OFFICE OF THE MAYOR

CITY OF CHICAGO
RAHM EMANUEL MAYOR

November 21, 2017

TO THE HONORABLE, THE CITY COUNCIL OF THE CITY OF
CHICAGO

Ladies and Gentlemen:

At the request of the Commissioner of Public Health, I transmit herewith an ordinance amending various sections of the Municipal Code regarding food regulation.

Your favorable consideration of this ordinance will be appreciated.

Very truly yours,

Mayor

ORDINANCE

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF CHICAGO:

SECTION 1. Chapter 2-112 of the Municipal Code of Chicago is hereby amended by deleting the language stricken through, by inserting the language underscored, and by adding new sections 2-112-005 and 2-112-162, as follows:

2-112-100 Implementation Adoption of health regulations rules.

a) Except as otherwise provided in subsection (b), The the board will formulate regulations is authorized to adopt rules for the implementation of health ordinances when in its opinion these are necessary, or are required pursuant to ordinance. Upon passage of these regulations rules and publication of a notice of their passage in a newspaper of general circulation, and the expiration of ten days, these rules and regulations shall have the effect of law. The publicized notice shall contain a brief description of the regulations rules and state the location where the full text of the regulations rules is available for public inspection. Upon request of any citizen the board shall hear objections and suggestions regarding regulations rules. The board may hold formal and informal hearings prior to the passage of regulations rules as it deems necessary. All meetings and hearings shall be open to the public.

b) The Commissioner of Health, not the Board of Health, is authorized to adopt rules which the Commissioner deems necessary or appropriate for the proper administration or enforcement of the provisions of this Code pertaining to the regulation of food establishments, including Chapters 4-8, 7-38, 7-40, and 7-42 of this Code. The Commissioner of Health shall notify the Board of Health when it adopts or amends rules pertaining to the regulation of food establishments as authorized in this subsection or other parts of this Code.

c) Nothing provided in this Section shall be construed to prohibit the Board of Health from adopting emergency rules or otherwise from taking action as provided in Section 2-112-110.

2-112-110 Emergency rules and regulations.

In case of communicable or epidemic disease or of danger from anticipated or impending communicable or epidemic disease, or in case a sanitary condition of the city shall be of such a character as to warrant it, it shall be the duty of the said board of health to make such rules and regulations and to take such measures and to do, and order to be done, and cause to be done, such acts for the preservation of the public health (though not herein or elsewhere or otherwise authorized) as it may in good faith believe and declare the public safety and health demand. All such rules and regulations so declared by the said board of health to be emergency rules and regulations shall take effect immediately, even if not yet published, but as soon as may be after the promulgation of the same, the said emergency rules and regulations shall be published, with notice that they are in force in the city.

2-112-160 Commissioner - Additional powers and duties.

The Commissioner of Health shall have the following powers and duties:

(a) Public health related powers and duties:

(1) To enforce all the laws of the state and provisions of this Code in relation to matters pertaining to the public health and sanitary conditions of the city, including Section 8-16-024;

4-8-032 License - Application - Automatic food vending machine business.

' (a) In addition to the general application requirements for a retail food establishment license, if a license applicant intends to engage in the automatic food vending machine (A.F.V.M.) business, he shall supply the following information:

1. A list of all vending machines operated by him and their location and the location of all commissaries or other establishments from which his machines are serviced. This information shall be available to the health authority upon request, and shall be kept current;

2. The identity and form of the products to be dispensed through vending machines; the types of A.F.V.M. machines intended to be operated, a description of each type, the number of employees, and such other information as the Ddepartment of Hhealth may require in order to inform it fully as to the types of machines and kinds of food to be dispensed of therein. The applicant shall notify the Ddepartment of Hhealth of any change in operations involving new types of vending machines, or conversion of existing machines to dispense products other than those for which the machine was built and for which the license was issued.

(b) Prior to "issuing a retail food establishment license which shall authorize a licensee to engage in the

automatic food-vending machine business, the Ddepartment of Hbealth shall approve the type of vending machine intended to be operated and shall make an inspection of the premises of the applicant, the commissary, supply storage, servicing, cleaning and sanitizing, and transport facilities and representative vending machines to determine their fitness from the standpoint of insuring protection of the food from improper handling, contamination and spoilage.

4-8-034 Automatic food vending machine identification.

Every automatic food vending machine, including machines operated under the prepackaged, nonperishable food exemption, shall be identified with the name and business address of the person or firm responsible for the maintenance of the machine and the address of the commissary serving that particular machine. Identification should be placed in a location visible to the public by means of a card, emblem, sticker or similar device. If the machine is maintained by a licensed food vending machine business, the identification shall also include the business' retail food establishment license number. Failure to properly affix and maintain such identification shall constitute a violation of this chapter, and in addition to any other measures provided for herein the Ddepartment of Hbealth may order any such unidentified machine removed or sealed and disabled.

4-8-036 License - Application and category- Mobile food vendors.

(a) In addition to the general application requirements,

1) an applicant for a mobile food vendor license to engage in a mobile food dispenser, mobile food preparer or mobile frozen desserts vendor business shall supply the name and address of the commissary where the vehicle or cart will be cleaned and serviced, and if the vehicle or cart is not stored at the commissary, the name and address of the place where such vehicle or cart will be stored when not in use. The Ddepartment of Hbealth shall approve such locations;

2) an applicant for a mobile food vendor license to engage in a mobile food dispenser or mobile food preparer business shall complete a consultation with the Ddepartment of Hbealth to review the proposed business practices, the vehicle and equipment to be used, and food safety operations prior to obtaining a mobile food vendor license. As part of this consultation, the applicant shall provide a proposed menu including a list of all food items the applicant intends to serve. At the time of consultation, an applicant for a mobile food vendor license to engage in a mobile food preparer business shall provide a City of Chicago Food Sanitation Manager Certificate issued to the applicant or the applicant's employee who will operate the mobile food truck;

13

3) an applicant for a mobile food vendor license to engage in a mobile food dispenser or mobile food preparer business shall make the applicant's mobile food vehicle available for inspection by the Ddepartment of Hbealth at a location determined by the Ddepartment of Hbealth:

4) an applicant for a mobile food vendor license who will use a propane tank or natural gas in the mobile food vehicle shall produce proof to the Ceommissioner of Bbusiness Aaffairs and Ceonsumer Pprotection that he has obtained general commercial liability insurance with limits of not less than \$350,000.00 per occurrence, combined single limit, for bodily injury and property damage arising in any way from the issuance of the license or activities conducted pursuant to the license. The insurance policy required under this subsection shall: (1) be issued by an insurer authorized to insure in Illinois; (2) name the City of Chicago as additional insured; and (3) include a provision requiring thirty (30) calendar days¹ advance notice to the Ceommissioner of Bbusiness Aaffairs and Ceonsumer Pprotection prior to cancellation or lapse of the policy. If a mobile food vendor license is issued to such applicant, such licensee shall maintain the insurance required under this subsection in full force and effect for the duration of the license period. The licensee shall also keep proof of the required insurance in the mobile food vehicle at all times when the vehicle is in use and, upon demand, shall produce such proof for inspection by an authorized city official. Failure to comply with the requirements of this section shall be grounds for the suspension or revocation of the license.

b) Except as otherwise provided in this subsection, in addition to the general application requirements, an applicant for a mobile food vendor license to engage in a produce merchant business shall provide the Ceommissioner of Bbusiness Aaffairs and Ceonsumer Pprotection with the following information:

(1) the applicant's Illinois Retailers' Occupation Tax number; (2) the type(s) of produce that the applicant proposes to sell; and (3) any other information that the commissioner may reasonably require. The inspection and approval requirements provided in Section 4-8-030(b) shall not apply to an applicant for a mobile food vendor license to engage in a produce merchant business.

c) The Commissioner of Business Affairs and Consumer Protection is authorized to issue color-coded emblems for the following mobile food vendor business categories:

1. A mobile food vendor license to engage in a mobile food preparer business.
2. A mobile food vendor license to engage in a mobile food dispenser business.
3. A mobile food vendor license to engage in a mobile frozen desserts vendor business.
4. A mobile food vendor license to engage in a produce merchant business.

d) The Commissioner of Business Affairs and Consumer Protection, in consultation with the Department of Transportation, Department of Police and the Office of Emergency Management and Communications, in the interest of preserving public safety or avoiding traffic congestion, may from time to time, by rule, set a limit on the number of total mobile food vendor licenses, in one or more categories, that may be issued at any given time; provided, however, no more than 10 percent of the total licenses in any mobile food vendor business category shall be issued to any one person. If the Commissioner of Business Affairs and Consumer Protection determines that there are more qualified applicants for mobile food vendor licenses than the maximum number of licenses that the Commissioner has set to issue at any given time, the Commissioner shall conduct a lottery or other neutral process for allocating licenses among qualified applicants as set forth by rules promulgated by the Commissioner.

