corporate relocation by Site Selection magazine for the fourth year in a row.

Chicago remains a global financial and trading center and is also a hub for the development of new financial technologies. Chicago is home to nearly one quarter of the world's futures trading volume, which is two times more than New York and similar to all of the European exchanges combined. The Chicago Board Options Exchange is the largest options exchange in the United States, and Chicago-headquartered CME Group is the top derivatives exchange in the world, posting a volume of \$3.9 billion in 2016, the largest annual volume of all global exchanges.

The growing innovation and technology industry has a strong presence in Chicago. There are nearly 100 innovation centers in Chicago, including 1871, one of the top five business incubators in the world. In 2016, Chicago startups and tech companies raised more than \$1.7 billion in 2016 from 179 companies which is up from 143 companies in 2015. Fifty five Chicago companies were acquired, totaling \$1.73 billion.

Chicago has long been a center for international business. In 2016, the Chicago metropolitan area led the nation in foreign direct investment (FDI) for the fourth year in a row, according to the 2016 IBM Global Location Trends report. Chicago was the only North American city ranked in the top 20, ranking seventh in total number of FDI projects. Chicago-based companies also have a strong international presence, with over 8,000 locations across more than 170 countries or territories.

9

On a number of fronts, Chicago's real estate development market is growing at a level not seen since before the recession. The city's industrial occupancy rate is at a 15 year high. In 2016, the city also reached the highest number of building cranes (50) in ten years.

In addition, Chicago continues to be a destination for both business and leisure travelers, drawn by the City's numerous cultural and recreational attractions, professional sports teams, festivals, museums, parks, restaurants and more. Tourism has grown substantially in recent years with a record 54.1 million visitors citywide in 2016, an ~ in"crease"of 2:9"p visited sites in the US with 12.9 million guests just in the second half of 2016. Chicago's tourism industry has added an estimated 4,600 jobs in 2016 for a total of an estimated 145,100 jobs supported by the industry.

Financial Planning and Policies. Each year, the City of Chicago completes an Annual Financial Analysis based on the critical understanding that to protect the health and safety of all Chicagoans, strengthen neighborhoods, maintain infrastructure and public spaces, and foster a vibrant local economy, it must take an informed and long-term approach to financial planning. The Annual Financial Analysis, which is available on the City's website, provides a review of the City's revenues and expenditures over the past ten years, a forecast of the City's finances for the next three years, and analyses of its liquidity, pensions, debt obligations, tax increment financing, and capital improvement program.

The City bases its annual budget on an assessment of the available resources for that year and an understanding of the City's service priorities, adopting a balanced budget each year in accordance with the Illinois Municipal Code. As part of the annual budget process, the City evaluates each department's direct and indirect costs in order to accurately assess expenses across City government and strives to maintain a diversified revenue system that is responsive to the changing economy and designed to protect the City from short-term fluctuations in any individual revenue source. The City's financial policies are intended to secure the City's fiscal integrity and health, encourage equitable allocation of costs and resources, and identify potential financial risks and options to mitigate them, maximize economic efficiency, and allow

sufficient flexibility to consider new fiscal and budgetary strategies.

2016 Budget and Major Initiatives. The 2016 budget included multiple reforms and efficiencies that further streamlined government operations and achieved taxpayer savings along with new sustainable revenue sources to provide dedicated revenue to fund the Police and Fire pensions and invest in city services. Building on the structural reforms and efficiencies put into place in previous budgets, the 2016 budget made significant investments in after-school and youth job programs, infrastructure improvements, expanded neighborhood services, and public safety. The 2016 budget also continued the City of Chicago's fiscal and budgetary strategy of ensuring the City's pension funds are on a path to solvency, eliminating unsustainable financial practices, and ending the use of financing structures and techniques that expose taxpayers to undue risk.

The 2016 budget included further refinements to grid garbage collection, removing over 20 garbage trucks from the City's daily deployment. This refinement freed up resources which were redirected to provide additional tree trimming and rodent abatement services in neighborhoods. On top of achieving savings by streamlining garbage collection, the 2016 budget included significant savings through the elimination of over 100 unneeded vacancies, consolidating technology functions across departments into one central IT department, healthcare reforms, and the final year of the phase-out of retiree healthcare.

In 2016, the City expanded the One Summer Chicago program to serve more than 25,000 youth through summer placement for youth, ages 14 to 24. The One Summer Chicago program has grown by 70 percent since it was launched in 2011. The City also provided an additional investment in after-school programs, increasing the number of available after-school programming opportunities to nearly 27,000 in 2016. The City provided funding to allow year-round pothole patching and street repairs, rather than seasonal repairs, and in 2016, the Department of Water Management continued to renew and upgrade the City's aging water and sewer system. Finally, the 2016 budget made key investments in public safety by funding the transition of over 300 police officers who were performing administrative functions back to critical policing functions in neighborhoods. These administrative positions were filled with non-sworn administrative personnel where necessary.

Since the 2012 budget, the City has worked to eliminate the unsustainable practices of the past, and the 2016 budget includes significant progress to reform the City's finances, fund pensions, and eliminate taxpayer risk.

10

Beginning in 2015 and completed in 2016, the City converted all taxpayer-backed variable-rate debt and terminated the corresponding swaps in the City's portfolio. This financing technique has now been fully replaced with stable, fixed rate bonds payable over the next 20 to 40 years. In the 2016 budget, the City began a four-year phase out of the financial practice known as "scoop and toss" in which the City restructures its near term debt payments with long-term debt. The City reduced "scoop and toss" by approximately \$100 million with the 2016 budget.

As part of the 2016 budget, the City passed a four-year property tax increase solely to fund the increasing Police and Fire pension contributions as required by Public Act 99-0506, which is discussed further in the Pension Funds and Other Postemployment Benefits section of this document. While the property tax increase was passed as part of the 2016 Budget, it included an increase beginning in 2015. The property tax increase began in 2015 with an additional \$318 million added to the City's property tax levy and \$109 million added to the 2016 property tax levy.

Lastly, the City also deposited \$5 million into the operating liquidity fund, which is part of the City's budget stabilization funds.

Awards and Acknowledgments. The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Chicago for its CAFR for fiscal year 2015. This was the twenty-third consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized CAFR. This report must satisfy both GAAP and applicable legal requirements. A Certificate of Achievement is valid for a period of one year.

We believe our current CAFR continues to meet the GFOA Certificate of Achievement program's requirements, and it has been submitted for consideration for this year's award.

This report could not have been prepared without the dedication and effective help of the staff of the Department of Finance. We wish to express our appreciation to those who contributed to the preparation of this report.

Respectfully submitted,

Carole L. Brown Chief Financial Officer

Erin Keane City Comptroller

INDEPENDENT AUDITOR'S REPORT

To the Honorable Rahm Emanuel, Mayor and Members of the City
Council City of Chicago, Illinois

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Chicago, Illinois (the "City"), as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the City's Pension Plans (the "Plans"), which, in aggregate, represent substantially all the assets and

revenues of the fiduciary funds, included in the aggregate remaining fund information. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Plans, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Chicago, Illinois, as of

December 31, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

. Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of Changes in the Net Pension Liability and Related Ratios, Schedule of Contributions, Schedule of Other Postemployment Benefits Funding Progress, and Schedule of Revenues and Expenditures - Budget and Actual, Pension Fund (Budgetary Basis) as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The Combining Fund Statements, Individual Fund Statements, introductory section and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Combining and Individual Fund Statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit, the procedures performed as described above, and the reports of the other

auditors, the Combining and Individual Fund Statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

June 30, 2017

The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

16

CITY OF CHICAGO, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31, 2016

Management's Discussion and Analysis

As management of the City of Chicago, Illinois (City) we offer readers of the City's Comprehensive Annual Financial Report (CAFR) this narrative overview and analysis of the financial activities of the City for the fiscal year ended December 31, 2016. We encourage the readers to consider the information presented here in conjunction with information that we have furnished in our letter of transmittal, contained within this report.

2016 Financial Highlights

- Liabilities and Deferred Inflows of the City, in the government-wide financial statements, exceeded its assets and deferred outflows at the close of the most recent fiscal year by \$27,429.9 million (net deficit). The net deficit is composed of \$3,307.6 million in net investment in capital assets and \$3,149.5 million in net position restricted for specific purposes offset by an unrestricted deficit of \$33,887.0 million. The net deficit increased in 2016 by \$3,598.5 million primarily as a result of assumption and plan changes impacting the pension liability.
- The City's total assets increased by \$1,102.2 million. The increase primarily relates to a \$958.2 million increase in capital assets as a result of the City's capital improvement program.
- Total Revenues and Other Financing Sources (Uses), in the fund financial statements during 2016 were \$7,342.2 million, a decrease of \$207.5 million (2.7 percent) from 2015, primarily due to the reduction of proceeds from debt, offset by an increase in tax revenue.
- The General Fund ended 2016 with a total Fund Balance of \$269.6 million, of which \$153.7 million was Unassigned. Total Fund Balance increased from 2015 primarily because Revenues and Other Financing Sources were greater than Expenditures and Other Financing Uses by \$54.4 million.
- The City's General Obligation Bonds and notes outstanding decreased by \$191.4 million during the current fiscal year. The proceeds from the issuance of General Obligation Bonds were used to refund or pay interest on all or a portion of certain outstanding general obligation bonds.
- The General Fund expenditures on a budgetary basis were \$72.9 million less than budgeted as a result of variances in general government expenditures primarily due to lower than budgeted pension contributions.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements, which include the following components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements. These components are described below:

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, using accounting methods similar to those used by private-sector companies. The statements provide both short-term and long-term information about the City's financial position, which assists in assessing the City's economic condition at the end of the fiscal year. These financial statements are prepared using the flow of economic resources measurement focus and the accrual basis of accounting. This basically means such

statements follow methods that are similar to those used by most businesses. They take into account all revenues and expenses connected with the fiscal year even if cash involved has not been received or paid.

**CITY OF CHICAGO, ILLINOIS MANAGEMENT'S
DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER
31, 2016**

The government-wide financial statements include two statements:

The statement of net position presents information on all of the City's assets, deferred outflows, liabilities, and deferred inflows with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating, respectively. To assess the overall health of the City, the reader should consider additional non-financial factors such as changes in the City's property tax base and the condition of the City's infrastructure.

The statement of activities presents information showing how the government's net position changed during each fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (for example, uncollected taxes, and earned but unused vacation). This statement also presents a comparison between direct expenses and program revenues for each function of the City.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public safety, streets and sanitation, transportation, health, and cultural and recreation. The business-type activities of the City include water, sewer, tollway and airport services.

The government-wide financial statements present information about the City as a primary government, which includes the Chicago Public Library. The government-wide financial statements can be found immediately following this management's discussion and analysis.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of a fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The City maintains 19 individual governmental funds. Information for the seven funds that qualify as major is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances. The seven major governmental funds are as follows: the General Fund, the Federal, State and Local Grants Fund, the Special Taxing Areas Fund, Service Concession and Reserve Fund, the Bond, Note Redemption and Interest Fund, the Community

Development and Improvement Projects Fund, and the Pension Fund. Data from the other governmental funds is combined into a single, aggregated presentation.

The City adopts an annual appropriation budget for its general and certain special revenue funds on a non-GAAP budgetary basis. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The basic governmental fund financial statements can be found immediately following the government-wide statements.

18

CITY OF CHICAGO, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31, 2016

Proprietary funds. These funds are used to show activities that operate more like those of commercial enterprises. Because these funds charge user fees for services provided to outside customers including local governments, they are known as enterprise funds. Proprietary funds, like government-wide statements, use the accrual basis of accounting and provide both long- and short-term financial information. There is no reconciliation needed between the government-wide financial statements for business-type activities and the proprietary fund financial statements. The City uses five enterprise funds to account for its water, sewer, Skyway, and two airports operations.

Proprietary funds provide the same type of information as the government-wide financial statements, but provide more detail. The proprietary fund financial statements provide separate information for the Water Fund, Sewer Fund, Chicago Skyway Fund, Chicago-O'Hare International Airport Fund and the Chicago Midway International Airport Fund. All the proprietary funds are considered to be major funds of the City. The basic proprietary fund financial statements can be found immediately following the governmental fund financial statements.

Fiduciary funds. Fiduciary funds are used primarily to account for resources held for the benefit of parties outside the primary government. The City is the trustee, or fiduciary, for its employees' pension plans. It is also responsible for other assets that, because of a trust arrangement can be used only for the trust beneficiaries. The City also uses fiduciary funds to account for transactions for assets held by the City as agent for various entities. The City is responsible for ensuring that the assets reported in these funds are used for their intended purposes. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. All of the City's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The accounting used for fiduciary funds is much like that used for proprietary funds. The fiduciary fund basic financial statements can be found immediately following the proprietary fund financial statements.

Mores to the basic financial statements. The notes provide additional information that is essential for a full understanding of data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found immediately following the fiduciary fund basic financial statements.

Additional Information. The combining statements, which include nonmajor funds, for governmental funds and trust and agency funds are presented immediately following the notes to the basic financial statements.

Financial Analysis of the City as a whole

Net Position. As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, liabilities and deferred inflows exceeded assets by \$27,429.9 million at December 31, 2016. Of this amount, \$3,307.6 million represents the City's investment in capital assets (land, buildings, roads, bridges, etc.) less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities and deferred inflows.

An additional portion of the City's net position, \$3,149.5 million, represents resources that are subject to external restrictions on how they may be used.

3,307.6 3,149.5 (33,887.0)

\$ (27,429.9) \$ (23,831.4)

Governmental Activities. Net position of the City's governmental activities decreased \$3,436.4 million to a deficit of \$27,472.2 million primarily as a result of an increase in the pension liability due to assumption and plan changes. A significant portion of net position is either restricted as to the purpose they can be used for or they are classified as net investment in capital assets (buildings, roads, bridges, etc.). Consequently, unrestricted net position showed a \$29,676.3 million deficit at the end of this year. This deficit does not mean that the City does not have the resources available to pay its bills next year. Rather, it is the result of having long-term commitments that are greater than currently available resources. Specifically, the City did not include in past annual budgets the full amounts needed to finance future liabilities arising from personnel, property, pollution and casualty claims (\$942.6 million) and Municipal employees, Laborers', Policemen's and Firemen's net pension liability and other post-employment benefits (\$31,679.3 million). The City will include these amounts in future years' budgets as they come due. In addition, the deferred inflow balance of \$1,534.2 million from concession service agreements will be amortized into income over the life of such agreements.

Revenues for all governmental activities in 2016 were \$6,741.9 million, an increase of \$347.9 million from 2015. Over half of the City's revenues were derived from taxes which increased by \$341.0 million (9.1 percent). Total tax revenue included an increase in property taxes received of \$85.1 million (7.2 percent).

Expenses for governmental activities in 2016 were \$10,178.3 million, a decrease of \$1,076.3 million (9.6 percent) over 2015. The amount that taxpayers paid for these governmental activities through City taxes was \$4,095.2 million. Some of the cost was paid by those who directly benefited from the programs (\$879.7 million), or by other governments and organizations that subsidized certain programs with grants and contributions (\$738.2 million).

The City paid \$1,026.3 million for the "public benefit" portion with other revenues such as state aid, interest and miscellaneous income.

Although total net position of business-types activities was \$42.3 million, these resources cannot be used to make up for the deficit in net position in governmental activities. The City generally can only use this net position to finance the continuing operations of the water, sewer, Skyway, and airports activities.

Expenses and Program Revenues - Governmental Activities
(in millions of dollars)

Revenues by Source - Governmental Activities

CITY OF CHICAGO, ILLINOIS MANAGEMENT'S
DISCUSSION AND ANALYSIS YEAR ENDED
DECEMBER 31, 2016

Business-type Activities. Total Revenues of the City's business-type activities increased by \$110.2 million in 2016 mostly from an increase in charges for services and rental income, offset by a decrease in other general revenues.

- The Water Fund's total operating revenues decreased by \$8.0 million (1.0%) from 2015 due to a decrease in net water fees of \$14.3 million due to the continued conversion from non-metered to metered accounts, offset by an increase in penalties and other revenues related to water fees of \$6.3 million. Operating expenses before depreciation and amortization for the year ended 2016 decreased by \$199.4 million (27.0%) from the year ended 2015 primarily due to decreases in pension expense of \$196.1 million and workmen's compensation of \$20.6 million offset by an increase in indirect costs of \$19.2 million.
- The Sewer Fund's total operating revenues decreased in 2016 by \$6.8 million (1.7%) primarily due to the continued conversion of non-metered customers to metered customers. There was no rate increase during 2016. Operating expenses before depreciation and amortization for 2016 decreased \$82.7 million (26.6%) from the year ended 2015 primarily due to the decrease of pension expense calculated under Governmental Accounting Standards Board Statement No. 68, "Accounting and Financial Reporting for Pensions, an amendment of GASB Statement 27" ("GASB 68").