4-8-037 Restrictions on mobile food vendors.

The City Council may from time to time define areas, in the interest of preserving public health and safety or avoiding traffic congestion, in which no mobile food vendor may

14

prepare or dispense food from a wheeled vehicle. The City Clerk shall maintain for public inspection and copying a file of all ordinances defining such areas.

(b) (a) License classifications. Shared kitchen licenses shall be divided into the classifications which follow:

Shared kitchen license: A shared kitchen license shall be required if the person seeking to engage in the exclusive or primary business of a shared kitchen does not hold a valid retail food establishment license under this chapter for the premises identified in the shared kitchen license application. The holder of a shared kitchen license may engage at such shared kitchen in any business activity authorized by a retail food establishment license if (1) such business activity is secondary or incidental to the primary business activity of shared kitchen; and

15

(2) such secondary or incidental business activity is permitted under the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago.

Shared kitchen-supplemental license: A shared kitchen-supplemental license shall be required if the person seeking to engage in the business of a shared kitchen (1) does hold a valid retail or wholesale food establishment license under this chapter for the premises identified in the shared kitchen license application; and (2) the business activity authorized by the shared kitchen license is secondary or incidental to the primary business activity for which such retail or wholesale food establishment license has been issued as set forth in the license application for such retail or wholesale food establishment license.

(e) (b) License application. All applications for a shared kitchen license shall be made in conformity with the requirements set forth in Section 4-8-030.

It is a condition of the license that all information in the license application be kept current. Any change in required information shall be reported in writing to the Commissioner of Business Affairs and Consumer Protection within fourteen (14) business days of such change.

(d) (c) License issuance prohibited when. In addition to the prohibitions set forth in

Section 4-8-025, no shared kitchen license shall be issued under this section:

1) to any person who is ineligible under this chapter or under the Chicago Zoning Ordinance, Title 17 of the Municipal Code of Chicago, to obtain a retail food establishment license or wholesale food establishment license, as applicable;

2) at the time of application for the initial license, unless and until the license applicant completes a consultation with the Department of Health to review equipment and food safety operations at the shared kitchen identified in the shared kitchen license application, as required under subsection (e) (d)(2) of this section;

3) at the time of application for the initial license, unless and until the Department of Health conducts, in accordance with the requirements set forth in subsection (e)(d)(1) of this section, a health risk assessment and inspection of the applicant's premises and equipment and food safety operations and determines, based on the results of such assessment and inspection, that the applicant's premises and equipment and food safety operations comply with the requirements of the Municipal Code of Chicago and any rules and regulations promulgated thereunder. Provided, however, that a health risk assessment and inspection within the meaning of this subsection (d)(c)(3) shall not be required as a condition for obtaining a shared kitchen-supplemental license under this section if, within the 12-month period prior to submitting an application for such shared kitchen-supplemental license, the retail food establishment identified in such application passed its most recent inspection by the Department of Health in accordance with the requirements applicable to "Category I facilities" as set forth in subsection

(b) (4)(A) of Section 615.310 of the Local Health Protection Grant Rules.

(e) (d) Health risk assessment- Consultation with Hbealth Ddepartment- Inspections.

1) Health risk assessment. For purposes of any health risk assessment required under subsection (d) (c)(3) of this section, shared kitchens shall be classified as a "Category I facility" within the meaning of subsection (b)(3)(A) of Section 615.310 of the Local Health Protection Grant Rules.

2) Consultation with Ddepartment of Hbealth. Prior to the initial issuance of any shared kitchen license, the license applicant shall complete a consultation with the Ddepartment of Hbealth to review equipment and food safety operations at the shared kitchen identified in the shared kitchen license application.

(3) Periodic inspections. In addition to any inspections required under subsection (d) (c)(3) of this section, all shared kitchens shall be subject to periodic inspections in accordance with the requirements applicable to "Category I facilities" as set forth in subsection (b)(4)(A) of Section 615.310 of the Local Health Protection Grant Rules. In addition, the Ddepartment of Hbealth may inspect a shared kitchen in response to any complaint of any violation at such

16

shared kitchen of the Municipal Code of Chicago or any rules and regulations promulgated thereunder.

(f) (e) Duties. A shared kitchen licensee shall have the following duties:

1) Accountability for use of licensed premises. A shared kitchen licensee shall ensure that any person engaged in the business of a shared kitchen user on the licensed premises is in compliance with (i) all equipment and food safety requirements set forth in the Municipal Code of Chicago and any rules and regulations promulgated thereunder; and (ii) all requirements set forth in subsection (e) of Section 4-8-039. The shared kitchen licensee and applicable shared kitchen user shall be jointly and severally liable for any violation of the requirements of this subsection

my,

2) Ensuring that users are properly licensed. A shared kitchen licensee shall ensure that any person engaged in the business of a shared kitchen user on the licensed premises is properly licensed under Section 4-8-039;

3) Recordkeeping required. A shared kitchen licensee shall keep and maintain on file or otherwise make immediately available on the licensed premises the following records: (i) a list of all shared kitchen users and their contact information; (ii) for each such shared kitchen user, a copy of the menu approved by the Ddepartment of Hbealth for use by such shared kitchen user;

iii) a list setting forth the date(s) and time(s) each shared kitchen user used the shared kitchen;

iv) the name of the person holding a valid sanitation certificate, issued by the Ddepartment of Hbealth, who was present on the licensed premise each time potentially hazardous time/temperature control for safety food was prepared, tasted, handled, packaged, prepared for storage, served or otherwise used by said shared kitchen user; (v) a copy of all agreements entered into by the shared kitchen licensee with each shared kitchen user, including the effective date and, if applicable, the termination date of each such agreement; (vi) a copy of each user's current shared kitchen user license; (vii) if the shared kitchen licensee discontinues, ends, terminates or otherwise withdraws from any contract or agreement authorizing a shared kitchen user to lease, rent or otherwise utilize such licensee's shared kitchen, a record of the date on which such contract or agreement was terminated by the shared kitchen licensee; and (viii) if the shared kitchen user discontinues, ends, terminates or otherwise withdraws from any contract or agreement with a shared kitchen licensee or such user otherwise indicates his or her intent to stop using the shared kitchen, a record of the date on which such act occurred. The records required to be kept by the shared kitchen licensee under this subsection (f) (e)(3) shall be maintained or otherwise made immediately available on the licensed premises by such licensee for a period of at least two years after the date of entry of such record. Upon request by any authorized city official, a shared kitchen licensee shall make such record(s) immediately available for inspection by such authorized city official;

4) Access to equipment and storage areas required. A shared kitchen licensee shall provide access for inspection by the Ddepartment of Hbealth or any other authorized city official to all locked equipment located in any storage area maintained by the shared kitchen licensee and used or made available for use by any shared kitchen user; and

5) Exceeding capacity- Prohibited. A shared kitchen licensee shall ensure that, at any given time, the number of shared kitchen users preparing food in the shared kitchen does not pose a health or safety risk.

(§) (f) License fee- Duration of license.

1) Shared kitchen license: The fee for a shared kitchen license shall be as set forth in Section 4-5-010 of this Code. Such shared kitchen license shall expire on the date indicated on the face of the license.

2) Shared kitchen-supplemental license: If the applicant for a shared kitchen-supplemental license applies simultaneously for a shared kitchen- supplemental license and a retail or wholesale food establishment license, the fee for such shared kitchen- supplemental license shall be as set forth in Section 4-5-010; such fee shall be in addition to the applicable

17

retail or wholesale food establishment license fee set forth in Section 4-5-010; and such shared kitchen-supplemental license shall expire on the same date that the applicable retail or wholesale food establishment license expires. If the applicant for a shared kitchen-supplemental license does not apply simultaneously for a shared kitchen-supplemental license and a retail or wholesale food establishment license, the fee for such shared kitchen-supplemental license shall be calculated on a pro rata basis, based on the number of months remaining on the applicant's retail or wholesale food establishment license, and such shared kitchen-supplemental license shall expire on the same date that the applicant's applicable retail or wholesale food establishment license expires.

(h) (g) Violation- Penalty. In addition to any other penalty provided by law, any person who violates any requirement of this section shall be subject to the fine set forth in Section 4-8-068.

(f) (h) License suspension or revocation. Any violation of any requirement of this section may result in license suspension or revocation in accordance with the requirements set forth in Section 4-4-280 of this Code.

~~"Shared kitchen user licensee" shall mean any person licensed or required to be licensed under subsection (e) of Section 4-8-020.~~

a) [^]-License classifications. Shared kitchen user licenses shall be divided into the classifications which follow

Long-term user license: The holder of a long- term user license is subject to no limitation on the number of properly licensed shared kitchens that such long-term user licensee may utilize, lease or rent during the applicable two-year license period. Provided, however, that nothing in this section shall be construed to prohibit a shared kitchen licensee from renting, leasing or otherwise authorizing the use of such licensee's shared kitchen for a period of less than two years.