- Chicago Midway International Airport's total operating revenues for 2016 increased by \$6.1 million (3.4%) from 2015 primarily due to increases in the landing fee and terminal rental rates, and increases in concession revenues. Operating expenses before depreciation and amortization decreased by \$1.3 million compared to 2015, primarily due to a decrease in pension expense calculated under GASB 68, offset by increases in salaries and wages and repairs and maintenance.
- Chicago O'Hare International Airport's total operating revenues for 2016 increased by \$102.6 million (12.1%) compared to 2015 primarily due to increases in landing fee rates and activity, concession revenues, and increases in rents. Operating expenses before depreciation and amortization decreased by \$54.5 million (6.8%) compared to 2015 primarily due to a decrease in pension expense calculated under GASB 68.
- The Chicago Skyway was leased for 99 years to a private company. The agreement granted the company the right to operate the Skyway and to collect toll revenue during the term of the agreement. The City received an upfront payment of \$1.83 billion of which \$446.3 million was used to advance refund all of the outstanding Skyway bonds. The upfront payment is being amortized into nonoperating revenue over the period of the lease (\$18.5 million annually).

CITY OF CHICAGO, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31, 2016

Financial Analysis of the City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At December 31, 2016, the City's governmental funds reported combined ending fund balances of \$908.2 million, a decrease of \$74.5 million in comparison with the prior year. Of this total amount, \$709.8 million was committed to specific expenditures, \$92.1 million was assigned to anticipated uses, a deficit of \$1,673.3 million was unassigned, \$1,755.9 million was restricted in use by legislation, and \$23.7 million was nonspendable.

The General Fund is the chief operating fund of the City. At the end of the current fiscal year, the unassigned fund

balance of the General Fund was \$153.7 million with a total fund balance of \$269.6 million. As a measure of the General Fund's liquidity, it may be helpful to compare both unassigned fund balance and total fund balance to total fund expenditures. Total General Fund balance represents 7.8 percent of total General Fund expenditures. The fund balance of the City's General Fund increased by approximately \$54.4 million during the current fiscal year due to higher revenues and lower expenses for certain categories.

The Federal, State and Local Grants Fund has a total deficit fund balance of \$242.9 million. This is \$26.8 million lower than 2015 primarily due to slower reimbursement of expenditures.

The Special Taxing Areas Fund has a total fund balance of \$1,309.8 million, which is all restricted to specific expenditures.

The Service Concession and Reserve Fund accounts for deferred inflows from nonbusiness type long-term concession and lease transactions and has \$640.2 million committed to specific expenditures. The unassigned deficit of \$1,534.2 million results from the deferred inflows from long-term asset leases.

The Bond, Note Redemption and Interest Fund has a total fund balance of \$267.8 million. This is \$31.5 million higher than 2015.

The Community Development and Improvement Projects Fund has a total fund balance of \$45.0 million. This is \$153.4 million lower than 2015 due to increased capital improvement efforts.

Changes in fund balance. The fund balance for the City's governmental funds decreased by \$74.5 million in 2016. This includes a decrease in inventory of \$0.1 million.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net position of the Water, Sewer, Chicago Skyway, Chicago-O'Hare International Airport, and Chicago Midway International Airport Funds at the end of the year amounted to a deficit of \$4,210.7 million. The unrestricted net position deficit increased by \$479.5 million due to an increase in the unrestricted deficit in all proprietary funds primarily due to increases in the net pension liability. Other factors concerning the finances of these five funds have already been addressed in the discussion of the City's business-type activities.

CITY OF CHICAGO, ILLINOIS MANAGEMENT'S DISCUSSION AND ANALYSIS YEAR ENDED DECEMBER 31, 2016

General Fund Budgetary Highlights

The City's 2016 Original General Fund Budget of \$3,633.5 million was approved by City Council on October 28, 2015, and was \$99.1 million (2.8%) larger than the 2015 Final General Fund Budget. Nearly two-thirds of the increase (\$62.7 million) was from a new garbage collection fee charged to residences who receive city-provided garbage collection service. General Fund revenues ended the year \$64.2 million over the 2016 Final General Fund Budget as a result of higher than expected revenue from transaction, recreation, and transportation taxes. Revenue in these areas helped to offset lower than expected revenue from state income tax, home rule sales tax, and utility taxes. "Txpe'nditufe^^ government expenditures. Additional information on the City's budget can be found in Note 3 under Stewardship, Compliance and Accountability within this report.

Capital Asset and Debt Administration

Capital Assets. The City's capital assets for its governmental and business-type activities as of December 31, 2016 amount to \$24,073.8 million (net of accumulated depreciation). These capital assets include land, buildings and system improvements, machinery and equipment, roads, highways and bridges, and property, plant and equipment.

Major capital asset events during the current fiscal year included the following:

- During 2016, the City completed \$382.8 million in infrastructure projects including \$242.1 million in street construction and resurfacing projects, \$71.6 million in street lighting and transit projects, and \$69.1 million in bridge and viaduct reconstruction. At year end, infrastructure projects still in process had expenses totaling nearly \$712.2 million.
- At the end of 2016, the Water Fund had \$4,131.6 million invested in utility plant, net of accumulated depreciation. During 2016, the Water Fund expended \$395.3 million on capital activities. This included \$1.8 million for structures and improvements, \$209.5 million for distribution plant, \$3.5 million for equipment, and \$180.5 million for construction in progress. During 2016, net completed projects totaling \$48.9 million were transferred from construction in progress to applicable capital accounts. The major completed projects were installation and replacements of water mains (\$20.5 million), and meter save program (\$25.1 million).
- At the end of 2016, the Sewer Fund had \$2,456.0 million invested in utility plant, net of accumulated depreciation. During 2016, the Sewer Fund had capital additions being depreciated of \$323.1 million, and completed projects totaling \$70.5 million were transferred from construction in progress to applicable facilities and structures capital accounts. The 2016 Sewer Main Replacement Program completed 25.6 miles of sewer mains and 61.0 miles of relining of existing sewer mains.
- At the end of 2016, Chicago-Midway International Airport had \$1,182.7 million invested in net capital assets. During 2016, the Airport had additions of \$62.7 million related to capital activities. This included \$0.5 million for land acquisition and the balance of \$62.2 million for construction projects relating to runway rehabilitation and parking improvements. During 2016, completed projects totaling \$69.3 million were transferred from construction in progress to applicable buildings and other facilities capital accounts. These major completed projects were related to runway and taxi improvements, and rental car parking garage.
- At the end of 2016, Chicago-O'Hare International Airport totaled \$7.4 billion, invested in net capital assets. During 2016, the Airport had additions of \$544.7 million related to capital activities. This included \$6.1 million for land acquisition and the balance of \$538.6 million for terminal improvements, parking facilities enhancements, and runway and taxiway improvements. During 2016, completed projects totaling \$287.8 million were transferred from construction in progress to applicable buildings and other facilities capital accounts. These major completed projects were related to runway and taxiway improvements, electrical system upgrades and parking facilities and terminal improvements.

Debt. At the end of the current fiscal year, the City had \$8,654.3 million in General Obligation Bonds and \$518.7 million in General Obligation Certificates and Other Obligations outstanding. Other outstanding long-term debt is as follows: \$238.1 million in Motor Fuel Tax Revenue Bonds; \$528.5 million of Sales Tax Revenue Bonds; \$33.5 million in Tax Increment Financing Bonds; and \$13,203.3 million in Enterprise Fund Bonds and long-term obligations. For more detail, refer to Note 10 Long-term Obligations in the Basic Financial Statements.

2017. Economic Factors and Next Year's Budgets and Rates

Regional, national, and global economies play a major role in the City's finances and economic growth. The economy both locally and nationally continued to grow at a modest pace in 2016. Nationally, unemployment continued to decline as wages grew at a faster pace. Across the country and in Chicago, home prices continued to rise amid tightening inventory. Locally, median home prices increased 4 percent over 2015 while the number of homes sold was 2 percent higher. Tourism and business travel to Chicago grew in 2016 as the City welcomed a record number 54.1 million tourists, which helped spur growth in tourist-related revenues like amusement and restaurant sales taxes.

The City's 2017 General Fund Budget, totaling \$3,743.2 million, was approved unanimously by a 48 to 0 vote of City Council on November 16, 2016. The 2017 budget balanced an operating budget shortfall of \$137.6 million by reforming and cutting spending, and revenue growth. The 2017 budget includes a \$5 million deposit into the City's operating liquidity fund, which is part of the City's practice of adding to its budget stabilization funds.

CITY OF CHICAGO, ILLINOIS

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN
FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES Year Ended
December 31, 2016 (Amounts are in Thousands of Dollars)**

Amounts reported for governmental activities in the statement of activities are different from amounts reported for governmental funds in the statement of revenues, expenditures and changes in fund balances because:

Net change in fund balances - total governmental funds	\$ (74,411)
--	-------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period	165,127
--	---------

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds	15,613
---	--------

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. This is the amount by which proceeds exceeded repayments	249,388
--	---------

Certain expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds	<u>(3,792,169)</u>
---	--------------------

<u>Change in the net position of governmental activities</u>	<u>\$ (3,436,452)</u>
--	-----------------------

See notes to basic financial statements.

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

1) Summary of Significant Accounting Policies

The City of Chicago (City), incorporated in 1837, is a "home rule" unit under State of Illinois law. The City has a mayor-council form of government. The Mayor is the Chief Executive Officer of the City and is elected by general election. The City Council is the legislative body and consists of 50 members, each representing one of the City's 50 wards. The members of the City Council are elected through popular vote by ward for four-year terms.

The accounting policies of the City are based upon accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). Effective January 1, 2016, the City adopted the following GASB Statements:

GASB Statement No. 72 Fair Value Measurement and Application ("GASB 72"), addressed accounting and financial reporting issues related to fair value measurements. The City adopted GASB 72 for the year ended December 31, 2016. This Statement provided guidance for determining a fair value measurement for financial reporting purposes and the related disclosures. This Statement required a government to use valuation techniques that are appropriate under the circumstances and for which sufficient data are available to measure fair value. This Statement established a hierarchy of inputs to valuation techniques used to measure fair value. This Statement also required disclosures to be made about fair value measurements, the level of fair value hierarchy, and valuation techniques (see Notes 4 and 10).

GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments ("GASB 76"), supersedes Statement No. 55, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments. The City adopted GASB 76 for the year ended December 31, 2016. There was no impact on the City's Financial Statements as a result of the implementation of GASB 76.

GASB Statement No. 77, Tax Abatement Disclosures ("GASB 77"), required governments that enter into tax abatement agreements to disclose: (1) Brief descriptive information concerning the agreement; (2) The gross dollar amount of taxes abated during the period; and 3) Commitments made by government, other than to abate taxes, that are part of the tax abatement agreement. The City adopted GASB 77 for the year ended December 31, 2016 (see Note 17).

Other accounting standards that the City is currently reviewing for applicability and potential impact on the financial statements include:

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions ("GASB 75"), replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB. GASB 75 will be effective for the City beginning with its year ending December 31, 2018. This Statement establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. In addition, this Statement details the recognition and disclosure requirements for employers with payables to defined benefit OPEB plans that are administered through trusts that meet the specified criteria and for employers whose employees are provided with defined contribution OPEB.

GASB Statement No. 80, Blending Requirements for Certain Component Units, an amendment of GASB Statement No. 14 ("GASB 80"), amends the blending requirements for the financial statement presentation of component units of all state and local governments. GASB 80 will be effective for the City beginning with its year ending December 31, 2017..

GASB Statement No. 82, Pension Issues, an amendment of GASB Statements No. 67, No. 68, and No. 73 ("GASB 82"), addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practice for financial reporting purposes, and (3) the classification of

49

pitv /~\rr /■»iji/■» a/■"r-v n i ikiAto
Oil i Ut~ UIIV^nOU, IL.L.IXUO

NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2016

payments made by employers to satisfy employee (Plan member) contribution requirements. GASB 82 will be effective for the City beginning with its year ending December 31, 2017.

GASB Statement No. 83, Certain Asset Retirement Obligations - ("GASB 83"), addresses accounting and financial reporting for certain asset retirement obligations (AROs). A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets will have to recognize a liability based on the guidance in this statement. This statement also requires disclosure of information about the nature of a government's AROs, the methods and assumptions used for the estimates of the liabilities, and the estimated remaining useful life of the associated tangible capital assets. GASB 83 will be effective for the City beginning with its year ending December 31, 2019.

GASB Statement No. 84, Fiduciary Activities - ("GASB 84") will improve the guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. GASB 84 will be effective for the City beginning with its year ending December 31, 2019.

GASB Statement No. 85, Omnibus - ("GASB 85") the objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. The statement addresses various miscellaneous issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (OPEB). GASB 85 will be effective for the City beginning with its year ending December 31, 2018.

GASB Statement No. 86, Certain Debt Extinguishment Issues - ("GASB 86") establishes accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources (resources other than the proceeds of refunding debt) are placed in an irrevocable trust for the sole purpose of extinguishing debt. GASB 86 will be effective for the City beginning with its year ending December 31, 2018.

- a) Reporting Entity - The City includes the Chicago Public Library. The financial statements for the City have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP), applicable to governmental units, as required by the Municipal Code of Chicago (Code).

The City's financial statements include the following legal entities as fiduciary trust funds:

The Municipal Employees' Annuity and Benefit Fund of Chicago is governed by a five-member board: three members are elected by plan participants and two are members ex-officio.

The Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago is governed by an eight-member board: two members are elected by plan participants, two are members ex-officio, two members are

appointed by the City Department of Human Resources, one member is elected by retired plan participants and one member is elected by the local labor union.

The Policemen's Annuity and Benefit Fund of Chicago is governed by an eight-member board: four members are elected by plan participants and four are appointed by the Mayor.

The Firemen's Annuity and Benefit Fund of Chicago is governed by an eight-member board: four members are elected by plan participants and four are members ex-officio.

Financial statements for each of these four pension plans (collectively, "Pension Plans") may be obtained at the respective Pension Plans' office.

Related Organizations - City officials are responsible for appointing a voting majority of the members of the boards of other organizations, but the City's accountability for these organizations does not extend beyond making appointments and no financial accountability or fiscal dependency exists between the City and these

50

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

organizations. Therefore, the Chicago Park District, Chicago Public Building Commission, Chicago Public Schools, Community College District No. 508, Chicago Housing Authority and the Chicago Transit Authority are deemed to be related organizations.

- b) Government-wide and fund financial statements - The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the government. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on user fees and charges for services.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identified with a specific, function or segment. Program revenues include: 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues. Separate fund financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the fiduciary funds are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

- c) Measurement focus, basis of accounting, and financial statement presentation - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement ' focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 90 days of the end of the current fiscal period with the exception of property tax revenue, which is recorded as deferred inflows unless taxes are received within 60 days subsequent to year-end. Licenses and permits, charges for services and miscellaneous revenues are not considered to be susceptible to accrual and are recorded as revenues when received in cash. All other revenue items are considered to be

measurable and available only when cash is received by the City. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting, except for interest and principal on long-term debt, the long-term portion of compensated absences, claims and judgments, and pension obligations.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for and reports all financial resources not accounted for and reported in another fund.

Federal, State and Local Grants Fund accounts for the expenditures for programs, which include general government, health, public safety, transportation, aviation, cultural and recreational, and capital outlays. The majority of revenues are provided by several agencies of the Federal government, departments of the Illinois State government and City resources.

Special Taxing Areas Fund accounts for expenditures for special area operations and maintenance and for redevelopment project costs as provided by tax levies on special areas.

51

NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

Service Concession and Reserve Fund accounts for monies committed for mid- and long-term uses. The Mid-term portion is subject to appropriation for neighborhood human infrastructure programs, health, and other initiatives, whereas the Long-term portion is committed for future budgetary and credit rating stabilization. These reserves were created as a result of the Skyway Lease and Parking Meter System transactions. The deferred inflows result from long-term concession and lease transactions whose proceeds are recognized as revenue over the term of the agreements.

provided by property tax, utility tax, sales tax, transportation tax, and investment income.