Short-term user license: The holder of a short-term user license is entitled to utilize, lease or rent space at a properly licensed shared kitchen or any combination thereof for a period not to exceed ninety (90) consecutive calendar days, as measured from the date that such short-term user license is issued. Provided, however, that nothing in this section shall be construed to prohibit a shared kitchen licensee from renting, leasing or authorizing the use of such licensee's shared kitchen for a period of less than ninety (90) consecutive calendar days.

b) (e) License application. In addition to meeting the requirements set forth in Section 4-8-030, all applicants for a shared kitchen user license shall be required, as part of the license application, to submit:

1) a menu of the food items that such user intends to prepare, store, taste test, develop, package or otherwise handle or use for food-related purposes at the applicable shared kitchen; and

2) a written statement, signed by the owner or operator of each applicable licensed shared kitchen that the applicant uses or intends to use, containing the following information about each such shared kitchen: (i) the name and address of the shared kitchen, (ii) the shared kitchen's license number, (iii) a written authorization, signed by the owner or operator of the shared kitchen, stating that the applicant for the shared kitchen user license has been authorized by such owner or operator to rent, lease or utilize kitchen space at such shared kitchen; and (iv) the start date and, if any, the end date to which such authorization applies.

It is a condition of the license that all information in the license application be kept current. Any change in required information shall be reported in writing to the Ceommissioner of Bbusiness Aaffairs and Ceonsumer Pprotection within fourteen (14) business days of such change.

c) (d) License issuance prohibited when. In addition to the prohibitions set forth in Section 4-8-025, no shared kitchen user license shall be issued under this section:

1) if the Ddepartment of Hbealth fails to approve as safe the contents of any menu required under subsection (e) (b) (1) of this section to be submitted as part of the license application;

2) at the time of application for the initial license, unless and until the license applicant completes a consultation with the Ddepartment of Hbealth to review the applicant's proposed use of the applicable shared kitchen(s) and proposed food safety operations at such shared kitchen.

d) (e) Duties. A shared kitchen user shall have the following duties:

1) Conformity to approved menu required- Notification and approval of changes to approved menu required. A shared kitchen user licensee shall conform to the menu approved by the Ddepartment of Hbealth. Prior to adding any new item of food to such menu, or any new and potentially hazardous time/temperature control for safety food ingredient to any approved item of food on such menu, a shared kitchen user shall first obtain written permission to do so from the Ddepartment of Hbealth. The shared kitchen user shall provide a copy of the menu approved by the Ddepartment of Hbealth and any written permission obtained from the Ddepartment of Hbealth pursuant to the requirements of this subsection (e) (d) (1) to the licensee of each shared kitchen at which such shared kitchen user engages in the business of a shared kitchen user;

2) Conformity to food safety requirements and approved operational practices required. A shared kitchen user shall (i) comply with all food safety requirements set forth in the Municipal Code of Chicago and any rules and regulations promulgated thereunder; and (ii) conform to any operational practice required or approved by the Ddepartment of Hbealth in connection with the issuance of a license under this section. The shared kitchen user and applicable shared kitchen licensee shall be jointly and severally liable for any violation of the requirements of this subsection (e) (d)(2);

3) Potentially hazardous Time/temperature control for safety food - Sanitation certificate required. At all times that time/temperature control for safety potentially hazardous food is being prepared, tasted, handled, packaged, prepared for storage, served or otherwise used at a shared kitchen by a shared kitchen user, such shared kitchen user shall have on site at the shared kitchen a person who holds a current sanitation certificate issued by the Ddepartment of Hbealth. Upon request by any authorized city official, the shared kitchen user shall make such certificate immediately available for inspection by such authorized city official;

4) License- Required on site. A shared kitchen user shall have their city-issued shared kitchen user license or a copy thereof or any badge that may be issued and required by the Ddepartment as evidence of such shared kitchen user license on site at all times when the shared kitchen user is utilizing a shared kitchen. Upon request by any authorized city official, the

shared kitchen user shall make such license or a copy thereof or any required badge immediately available for inspection by such authorized city official; and

(5) Recordkeeping- Required. A shared kitchen user shall keep and maintain on file the following records: (i) a list identifying the date(s) and time(s) such user utilized a shared kitchen, and (ii) a copy of the

written statement, signed by the owner or operator of the shared kitchen, stating that the applicant for the shared kitchen user license has been authorized by such owner or operator to rent, lease or utilize such shared kitchen, and identifying the start date and, if any, the end date to which such authorization applies. The records required under this subsection (e) (d)(6) shall be maintained by the user for a period of at least two years after the date of entry of such record. Upon request by any authorized city official, the shared kitchen user shall make such records immediately available for inspection by such authorized city official.

on which any person shall be guilty of such violation; provided that, the intervening days between when a license holder whose license has been suspended applies for restoration of the license and a reinspection has been conducted by the Department of Health shall not constitute separate offenses if the violation was found to be corrected upon reinspection. A motor vehicle that is used in a second or subsequent violation of subsection (c-5) of this section shall be subject to seizure and impoundment under this subsection (i). The owner of record of such vehicle shall be liable to the city for an administrative penalty of \$750.00 in addition to fees for towing and storage of the vehicle. Whenever a police officer has probable cause to believe that a vehicle is subject to seizure and impoundment pursuant to this subsection, the police officer shall provide for the towing of the vehicle to a facility controlled by the city or its agents. When the vehicle is towed, the police officer shall notify the person who is found to be in control of the vehicle at the time of the alleged violation if there is such a person, of the fact of the seizure and of the vehicle owner's right to request a preliminary hearing to be conducted under Section 2-14-132 of this Code. The provisions of Section 2-14-132 shall apply whenever a motor vehicle is seized and impounded pursuant to this section. A violation of any provision of this section other than subsection (c-5) shall be punishable under Section 7-38-575.

7-38-117 Mobile food vehicle stands program.

- a) A mobile food vehicle stands program ("program") is hereby created as provided in this section.
- b) The following definitions shall apply for purposes of this section:
 - 1) "Commissioner" means the city's Commissioner of Transportation.
 - 2) "Block" means both sides of the part of a street that lies between two intersecting streets, as the term "street" is defined in section 9-4-010 of this Code.
 - 3) "Stand" means a mobile, food vehicle stand established by the commissioner pursuant to this section.
- c) The Commissioner is authorized, subject to the approval of the City Council, to establish stands where mobile food vehicles may be operated at all times or during certain specified periods, if, after consulting with the alderman of the ward in which a proposed stand will be located and the Department of Police, the Commissioner determines that establishing such a stand: (1) will not create undue safety hazards in the use of the street by vehicular or pedestrian traffic; (2) will not impede the safe and efficient flow of traffic upon the street on which the mobile food vehicle stand is proposed; and (3) will provide benefit and convenience to the public. After engaging in the above consultations and posting appropriate signs, the Commissioner may amend the time of operation of mobile food vehicles at a mobile food stand. A minimum of 5 such stands shall be established in each community area, as such areas are designated in section 1-14-010 of this Code, that has 300 or more retail food establishments.

d) The Ceommissioner shall designate mobile food vehicle stands by appropriate signs or curb markings or both. It shall be unlawful to stand or park a vehicle, other than mobile food vehicles, in violation of signs posted, in any mobile food vehicle stands that the Ceommissioner has designated by appropriate signs or markings; provided, however, that this provision shall not apply to a vehicle engaged in the expeditious loading or unloading of passengers when such standing does not interfere with a mobile food vehicle waiting to enter or about to enter into such a stand.

e) Notwithstanding any other provision of this Code, in a block where a mobile food stand is established pursuant to this section, no person shall operate a mobile food vehicle from any other place on the public way in such block face except from the designated mobile food stand

31

f) Operators of mobile food vehicles that operate from a mobile food stand shall be subject to the provisions of this section and all applicable requirements of this chapter, including section 7-38-115(b)(i) except for the requirement in section 7-38-115(f).

g) The Ceommissioner and the Ceommissioner of Bbusiness Aaffairs and Ceonsumer Pprotection shall have power to adopt rules as may be necessary or useful for the proper administration and enforcement of this program, including rules pertaining to the operation of mobile food vehicles from a designated mobile food stand.

h) The Ceommissioner and the Ceommissioner of Bbusiness Aaffairs and Ceonsumer Pprotection shall evaluate the effectiveness of the program and may recommend changes as may be adopted by ordinance.

(i) The Ceommissioner of Transportation is authorized to establish a mobile food vehicle stand within the side of the block where each of the following addresses is located:

(Omitted text is not affected by this ordinance)

7-38-120 Name and license number.

Every mobile food vendor shall have the business name and license number legibly painted affixed in letters and figures at least two inches in height in a conspicuous place on each lateral side of such vendor's mobile vehicle.

7-38-124 Refuse receptacles.

The operator of a mobile food vendor vehicle shall maintain a suitable, tight, non-absorbent washable receptacle for refuse. The operator shall ~~<http://shall>~~ .be ~~<http://be>~~ responsible for sanitation of the environs of the place of operation, if applicable, including the mobile food vehicle stand area used by the operator. Said refuse receptacle shall be adjacent to, but not an integral part of, the mobile food vendor vehicle. The operator of a mobile food vendor vehicle shall dispose refuse collected from the mobile food vendor vehicle and the environs of the place of operation at a commissary approved by the Ddepartment of Hhealth.

7-38-126 Inspections.

Mobile food vendors shall make their vehicles available for inspection at the commissary approved or at a location determined by the Ddepartment of Hhealth on a schedule determined pursuant to rules and regulations adopted by of the board Department of Hhealth.

Nothing provided in this section shall be construed to prohibit the Ddepartment of Hhealth from conducting periodic inspection of mobile food vendor vehicles as provided in this Code.

7-38-128 Enforcement.

a) Except as otherwise provided in this chapter, the Commissioner ~~board~~ of Hhealth shall have authority to ~~enact~~ adopt rules and regulations for the effective implementation of Article II of this Chapter, including regulations pertaining to construction and size requirements for mobile food vehicles, and, with input from the Ffire Ddepartment, regulations pertaining to the installation, use, safety, and maintenance of propane tanks and natural gas apparatus in a mobile food vehicle.

b) Except as otherwise specified in this chapter, any person who violates Article II of this Chapter

shall be fined as provided in Section ~~7-38-575~~ 7-42-090 of this Code.

c) In addition to any other city department that has enforcement authority, the Department of Business Affairs and Consumer Protection and the Department of Transportation shall have authority to enforce sections 7-38-115 and 7-38-117 of this Chapter.

32

(d) Any person who violates sections 7-38-115 and 7-38-117 of this chapter shall be fined not less than \$1,000.00 and not more than \$2,000.00 for each offense. Each day that the violation occurs shall be considered a separate and distinct offense.

Part B. Mobile Food Dispensers

7-38-130 Preparation and service of food and drink.

(a) No food shall be sold or served by a mobile food dispenser, except the following:

1) Individual portions of food that are totally enclosed in a wrapper or container and which have been manufactured, prepared or wrapped in a food establishment licensed by the city or a food establishment which is operating under the state or local health authority if the statute or ordinance regulating such food establishment is substantially equivalent to this chapter. Such food may undergo a final preparation step immediately prior to service to a consumer, provided such final preparation steps conform with the rules and regulations of the Department of Health.

2) Coffee which is prepared in a duly licensed retail food establishment, refrigerated cream which is kept in a covered single-service container or an approved cream dispenser, and sugar which is served only in wrapped individual packages or in a covered closed pouring-spout type container, or in any other manner approved by the Department of Health, which is effective in preventing contamination;

3) Other bulk soft drinks or beverages which are dispensed from an approved dispenser only. These approved bulk soft drink dispensers shall be serviced and filled only at a duly licensed retail food establishment which serves as a commissary for the mobile food dispenser. The drink outlet on all bulk liquid dispensers shall be protected from flies, dust and contamination;

4) Individual portions of ice cream, ice milk, frozen dessert mix, sundaes or other frozen desserts that are totally enclosed in a wrapper or container and which have been manufactured, prepared or wrapped in a licensed food establishment; and

5) Whole and uncooked fruits or vegetables.

(b) No mobile food dispenser licensee shall operate as a mobile food preparer without complying with all the requirements to operate as a mobile food preparer.

7-38-132 Sinks, water storage tanks and other plumbing requirements.

All mobile food dispenser vehicles that engage in a final preparation step as defined in the rules of the Department of Health shall be equipped with a handwashing sink and an adequate supply of running hot and cold water. The water storage tank shall be self-draining and cleaned and flushed not less than twice in each six-month period. Liquid waste from the handwashing sink shall be piped in fixed piping to a liquid waste retention tank 50 percent larger than the water storage tank. The liquid waste retention tank shall be located in a separate area from food storage or food-contact surfaces. The connection between the piping from the sink and the liquid waste retention container shall be tight-fitting and comply with the plumbing sections of this Code. The liquid waste retention tank shall be emptied daily or more often if necessary, and only into a sanitary drainage facility in a manner and place approved by the Department of Health.

Liquid waste shall not be discharged from the retention tank when the mobile food vehicle is in motion.

Part C. Mobile Food Preparers 7-38-134 Mobile

food preparers - Operational requirements.

33

a) Any food sold or served by a mobile food preparer shall be prepared or wrapped in the mobile food vehicle or a-eef in a duly licensed retail food establishment.

b) All ~~perishable~~ time/temperature control for safety food products shall be stored as provided in this chapter and rules and ~~regulations adopted by~~ of the board Department of Hbealth until served to a customer. No food that is sold or served from a mobile food preparer's vehicle shall be stored or prepared in a residential home.

c) During transportation and storage, food equipment, supplies and food contact surfaces shall be protected from contamination.

d) Mobile food preparers shall list the food ~~purveyor~~ establishments from where they purchase articles of food on a daily basis. Mobile food preparers shall also keep in the vehicle copies of invoices from the foods' point of origin for thirty (30) calendar days for all food items except that invoices for shellfish must be kept for ninety (90) calendar days.

e) Mobile food preparers shall also comply with the rules of the Department of Health and the following food and equipment handling requirements:

1) no food shall be stored, displayed, or served from any place other than the mobile food vehicle. The use of tables, benches, and other such devices to display or serve food is prohibited;

2) food condiments shall be protected from contamination. Food condiments provided for customer self-service shall be prepackaged or contained in approved dispensing devices;

3) food products remaining after each day's operation shall be stored only in a licensed food establishment. Potentially hazardous Time/temperature control for safety foods held at or above the temperature prescribed in the rules of the Department of Health at or above 140 degrees Fahrenheit on a mobile food vehicle shall be discarded at the end of the day;

~~(4) -utensils and equipment shall be handled and stored so as to be protected from contamination. Single service utensils shall be obtained from sanitary containers or approved sanitary dispensers, stored in a clean, dry place until used, handled in a sanitary manner, and used only once;~~

~~(5) wiping cloths must be stored in a clean solution containing 100 parts per million of available chlorine as a hypochlorite. Other approved sanitizing compounds at appropriate concentrations may be used. A testing strips kit shall be provided to check the concentration of the sanitizing solution;~~

~~{§} (4) customer self-service of unpackaged foods is prohibited; and~~

~~(7-) thermometers shall be provided for all warming units and refrigeration units. A probe-type thermometer shall also be available for use on a mobile food vehicle that handles potentially hazardous foods;~~

~~(8)-all potentially hazardous foods shall be maintained at or below 40 degrees Fahrenheit or at or above 140 degrees Fahrenheit at all times; and~~

~~{©} (5) all mobile food trucks must have a person present who is a City of Chicago certified food service manager present when food is being prepared or served. All other employees who handle food or food equipment shall have food handler training as required by the State of Illinois.~~

f) The Commissioner board of Hbealth shall have authority to provide by rules and regulations additional sanitation requirements and procedures for the operation of mobile food trucks preparers.

7-38-136 Mobile food trucks.

(a) All mobile food trucks shall be equipped with a handwashing sink and a three-compartment sink with a potable water system under pressure. The system shall be of sufficient capacity to furnish enough hot and cold water for food preparation, utensil cleaning and

34

sanitizing, and handwashing in accordance with the requirements of the Ddepartment of Hbealth. The water storage tank shall be self-draining and cleaned and flushed once every 24 hours. The water inlet shall be located so that it will not be contaminated by waste discharge, road dust, oil, or grease and it shall be kept capped unless being filled. The water inlet shall be provided with a transition connection of a size or type that

will prevent its use for any other service. All water distribution pipes or tubing shall be constructed and installed in accordance with the requirements of the plumbing sections of this Code.

(b) A mobile food truck shall be equipped with a permanently installed liquid waste retention tank that is of at least 50 percent larger capacity than the water supply tank. Liquid waste shall be piped in a fixed piping to the liquid waste retention tank. Additionally, all connections on the vehicle for servicing shall be of different size or type than those used for supplying potable water. Liquid waste shall not be discharged from the retention tank when the mobile food vehicle is in motion. The connection between the piping from the sink and the liquid waste tank shall be tight-fitting and comply with the plumbing sections of this Code. The liquid waste tank shall be emptied daily or more often if necessary, and only into a sanitary drainage facility in a manner and place approved by the Ddepartment of Hhealth. The liquid waste retention tank shall be located in a separate area from food storage or food-contact surfaces. The liquid waste retention tank connection shall be located lower than the water inlet connection to preclude contamination of the potable water system.