»

Community Development and Improvement Projects Funds account for proceeds of debt used to acquire property, finance construction, and finance authorized expenditures and supporting services for various activities.

Pension Fund accounts for the City's contribution to the City's four Employees' Annuity and Benefit Funds as provided by the tax levy and other sources of revenue, including the allocable share from Enterprise Funds and Special Revenue Funds.

Within the governmental fund types, fund balances are reported in one of the following classifications:

Nonspendable includes amounts that cannot be spent because they are either: (a) not in a spendable form; or (b) legally or contractually required to be maintained intact.

Restricted includes amounts that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: (a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

Committed includes amounts constrained to specific purposes by a government itself, using its highest level of decision-making authority (i.e., City Council); to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint. The City's highest level of decision-making authority is held by the City Council. The City Council passes Ordinances to commit their fund balances.

Assigned includes amounts that are constrained by the City's intent to be used for specific purposes, but that are neither restricted nor committed. Intent is expressed by: (a) the City Council itself; or (b) a body or official

to which the City Council has delegated the authority to assign amounts to be used for specific purposes. The Budget Director or Comptroller has authority to assign amounts related to certain legal obligations outside of the appropriation process within the General Fund. Within the other governmental fund types (special revenue, debt service, and capital projects) resources are assigned in accordance with the established fund purpose and approved appropriation. Residual fund balances in these fund types that are not restricted or committed are reported as assigned.

Unassigned includes the residual fund balance that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

The City reports the following major proprietary funds as business-type activities:

Water Fund accounts for the operations of the Chicago Water System (Water). The Water system purifies and provides Lake Michigan water for the City and 125 suburbs. The Water Fund operates two water purification facilities with a combined output pumping capacity of 2,160 million gallons per day and 12 pumping stations with a combined pumping capacity of 3,661 million gallons per day.

Sewer Fund accounts for the operations of the Wastewater Transmission System (Sewer). The Sewer system transports wastewater to the Metropolitan Water Reclamation District of Greater Chicago for processing and disposal. This service is provided for the residents and businesses of the City and certain

52

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

suburban customers.

Chicago Midway International Airport Fund records operations of Chicago Midway International Airport (Midway) that provides regional travelers with access to airlines that generally specialize in low-cost, point-to-point, origin and destination passenger services. Midway Airport is conveniently located 10 miles from downtown Chicago.

Chicago-O'Hare International Airport Fund records operations of Chicago-O'Hare International Airport (O'Hare), the primary commercial airport for the City. The airlines servicing the airport operate out of four terminal buildings. Three domestic terminal buildings, having a total of 167 gates, serve domestic flights and certain international departures as of December 2016. The International Terminal, having a total of 21 gates and four remote aircraft parking positions, serves the remaining international departures and all international arrivals requiring customs clearance.

Chicago Skyway Fund records operations of the Chicago Skyway (Skyway) which provides vehicle passage across the Calumet River, between the State of Indiana and the State of Illinois (State) through the operation of a tollway which consists of a 7.8-mile span connecting the Dan Ryan Expressway to the Indiana Toll Road. Facilities include a single toll plaza consisting of a central office, maintenance garage and toll collection area. In January 2005, the City entered into a long-term Concession and Lease Agreement of the Skyway, granting a private company the ability to operate and to collect toll revenue during the 99-year term of the agreement. The City received a one-time upfront payment of \$1.83 billion.

Additionally, the City reports the following fiduciary funds:

Pension Trust Funds report expenditures for employee pensions as provided by employee and employer contributions and investment earnings.

Agency Funds account for transactions for assets held by the City as agent for certain activities or for various entities. Payroll deductions and special deposits are the primary transactions accounted for in these funds.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payment-in-lieu of taxes and other charges between the City's water, sewer,

airports and skyway funds. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods and services, or privileges provided, or fines; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Certain indirect costs have been included as part of the program expenses reported for the various functional activities.

In the fund financial statements, proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the water and sewer funds are charges to customers for sales and services. The airport funds' principal operating revenues are derived from landing fees and terminal use charges as well as rents and concessions. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources, as they are needed.

The preparation of financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and

53

City of Chicago, Illinois

NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates.

d) Assets, liabilities, deferred inflows, deferred outflows, and net position or equity

- i) Cash, Cash Equivalents and Investments generally are held with the City Treasurer as required by the Code. Interest earned on pooled investments is allocated to participating funds based upon their average combined cash and investment balances. Due to contractual agreements -or- legal restrictions, the cash and investments of certain funds are segregated and earn and receive interest directly. The City uses separate escrow accounts in which certain tax revenues are deposited and held for payment of debt.

The Code permits deposits only to City Council-approved depositories, which must be regularly organized state or national banks and federal and state savings and loan associations, located within the City, whose deposits are federally insured.

Investments authorized by the Code include interest-bearing general obligations of the City, State and U.S. Government; U.S. Treasury bills and other noninterest-bearing general obligations of the U.S. Government purchased in the open market below face value; domestic money market funds regulated and in good standing with the Securities and Exchange Commission and tax anticipation warrants issued by the City. The City is prohibited by ordinance from investing in derivatives, as defined, without City Council approval. The City values its investments at fair value or amortized cost. U.S. Government securities purchased at a price other than par with a maturity of less than or equal to one year are reported at amortized cost.

The City's four retirement plans are authorized to invest in bonds, notes, and other obligations of the U.S. Government; corporate debentures and obligations; insured mortgage notes and loans; common and preferred stocks; stock options; real estate; and other investment vehicles as set forth in the Illinois Compiled Statutes. These investments are reported at fair value.

Repurchase agreements can be purchased only from banks and certain other institutions authorized to do

business in the State. The City Treasurer requires that securities that are pledged to secure these agreements have a fair value equal to the cost of the repurchase agreements plus accrued interest.

Investments generally may not have a maturity date in excess of thirty years from the date of purchase. Certain other investments are held in accordance with the specific provisions of applicable ordinances.

Cash equivalents include certificates of deposit and other investments with maturities of three months or less when purchased.

Deficit cash balances result in interfund borrowings from the aggregate of funds other than escrowed funds. Interest income and expense are generally not recognized on these interfund borrowings.

State statutes, the City and the City's Pension Plans' policies permit lending securities to broker-dealers and other entities with a simultaneous agreement to return the collateral for the same securities in the future. Securities lent at year-end for cash collateral are presented as not categorized in the schedule of custodial credit risk; securities lent for securities collateral are classified according to the category for the collateral.

Securities Lending by the Pension Plans - The State Statutes and the Board of Trustees permit the Pension Plans to lend its securities to broker-dealers and other entities with a simultaneous agreement to return collateral for the same securities in the future. The Plans' custodians, acting as the lending agent, lends securities for collateral in the form of cash, U.S. Government obligations and irrevocable letters of credit equal to 102% of the fair value of domestic securities plus accrued interest and 105% of the fair value of foreign securities plus accrued interest. The Plan does not have the right to sell or pledge securities received as collateral unless the borrower defaults. All securities loans can be terminated on

54

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

demand within a period specified in each agreement by either the Funds or the borrowers. The contracts with the Fund's custodian require the securities lending agent to indemnify the Funds.

Municipal Employees' - The average term of securities loaned was 54 days at December 31, 2016. The cash collateral is invested in tri-party repurchase agreements and bank deposits which had a weighted average maturity of 28 days at December 31, 2016.

Laborers' Employees' - The average term of securities loaned was 88 days at December 31, 2016. Cash collateral may be invested in a short-term investment pool, which had a weighted average maturity of 16 days at December 31, 2016.

Policemen's Employees' - The average term of the Fund's loan was approximately 1 day as of December 31, 2016. Cash collateral was reinvested in indemnified repurchase agreements which had a interest sensitivity of 83.55 days at December 31, 2016.

Firemen's Employees' - The average term of securities loaned was 48 days in 2016. Cash collateral may be invested in a short-term investment pool, which had a weighted average maturity of 28 days at December 31, 2016.

- ii) Receivables and Payables activity between funds are representative of services rendered, outstanding at the end of the fiscal year, and are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

All trade and property tax receivables are shown net of an allowance for uncollectibles. The allowance is based on historical trends. The estimated value of services provided but unbilled at year-end has been

included in receivables.

- iii) Inventory includes government-wide inventories, which are stated at cost determined principally, using the average cost method. For proprietary funds, the costs of inventories are recorded as expenses when used (consumption method). Governmental fund inventories are accounted for using the purchases method and represent nonspendable resources because they do not represent expendable available financial resources.
- iv) Restricted Assets include certain proceeds of the City's enterprise fund revenue bonds, as well as certain resources set aside for their repayment. These assets are classified as restricted or committed in the basic financial statements because they are maintained in separate bank accounts and their use is limited by applicable bond covenants or specific City Council action.

The Water and Sewer funds maintain Rate Stabilization Accounts where any net revenues remaining after providing sufficient funds for all required deposits in the bond accounts may be transferred upon the direction of the City to be used for any lawful purpose of the specific fund.

The O'Hare and Midway funds maintain Passenger Facility Charge accounts as restricted as they are subject to Federal Aviation Administration regulation and approval, to finance specific eligible capital and debt related activities.

- v) Capital Assets, which include property, plant, equipment, and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the City as assets, or a network of assets, with an initial cost of more than \$5,000 (not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

55

**CITY OF CHICAGO ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalization value of the assets constructed. The total interest expense (Governmental and Business Activities) incurred by the City during the current fiscal year was \$1,096.6 million, of which ~ \$49.2¹ million

Property, plant, and equipment of the City are depreciated using the straight-line method, in the year subsequent to acquisition or when placed into service, over the following estimated useful lives:

Utility plant			
Utility structures and improvements			
Buildings and improvements			
Airport runways, aprons, tunnels, taxiways, and paved roads			
Bridge infrastructure			
Lighting infrastructure			
Street infrastructure			
Transit infrastructure			
Equipment (vehicle, office, and computer)			
25- 100 years	50- 100 years	10 - 40 years	
			30 years 10- 40 years 25 years
			10- 25 years 25 - 40 years 5-20 years

The City has a collection of artwork and historical treasures presented for public exhibition and education that are being preserved for future generations. The proceeds from sales of any pieces of the collection are used to purchase other acquisitions. A portion of this collection is not capitalized or depreciated as part of capital assets.

- vi) Deferred Outflows represent unamortized loss on bond refundings, the fair value of derivative instruments that are deemed to be effective hedges, differences between estimated and actual investment earnings related to pensions, changes in actuarial assumptions related to pensions and other pension related changes.
- vii) Employee Benefits are granted for vacation and sick leave, workers' compensation and health care. Unused vacation leave is accrued and may be partially carried over for one year. Sick leave is accumulated at the rate of one day for each month worked, up to a maximum of 200 days. Severance of employment terminates all rights to receive compensation for any unused sick leave. Sick leave pay is not accrued. Employee benefit claims outstanding, including claims incurred but not reported, are estimated and recorded in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Employees are eligible to defer a portion of their salaries until future years under the City's deferred compensation plan created in accordance with Internal Revenue Code Section 457. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. Third-party administrators who maintain the investment portfolio administer the Plan. The plan's assets have been placed in trust accounts with the plan administrators for the exclusive benefit of participants and their beneficiaries and are not considered assets of the City.

The City is subject to the State of Illinois Unemployment Compensation Act and has elected the reimbursing employer option for providing unemployment insurance benefits for eligible former employees. Under this option, the City reimburses the State for claims paid by the State. Expenditures for workers' compensation are recorded when paid in the governmental funds. A liability for these amounts is recorded in the government-wide and proprietary fund financial statements.

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

- viii) Judgments and claims are included in the government-wide financial statements and proprietary fund types. Uninsured claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. In the fund financial statements, expenditures for judgments and claims are recorded on the basis of settlements reached or judgments entered within the current fiscal year. Amounts that relate to deferred compensatory time and reserves for questioned costs are treated the same way.
- ix) Long-term obligations are included in the government-wide financial statements and proprietary fund types in the fund financial statements. Long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the related debt, except in the case of refunding debt transactions where the amortization period is over the term of the refunding or refunded debt, whichever is shorter.

The City enters into interest rate swap agreements to modify interest rates and/or cash flows on outstanding debt. For existing swaps, the net interest expenditures resulting from these arrangements are recorded as interest expense. The fair value of derivative instruments that are deemed to be effective is accounted for as deferred outflows. Derivative instruments that are deemed not effective are adjusted to fair value with the change in fair value recorded to investment earnings. Under certain bond ordinances adopted by the City

Council, interest rate swaps and swaptions are authorized to be entered into by designated City officials in connection with certain bonds issued by the City. For swaps related to O'Hare Bonds or Midway Bonds, airline approval is also required before entering into a swap agreement.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received and discounts given on debt issued are reported as other financing sources or uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as expenditures.

Certain debt obligations are to be paid from sales tax, motor fuel or special area taxes.

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the City's four pension plans and additions to/deductions from the City's Pension Plans fiduciary net position have been determined on the same basis as they are reported by the Pension Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The financial statements of the Plans are prepared using the accrual basis of accounting.

- x) Deferred inflows represent amounts to be recognized as revenue on a straight line basis over the life of the related long-term lease and concession agreements and differences between projected and actual actuarial experience related to pensions, and other pension related changes. In the fund financials, grants that meet all of the eligibility criteria except for time availability and property taxes levied for a future period are also included in deferred inflows.
- xi) Net Position in the government-wide statements is classified in three components:
 - (1) Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or any other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

57

**CITY OF CHICAGO ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

- (2) Restricted net position - Consists of net position with constraints placed on the use either by external groups such as creditors, grantors, contributors, or laws or regulations of other governments, or are legally restricted through constitutional provisions or enabling legislation.

Restricted net position for business activities are provided in Exhibit 7, Statement of Net Position, Proprietary Funds.

.- or "net investment in capital assets." As of December 31, 2016, the unrestricted net position represents a deficit.

2) Reconciliation of Government-wide and Fund Financial Statements

- a) Explanation of certain differences between the governmental funds balance sheet and the government-wide statement of net position.

- i) The governmental funds balance sheet includes a reconciliation between fund balance - total governmental

funds and net position - governmental activities as reported in the government-wide statement of net position. One element of that reconciliation explains that "Other long-term assets are not available to pay for current-period expenditures and therefore are deferred in the funds." The details of this \$1,639.5 million are as follows (dollars in thousands):

Deferred inflows - property tax	\$ 1,375,279	
Deferred inflows - grants	253,053	
<u>Deferred inflows - charges for services</u>		<u>11,209</u>
Net adjustment to increase fund balance - total governmental funds		
- to arrive at net position - governmental activities		<u>\$ 1,639,541</u>

- ii) Another element of that reconciliation explains that "Certain liabilities and deferred outflows, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds." The details of this \$38,696.3 million are as follows (dollars in thousands):

Long-term liabilities:		
Total bonds, notes and certificates payable		\$ 10,410,301
Pension benefits		31,512,071
Other postemployment benefits		167,209
Pollution remediation		33,201
<u>Claims and judgments</u>		<u>942,622</u>
Total Long-term liabilities		43,065,404
Accounts payable - infrastructure retainage	22,171	
Bonds, notes and other obligations payable current	(122,712)	
Other assets - issuance costs (bond insurance)	(11,159)	
Deferred outflows-unamortized loss on refunding	(229,368)	
Deferred outflows-pension costs	(5,438,514)	
Deferred inflows-pension	720,224	
Accrued and other liabilities - compensated absences	88,364	
<u>Accrued and other liabilities - pension payable to pension funds</u>		<u>601,861</u>
Net adjustment to reduce fund balance - total		
governmental funds - to arrive at net position -		
<u>governmental activities</u>		<u>\$ 38,696,271</u>

CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

b) Explanation of certain differences between the governmental funds' statement of revenues, expenditures, and changes in fund balances and the government-wide statement of activities.