7-38-138 Servicing a mobile food truck.

a) The commissary linked to a mobile food preparer must have a servicing area approved by the Ddepartment of Hhealth. The servicing area shall comply with the following requirements:

1) the servicing area shall include at least an overhead protection for any supplying, cleaning, or servicing operation. The servicing area must have a location for the flushing and drainage of liquid waste which is separate from the location for water servicing and for the loading and unloading of food and related supplies;

2) the surface of the servicing area shall be a smooth non-absorbent material, such as concrete or machine-lad asphalt and shall be maintained in good repair, kept clean, and graded to drain.

b) The mobile food truck's liquid waste retention tank must be thoroughly flushed and drained during the servicing operation. All liquid waste shall be discharged to a sanitary sewage disposal.

c) The mobile food truck's grease, where used, shall be drained into a storage bin approved by the Ddepartment of Hhealth. No grease shall be discharged to the sanitary sewage disposal.

d) Garbage disposals shall be installed in compliance with the plumbing sections of this Code.

e) A commissary must keep a log of all mobile food trucks serviced by the commissary as well as the date and time the trucks were serviced.

f) Mobile food trucks must report to a commissary at least once per day for servicing.

Part D. Mobile Desserts Vendors

7-38-140 Mobile desserts vendor.

Except as otherwise provided in this section, a mobile desserts vendor shall comply with all applicable requirements of this Code, including the requirements set forth in Article II, Parts A and B of this Chapter, and the rules and regulations of the Ddepartment of Hhealth pertaining to mobile units handling frozen desserts. A mobile desserts vendor is not required to comply with the following requirements:

35

- 1) the hot food storage and heating appliance requirements set forth in Section 7-38-090;
- 2) the sinks, water storage tanks and plumbing requirements set forth in Section 7-38-132;
- 3) the refuse receptacle requirements set forth in Section 7-38-124;
- 4) the mobile food vehicle requirement set forth in 7-38-075(b); and
- 5) the additional vehicle requirements set forth in Section 4-8-293.

Part E. Produce Merchants

7-38-142 Produce merchants - Operational requirements - Unlawful acts.

It shall be unlawful for any produce merchant to engage in any of the following activities at any produce stand operated by such produce merchant:

- 1) To equip such produce stand with an electronic sound-amplifying device;
- 2) Unless specifically allowed by the Ceommissioner of Bbusiness Aaffairs and Ceonsumer

Protection pursuant to objective criteria adopted by rule, to make sales from such produce stand between the hours of 10:00 P.M. and 6:00 A.M.;

3) To fail to comply with any applicable rules and regulations, including, but not limited to, any rules and regulations governing the physical characteristics, size, appearance or signage of a produce stand;

4) To conduct business activities at such produce stand in a manner that impedes the flow of vehicular or pedestrian traffic;

5) To use a portable generator at such produce stand or to connect such produce stand to water, electrical or utility services of any type;

6) To dump or dispose of water or waste onto the public way, private or public property;

7) To obstruct or block any sidewalk, driveway, public way, parking zone, loading zone or drop-off zone at or in connection with the operation of such produce stand;

8) To sell any items at such produce stand other than: (i) produce, or (ii) beverages meeting the definition of "prepackaged and non-perishable food" in Section 4-8-010. Any such beverages sold shall not contain more than 1 gram of added sugars per serving as the term "added sugars" is defined by the U.S. Food and Drug Administration at 21 CFR Section 101.9(c)(6)(iii);

9) To combine any activity authorized under a mobile food vendor license to engage in a produce merchant business with any activity for which a different or separate license or permit is required under this Code, other than a public way use permit issued under Chapter 10-28 of this Code, including, but not limited to, any permit required in connection with participation in any farmers' market, as defined in Section 4-12-010, or any outdoor special event, as defined in Section 10-8-335;

10) To display produce items at such produce stand on the ground or in any area other than the designated produce stand;

11) To fail to affix and display in a conspicuous location at such produce stand a copy of a valid mobile food vendor license to engage in a produce merchant business, and, if the produce stand is on the public way, a valid public way use permit issued by the Department of Business Affairs and Consumer Protection;

12) To use or to cause to be used any open fire or flame at such produce stand, including, but not limited to, any candle, open-flame heating device, open-flame illuminating device, torch or similar object;

13) To allow such produce stand to touch, lean against or be affixed to any building, structure, vehicle or other fixture;

14) To fail to keep the area within 20 feet of such produce stand free of trash;

15) To fail to keep on the licensee's person, at all times when such produce display stand is being set up, operated or disassembled, proof that the owner of the property on which

36

such produce display stand is located has given the licensee written permission to erect and operate such produce display stand at that specific location at that specific time, or that the licensee has been issued a public way use permit for the operation of a produce stand at that specific location;

16) To exceed the scope of any written permission given to the licensee by the owner concerning the operation of such produce stand on the owner's property, or the scope of any public way use permit;

17) To operate a produce stand directly in front of or immediately adjacent to any fixed business engaged in the business of selling the same produce as sold at the produce stand, or to operate a produce stand within 200 feet of another produce stand.

7-38-146 Designating areas underserved by grocery stores.

The Commissioner of Planning and Development shall (1) identify areas underserved by grocery stores using data gathered by the Department of Planning and Development, the Department of Health, the Department of Business Affairs and Consumer Protection and other appropriate city departments; (2) post and maintain on the city's website a current list or map of such areas, along with a summary statement of the data supporting the designation of such area as an area that lacks adequate access to fresh and healthy food; and (3) promptly notify the Commissioner of Business Affairs and Consumer Protection in writing of any change to such list or map.

Part F. Mobile Prepared Food Vendors

7-38-148 Mobile prepared food vendor.

Except as otherwise provided in this section, a mobile prepared food vendor shall comply with all applicable requirements of this Code, including the requirements set forth in Article II, Parts A and B of this chapter, and the rules and regulations of the Department of Health pertaining to mobile units handling food. A mobile prepared food vendor is not required to comply with the following requirements: >

- 1) the additional vehicle requirements set forth in Section 4-8-293;
- 2) the mobile food vehicle requirement set forth in 7-38-075 (b), (c), (d), (e) and (f);
- 3) the mobile food vehicle operational requirements in 7-38-115;
- 4) the mobile food vehicle stands program in Section 7-38-117; and
- 5) the sinks, water storage tanks and plumbing requirements set forth in Section 7-38-

132.

Article III. Automatic Food - Vending Machines

7-38-150 Vending machines - Food manufacture, delivery and storage.

All food offered for sale through vending machines shall be manufactured, processed, prepared in and delivered from commissaries or establishments which comply with the health and sanitation requirements for food service establishments set forth in this Code and in the rules and regulations of the Department board of Health. All single-service containers, food and food-contact surfaces transit to vending machine locations.

~~All food offered for sale through vending machines shall be manufactured, processed, prepared in and delivered from commissaries or establishments which comply with the health and sanitation requirements for food service establishments set forth in this Code and in the rules and regulations of the Department board of Health. All single-service containers, food and food-contact surfaces transit to vending machine locations.~~

The name and address of the person processing or manufacturing or wrapping portions of potentially hazardous food products shall appear on each individual portion. No person shall keep or offer for sale individual portions of potentially hazardous food products which have been rewrapped or repackaged or portions of which the identifying date on the wrapper has been altered, disfigured or changed in any manner.

7-38-160 Dried milk products and nondairy coffee whiteners.

Dried milk products may be reconstituted automatically within the vending machine only when used as a whitener for coffee or tea; provided, that the mixing chambers or bowls and food-contact surfaces downstream from such mixing units are maintained at safe temperatures and further provided that the product is reconstituted for immediate dispensing in individual unit servings. Where nondairy coffee whiteners or imitation milk products are used or served, a statement to that effect shall be displayed on the vending machine.

7-38-165 Sanitary requirements-Vending machine canisters and food-contact surfaces-Vending machine canisters and all other food contact surfaces used for the transfer of milk products or other readily perishable food products shall be effectively cleaned and sanitized at approved, fixed facilities at the commissary by methods approved by the health authority. After sanitization, the canister and other food contact surfaces shall be fully wrapped in a single service bag or cover which shall not be opened until the canister or other unit is installed in the refrigerated compartment of the vending machine. Canisters and other readily perishable food-contact surfaces shall be so designed and constructed that the handling of product contact surfaces at the machine located is unnecessary, and such surfaces shall not be handled during unit installation, tube insertion or product transfer.

All multi use containers or parts of vending machine which came in direct contact with readily perishable food, except bulk milk vending machines, shall be removed from the machine daily and shall be thoroughly cleaned and effectively sanitized at the commissary or other approved facility.

7-38-175 Sanitary requirements-Nonreadily perishable food-contact surfaces.

All parts of vending machines which come into direct contact with other than readily perishable food shall be thoroughly cleaned by approved methods. The frequency of such cleaning shall be established by the health department.

7-38-180 Vending machine area maintenance.

Each vending machine shall be located in a room, area or space which can be maintained in a clean condition and which is protected from overhead leakage or condensation from water, waste or sewer-piping. The immediate area in-which the machine is located shall be well-lighted. Each vending machine shall be so located that the space around and under the machine can be easily cleaned and maintained, and so that insect and rodent harborage is not created. The board of health shall publish such regulations as are necessary to ensure the sanitary maintenance of the vending machine area.

38

7-38-185 Vending machine construction, design and maintenance.

The vending machine shall be of sturdy construction and the exterior shall be designed, fabricated, finished and maintained so as to facilitate its being kept clean, and to minimize the entrance of insects and rodents. The exterior of the machine shall be kept clean. The board of health shall publish regulations concerning the construction, design and maintenance of the vending machine.

7-38-190 Water supply and plumbing requirements.

All water used in vending machines shall be supplied under pressure properly connected to the city water supply. All plumbing connections and fittings shall be installed in accordance with the requirements of that portion of the Municipal Code relating to water supply and distribution.

All vending machines which are connected to the city water supply shall comply with the requirements of that portion of the Municipal Code relating to water supply and distribution.

In all vending machines which are connected to the city water supply system, where the ingredient water is used, before any vending machine can be connected to the city water supply, the owner of the machine shall obtain a permit from the health department.

7-38-195 Trash and waste disposal-All trash and other waste material shall be removed from the machine location as frequently as may be necessary to prevent nuisance and unsightliness, and shall be disposed of in an approved manner.

Self-closing, leakproof, easily cleanable, plainly labeled and designated metal waste container or containers shall be provided in the vicinity of each machine or machines to receive used cups, cartons, wrappers, etc.

Containers shall be provided within all machines dispensing liquid food in bulk for the collection of drip, spillage, overflow or other internal wastes. An automatic shutoff device shall be provided which will place the valve in the closed position when the container is full.

7-38-210 Vending machines-Out-of-service procedure.

When suspicion arises that a food or beverage adulterated, contaminated or unwholesome food or drink, or is infested with vermin, the owner, operator, employee or the health authority shall cause it to be placed out of service until provisions satisfactory to the department of health have been made to cure the problem.

7-38-214 Water-vending machines - Equipment and maintenance.

a) Responsibility for ensuring compliance with the requirements of this section shall be placed both on the owner of the machine and the operator of the retail food establishment where a water-vending machine is located.

b) No water-vending machine shall be installed, used or maintained, or permitted to be installed, used or maintained, unless inspected and approved by the Departments of Health and Water Management.

c) The source of water to a vending machine shall be obtained from the Chicago waterworks system.

d) A backflow device which has been approved by the department of water management shall be installed in the water supply pipe between the vending machine and the source of water.

e) The water dispensing spigot in each vending machine shall be protected from contamination and from contact with the receiving container.

f) An air gap shall be provided between the water dispensing spout and the water container which is at least equal to four times the diameter of the water dispensing supply pipe.

g) All water-vending machines shall be kept in an area which is free of dirt and debris

h) Any overflow or discharge of the water from the vending machine shall be indirectly connected to a sewer or to waste in accordance with the Chicago Plumbing Code (section 13-168-900(1) of the Municipal Code).

(i) All water-vending machines shall have displayed in a conspicuous place on the appliance a statement that the owner of the machine and the operator of the retail food establishment where the machine is located are responsible for the quality of the product. At the time of purchase, literature that has been reviewed and approved by the department of health shall be made available to the consumer which describes the contents of the product, the

(j) The treated water dispensed by the vending machine shall be tested semi-annually by a state certified laboratory. The semi-annual tests shall, at a minimum, include tests for coliform, heterotrophic plate counts, and nitrates. Additional tests may be required if initial test results are unacceptable.

(k) The owner of the water vending machine shall provide the department of health with

an annual written report on maintenance procedures, including, but not limited to: (4) Records of replacement of carbon prefilters and

40

(2) Records of bi-weekly cleaning and inspection of filter housing;

3) Records of dispenser nozzle maintenance to prevent observable leakage;

4) Records of UV light replacement and cleaning; (5) Records of the use of food-grade lubricants; and

(6) Records of an annual backflow preventer inspection.

7-38-216 Water-vending machines-Water containers.

~~-(a)-The operator of the retail food establishment where a water-vending machine is located may provide single service water containers which shall be sterilized prior to use.~~

~~(b) The department of health may authorize the use of pre-approved reusable water containers and set forth regulations for their use.~~

7-38-218 Water-vending machines-Rules and regulations.

~~The board of health and the commissioner of the department of water management shall be authorized to promulgate rules and regulations as may be necessary for the proper administration and enforcement of the provisions of this Code pertaining to water-vending machines.~~

Article IV. Coffee Cart Vendors

7-38-220 Coffee carts - Required features.

~~Every coffee cart used by a coffee cart vendor in the conduct of said business shall have the following features: comply with the rules and regulations of the Department of Health. -(a)-an electrical system of sufficient capacity to maintain safe operation of the refrigeration and water heating units required under this section;~~

~~(b) a self-contained refrigeration unit, capable of maintaining a temperature of 40 degrees Fahrenheit or lower; -(c)-a water heater capable of maintaining a temperature of 145 degrees Fahrenheit; -(&)-a retractable sink, dispensing hot and cold running water, for the personal use of the operator of the cart;~~

~~-(e)-a hot water storage tank of sufficient capacity to allow proper use of the retractable sink; -(f)-a removable tank to receive and securely hold wastewater from the retractable sink; -(g)-exterior surfaces of the cart and all interior surfaces of the refrigeration unit, water heater, sink and wastewater tank shall be constructed of durable, waterproof and scrubbable materials; -(b)-such additional features related to the safe dispensing of coffee and flavorings as the department of health may require.~~

7-38-225 Coffee flavorings.

~~Dairy products used as coffee flavorings shall be kept refrigerated in covered single service containers or approved dispensers. Other coffee flavorings shall be served in wrapped individual packages or in a covered closed pouring spout type container, or in any other manner approved by the department of health, which is effective in preventing contamination by the customer.~~

Article V4V. Slaughtering, Rendering and Packing Establishments

7-38-495 Notice to alderman.

Thirty (30) calendar days before a wholesale food establishment license which authorizes an applicant to engage in the business of a slaughtering, rendering and packing establishment may be issued to an

applicant who has not been previously licensed to engage in such business, the city clerk shall mail a notice of such application to the alderman representing the ward in which the applicant intends to engage in such business, and to the alderman whose ward or any part thereof is within a radius of three miles from the proposed location for which application is made to carry on such business.

7-38-500 Unlicensed premises - Slaughtering permitted when.

The slaughtering of animals for food shall not be permitted or conducted in any place in the city other than in a duly licensed slaughterhouse, except as authorized in this section.

Any person desiring to slaughter sheep or goats for a period of only one day in a place not duly licensed as a slaughterhouse shall make application to the Ddepartment of Bbuildings for a permit for such slaughtering.

If the Ddepartment of Bbuildings, upon investigation, shall find that the place where such slaughtering is to be carried on is in a good sanitary condition and the slaughtering can be conducted without causing a nuisance, it may issue a permit to carry on such slaughtering for a period of time not exceeding one day at the place mentioned in said application.

The fee for such permit shall be \$5.00, which fee shall cover the cost of the necessary inspection service.

7-38-520 Hours for slaughtering.

No owner or person in possession, charge or control of a slaughterhouse shall slaughter animals for food between the hours of 7:00 p.m. and 7:00 a.m. or on Sundays, without first notifying the Ddepartment of Bbuildings.

7-38-550 Conveyance of refuse.

No offal or butcher's refuse shall be conveyed through any public way or public place within the city without a permit from the Ddepartment of Bbuildings.

Vehicles conveying such refuse shall be constructed of one or more tight compartments, each of which compartments shall be covered with a wooden or sheet metal cover attached to such compartments by substantial hinges.

7-38-555 Sleeping on premises prohibited.

43

No person shall use for the housing, sheltering and harboring of its employees or other persons any packing or slaughterhouse or any place which is occupied for the purpose of slaughtering or rendering cattle, sheep or hogs, or of dressing, cleaning, treating or preparing for shipment or canning meats and other foodstuffs by hand or machinery, or cause or permit same to be used as sleeping quarters or living apartments by such employees or other persons. Any such house or place so used or occupied for sleeping or living purposes is hereby declared to be a nuisance.

Whenever any such nuisance shall be found upon any premises within the City, the Ddepartment of Bbuildings is hereby authorized and directed to cause the same to be summarily abated in such a manner as it may direct.