- i) The governmental funds statement of revenues, expenditures, and changes in fund balances includes a reconciliation between net changes in fund balances - total governmental funds and changes in net position - governmental activities as reported in the government-wide statement of activities. One element of that reconciliation explains that "Governmental funds report capital outlays as expenditures. However, in the statements of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$165.1 million are as follows (dollars in thousands):

Capitalized asset expenditures	\$ 570,840
Donated assets	39

Depreciation expense	(405,292)
<u>Loss - on disposal of land</u>	<u>(460)</u>
Net adjustment to increase net changes in fund balances	
- total governmental funds - to arrive at	
<u>changes in net position - governmental activities</u>	<u>\$ 165,127</u>

- ii) Another element of that reconciliation states that "Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position." The details of this increase of \$249.4 million are as follows (dollars in thousands):

Proceeds of debt	\$ (530,746)
Proceeds from Line of Credit	(337,140)
Premium	(23,892)
Payment of refunded bond escrow agent	496,150
Principal retirement	659,281
<u>Interest expense</u>	<u>(14,265)</u>
Net adjustment to reduce net changes in fund balances - total	
<u>governmental funds - to arrive at changes in net position - governmental activities ..</u>	<u>\$ 249,388</u>

Another element of that reconciliation states that "Certain expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this decrease of \$3,792.2 million are as follows (dollars in thousands):

Claims and judgments	\$ (92,061)
Pension costs	(3,747,531)
Other post employment benefit liabilities	47,326
Pollution remediation	(351)
Vacation	545
<u>Inventory</u>	<u>(97)</u>
Net adjustment to reduce net changes in fund	
balances - total governmental funds - to arrive at	
<u>changes in net position - governmental activities</u>	<u>\$ (3,792,169)</u>

Financial Statement

NOTES TO THE BASIC FINANCIAL STATEMENTS YEAR
ENDED DECEMBER 31, 2016

3) Stewardship, Compliance and Accountability

- a) Annual Appropriation Budgets are established for the General Fund and the Vehicle Tax, Pension, Chicago Public Library and certain Miscellaneous, Special Events, Tourism and Festivals nonmajor Special Revenue Funds, on a non-GAAP budgetary basis:

- i) Prior to October 15, the Mayor submits to the City Council a proposed budget of expenditures and the means of financing them for the next year.

- ii) The budget document is available for public inspection for at least ten days prior to passage of the annual appropriation ordinance by the City Council, which is also required to hold at least one public hearing.
 - iii) Prior to January 1, the budget is legally enacted through passage of the appropriation ordinance.
 - iv) Subsequent to the enactment of the appropriation ordinance, the City Council has the authority to make necessary adjustments to the budget, which results in a change in total or individual appropriations. The legal level of budgetary control is designated in the budget by object grouped by purpose.
 - v) All annual appropriations unused and unencumbered lapse at year-end. Encumbered appropriations are carried forward to the following year. Project-length financial plans are adopted for Capital Project Funds. Appropriations for Debt Service Funds are established by bond ordinance.
- b) Reconciliation of GAAP Basis to Budgetary Basis - The City's budgetary basis of accounting used for budget vs. actual reporting differs from GAAP. For budgetary purposes, encumbrances are recorded as expenditures but are included in "Unassigned" fund balance for GAAP purposes. For budgetary purposes, proceeds of long-term debt and transfers in are classified as revenues. For budgetary purposes prior years' resources used to cover current year budgetary expenditures are recorded as revenues. For GAAP purposes, proceeds of long-term debt and transfers out are treated as other financing sources. Provision for doubtful account expenditures are not budgeted. A reconciliation of the different basis of revenue and expenditure recognition for the year ended December 31, 2016 is as follows (dollars in thousands):

General	
Fund	
Revenues, GAAP Basis	\$ 3,682,612
Add:	
<u>Transfers In</u>	<u>14,998</u>
Revenues, Budgetary Basis	\$ 3,697,610
Expenditures, GAAP Basis	\$ 3,473,208
Add:	
Transfers Out	169,955
Encumbered in 2016	14,115
Deduct:	
Payments on Prior Years' Encumbrances	(25,045)
Payments on Prior Years' Assignments	(68,780)
<u>Provision for Doubtful Accounts and Other</u>	<u>(2,860)</u>
<u>Expenditures, Budgetary Basis</u>	<u>. \$ 3,560,593</u>

- c) Individual Fund Deficits include the Chicago Skyway Fund, an Enterprise Fund, which has a fund deficit of \$1,344.6 million which management anticipates will be funded through recognition of deferred inflows. Midway International Airport Fund has a fund deficit of \$303.9 million which will be funded through future revenues. Federal State and Local Grants, a governmental fund, has a deficit of \$242.9 million and will be funded by the recognition of deferred grant inflows and unearned revenue. The Service Concession and Reserve Fund, a Special Revenue Fund, has a deficit fund balance of \$894.0 million which will be funded through the recognition of deferred inflows.

City's Fair Value Measurements for Investments:

The City categorizes the fair value measurements of its investments based the hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation techniques used to measure fair value.

Level 1 - Inputs are unadjusted quoted prices in active markets for identical assets Level

2 - Observable inputs other than quoted market prices, and Level 3 - Unobservable Inputs

Investments that are valued using net asset value per share (NAV) (or its equivalent) as a practical expedient are not classified in the fair value hierarchy

The recurring fair value measurements for investments as of December 31, 2016 are as follows (dollars in thousands):

<u>Investments by Fair Value Level</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
U.S. Treasuries	\$ -19,907		
U.S. Agencies	-1,423,129		
Corporate Bonds	1,472,472		
Municipal Bonds	-1,076,581		
Total Investments at Fair Value	\$	\$ 3,992,089	\$

Money market investments and participating interest-earning investment contracts that have a remaining maturity at the time of purchase of one year or less and are held by governments other than the external investment pools are measured at amortized cost and are not reflected in the table above. The total of these investments at amortized cost for the City are \$2,766.6 million.

Pension Trust Funds' Investments (Dollars in thousands):

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

Corporate bonds - Include debt instruments created by companies for the purpose of raising capital and pay a specified amount of interest on a regular basis.

Corporate equities - Include investments in funds primarily holding publicly traded US and non-US equity securities.

Pooled funds - Include investments that are pooled to maximize the total return.

Real estate funds - Include investments in open and closed-end real estate funds. Investments in open-end funds have limited redemption availability as redemption opportunities are based on available liquidity. Closed-end funds do not offer redemptions. Distributions from closed-end funds will be received as the underlying investments are liquidated.

Venture capital - Includes investments where the objective is to achieve long-term capital appreciation, preserve capital, and achieve a consistent pattern of returns through investments in limited partnerships, privately issued securities, private equity funds, and other pooled investments with a focus on the venture sector and undervalued alternative investments. Closed-end limited partnership interests are generally illiquid and cannot be redeemed.

Short-term investments - Include short-term investments of high quality and low risk to protect capital while achieving investment returns.

Other - Includes Hedge Funds of long/short equity hedge fund-of-funds.

- i) Interest Rate Risk - As a means of limiting its exposure to fair value losses arising from rising interest rates, the City's investment policy limits all securities so purchased, except tax anticipation warrants, municipal bonds, notes, commercial paper or other instruments representing a debt obligation of the City, which shall show on their face that they are fully payable as to principal and interest, where applicable, if any, within thirty years from the date of purchase.
- ii) Credit Risk - With regard to credit risk, the Code limits the investments in securities to:
 - 1) Interest-bearing general obligations of the United States and the State of Illinois;
 - 2) United States treasury bills and other non-interest bearing general obligations of the United States or United States government agencies when offered for sale at a price below the face value of same, so as to afford the city a return on such investment in lieu of interest;
 - 3) Tax anticipation warrants, municipal bonds, notes, commercial paper or other instruments representing a debt obligation issued by the City;
 - 4) Commercial paper which: (1) at the time of purchase, is rated in the two highest classifications by at least two accredited ratings agencies; and (2) matures not more than 270 days after the date of purchase;
 - 5) Reverse repurchase agreement if: (1) the term does not exceed 90 days; and (2) the maturity of the investment acquired with the proceeds of the reverse repurchase agreement does not exceed the expiration date of the reverse repurchase agreement; Reverse repurchase agreements may be transacted with primary dealers and financial institutions, provided that the City has on file a master repurchase agreement;
 - 6) Certificates of deposit of banks or savings and loan associations designated as municipal depositories which are insured by federal deposit insurance; provided that any amount of the deposit in excess of the federal deposit insurance shall be collateralized as noted in Custodial Credit Risk -Cash and Certificates of Deposit below;

r*rrv nc rumAnri m i imhic

NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

- 7) Bankers acceptance of banks whose senior obligations, at the time of purchase, are rated in either the AAA or AA rating categories by at least two accredited ratings agencies;
- 8) Tax-exempt securities exempt from federal arbitrage provisions applicable to investments of proceeds of the City's tax-exempt debt obligations;
- 9) Domestic money market mutual funds regulated by and in good standing with the Securities and Exchange Commission;...provided..that..such-moneyrmarket-mutual^unds..',portfolios,are limited.to,,, investments authorized by this section;
- 10) Any other suitable investment instrument permitted by state laws governing municipal investments generally, subject to the reasonable exercise of prudence in making investments of public funds;
- 11) Except where otherwise restricted or prohibited, a non-interest-bearing savings account, non-interest-bearing checking account or other non-interest bearing demand account established in a national or state bank, or a federal or state savings and loan association, when, in the determination of the treasurer, the placement of such funds in the non-interest bearing account is used as compensating balances to offset fees associated with that account that will result in cost savings to the City;
- 12) Bonds of companies organized in the United States with assets exceeding \$500.0 million that, at the time of purchase, are rated not less than A-, or equivalent rating, by at least two accredited ratings agencies;
- 13) Debt instruments of international financial institutions, including but not limited to the World Bank and the International Monetary Fund, that, at the time of purchase, are rated within four intermediate credit ratings of the United States sovereign credit rating by at least two accredited ratings agencies, but not less than an A-rating, or equivalent rating. The maturity of investments authorized in this subsection shall not exceed 10 years. For purposes of this subsection, an "international financial institution" means a financial institution that has been established or chartered by more than one country and the owners or shareholders are generally national governments or other international institutions such as the United Nations;
- 14) United States dollar denominated debt instruments of foreign sovereignties that, at the time of purchase, are rated within four intermediate credit ratings of the United States sovereign credit rating by at least two accredited ratings agencies, but not less than an A-rating or equivalent rating;
- 15) Interest-bearing bonds of any county, township, city, village, incorporated town, municipal corporation, or school district, of the State of Illinois, of any other state, or of any political subdivision or agency of the State of Illinois or of any other state, whether the interest earned thereon is taxable or tax-exempt under federal law. The bonds shall be registered in the name of the city or held under a custodial agreement at a bank. The bonds shall be rated, at the time of purchase, not less than A-, or equivalent rating, by at least two accredited rating agencies with nationally recognized expertise in rating bonds of states and their political subdivisions;
- 16) Bonds registered and regulated by the Securities and Exchange Commission and for which the full faith and credit of the State of Israel is pledged for payment; provided that the bonds have an A-rating or above or equivalent rating by at least two accredited ratings agencies;
- 17) Bonds, notes, debentures, or other similar obligations of agencies of the United States rated, at the time of purchase, no less than AAA by at least two accredited rating agencies.

Total holdings across all funds held by the treasurer shall have no less than an overall average rating of Aa1 on a quarterly basis, as rated by two accredited rating agencies. The following schedule summarizes the City's and Pension Trust Funds' exposure to credit risk (in thousands):

- iii) Custodial Credit Risk - Cash and Certificates of Deposit: This is the risk that in the event of a bank failure, the City's Deposits may not be returned. The City's Investment Policy states that in order to protect the City public fund deposits, depository institutions are to maintain collateral pledges on City deposits and certificates of deposit during the term of the deposit.

For certificates of deposit of banks or savings and loan associations designated as municipal depositories which are insured by federal deposit insurance, any amount of the deposit in excess of the federal deposit insurance shall be either: (1) fully collateralized at least 102 percent by: (i) marketable U.S. government securities marked to market at least monthly; (ii) bonds, notes, or other securities constituting the direct and

general obligation of any agency or instrumentality of the United States; or (iii) bonds, notes or other securities constituting a direct and general obligation of any county, township, city, village, incorporated town, municipal corporation, or school district, of the State of Illinois or of any other state, or of any political subdivision or agency of the State of Illinois or any other state which are rated in either the AAA or AA rating categories by at least two accredited ratings agencies and maintaining such rating during the term of such investments; (2) secured by a corporate surety bond issued by an insurance company licensed to do business in the State of Illinois and having a claims-paying rating in the top rating category as rated by a nationally recognized statistical rating organization and maintaining such rating during the term of such investment; or (3) fully collateralized at least 102 percent by an irrevocable letter of credit issued in favor of the City by the Federal Home Loan Bank, provided that the Federal Home Loan Bank's short-term debt obligations are rated in the highest rating category by at least one accredited ratings agency throughout the term of the certificate of deposit.

The collateral required to secure City funds must be held in safekeeping and pursuant to collateral agreements which would prohibit release or substitution of pledged assets without proper written notification and authorization of the City Treasurer. The final maturity of acceptable collateral pledged shall not exceed 120 months.

The bank balance of cash and certificates of deposit with the City's various municipal depositories was \$514.1 million. 84.7 percent of the bank balance was either insured or collateralized with securities held by City agents in the City's name. \$78.7 million was uncollateralized at December 31, 2016, and thus was subject to custodial credit risk.

- iv) Custodial Credit Risk - Investments: For an investment, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. The City has no custodial credit risk exposure because investment securities are insured, registered and held by the City.

Foreign Currency Risk - In the case of the Pension Trust Funds, this is the risk that changes in exchange rates will adversely affect the fair value of an investment or a deposit. The risk of loss is managed by limiting its "expds^^

diversified portfolios. The following schedule summarizes the Pension Trust Funds' exposure to foreign currency risk (in thousands):

5) Property Tax

The City's property tax becomes a lien on real property on January 1 of the year it is levied. The Cook County Assessor (Assessor) is responsible for the assessment of all taxable real property within Cook County (County), except for certain

railroad property assessed directly by the State. The County Board has established a triennial cycle of reassessment in which one-third of the County will be reassessed each year on a repeating schedule established by the Assessor.

Property in the County is separated into fifteen classifications for assessment purposes. After the Assessor establishes the fair market value of a parcel of land, that value is multiplied by one of the classification percentages to arrive at the assessed valuation (Assessed Valuation) for that parcel. These percentages range from 10.0 percent for certain residential, commercial, and industrial property to 25.0 percent for other commercial and industrial property.

The Illinois Department of Revenue has the statutory responsibility of ensuring uniformity of real property assessments throughout the State. Each year, the Illinois Department of Revenue furnishes the county clerks with an adjustment factor to equalize the level of assessment among counties. This factor (Equalization Factor) is then applied to the Assessed Valuation to compute the valuation of property to which a tax rate will be applied (Equalized Assessed Valuation). The County Clerk adds the Equalized Assessed Valuation of all real property in the County to the valuation of property assessed directly by the State of Illinois and subtracts total amounts of EAV in Tax Increment Financing Districts to arrive at the base amount (Tax Base) used in calculating the annual tax rates.

The County Clerk computes the annual tax rate by dividing the levy by the Tax Base and then computes the rate for each parcel of real property by aggregating the tax rates of all governmental units having jurisdiction over that particular parcel. The County Treasurer then issues the tax bills. Property taxes are deposited with the County Treasurer, who remits to the City its respective share of the collections. Taxes levied in one year become due and payable in two installments during the following year on March 1 and August 1 or 30 days from mailing of tax bills if later than July 1. The first installment is 55.0 percent of the prior year's tax bill. The second installment tax bill equals the total tax liability for the year minus the first installment tax bill amount.

The City Council adopted an ordinance effective in 1994 limiting the City's aggregate property tax levy to an amount equal to the prior year's aggregate property tax levy plus the lesser of (a) five percent or (b) the percentage increase in the annualized Consumer Price Index. - The ordinance provides an exception for that portion of any property tax debt service levy equal to the aggregate interest and principal payments on the City's general obligation bonds and notes during the 12-month period ended January 1, 1994, subject to annual increase in the manner described above for the aggregate levy, all as provided by the ordinance. Most general obligation bond levies approved after 2001 have also been excluded from this limit. In 2015 the City Council added an exception for portions of the property tax levy used to meet the City's pension obligations.

8) Leases**a) Operating Leases**

The City leases building and office facilities under noncancelable operating leases. Total costs for such leases were approximately \$15.8 million for the year ended December 31, 2016.