For the purpose of carrying the foregoing provisions into effect, it shall be the duty of the Ddepartment of Bbuildings to cause to be detailed a sufficient number of police immediately upon complaint of any citizen. These police shall make a thorough and systematic examination of any such plant or plants and building or buildings and ascertain and report any such violations of this section, and for this purpose investigators shall be permitted at all times to visit or enter upon any building, lot or ground within the city limits and make examination thereof.

7-38-560 Inspection.

The Department of Buildings, or any of its authorized employees, shall be permitted entrance at all hours of the day or night to all buildings used for the business of a slaughtering, packing and rendering establishment, and shall further be permitted to make free and unrestrained examination of all apparatus or utensils used in such business, or in the disposition of gases generated in such business, and all matters and things relating to the health of the community.

7-38-570 Abatement of nuisance.

In all cases where a nuisance shall be found in any building or upon any ground or other premises used for the slaughtering or rendering, 24 hours notice shall be given in writing, signed by the Commissioner of the Department of Buildings, to the owner or occupant of such building or other premises, where he is known and can be found, to remove such nuisance. In case of his neglect or refusal to abate the same, in accordance with such notice, the Commissioner of the Department of Buildings is hereby authorized in his discretion to cause the same to be summarily abated in such manner as he may direct, and such person shall be chargeable with the expenses which may be incurred in the abatement or removal of such nuisance, to be collected by suit or otherwise, in addition to the fine and penalty provided for.

Article VH VI. Penalty for Violation of Chapter Provisions

7-38-575 Violation - Penalty.

The board of health shall promulgate rules and regulations classifying violations of this chapter as critical, serious or minor priority, priority foundation and core. Any person who

for each critical priority violation; and \$250.00 for each serious priority foundation violation.; and \$250.00 for each minor violation that is not corrected upon reinspection by the health authority. A separate and distinct offense shall be deemed to have been committed for each and every day on which any person shall be guilty of such violation; provided that, the intervening days between when a license holder whose license has been suspended applies for restoration of the license and a reinspection has been conducted by the department of health shall not constitute

44

separate offenses if the violation was found to be corrected upon reinspection. The penalty for violations of this chapter is set forth in Section 7-42-090.

SECTION 4. Chapter 7-40 of the Municipal Code of Chicago is hereby amended by deleting the language stricken through and by inserting the language underscored, as follows:

Article I. General Provisions

7-40-005 Protection of food.

~~It shall be unlawful for any person to sell, transport, convey or carry from one place to another any food within the~~
All foods shall be protected from contamination in all places, other than a private dwelling, where such foods are displayed, stored, offered, prepared, cooked, or served.

The protection which shall be considered adequate for food kept in rooms of buildings which are free from flies shall be an enclosure consisting of a front and top covering extending not less than 12 inches back from such front, which front and top shall be made of glass, wood, sheet metal or material of a similar character which is impervious to dust, and sides of impervious material or 20-mesh screen or material of a similar character that will protect against promiscuous handling. Like protection shall be used where food is exposed in show windows or upon show stands; except that where food is exposed in such a manner, the front and entire top may be made of 20-mesh screen or material of similar character.

The protection which shall be considered adequate for food kept on sidewalks, in doorways or open windows, on street stands, pushcarts or other places in the open air, or in rooms or buildings which are not free from flies, shall be a complete enclosure of a fixed or permanent character, consisting of glass, wood or sheet metal, or material of a similar character which is impermeable so as to protect against contamination; provided, however, that in the case of fruits, bake

ry goods or other foods subject to sweating when completely enclosed, openings may be allowed on two sides of the enclosure required, which openings shall not exceed ten percent of the area of such side, and which openings shall be completely covered with 20-mesh screen or material of a similar character; and provided, further, that covering the top and all sides of a container with paper, cloth, canvas, tarpaulin or material of a similar character shall be considered an adequate cover for food while being conveyed or transported

Adequate facilities, capable of providing proper temperature shall be provided for all potentially hazardous foods.

The original box, crate or container, and the usual cover for such containers, left in place and intact, shall be considered adequate protection for fruits sold or offered for sale in such original containers.

A complete enclosure in a box, carton, wrapper or package of a similar character shall be considered adequate protection for all food required to be protected.

Food shall be protected in accordance with this chapter and the rules of the Department of Health. Nothing in this section shall be construed to prohibit the necessary exposure of food during the immediate processes of preparation, cooling, assortment or packing in a building or place screened and free from insects, or during loading or unloading, or during the actual process of servicing or selling.

No person shall manufacture, give away, sell or offer for sale, or have in his possession or custody for any purpose any candy or other confectionery which contains malt, vinous or spirituous liquor, or which contains any added substance or ingredient that gives or imparts to said candy or other confectionery any color, flavor or aroma, unless such added substance or ingredient is wholly a vegetable product or conforms to the provisions of the United States Food and Drug Act and is not injurious to health.

It shall be the duty of the department of health to inspect all candy and other confectionery that may be

manufactured or offered for sale within the city, and to cause the arrest and punishment of any person that shall in any way violate any of the provisions of this section.

Article V4]V. Poultry

7-40-135 Poultry -- License required - Sanitary requirements.

It shall be unlawful for any person to sell at retail any live poultry or other live fowl, or to slaughter or cause to be slaughtered for sale at retail any live poultry or other live fowl without first having obtained a retail food establishment license, in accordance with chapter 4-8. No license shall be issued unless the premises on which the poultry or fowl is slaughtered or to be slaughtered meets all of the following requirements: complies with all pertinent rules of the Department of Health.

A separate preparation room shall be provided which shall be used exclusively for killing and dressing of poultry.

(a) The floors shall be constructed of cement, concrete or other approved watertight nonabsorbent material so graded and drained as to discharge all liquid matter into properly trapped sewer or catchment.

(b) The ceilings shall be of a smooth, hard, impervious material free from crevices, cracks, ledges or projections. The walls shall be of enamel brick, enamel tile or any other impervious material to the entire height of ceiling. The junctions with the ceilings and floors shall be made with a six-inch sanitary cove base of glazed tile or brick.

(c) All ceilings shall be at least eight feet in height measured from the surface of the floor to the said ceiling.

(d) Adequate ventilation to the external air shall be provided at all times.

(e) Adequate natural or artificial light of at least 10 footcandles shall be provided in every room.

(f) The preparation room shall be provided with a killing trough with a minimum width of one foot and a minimum depth of one and one-half feet, approved by the health department. The walls and face of the trough must be of white glazed brick or tile, porcelain or enamel-finished metal, or stainless steel, and shall discharge over properly trapped and sewer-connected drains. Proper receptacles shall be provided for the holding, storing or keeping of all refuse material. All equipment shall be of enamel, enamel tile, steel or other impervious and readily cleanable material. The preparation room and all equipment therein shall be cleaned each day after the slaughtering for the day has been completed.

(g) Crates, cages or batteries shall be elevated at least one foot above floor level and shall not be placed nearer than two feet from the side walls of the building. No crates shall be permitted to remain outside the licensed premises.

(h) An adequate supply of running hot water under pressure shall be provided for flushing all parts of the premises.

(i) All portions of the premises shall be constructed and maintained ratproof in accordance with the ratproofing provisions of the Building Code.

49

(j) All doors, windows and other openings to the outer air shall be properly and adequately screened to eliminate flies and prevent their entry.

(k) Adequate watercloset accommodations shall be provided, and sufficient fixtures with hot and cold running water for washing purposes shall be provided at all times; the toilet room or rooms shall not open directly into the preparation room, and shall be ventilated to the outside air by a direct or approved indirect method.

(l) Empty crates shall be thoroughly disinfected and cleaned daily so that no odors or nuisances are created by the storage of said empty crates.

(m) Feathers and refuse material shall be disinfected and removed from the premises at least once in every business day in metal receptacles which shall be provided with tight-fitting covers, kept closed when not in use, and cleaned and disinfected daily.

(n) No live poultry shall be allowed or permitted at large upon the premises but shall be kept at all times in the cages or crates provided for such purpose.

(o) The premises and all yards adjoining same and all air shafts, courts and open places connected therewith shall be at all times kept in a clean, sanitary condition, free from accumulation of refuse, garbage and offensive material and nuisances of all kinds.

(p) All poultry shall be kept in good condition, healthy and clean. Diseased or sick poultry shall be immediately removed from cages or crates, killed or disinfected. Any poultry that has died otherwise than by slaughter shall be immediately removed from cages or crates, denatured and placed in metallic garbage receptacles and removed from the premises daily, and in addition, any poultry that has been slaughtered and which has deteriorated and become unfit for human consumption, or such as may have been returned by customers, shall not be kept on the premises unless such poultry is similarly denatured and disposed of in metal receptacles and removed from the premises daily. Failure to denature and render such poultry unfit for human food and the keeping of same on the premises shall create a presumption that such poultry is intended for sale as human food.

(q) Refrigeration facilities shall be maintained sufficient to provide storage for dressed poultry.

7-40-150 Recordkeeping.