The future minimum lease payments for these leases are as follows (dollars in thousands):

2017	\$ 5,105	
2018	3,956	
2019	3,740	
2020	2,393	
2021	2,073	
2022 - 2026	4,054	
2027-2031	319	
2032-2036	109	
2037-2041	109	
2042 - 2043		22
<u>Total Future Rental Expense</u>	<u>\$ 21,880</u>	

CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

b) Lease Receivables

Most of the O'Hare land, buildings and terminal space are leased under operating lease agreements to airlines and other tenants. The following is a schedule of the minimum future rental income on noncancelable operating leases as of December 31, 2016 (dollars in thousands):

2017	\$ 100,891	
2018	98,998	
2019	98,506	
2020	1,597	
2021	1,597	
2022 - 2026	8,460	
<u>2027 - 2030</u>		<u>7,835</u>

<u>Total Minimum Future Rental Income</u>	<u>\$ 317,884</u>
---	-------------------

Contingent rentals that may be received under certain leases based on the tenants' revenues or fuel flow are not included in minimum future rental income. Rental income for O'Hare, consisting of all rental and concession revenues except ramp rentals and automobile parking, amounted to \$459.5 million, including contingent rentals of \$92.7 million.

Most of the Midway land and terminal space is leased under operating lease agreements to airlines and other tenants. The following is a schedule of the minimum future rental income on noncancelable operating leases as of December 31, 2016 (dollars in thousands):

2017	\$ 40,734	
2018	40,734	
2019	40,513	
2020	40,513	
2021	40,505	
2022 - 2026	202,564	
<u>2027 - 2030</u>		<u>162,051</u>
<u>Total Minimum Future Rental Income</u>	<u>\$</u>	<u>567,614</u>

Contingent rentals that may be received under certain leases based on tenants' revenues are not included in minimum future rental income. Rental income for Midway, consisting of all rental and concession revenues except aircraft parking fees and certain departure fees (turns) and automobile parking, amounted to \$95.3 million, including contingent rentals of \$41.5 million.

9) Short-term Debt

Matured bonds represent principal due on coupon bonds in which the coupons have not been presented for payment. As of December 31, 2016, the outstanding balance was at \$0.7 million.

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

b) Issuance of New Debt

i) General Obligation Line of Credit

During 2016, the City drew \$337.1 million from its Line of Credit to fund certain capital projects and operating uses. As of December 31, 2016 the outstanding balance is \$124.3 million. The City has excluded this line of credit amount from current liabilities, as it intends and has the ability to refinance the obligation on a long-term basis. The Line of Credit matures on September 24, 2019.

ii) General Obligation Bonds

General Obligation Bonds, Tax Exempt Series 2015C (\$500.0 million), were sold at a premium in January

2016. The bonds have an interest rate of 5.0 percent and maturity dates from January 1, 2020 to January 1, 2038. Net proceeds of \$520.0 million will be used to refund certain maturities of bonds outstanding (\$502.5 million), and to fund capitalized interest (\$17.5 million). The current refunding of the bonds increased the City's total debt service payments by \$124.1 million, resulting in a net economic gain of approximately \$2.5 million and a book loss of approximately \$110.7 million.

iii) **Revenue Loans**

In June 2013, the City entered into a loan agreement with the United States Department of Transportation under the Transportation Infrastructure Finance and Innovation Act (TIFIA) program to complete the Wacker Drive Reconstruction Project. The loan amount of \$98.7 million will fund the Chicago Riverwalk along the main branch of the Chicago River. The interest rate is 3.33 percent and the final maturity of the loan is January 1, 2048. As of December 31, 2016, the total outstanding loan amount is \$76.6 million. Total loan disbursements made to the City in 2016 were \$30.8 million.

iv) **Enterprise Fund Revenue Bonds and Notes**

In August 2013, the City entered into a loan agreement with the TIFIA program to fund a portion of Consolidated Rental Car Facility at O'Hare, additions, extensions and improvements to the airport transit - system (ATS) including the purchase of new ATS vehicles and certain public parking facilities. The loan amount of \$288.1 million is subordinate to the O'Hare Customer Facility Charge Senior Lien Revenue Bonds, Series 2013. The interest rate is 3.86 percent and the final maturity of the loan is January 1, 2052. There were no loan disbursements made to the City as of December 31, 2016.

Chicago Midway International Airport Second Lien Revenue Bonds, Series 2016 A&B (\$342.4 million) sold at a premium in June 2016. The bonds have interest rates ranging from 2.0 percent to 5.0 percent and maturity dates from January 1, 2017 to January 1, 2046. The net proceeds of \$391.8 million will be used to fund certain capital projects (\$305.7 million), to refund certain maturities of bonds outstanding (\$36.9 million), to fund debt service reserves (\$12.9 million), and to fund capitalized interest (\$36.3 million). The current refunding of the bonds decreased the City's total debt service payment by \$11.9 million, resulting in a net economic gain of approximately \$4.3 million and a book gain of approximately \$0.4 million.

Chicago O'Hare International Airport General Airport Senior Lien Revenue and Revenue Refunding Bonds, Series 2016A-C (\$1,014.3 million) were sold at a premium in December 2016. The bonds have interest rates ranging from 3.0 percent to 5.0 percent and maturity dates from January 1, 2017 to January 1, 2041. The net proceeds of \$1,151.6 million will be used to refund certain General Airport Revenue Bonds maturities of bonds outstanding (\$1,110.4 million), and to fund debt service reserves (\$41.2 million). The current and advance refunding of the bonds decreased the City's total debt service payments by \$88.9 million, resulting in a net economic gain of approximately \$109.3 million and a book loss of approximately \$54.3 million.

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

The Chicago O'Hare International Airport issued \$0.1 million of Series 2016 Commercial Paper Notes. The proceeds were used to finance portions of the costs of authorized airport projects. As of December 31, 2016, there were no outstanding commercial paper notes.

In December 2016, the City entered into a Revolving Line of Credit Agreement with J. P. Morgan Chase Bank, National Association that allows the City to draw on the line of credit in an aggregate amount not to exceed \$180 million. In 2016, the City drew \$12.1 million from its line of credit to finance certain capital ' ' projects at the Chicago O'Hare

A loan agreement was signed on October 22, 2013, with the Illinois Environment Protection Agency to line

approximately 28 miles of existing sewer line ranging in diameter from 8 inch to 72 inch located throughout the City. In 2016, the Sewer Fund drew \$54.2 million from this loan agreement. The loan has an interest rate of 1.93 percent and maturity dates from January 21, 2016 to July 21, 2035.

A loan agreement was signed on May 18, 2016 with the Illinois Environment Protection Agency for the replacement of approximately 24 miles of damaged, undersized, leaking and antiquated watermain located throughout the City with new 8 inch water mains. In 2016, the Water Fund drew \$55.3 million from this loan agreement. The loan agreement has an interest rate of 2.21 percent and maturity dates from July 31, 2016 to January 31, 2036.

Second Lien Water Revenue Bonds, Series 2016 A-1 and A-2 (\$81.7 million) were sold at premium in May 2016. The bonds have interest rates ranging from 1.68 percent to 5.00 percent and maturity dates from November 1, 2016 to November 1, 2031. The net proceeds of \$91.5 million were used to refund the Line of Credit Notes used for the swap termination.

v) Water Fund Line of Credit

During 2016, the City drew \$91.5 million from its Water Line of Credit to fund water swap termination payments. The line of credit was repaid in full from proceeds of the Second Lien Water Revenue Series 2016 A-1 and A-2 bonds. In July 2016, the City terminated the Water Line of Credit.

vi) Bond Conversions

In May 2016, the City converted \$100.0 million outstanding of the Second Lien Water Revenue Bonds Series 2000 to fixed rate at premium. The bonds have an interest rate at 5.0 percent and maturity dates ranging from November 1, 2028 to November 1, 2030. The net proceeds of \$17.3 million will be used to finance certain capital projects.

In May 2016, the City converted \$344.6 million outstanding of the Second Lien Water Revenue Bonds Series 2004 to fixed rate at premium. The bonds have interest rates ranging from 2.0 percent to 5.0 percent and maturity date ranging from November 1, 2017 to November 1, 2027. The net proceeds of \$51.8 million will be used to finance certain capital projects.

Annual requirements listed below for each year include amounts payable January 1 of the following year.

Bonds maturing and interest payable January 1, 2017 have been excluded because funds for their payment have been provided for. Annual requirements to amortize debt outstanding as of December 31, 2016 are as follows (dollars in thousands):

\$ 748,748 \$ 574,457 \$13,191,231 \$ 8,924,047

For the debt requirements calculated above, interest rates for fixed rate bonds debt range from 0.74 percent to 7.781 percent and interest on variable rate debt was calculated at the rate in effect or the effective rate of a related swap agreement, if applicable, as of December 31, 2016. Standby bond purchase agreements or letters of credit were issued by third party financial institutions that are expected to be financially capable of honoring their agreements.

The City's variable rate bonds may bear interest from time to time at a flexible rate, a daily rate, a weekly rate, an adjustable long rate, or the fixed rate as determined by the remarketing agent, in consultation with the City. An irrevocable letter of credit provides for the timely payment of principal and interest on the City's variable rate Bonds. In the event that variable rate bonds are tendered by the owners thereof for purchase by the City and not successfully remarketed, the City would be obligated to reimburse the letter of credit bank for amounts drawn under the letter of credit to fund the purchase

of such tendered bonds. If the City fails to reimburse the bank, the City's obligation to reimburse the bank may be converted to a term loan. There are no term loans currently outstanding under any reimbursement agreement. Only Chicago O'Hare and Chicago Midway Funds have outstanding variable rate bonds.

NOTES TO BASIC FINANCIAL STATEMENTS YEAR
ENDED DECEMBER 31, 2016

d) Derivatives

i) Interest Rate Swaps

- (1) Objective of the swaps. In order to protect against the potential of rising interest rates and/or changes in cash flows, the City has entered into various separate interest rate swaps at a cost less than what the City would have paid to issue fixed-rate debt. (Dollars in thousands).

Fair Value at December 31, 2016

Classification

Notional Amount

Business-type Activities

Hedges'

Interest Rate Swaps....

Deferred Outflow of Resources

Deferred Outflow of Resources

- 2) Terms, fair values, and credit risk. The objective and terms, including the fair values and credit ratings, of the City's hedging derivative instruments outstanding as of December 31, 2016, are as follows. The notional amounts of the swaps approximate the principal amounts of the associated debt. The City's swap agreements contain scheduled reductions to outstanding notional amounts that are expected to approximately follow scheduled or anticipated reductions in the associated "bonds payable" category. Under the swaps on a net basis for each related series of bonds, the City pays the counterparty a fixed payment and receives a variable payment computed according to the London Interbank Offered Rate (LIBOR) and/or The Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Index. The terms as of December 31, 2016, are as follows (dollars in thousands):

Counter-Termi-

Associated Bond Issue	Notional Amounts	Effective Date	Terms	Fair Values	party nation Credit Date Rating
Hedging Instruments					
Business-type Activities:					
Chicago Midway International Airport receive SIFMA Plus .05%	\$ (15,213)	1/1/2035	A1/A+	79,320	12/14/2004 Pay 4.174%;
Revenue Bonds (Series 2004C&D) receive SIFMA Plus .05%	(10,821)	1/1/2035	Aa2/AA-	52,280	4/21/2011 Pay 4.247%;
<u>Total</u>				<u>\$ (26,034)</u>	

"See Table 31 in Statistical Section for Counterparty Entities and additional details for credit ratings. Type and objective for all the Swaps is the same, as mentioned earlier.

- 3) Fair Value. As of December 31, 2016, the swaps had a negative fair value of \$26.0 million. As per industry convention, the fair values of the City's outstanding swaps were estimated using the zero-coupon method. This method calculates the future net settlement payments required by the swap, assuming that the forward rates implied by the yield curve correctly anticipate future spot rates. These payments are then discounted using the spot rates implied by the current yield curve for hypothetical zero-coupon bonds due on the date of each future net settlement on the swap. Because interest rates are below the Fixed Rate Paid, the City's swaps had negative values. During 2016, the City terminated the following swaps (dollars in thousands):

<u>Associated Bond Issue: Amount</u>	<u>Termination</u>
Series 2000 2nd Lien Water Revenue Refunding Bonds	\$ 32,298.0
Series 2004 Water Variable Rate Revenue Refunding Bonds	69,453.4

Swap termination payments were recorded as Swap Termination Fees.

76

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

Derivative instruments are valued in the market using regression analysis. Significant inputs to the derivative valuation for interest rate swaps are observable in active markets and are classified as Level 2 in the fair value hierarchy.

- 4) Credit Risk. The City is exposed to credit risk (counterparty risk) through the counterparties with which it enters into agreements. If minimum credit rating requirements are not maintained, the counterparty is required to post collateral to a third party. This protects the City by mitigating the credit risk, and therefore the ability to pay a termination payment, inherent in a swap. Collateral on all swaps is to be in the form of cash or Eligible Collateral held by a third-party custodian. Upon credit events, the swaps also allow transfers, credit support, and termination if the counterparty is unable to meet the said credit requirements.
- 5) Basis Risk. Basis risk refers to the mismatch between the variable rate payments received on a swap contract and the interest payment actually owed on the bonds. The two significant components driving this risk are credit and SIFMA/LIBOR ratios. Credit may create basis risk because the City's bonds may trade differently than the swap index as a result of a credit change in the City. SIFMA/LIBOR ratios (or spreads) may create basis risk. With percentage of LIBOR swaps, if the City's bonds trade at a higher percentage of LIBOR over the index received on the swap, basis risk is created. This can occur due to many factors including, without limitation, changes in marginal tax rates, tax-exempt status of bonds, and supply and demand for variable rate bonds. The City is exposed to basis risk on all swaps except those that are based on Cost of Funds, which provide cash flows that mirror those of the underlying bonds. For all other swaps, if the rate paid on the bonds is higher than the rate received, the City is liable for the difference. The difference would need to be available on the debt service payment date and it would add additional underlying cost to the transaction.
- 6) Tax Risk. The swap exposes the City to tax risk or a permanent mismatch (shortfall) between the floating rate received on the swap and the variable rate paid on the underlying variable-rate bonds due to tax law changes such that the federal or state tax exemption of municipal debt is eliminated or its value reduced. There have been no tax law changes since the execution of the City's swap transactions.
- 7) Termination Risk. The risk that the swap could be terminated as a result of certain events including a ratings downgrade for the issuer or swap counterparty, covenant violation, bankruptcy, payment default or other defined events of default. Termination of a swap may result in a payment made by the issuer or to the issuer depending upon the market at the time of termination.

- 8) Rollover Risk. The risk that the City may be exposed to rising variable interest rates if (i) the swap expires or terminates prior to the maturity of the bonds and (ii) the City is unable to renew or replace the swap.
- 9) Swap payments and associated debt. As of December 31, 2016, debt service requirements of the City's outstanding variable-rate debt and net swap payments, assuming current interest rates remain the same, for their term are as follows (dollars in thousands):

e) Debt Covenants

- i) Water Fund - The ordinances authorizing the issuance of outstanding Water Revenue Bonds provide for the creation of separate accounts into which net revenues, as defined, or proceeds are to be credited, as appropriate. The ordinances require that net revenues available for bonds, as adjusted, equal 120 percent of the current annual debt service on the outstanding senior lien bonds and that City management maintains all covenant reserve account balances at specified amounts. The above requirements were met at December 31, 2016. The Water Rate Stabilization account had a balance in restricted assets of \$91.2 million at December 31, 2016.

The ordinances authorizing the issuance of outstanding Second Lien Water Revenue Bonds provide for the creation of separate accounts into which monies will be deposited, as appropriate. The ordinances require that net revenues are equal to the sum of the aggregate annual debt service requirements for the fiscal year of the outstanding senior lien bonds and 110 percent of the aggregate annual debt service requirements of the outstanding second lien bonds. This requirement was met at December 31, 2016.

- ii) Sewer Fund - The ordinances authorizing the issuance of outstanding Wastewater Transmission Revenue Bonds provide for the creation of separate accounts into which net revenues, as defined, or proceeds are to be credited, as appropriate. The ordinances require that net revenues available for bonds equal 115 percent of the current annual debt service requirements on the outstanding senior lien bonds. This requirement was met at December 31, 2016. The Sewer Rate Stabilization account had a balance in restricted assets of \$32.6 million at December 31, 2016.

The ordinances authorizing the issuance of outstanding Second Lien Wastewater Transmission Revenue Bonds provide for the creation of separate accounts into which monies will be deposited, as appropriate. The ordinances require that net revenues equal 100 percent of the sum of the current maximum annual debt service requirements of the outstanding senior lien bonds and the maximum annual debt service requirements of the second lien bonds. This requirement was met at December 31, 2016.

- iii) Chicago Midway International Airport Fund - The Master Indenture of Trust securing Chicago Midway Airport Revenue Bonds requires in each year that the City fix and establish and revise from time to time whenever necessary, such rates and other charges for the use and operation of Midway and for services rendered by the City in the operation of Midway in order that, in each Fiscal year, Revenues, together with any Other Available Monies deposited with the Trustee with respect to such Fiscal Year and any cash balance held in the Revenue Fund on the first day of such Fiscal Year not then required to be deposited in any Fund or Account, will be at least sufficient (a) to provide for the Operation and Maintenance Expenses for the Fiscal Year and (b) to provide for the greater of (i) the amounts needed to make the Deposits required during such Fiscal Year into the Debt Service Funds, the Operations & Maintenance Reserve Account, the Working Capital Account, the Debt Service Reserve Fund, the Junior Lien Obligation Debt Service Fund, the Repair and Replacement Fund, and the Special Project Fund and (ii) an amount not less than 125 percent of the Aggregate Debt Service for the Bond Year commencing

78

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

during such Fiscal Year reduced by an amount equal to the sum of any amount held in any Capitalized Interest Account for disbursement during such Fiscal Year to pay interest on First Lien Bonds. These requirements were met at December 31, 2016.

The Master Indenture of Trust Securing Chicago Midway Airport Second Lien Obligations requires that the City fix and establish and revise from time to time whenever necessary, such rentals, rates and other charges for the use and operation of Midway and for certain services rendered by the City in the operation of Midway in order that in each Fiscal Year, Revenues, together with Other Available Moneys deposited with the First Lien Trustee or the Second Lien Trustee with respect to such Fiscal Year and any cash balance held in the First Lien Revenue Fund or the Second Lien Revenue Fund on the first day of such Fiscal Year not then required to be deposited in any Fund or Account under the First Lien Indenture for the Second Lien Indenture, will be at least sufficient (1) to provide for the payment of Operation and Maintenance Expenses for the Fiscal Year and (2) to provide for the greater of (A) or (B) as follows: (A) the greater of the amounts needed to make the deposits required under the First Lien Indenture described in the immediately preceding paragraph above; or (B) the greater of the amounts needed to make the deposits required under the First Lien Indenture described in the immediately preceding paragraph above or an amount not less than 110 percent of the Aggregate First Lien Debt Service and Aggregate Second Lien Debt Service for the Bond Year commencing during such Fiscal Year, reduced by (X) any amount held in any Capitalized Interest Account for disbursement during such Bond Year to pay interest on First Lien Bonds, and (Y) any amount held in any capitalized interest account established pursuant to a Supplemental Indenture under the Second Lien Indenture for disbursement during such Bond Year to pay interest on Second Lien Obligations. These requirements were met at December 31, 2016.

- iv) Chicago-O'Hare International Airport Fund - The Master Indenture of Trust securing Chicago O'Hare International Airport General Airport Senior Lien Obligations requires that the City will fix and establish, and revise from time to time whenever necessary, the rentals, rates and other charges for the use and operation

of O'Hare and for services rendered by the City in the operation of O'Hare in order that Revenues in each Fiscal Year, together with Other Available Moneys deposited with the Trustee with respect to that Fiscal Year and any cash balance held in the Revenue Fund on the first day of that Fiscal Year not then required to be deposited in any Fund or Account, will be at least sufficient: (i) to provide for the payment of Operation and Maintenance Expenses for the Fiscal Year; and (ii) to provide for the greater of (a) the sum of the amounts needed to make the deposits required to be made pursuant to all resolutions, ordinances, indentures and trust agreements pursuant to which all outstanding Senior Lien Obligations or other outstanding Airport Obligations are issued and secured, and (b) one and ten-hundredths times Aggregate Debt Service for the Bond Year commencing during that Fiscal Year, reduced by any proceeds of Airport Obligations held by the Trustee for disbursement during that Bond Year to pay principal of and interest on Senior Lien Obligations. This requirement was met at December 31, 2016.

The Master Trust Indenture securing Chicago O'Hare International Airport Passenger Facility Charge (PFC) Obligations requires PFC Revenues, as defined, received by the City to be deposited into the PFC Revenue Fund. The City covenants to pay from the PFC Revenue Fund not later than the twentieth day of each calendar month the following amounts in the following order of priority: (1) to the Trustee for deposit in the Bond Fund, the sum required to make all of the Sub-Fund Deposits and Other Required Deposits to be disbursed from the Bond Fund [to meet debt service and debt service reserve requirements] in the calendar month pursuant to the Master Indenture; (2) to make any payments required for the calendar month with respect to Subordinated PFC Obligations; and (3) all moneys and securities remaining in the PFC Revenue Fund shall be transferred by the City (or the Trustee if it then holds the PFC Revenue Fund pursuant to the Master Indenture) to the PFC Capital Fund.

The Indenture of Trust Securing Chicago O'Hare International Airport Customer Facility Charge Senior Lien Revenue Bonds requires that, as long as any Bonds remain Outstanding, in each Fiscal Year, the City shall set the amount of the CFC (when multiplied by the total number of projected Contract Days) plus projected Facility Rent at an annual level sufficient to provide sufficient funds (1) to pay principal of

79

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

and interest on the Bonds due in such Fiscal Year, (2) to reimburse the Rolling Coverage Fund, the Supplemental Reserve Fund, the Debt Service Reserve Fund and any Subordinate Reserve Fund for any drawings upon such Funds over a period not to exceed twelve months, as determined by the City, (3) to provide funds necessary to pay any "yield reduction payments" or rebate amounts due to the United States under the Indenture for which funds in the Rebate Fund or the CFC Stabilization Fund are not otherwise available, (4) to maintain the balance of the CFC Stabilization Fund in an amount of no less than the CFC Stabilization Fund Minimum Requirement and to reimburse any drawings below the CFC

'Stabilization Fund M determined" by the City, and (5) to maintain the balance of the Operation and Maintenance Fund in an amount of no less than the Operation and Maintenance Fund Requirement and to reimburse any drawings below the Operation and Maintenance Fund Minimum Requirement over a period of not to exceed twelve months, as determined by the City.

f) No-Commitment Debt and Public Interest Loans include various special assessment, private activity bonds and loans. These types of financings are used to provide private entities with low-cost capital financing for construction and rehabilitation of facilities deemed to be in the public interest. Bonds payable on no-commitment debt are not included in the accompanying financial statements because the City has no obligation to provide for

their repayment, which is the responsibility of the borrowing entities. In addition, federal programs/grants, including Community Development Block Grants and Community Service Block Grants, provide original funding for public interest loans. Loans receivable are not included as assets because payments received on loans are used to fund new loans or other program activities in the current year and are not available for general City operating purposes. Loans provided to third parties are recorded as current and prior year programs/grants expenditures. Funding for future loans will be from a combination of the repayment of existing loans and additional funds committed from future programs/grants expenditures.

- g) Defeased Bonds have been removed from the Statement of Net Position because related assets have been placed in irrevocable trusts that, together with interest earned thereon, will provide amounts sufficient for payment of all principal and interest. Defeased bonds at December 31, 2016, not including principal payments due January 1, 2017, are as follows (dollars in thousands):

	Amount	
	<u>Defeased</u>	<u>Outstanding</u>
General Obligation Emergency Telephone System-Series 1993	\$ 213,730	\$ 81,765

NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

11) Pension Funds and Other Postemployment Benefits a)

Pension

General Information about the Pension Plan

Plan Description - Eligible City employees participate in one of four single-employer defined benefit pension plans (Plans). These Plans are: the Municipal Employees' Annuity and Benefit Fund of Chicago (Municipal Employees'); the Laborers' and Retirement Board Employees' Annuity and Benefit Fund of Chicago (Laborers'); the Policemen's Annuity and Benefit Fund of Chicago (Policemen's); and the Firemen's Annuity and Benefit Fund of Chicago (Firemen's). Plans are administered by individual retirement boards of trustees comprised of City officials or their designees and of trustees elected by plan members. Certain employees of the Chicago Board of Education participate in Municipal Employees' or Laborers'. Each Plan issues a publicly available financial report

that includes financial statements and required supplementary information that can be obtained at www.meabf.org <<http://www.meabf.org>>, www.labfchicago.org <<http://www.labfchicago.org>>, www.chipabf.org <<http://www.chipabf.org>>, and www.fabf.org <<http://www.fabf.org>>.

Benefits provided - The Plans provide retirement, disability, and death benefits as established by State law. Benefits generally vest after 10 years of credited service. Employees qualify for an unreduced retirement age minimum formula annuity based on a combination of years of service and age of retirement. Employees may also receive a reduced retirement age minimum formula annuity if they do not meet the age and service requirements for the unreduced retirement age annuity. The requirement of age and service are different for employees who became members before January 1, 2011, and those who became members on or after January 1, 2011. The annuity is computed by multiplying the final average salary by a percentage ranging from 2.2 percent to 2.5 percent per year of credited service. The final average salary is the employee's highest average annual salary for any four consecutive years within the last 10 years of credited service for participants who became members before January 1, 2011 and any eight consecutive years within the last 10 years of credited service for participants who became members on or after January 1, 2011.

Benefit terms provide for annual adjustments to each employee's retirement allowance subsequent to the employees' retirement date. For participants who became members before January 1, 2011, the annual adjustments for Municipal Employees' and Laborers' are 3.0 percent, compounded, and for Policemen's and the majority of participants in Firemen's 3.0 percent, simple, for annuitants born before January 1, 1966 and 1.5 percent, simple, born after January 1, 1966 or later. For participants that first became members on or after January 1, 2011, the annual adjustments are equal to the lesser of 3.0 percent and 50 percent of CPI-U of the original benefit.

Employees covered by benefit terms - At December 31, 2016, the following employees were covered by the benefit terms:

	Municipal			
	Employees'	Laborers'	Policemen's	Firemen's Total
Inactive employees or beneficiaries currently receiving benefits	25,236	3,769	13,394	4,777 47,176
Inactive employees entitled to but not yet receiving benefits	16,876	1,476	606	88 19,046
<u>Active employees</u>	<u>30,296</u>	<u>2,822</u>	<u>12,177</u>	<u>4,760 50,055</u>
	<u>72,408</u>	<u>8,067</u>	<u>26,177</u>	<u>9,625 116,277</u>

Contributions - Historically State law required City contributions at statutorily, not actuarially, determined rates. State law also requires covered employees to contribute a percentage of their salaries. The City's contribution for Municipal Employees' and Laborers' was calculated based on the total amount of contributions by employees to the respective Plans made in the calendar year two years prior, multiplied by 1.25 for the Municipal Employees', 1.00 for the Laborers'.

For the Policemen's, and Firemen's Plans, Public Act 99-0506 (P.A. 99-0506) was enacted on May_31, 2016.
"Th^City^ircontr

in the aggregate amounts as follows: in payment year 2017, \$672 million; in payment year 2018, \$727 million; in payment year 2019, \$792 million; and in payment year 2020, \$824 million. Additionally, P.A. 99-0506 requires that the City's contributions are at actuarially determined rates beginning in payment year 2021 and future funding be sufficient to produce a funding level of 90% by the year ended December 31, 2055.

The City's contributions are budgeted in the same year as the applicable levy year for the property taxes funding the contributions. The City's contributions are then paid to the pension funds in the following year (which is when the levied property taxes are collected and paid to the City by the Cook County Treasurer).

Net Pension Liability

The City's net pension liability was measured as of December 31, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The actuarial reports were provided by each of the pension funds.

Actuarial assumptions. The total pension liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

	<u>Municipal Employees'</u>	<u>Laborers'</u>	<u>Policemen's</u>	<u>Firemen's</u>
Inflation	3.0%	3.0%	2.8%	2.5%
Salary Increases	4.5% - 8.25% (a)	3.75% (b)	3.75% (c)	3.75% (d)
Investment Rate of Return	7.5% (e) 7.5% (f)	7.25%	7.5%	

- a) Varying by years of service
- b) Plus a service - based increase in the first 15 years
- c) Plus additional percentage related to service
- d) Plus additional service based increases
- e) Net of investment expense
- f) Net of investment expense, including inflation

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate for Municipal Employees', Laborers', and Firemen's and RP-2014 for Policemen's.

The mortality actuarial assumptions used in the December 31, 2016 valuation were adjusted based on the results of actuarial experience study for the period:

Municipal Employees' - January 1, 2005 - December 31, 2009.
 Laborers' - January 1, 2004 - December 31, 2011
 Policemen's - January 1, 2009 - December 31, 2013
 Firemen's - January 1, 2003 - December 31, 2010

The long-term expected rate of return on pension plan investments was determined using the building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of

82

Discount rate

Municipal Employees' - The discount rate used to measure the total pension liability was 3.91 percent. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.5 percent and a municipal bond rate of 3.78 percent. The projection of cash flows used to determine the discount rate assumed member contributions will be made at the current contribution rate and that employer contributions will be made at the 1.25 multiple of member contributions from two years prior. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer

contributions and contributions from future plan members that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the pension plan's fiduciary net position was not projected to be available to make all projected future benefit payments of current plan members. The projected benefit payments through 2023 were discounted at the expected long-term rate of return. Starting in 2024, the projected benefit payments were discounted at the municipal bond rate. Therefore, a single equivalent blended discount rate of 3.91 percent was calculated using the long-term expected rate of return and the municipal bond index.

Laborers' - A Single Discount Rate of 4.17 percent was used to measure the total pension liability. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.5 percent and a municipal bond rate of 3.78 percent. The projection of cash flows used to determine this Single Discount Rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made under the statutory funding policy. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2027. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2027, and the municipal bond rate was applied to all benefit payments after that date.

NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

Policemen's - A Single Discount Rate of 7.07 percent was used to measure the total pension liability. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.25 percent and a municipal bond rate of 3.78 percent. The projection of cash flows used to determine this Single Discount Rate assumed that plan member contributions and employer contributions are made in accordance with the statutory requirements. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2068. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments -"thToug

Firemen's - A Single Discount Rate of 7.30 percent was used to measure the total pension liability. This Single Discount Rate was based on an expected rate of return on pension plan investments of 7.5 percent and a municipal bond rate of 3.78 percent. The projection of cash flows used to determine this Single Discount Rate assumed that member contributions and employer contributions are made in accordance with the statutory requirements. Based on these assumptions, the Plan's fiduciary net position and future contributions were sufficient to finance future benefit payments only through the year 2066. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2066, and the municipal bond rate was applied to all benefit payments after that date.

84

CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

Changes in benefits: Public Act 99-0905 and Public Act 99-0906 changed the benefit provisions of the Firemen's and Policemen's Plans. Public Act 99-0905 extended 3.0 percent annual COLA increases to participants born after December 31, 1954, but before January 1, 1966. Additionally, the minimum benefit for widows was increased to 125 percent of the Federal poverty level. Public Act 99-0906 increased the minimum benefit for certain annuitants to 125 percent of the Federal Poverty level. The change in benefits increased the net pension liability by \$606.2 million for Policemen's and \$227.2 million for Firemen's. This impact is recognized as a portion of pension expense for 2016 in its entirety.

Sensitivity of the net pension liability to changes in the discount rate

Municipal Employees' - The following presents the net pension liability as of December 31, 2016, calculated using the discount rate of 3.91 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.91 percent) or 1 percentage point higher (4.91 percent) than the current rate (dollars in thousands):

	Current		
Net pension liability December 31, 2016	1% Decrease	Discount Rate	1% Increase
Municipal Employees' discount rate	2.91%	3.91%	4.91%
Municipal Employees' net pension liability ...	\$ 22,351,267	\$ 18,855,044	\$ 15,983,851

Laborers' - The following presents the net pension liability as of December 31, 2016, calculated using the discount rate of 4.17 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (3.17 percent) or 1 percentage point higher (5.17 percent) than the current rate (dollars in thousands):

	Current		
Net pension liability December 31, 2016	1% Decrease	Discount Rate	1% Increase
Laborers' discount rate	3.17%	4.17%	5.17%
Laborers' Employees' net pension liability ...	\$ 3,054,407	\$ 2,525,905	\$ 2,091,390

Policemen's - The following presents the net pension liability as of December 31, 2016, calculated using the discount rate of 7.07 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.07 percent) or 1 percentage point higher (8.07 percent) than the current rate (dollars in thousands):

		Current	
<u>Net pension liability December 31, 2016</u>	<u>1 % Decrease</u>	<u>Discount Rate</u>	<u>1% Increase</u>
Policemen's Employees' discount rate	6.07%	7.07%	8.07%
Policemen's Employees'net pension liability...	\$ 11,831,817	\$ 10,248,072	\$ 8,918,000

Firemen's - The following presents the net pension liability as of December 31, 2016, calculated using the discount rate of 7.30 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.30 percent) or 1 percentage point higher (8.30 percent) than the current rate (dollars in thousands):

		Current	
<u>Net pension liability December 31, 2016</u>	<u>1% Decrease</u>	<u>Discount Rate</u>	<u>1% Increase</u>

Firemen's Employees'net pension liability	\$ 4,700,968	\$ 4,130,244	\$ 3,644,823

Pension plan fiduciary net position Detailed information about the pension plan's fiduciary net position is available in the separately issued Pension Plans reports.

CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended December 31, 2016, the City recognized pension expense of \$5.1 billion. At December 31, 2016, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources (dollars in thousands):

	City of Chicago Employees'	Police	Fire	Police	Fire	Police	Fire	Police	Fire
	Deferred	Deferred	Deferred	Deferred	Deferred	Deferred	Deferred	Deferred	Deferred
	Outflows of Resources	Inflows of Resources	Outflows of Resources	Inflows of Resources	Outflows of Resources	Inflows of Resources	Outflows of Resources	Inflows of Resources	Outflows of Resources
Differences between expected and actual experience	\$ 5,316		\$ -	\$ 167,597	\$ -	\$ 41,001	\$ 1,491	\$ 69,590	\$ 20,000
Changes of assumptions		5,227,053	463,136	493,125	44,812	93,170		117,420	61,696
Net difference between projected and actual earnings on pension plan investments ..		186,142	-	97,171	-	200,502	-	56,646	-
Total		\$ 194,066	\$ 67,012	\$ 5,413,195	\$ 630,733	\$ 590,296	\$ 85,813	\$ 295,163	\$ 69,590

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows (dollars in thousands):

	Municipal			
	Year ended December 31:			
	Employees'	Laborers'	Policemen's	Firemen's
2017	\$ 1,638,118	\$ 331,560	\$ 63,416	\$ 37,459
2018	1,638,118	149,309	63,416	37,459
2019	1,638,118	17,583	63,416	37,460
2020	(131,892)	6,031	19,568	22,101
<u>2021</u>	<u>-</u>	<u>-</u>	<u>15,757</u>	<u>(7,425)</u>
<u>Total</u>	<u>\$ 4,782,462</u>	<u>\$ 504,483</u>	<u>\$ 225,573</u>	<u>\$ 127,054</u>

Deferred outflows and deferred inflows related to changes in proportionate share of contributions

For the year ended December 31, 2016, the City reported pension expense of \$1.8 million and deferred outflows of \$7.3 million related to changes in its proportionate share of contributions. This deferred amount will be recognized as pension-expense over a period of four years.

Payable to the Pension Plan

At December 31, 2016, the City reported a payable of \$601.9 million for the outstanding amount of contributions to the pension plan required for the year ended December 31, 2016.

b) Other Post Employment Benefits (OPEB) - Pension Funds

State law authorized the four respective Pension Funds (Policemen's, Firemen's, Municipal Employees', and Laborers') to provide a fixed monthly dollar subsidy to each annuitant who had elected coverage under any City health plan through December 31, 2016. After that date, no Pension Fund subsidies are authorized. The liabilities for the monthly dollar Pension Fund subsidies contributed on behalf of annuitants enrolled in the medical plan by their respective Pension Funds are included in the NPO actuarial valuation reports of the respective four Pension Funds under GASB 43 .

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

Pursuant to the provisions contained in PA. 98-0043, the City terminated health insurance supplement payments to eligible annuitants as of December 31, 2016, resulting in no OPEB liability at December 31, 2016.

c) Other Post Employment Benefits - City Obligation

Up to June 30, 2013, the annuitants who retired prior to July 1, 2005 received a 55 percent subsidy from the City and the annuitants who retired on or after July 1, 2005 received a 50, 45, 40 and zero percent subsidy from the City based on the annuitant's length of actual employment with the City for the gross cost of retiree health care under a court approved settlement agreement, known as the "Settlement Plan." The pension funds contributed their subsidies of \$65 per month for each Medicare eligible annuitant and \$95 per month for each Non-Medicare eligible annuitant to their gross cost. The annuitants contributed a total of \$110.9 million in 2016 to the gross cost of their retiree health care pursuant to premium amounts set by the City.

As described above, the City of Chicago subsidized a portion of the cost (based upon service) for hospital and medical coverage for eligible retired employees and their dependents based upon a settlement agreement entered in 2003 and which expired on June 30, 2013.

On May 15, 2013, the City announced plans to, among other things: (i) continue the then current plan for the remaining six months of 2013; then, as of January 1, 2014, (ii) provide a healthcare plan to, and for the lifetimes of, former employees who retired before August 23, 1989 with a contribution from the City of up to 55 percent of the cost of that plan to the annuitant; and (iii) provide employees who retired on or after August 23, 1989 with

healthcare benefits in a new Retiree Health Plan (Health Plan), but with significant changes to the terms including increases in premiums and deductibles, reduced benefits and the phase-out of the Health Plan for such employees by December 31, 2016.

The cost of health benefits is recognized as an expenditure in the accompanying financial statements as claims are reported and are funded on a pay-as-you-go basis. In 2016, the net expense to the City for providing these benefits to approximately 22,195 annuitants plus their dependents was approximately \$45.7 million.

Plan Description Summary - The City of Chicago was party to a written legal settlement agreement outlining the provisions of the Settlement Plans, which ended June 30, 2013, but the City voluntarily continued those Settlement Plans until the end of 2013. As of January 1, 2014, the Health Plan provided for annual modifications to the City's level of subsidy during the three-year phase out. The Health Plan, along with any further City subsidy, expired as of December 31, 2016, for all but the group of former employees (the Korshak class of members) who retired before August 23, 1989, who shall have lifetime benefits. Duty Disabled retirees who have statutory pre-63/65 coverage will continue to have fully subsidized coverage under the active health plan until age 65.

The provisions of the Health Plan provide in general, that the City pay a percentage of the cost (based upon an employee's service) for hospital, medical, and drug coverage to eligible retired employees and their dependents for the specified period, ending December 31, 2016. During the three-year phase out of the Health Plan, the percentage subsidies were revised to reduce by approximately 25 percent of 2013 subsidy levels in 2014, 50 percent of 2013 subsidy levels in 2015, and 75 percent of 2013 subsidy levels in 2016.

Special Benefits under the Collective Bargaining Agreements (CBA) - Under the terms of the collective bargaining agreements for the Fraternal Order of Police (FOP) and the International Association of Fire Fighters (IAFF), certain employees who retire after attaining age 55 with the required years of service are permitted to enroll themselves and their dependents in the healthcare benefit program offered to, actively employed members. They may keep this coverage until they reach the age of Medicare eligibility. These retirees do not contribute towards the cost of coverage, but, until December 31, 2016, the Policemen's Fund contributed \$95 per month towards coverage for police officers; the Firemen's Fund did not contribute. After December 31, 2016, the Pension Funds no longer contribute toward retiree healthcare.

87

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

Both of these agreements which provide pre-65 coverage originally expired at June 30, 2012. These benefits have been renegotiated to continue through 2016 or June 30, 2017, depending on bargaining unit agreements. This valuation assumes that the CBA special benefits, except for those who will have already retired as of December 31, 2016, will cease on December 31, 2016 or June 30, 2017, depending on bargaining unit agreements.

Funding Policy - No assets are accumulated or dedicated to funding the retiree health plan benefits.

Annual OPEB Cost and Net OPEB Obligation - The City's annual other post-employment benefit (OPEB) cost (expense) is calculated based on the annual required contribution "ARC" of the employer. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and to amortize any unfunded actuarial liabilities over a period of ten years.

The following table shows the components of the City's annual OPEB costs for the year for the Health Plan and CBA Special Benefits, the amount actually contributed to the plan, and changes in the City's net OPEB obligation. The Net OPEB Obligation is the amount entered upon the City's Statement of Net Position as of year end as the net liability for the other post-employment benefits - the Health Plan. The amount of the annual cost that is recorded in the Statement of Changes in Net Position for 2016 is the annual OPEB cost (expense).

Funded Status and Funding Progress - As of January 1, 2016, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$715.5 million, all of which was unfunded. The covered payroll (annual payroll of active employees covered by the plan) was approximately \$2,563.6 million and the ratio of the unfunded actuarial accrued liability to the covered payroll was 27.9 percent.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as the results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presents, as required, (unaudited) supplementary information following the notes to the financial statements.

Schedule of Funding Progress (dollars in thousands)

<u>Unfunded</u>	<u>UAAL</u>

Total 12/31/2015	\$ -	\$ 715,522	\$ 715,522	0%	\$2,563,649			27.9 %

Actuarial Method and Assumptions - Projections of benefits for financial reporting purposes are based on the substantive plan (the plan understood by the employer and plan members) and included the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial method and assumptions used include techniques that are designed to reduce the effects of short term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long term perspective of the calculations.

89

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

For the Health Plan benefits (not provided by the Pension Funds), the entry age normal actuarial cost method was used. The actuarial assumptions included an annual healthcare cost trend rate of 8.0 percent initially, reduced by decrements to an ultimate rate of 5.0 percent in 2027. The range of rates included a 3.0 percent inflation assumption. Rates included a 2.5 percent inflation assumption. The plan has not accumulated assets and does not hold assets in a segregated trust. However, the funds expected to be used to pay benefits are assumed to be invested for durations which will yield an annual return rate of 3.0 percent. The remaining Unfunded Accrued Actuarial Liability is being amortized as a level dollar amount over ten years. The benefits include the provisions under "the" now "Health Plan" which have been completely phased-cut by December 31, 2016, except for the Korshak category, which is entitled to lifetime benefits. Also included in the Non-CBA benefits are the duty disability benefits under the active health plan payable to age 63/65.

For the Special Benefits under the CBA for Police and Fire, the renewed contracts' expiration dates of June 30, 2016 (for Police Captains, Sergeants and Lieutenants) and June 30, 2017 for all other Police and Fire are reflected, such that liabilities are included only for payments beyond the end of the calendar year of contract expiration on behalf of early retirees already retired and in pay status as of December 31 of the expiration year of the contract. The entry age normal method was selected. The actuarial assumptions included an annual healthcare cost trend rate of 8.0 percent in 2015, reduced by decrements to an ultimate rate of 5.0 percent in 2027. Rates included a 2.5 percent inflation assumption. The plan has not accumulated assets and does not hold assets in a segregated trust. The funds expected to be used to pay benefits are assumed to be invested for durations that will yield an annual return rate of 3.0 percent. The remaining Unfunded Accrued Actuarial Liability is being amortized as a level dollar amount over ten years.

12) Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; certain benefits for and injuries to employees, and natural disasters. The City provides worker's compensation benefits and employee health benefits under self-insurance programs except for insurance policies maintained for certain Enterprise Fund activities. The City uses various risk management techniques to finance these risks by retaining, transferring and controlling risks depending on the risk exposure.

Risks for O'Hare, Midway, and certain other major properties, along with various special events, losses from certain criminal acts committed by employees and public official bonds are transferred to commercial insurers. Claims have not exceeded the purchased insurance coverage in the past three years. Accordingly, no liability is reported for these claims. All other risks are retained by the City and are self-insured. The City pays claim settlements and judgments from the self-insured programs. Uninsured claim expenditures and liabilities are reported when it is probable that a loss has occurred and the amount of that loss can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. The General Fund is primarily used to record all non-Enterprise Fund claims. The estimated portion of non-Enterprise Fund claims not yet settled has been recorded in the Governmental Activities in the Statement of Net Position as claims payable

90

**CITY OF CHICAGO, ILLINOIS
 NOTES TO BASIC FINANCIAL STATEMENTS
 YEAR ENDED DECEMBER 31, 2016**

along with amounts related to deferred compensatory time and estimated liabilities for questioned costs. As of December 31, 2016, the total amount of non-Enterprise Fund claims was \$508.7 million and Enterprise Fund was \$76.7 million. This liability is the City's best estimate based on available information. Changes in the reported liability for all funds are as follows (dollars in thousands):

2015

	<u>prior year events</u>	<u>(653,432)</u>
	Balance, December 31	\$ 585,372

13) Expenditure of Funds and Appropriation of Fund Balances

The City expends funds by classification as they become available, and "Restricted" funds are expended first. If/when City Council formally sets aside or designates funds for a specific purpose, they are considered "Committed." The Mayor (or his/her designee) may in this capacity, also set aside or designate funds for specific purposes and all of these funds will be considered "Assigned." Any remaining funds, which are not specifically allocated in one or more of the previous three categories, are considered "Unassigned" until such allocation is completed.

In addition to the categories above, any amounts that will be used to balance a subsequent year's budget will be considered "Assigned" as Budgetary Stabilization funds. The amounts may vary from fiscal year to fiscal year or depending on the City's budgetary condition, or may not be designated at all. The funds may be assigned by the Mayor or his designee, up to the amount of available "Unassigned" fund balance at the end of the previous fiscal year.

YEAR ENDED DECEMBER 31, 2016

At the end of the fiscal year, total encumbrances amounted to \$14.1 million for the General Operating Fund, \$45.1 million for the Special Taxing Areas Fund, \$30.1 million for the Capital Projects Fund and \$24.3 million for the Non Major Special Revenue Fund.

14) Deferred Outflows and Inflows of Resources

In accordance with Government Accounting Standards Board Statement No. 63, Financial Reporting of Deferred

Outflows of Resources, the City reports deferred outflows of resources in the Statement of Net Position in a separate section following Assets. Similarly, the City reports deferred inflows of resources in the Statement of Net Position in a separate section following Liabilities.

The components of the deferred outflows of resources and deferred inflows of resources at December 31, 2016 are as follows (dollars in thousands):

15) Commitments and Contingencies

The City is a defendant in various pending and threatened individual and class action litigation relating principally to claims arising from contracts, personal injury, property damage, police conduct, alleged discrimination, civil rights actions, and other matters. City management believes that the ultimate resolution of these matters will not have a material adverse effect on the financial position of the City.

92

CITY OF CHICAGO, ILLINOIS NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2016

The City participates in a number of federal- and state-assisted grant programs. These grants are subject to audits by or on behalf of the grantors to assure compliance with grant provisions. Based upon past experience and management's judgment, the City has made provisions in the General Fund for questioned costs and other amounts estimated to be disallowed. City management expects such provision to be adequate to cover actual amounts disallowed, if any.

As of December 31, 2016, the Enterprise Funds have entered into contracts for approximately \$1,249.3 million for construction projects.

The City's pollution remediation obligation of \$33.2 million is primarily related to Brownfield redevelopment projects. These projects include removal of underground storage tanks, cleanup of contaminated soil, and removal of other environmental pollution identified at the individual sites. The estimated liability is calculated using the expected cash flow technique. The pollution remediation obligation is an estimate and subject to changes resulting from price increases or reductions, technology, or changes in applicable laws or regulations.

16) Concession Agreements

The major fund entitled Service Concession and Reserve Fund is used for the purpose of accounting for the deferred inflows associated with governmental fund long-term lease and concession transactions. Deferred inflows are amortized over the life of the related lease and concession agreements. Proceeds from these transactions may be transferred from this fund in accordance with ordinances approved by the City Council that define the use of proceeds.

In February 2009, the City completed a \$1.15 billion concession agreement to allow a private operator to manage

and collect revenues from the City's metered parking system for 75 years. The City received an upfront payment of \$1.15 billion which was recognized as a deferred inflow that will be amortized and recognized as revenue over the term of the agreement. The City recognizes \$15.3 million of revenue for each year through 2083.

In December 2006, the City completed a long-term concession and lease of the City's downtown underground public parking system. The concession granted Chicago Loop Parking, LLC (CLP) the right to operate the garages and collect parking and related revenues for the 99-year term of the agreement. The City received an upfront payment of \$563.0 million of which \$347.8 million was simultaneously used to purchase three of the underground garages from the Chicago Park District. The City recognized a deferred inflow that will be amortized and recognized as revenue over the term of the lease. The City recognizes \$5.7 million of revenue for each year through 2105. In January 2014, CLP assigned all of its interests in the concession and lease agreement to LMG2, LLC, the designee of its lenders, in lieu of foreclosure by the lenders on their leasehold mortgage on the underground garages.

In January 2005, the City completed a long-term concession and lease of the Skyway. The concession granted a private company the right to operate the Skyway and to collect toll revenue from the Skyway for the 99-year term of the agreement. The City received an upfront payment of \$1.83 billion; a portion of the payment (\$446.3 million) advance refunded all of the outstanding Skyway bonds. The City recognized a deferred inflow of \$1.83 billion that will be amortized and recognized as revenue over the 99-year term of the agreement. The City recognizes \$18.5 million of revenue related to this transaction for each year through 2103. Skyway land, bridges, other facilities and equipment continue to be reported on the Statement of Net Position and will be depreciated, as applicable, over their useful lives. The deferred inflow of the Skyway is reported in the Proprietary Funds Statement of Net Position.

In February 2016, the owners of the Skyway concessionaire sold their ownership interests in the concessionaire to a new entity. Pursuant to the concession and lease agreement for the Skyway, the City approved the transfer of ownership interests.

In May 2016, the concessionaire of the City's downtown underground public parking garages sold its concession interest in the garages to Millennium Parking Garages, LLC. Pursuant to the concession and lease agreement for the garages, the City approved the transfer of the concession interest.

**CITY OF CHICAGO, ILLINOIS
NOTES TO BASIC FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2016**

17) Tax Abatements

GASB Statement No. 77, Tax Abatement Disclosures ("GASB 77"), requires governments that enter into tax abatement agreements to disclose: (1) Brief descriptive information concerning the agreement; (2) The gross dollar amount of taxes abated during the period; and 3) Commitments made by government, other than to abate taxes, that are part of the tax abatement agreement.

Tax Abatement Agreements Entered in

The Boeing Company

The City entered into a Tax Reimbursement Payment Agreement with The Boeing Company ("Boeing") on November 1, 2001. A provision in the Illinois Property Tax Code allowed the City to enter into an agreement with Boeing, which qualified as an Eligible Business, as defined, under the Corporate Headquarters Relocation Act (the "Act"). The Act allows the City to make annual payments to Boeing in an amount not to exceed the property taxes paid, directly or indirectly, by Boeing to the City and other taxing districts for premises occupied as its Corporate Headquarters pursuant to a written lease. The relocation of Boeing constitutes a substantial public benefit from its creation of not less than 500 permanent FTE jobs and through payment of various taxes and governmental charges will foster further economic growth and development in the City.

Boeing must submit for each year of the agreement an Annual Reimbursement Form to the City for reimbursement of an amount equal to the portion of the Boeing General Real Estate Taxes paid during such calendar year to the City.

the Chicago School Finance Authority, the Board of Education of the City of Chicago and the City Public Library Fund, in aggregate. Together with the form, Boeing must be in compliance with the terms of the agreement and must provide the City all documents stipulated on the agreement. This includes evidence that Boeing continues to qualify as an Eligible Business and has at least \$25.0 million in annual worldwide revenues, satisfaction of the MBEA/VBE requirements, compliance with the resident hiring and prevailing wage requirements, employment of a minimum of 500 full time employees within Chicago, and leasing and occupying not less than 125,000 rentable square feet in Chicago, among other requirements.

The above listed property taxes are reduced by way of a reimbursement to Boeing in an amount equal to the allocable share of the real estate taxes. The City is entitled to terminate the agreement or recover certain payments if Boeing defaults on their commitments. For the 2016 reporting period, the tax reimbursement to Boeing totaled \$1.4 million

Tax Increment Financing

The City adopted certain ordinances approving various redevelopment plans pursuant to provisions of the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11 -7 4.4-1 (the "Act"). The redevelopment plans designate a "redevelopment project area" under the Act, and adopt tax increment allocation financing for each redevelopment project area.

In an effort to promote redevelopment and finance construction projects in the redevelopment project areas to eradicate blighted conditions, the City uses tax increment financing to reimburse developers for the costs of the TIF-funded improvements pursuant to the terms and conditions of redevelopment agreements entered into by the City and a developer. Projects range from new construction to redevelopment and expansion initiatives throughout the city. The maximum reimbursable amount is set forth in each agreement. If the total project cost is lower than the project budget established in the agreement, the reimbursable amount will be prorated.

For the 2016 reporting period, the amount of property tax revenue forgone by the City due to the agreements under the Tax Increment Allocation Redevelopment Act amounts to \$90.3 million on an accrual basis of accounting.

CITY OF CHICAGO, ILLINOIS NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2016

Tax Abatement Agreements Entered Into By Other Governments

Cook County

Cook County provides tax reductions under numerous programs with individuals, local businesses, and developers. The objective of the agreements is to encourage the development and rehabilitation of new and existing industrial and commercial property, reutilization of abandoned property, and increase multi-family residential affordable rental housing throughout Cook County by offering a real estate tax incentive. An eligibility application must be filed prior to commencement of a project and include a resolution from the municipality where the real estate is located. Once the project has been completed, the applicant must file an Incentive Appeal Form with the County Assessor's Office. Upon approval by the County Assessor's Office and based on the property classification, the applicant is eligible to receive one of the following tax incentives:

- Property will be assessed at 10% of market value for the first 10 years, 15% in the 11th year and 20% in the 12th year.
- Property will be assessed at 10% of market value for the first 3 years, 15% in the 4th year and 20% in the 5th year.

- Property will be assessed at 10% of the market value for ten years from the date of completion of major rehabilitation.

In the absence of the incentive, the property tax would be assessed at 25% of its market value. This incentive constitutes a substantial reduction in the level of assessment and results in significant tax savings for eligible applicants. For the 2016 reporting period, the amount of property tax revenue forgone by the City due to these incentives is estimated at \$11.5 million.

18) Subsequent Events

Ratings

In February 2017, Fitch Ratings (Fitch) downgraded the rating of the Motor Fuel Tax revenue bonds from BBB to BBB-, with a negative outlook.

In May 2017, Fitch downgraded ratings of the Senior Lien Water revenue bonds from AA+ to AA, with a negative outlook.

In May 2017, Fitch downgraded ratings of the Second Lien Water revenue bonds from AA to AA-, with a negative outlook.

In May 2017, Fitch downgraded ratings of the Senior Lien Wastewater Transmission revenue bonds from AA to AA-, with a negative outlook.

In June 2017, S&P downgraded the rating of the Motor Fuel Tax revenue bonds from BBB- to BB+ with a negative outlook.

Bonds

In January 2017, the City sold O'Hare International Airport General Airport Senior Lien Revenue Bonds Series 2016DEFG (\$1,117.3 million). The 2016D bonds were issued at interest rates between 5.00% and 5.25% and mandatory sinking fund or maturity dates between January 1, 2020 and January 1, 2052. The 2016E bonds were issued at interest rates between 5.00% and 5.25% and maturity dates between January 1, 2024 and January 1, 2028. The 2016F bonds were issued at interest rates between 2.00% and 5.25% and mandatory sinking fund or maturity dates between January 1, 2018 and January 1, 2052. The 2016G bonds were issued at interest rates between 5.00% and 5.25% and mandatory sinking fund or maturity dates between January 1, 2020 and January

95

CITY OF CHICAGO, ILLINOIS NOTES TO BASIC FINANCIAL STATEMENTS YEAR ENDED DECEMBER 31, 2016

1, 2052. Proceeds will be used to pay the cost of certain airport projects, fund reserve requirements for the bonds, fund capitalized interest, and pay costs of issuance.

In January 2017, the City sold General Obligation Project and Refunding Series 2017A (\$886.0 million) and Taxable Project Series 2017B (\$274.3 million). The 2017A bonds were issued at interest rates between 5.625% and 6.0% and maturity dates between January 1, 2029 and January 1, 2038. The 2017B bonds were issued at an interest rate of 7.045% and mandatory sinking fund or maturity dates ranging from January 1, 2021 and

annual

settlements, to refund or pay interest on all or a portion of certain outstanding General Obligation bonds, fund capitalized interest, and pay costs of issuance.

In February 2017, the City completed a refinancing of the outstanding Michael Reese Loan. The City secured a lower, fixed interest rate of 3.55%, with the same maturity date of June 30, 2024. Principal payments will be made semi-annually with the first semi-annual principal payment on the refinanced loan due on June 30, 2019.

In June 2017, the City sold Second Lien Wastewater Transmission Revenue Bonds, Project Series 2017A (\$180.6 million) and Refunding Series 2017B (\$215.5 million). The 2017A bonds were issued at interest rates between 4.0% and 5.25% and mandatory sinking fund or maturity dates between January 1, 2020 and January 1, 2052. The 2017B bonds were issued at an interest rate of 5.0 % and maturity dates between January 1, 2018 and January 1, 2038. Proceeds will be used to finance capital improvements of the Wastewater Transmission System, to refund a portion of certain outstanding wastewater transmission bonds, and pay costs of issuance.

In June 2017, the City sold Second Lien Water Revenue Refunding Bonds, Series 2017 (\$199.4 million). The 2017 bonds were issued at interest rates between 5.0% and 5.25% and maturity dates between November 1, 2017 and November 1, 2036. Proceeds will be used to refund a portion of certain outstanding water bonds and pay costs of issuance.

In June 2017, the City sold O'Hare International Airport General Airport Senior Lien Revenue and Revenue Refunding Bonds Series 2017ABCD (\$812.4 million). The 2017A bonds were issued at interest rates between 3.125% and 5.00% and mandatory sinking fund or maturity dates between January 1, 2021 and January 1, 2040. The 2017B bonds were issued at an interest rate of 5.00% with maturity dates between January 1, 2018 and January 1, 2039. The 2017C bonds were issued at interest rates between 4.00% and 5.00% and mandatory sinking fund or maturity dates between January 1, 2019 and January 1, 2041. The 2017D bonds were issued at an interest rate of 5.00% and mandatory sinking fund or maturity dates between January 1, 2022 and January 1, 2052. Proceeds will be used to refund a portion of certain outstanding airport bonds, pay the cost of certain airport projects, fund reserve requirements for the bonds, fund capitalized interest, and pay costs of issuance.

Commercial Paper and Lines of Credit

As of December 31, 2016, the outstanding balance for the City's General Obligation Line of Credit was \$124.2 million. Since January 1, 2017, the City has not executed any additional draws and has paid down \$81.7 million. The City's repayment obligation under the line of credit is a general obligation of the City. The line of credit expires September 24, 2019.

In May 2017, the City drew \$30.0 million aggregate principal amount of its Chicago O'Hare International Airport

Commercial Paper Notes (O'Hare CP Notes). The proceeds of these O'Hare CP Notes are being used to finance a portion of the cost of authorized airport projects

Other information	(q)		(r)(s) (s)	

a) Actuarially determined contribution amount is determined as of December 31, with appropriate interest to the middle of the year.

b) Actuarially determined contribution rates are calculated as of December 31, which is 12 months prior to the end of the fiscal year in which contributions are reported.

(c) The statutory contributions are based on a multiple of member contributions from the second prior year. The statutory contribution multiple is 1.00

d) Varying by years of service.

- e) Plus a service-based increase in the first 15 years.
- f) Salary increase rates based on age-related productivity and merit rates plus inflation.
- g) Net of investment expense.
- h) Net of investment expense, including inflation.
- (i) For employees first hired prior to January 1,2011, rates of retirement are based on the recent experience of the Fund (adopted December 31,2010).
- For employees first hired on or after January 1,2011, rates of retirement for each age from 62 to 80 were used (adopted Decemebr 31,2011).
- G) Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the December 31,2012, valuation pursuant to an experience study of the period January 1,2004, through December 31,2011. (k) Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the December 31,2014, actuarial valuation pursuant to an experience study of the period January 1,2009, through December 31,2013. (l) Experience-based table of rates that are specific to the type of eligibility condition. Last updated for the December 31,2011, valuation pursuant to an experience study of the period January 1,2003, through December 31,2010. (m) Post-retirement mortality rates were based on the RP-2000 Healthy Mortality Tables with mortality improvements projected to 2010 using Scale AA.
- Pre-retirement mortality rates were based on the post-retirement mortality assumption, multiplied by 85% for males and 70% for females, (n) RP2000 Combined Healthy mortality table, sex distinct, set forward one year for males and setback two years for females. No adjustment is made for post-disabled mortality.
- (o) Post-Retirement Healthy mortality rates: Sex distinct Retirement Plans 2014 Healthy Annuitant mortality table weighted 108% for males and 97% for females. Pre-Retirement mortality rates: Sex distinct Retirement Plans 2014 Total Employee mortality table weighted 85% for males and 115% for females. Disabled Mortality: Sex distinct Retirement Plans 2014 Healthy Annuitant mortality table weighted 115% for males and 115% for females.
- (p) RP2000 Combined Healthy mortality table, sex distinct for post retirement mortality. RP2000 Combined Healthy mortality table, sex distinct, set forward six years for post retirement mortality post-disabled mortality. Pre-retirement mortality is 80 percent of the post-retirement rates.
- (q) Other assumptions: Same as those used in the December 31,2016, actuarial funding valuations.
- (r) There were no benefit changes during the year.
- (s) The valuation is based on the statutes in effect as of December 31,2016. Benefit changes as aresult of PA 99-0506 were recognized in the Total Pension Liability as of December 31,2016.

NONMAJOR SPECIAL REVENUE FUNDS

Vehicle Tax Fund - Expenditures made in accordance with the policy established by the City Council in connection with street repairs and maintenance, as provided by sale of vehicle licenses.

Motor Fuel Tax and Project Fund - Expenditures for repair and maintenance of streets and pavements as provided by the City's distributive share of State Motor Fuel Tax and Motor Fuel Tax Revenue Bonds.

Public Building Commission Fund - For rentals of space and long-term lease obligations by the City as provided by tax levy.

Miscellaneous Fund - Expenditures for environmental management purposes related to liquid waste, inspection, operation of emergency communication system and other obligations, as provided by revenues from fees collected for disposal of liquid waste, by surcharges on telephone billings and transfers in.

Chicago Public Library Fund - Expenditures for acquisition, repairs, construction and equipment of library buildings; also library maintenance and operations as provided by proceeds of debt, fines and miscellaneous revenues.

Special Events, Tourism and Festivals Fund - Expenditures for promoting tourism, conventions and other special events projects in Chicago as provided by the State from Municipal Hotel-Motel Tax receipts and by proceeds from Jazz, Blues and Gospel Festivals and Taste of Chicago.

Health and Welfare Fund - For general assistance to be expended and administered by the Illinois Department of Public Aid as provided by patient fees, City and State grants and proceeds of debt, and for neighborhood human infrastructure projects designed to improve the quality of life for citizens.

PART III

STATISTICAL SECTION

(UNAUDITED)

This part of the City's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures and required supplementary information says about the City's overall financial health.,

Contents:

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The City implemented GASB Statement No. 34 in 2002; schedules presenting government-wide information include information beginning that year.

NOTES :

- 1) Total revenues include nonoperating revenues except for grants.
- 2) Total operating expenses excluding depreciation and amortization.
- 3) Other Available Funds is calculated only for the Water and Sewer funds, and is calculated as net current unrestricted assets as of December 31 of the prior year.
- 4) Net Revenue Available for Debt Service will not tie to the revenues from Exhibit 4 since not all revenue is available for debt service.

Notes:

- 1)An underlying rating by any rating agency for the related debt (or lowest rated lien of the related credit) below what is shown in the chart in the "Ratings Threshold" column would constitute an event of default under the agreements with the related banks.
- 2)The agreement with Barclays provides that it is an event of default if (A) any two Rating Agencies then rating the Debt of the City payable from or secured by Pledged Revenues which is senior to or on parity with the Bonds shall have downgraded their rating on such Debt to or below "Baa2" (or its equivalent) or "BBB" (or its equivalent), respectively, or (B) any Rating Agency shall have downgraded its rating of any Debt of the City payable from or secured by the Pledged Revenues which is senior to or on a parity with

the Bonds to below "Baa3" (or its equivalent) or "BBB-" (or its equivalent), respectively, or suspended or withdrawn its rating of the same and such downgrade, suspension or withdrawal shall remain for a period of 180 days.

3)An underlying rating by two of the three rating agencies, S&P, Fitch or Kroll, would constitute an event of default under the agreements with the banks.

4)O'Hare 2009 Program. 2016 Issue series A1-A3, B1-B3 and C1-C3.

Certain series of bonds were converted to fixed rate and are no longer included in the chart above. See Note 10 for additional information.