Every licensee who purchases any live poultry or live fowl for resale or to be slaughtered for sale at retail, shall keep a record which will show the date of purchase, the number, weight, breed, description and other distinguishing marks, if any, of said live poultry or live fowl and the name, address and brief description of the seller or sellers, type of conveyance used by said seller or sellers; and if said conveyance is a motor vehicle, a record of the license number thereof; which record shall be open to inspection by officers of the city at all times.

7-40-225 Bottled water plants-Sanitary and health requirements.

Adequate and convenient handwashing and toilet facilities shall be provided and shall be accessible at all times for employees in all bottled water plants and the location of the same with reference to the proximity to the place where the business of the establishment is carried on, and to the place where beverage and beverage ingredients are kept, stored, sold, prepared or offered for sale shall be subject to the approval of the department of health. In all establishments such facilities shall be kept clean and in good repair. The department of health shall publish regulations relating to hygienic conditions.

7-40-230 Bottled water plants-New construction or reconstruction requirements.

In all bottled water plants hereafter constructed or reconstructed, the operations of washing, filling, compounding or mixing of beverage or beverage ingredients shall be performed in separate rooms; provided, that nothing herein contained shall prohibit the washing equipment being so arranged as to permit such portion of the mechanical bottle washing apparatus wherein the sanitized bottles undergo final rinsing operations and from where

e such bottles emerge in a sanitized condition to extend into the filling room. In all such bottled-water plants heretofore constructed or reconstructed, before any equipment is installed, plans in duplicate shall be submitted for approval to the department of health. These plans shall show the plan of the building, location and construction of syrup room, bottling room and bottle-washing room; the location and layout of machinery and equipment and any other information which the department of health may require to pass on the sanitary facilities of the proposed plant. When the department of health is satisfied that the construction and layout of the proposed bottled water plant meets the sanitation requirements of this Code, one copy of the plan, bearing the approval stamp of the department of health, shall be returned to the applicant.

53

The floors of all rooms in which beverage or beverage ingredients are stored or prepared, or in which utensils and equipment are washed, shall be smooth and have such construction as to be easily cleaned, and shall be kept clean and in good repair. Properly installed floor drains shall be provided in floors which are water flushed.

7-40-240 Compliance with city regulations.

Walls and ceilings of all rooms in which beverage or beverage ingredients are prepared shall have a smooth washable surface, be painted or finished in light color, and shall be refinished as often as necessary in a manner.

In all establishments hereinafter constructed or in which extensive remodeling of the beverage or beverage ingredient preparation areas is done, the floor and wall junction shall be provided with a four inch cove.

All rooms in which beverage or beverage ingredients are prepared or in which utensils are washed shall be well ventilated.

All bottled-water plants shall have adequate ventilation. All ventilation systems shall comply with applicable regulations.

7-40-245 Premises-Health and sanitation-All parts of the establishment and all parts of the property used in connection with the operation of the establishment shall be kept in such a condition as to prevent the harborage or feeding of vermin and insects in accordance with the department of health regulations and clean and free of litter, rubbish and offensive odors. Adequate facilities within the establishment shall be provided for the storage of employees' personal belongings.

Article IX V. Frozen Desserts and Mixes

7-40-250 Definitions.

The following definitions shall apply in the interpretation and enforcement of this article, notwithstanding the definitions in the Illinois Food Code.

"Dietetic frozen dessert" means a frozen dessert in which approved nonglycogenic substances have been substituted wholly or in part for sugar or other sweeteners.

"Freezer capacity" means a manufacturer's ability to produce frozen desserts of mix using gallons per hour as the rating method.

"Frozen dessert" means any frozen or partially frozen combination of two or more of the following which is intended for human consumption: milk and milk products; egg or egg products; sweeteners; approved nonglycogenic substances; water fruit; fruit juices; candy-nut meats or other wholesome food products; natural and harmless artificial flavors; certified colors; citric acid or other types of harmless organic acids; approved stabilizers and food emulsifiers.

54

"Frozen dessert distributor" means a frozen dessert plant, the operation of which is limited to the storage, sale or offering for sale, and delivery of frozen desserts and mix.

"Frozen dessert plant" means any place or premises where frozen desserts or mix are stored, manufactured, processed, packed or packaged or frozen for distribution.

"License" means permission issued by the department of health to manufacture, process, freeze, pack or package or distribute frozen desserts and mix in the City of Chicago pursuant to the provisions of this article.

"Milk" and "milk products" mean the following: milk; cream; frozen cream; concentrated milk fat; fluid skim milk; sweetened and unsweetened evaporated skim milk; sweetened and unsweetened concentrated or condensed milk and skim milk; whey dry milk; nonfat dry milk solids; sweet cream; or any of these products from which lactose has been wholly or partially removed and any other product derived in whole or in part from milk as defined in Article XI of this chapter or as may be approved and designated by the department of health, and any mixture of the aforementioned products.

"Mix" means the unfrozen combination of all ingredients of a frozen dessert with or without fruits, fruit juices, candy, nut meats, flavor or color, in a fluid or semifluid state.

"Pasteurization" has the same meaning as in Article XI of this chapter.

"Permit" means permission to manufacture, process, freeze, pack or package, or distribute frozen desserts and mix in the City of Chicago under a license issued under this Code; subject to approval by the board of health.

"Person" means any natural individual, firm, trust, partnership, association or corporation in his or its own capacity or as administrator, conservator, executor, trustee, receiver or other representative appointed by a court. Whenever the word "person" is used in any section of this chapter proscribing a penalty or fine as applied to partnership or associations, the word shall include the partners or members thereof, and such word as applied to corporations shall include the officers, agents or employees thereof who are responsible for any violations of said section.

"Vegetable fat frozen dessert" means a frozen dessert in which vegetable fat or vegetable oil has been substituted wholly or in part for milk fat.

"Vehicle" means any wheeled conveyance used for the commercial transportation of frozen desserts or mix, whether powered by motor, by human or animal power or otherwise.

7-40-275 Condemnation procedures.

Mix or frozen desserts which are found by the department of health to be adulterated or misbranded shall be condemned, and the person who is in custody or possession of said mix or frozen desserts at the time of condemnation shall cause the same forthwith to be destroyed, or, upon written permission of the department the same may be returned to the producer or shipper thereof.

"Adulterated frozen dessert or mix" means a frozen dessert or mix which bears or contains any poisonous or deleterious substance in a quantity which may render it injurious to health; or which bears or contains any added poisonous or deleterious substance for which no safe tolerance has been established by the State of Illinois or federal regulations, or in excess of such tolerance if one has been established; or which consists, in whole or in part, of any substance unfit for human consumption; or which has been produced, processed, prepared, packed or held under unsanitary conditions; or the container of which is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health; or the substance of which has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is.

is accompanied by any false or misleading written, printed or graphic matter; or which does not conform to its definition and labeling requirements as contained in this chapter and the rules and

regulations promulgated hereunder or by the Illinois Department of Public Health; or which is not labeled in accordance with the U.S. Food, Drug, and Cosmetic Act, as amended, and applicable provisions of the Code of Federal Regulations, as amended.

7-40-280 Sampling procedure.¹

(a) As often as may be required by the department of health, but in no case less than four times within any six-month period, samples of frozen desserts and mix from each frozen dessert plant located within the City of Chicago shall be taken by the department for analysis. Such samples may be taken at any time prior to delivery to the place where frozen desserts and mix are made available to the public. Such frozen dessert plants shall furnish the department, upon request, with the names and addresses of all persons who make frozen desse

its or mix available to the public within the City of Chicago to whom mix or frozen desserts are sold or delivered, together with records of the kind and amount of mix or frozen desserts sold or delivered to such persons, and the names and addresses of all persons supplying such frozen dessert plant with milk, milk products and other ingredients used in the manufacture of mix or

An accurate daily record shall be kept at each frozen dessert plant showing all purchases of vegetable fats and oils and the amount used. These records shall be available at all times for inspection by the department. Any person processing or packaging ingredients used in frozen desserts shall operate in compliance with the sanitary requirements of this chapter 7-40 and the rules and regulations promulgated hereunder.

(b) Each frozen dessert plant located outside the City of Chicago whose products are intended for sale or distribution within the City of Chicago shall be inspected and samples taken at intervals not exceeding 90 days and such inspections and sampling shall be carried out no less than four times annually by a supervising agency acceptable to the United States Public Health Service and approved by the department of health.

(c) Samples of frozen desserts or mix from retail food purveyors, food dispensing establishments, mobile food dispensers, automatic food vending machines, and any other place where frozen desserts are made available to the public in the City of Chicago, shall be taken for analysis by the department as often as it may require.

7-40-285 Milk and milk products used as ingredients.

All milk and milk products used as ingredients in mix in frozen desserts shall comply with this chapter 7 AO of this Municipal Code and the rules and regulations of the board of health and shall be from Grade A sources approved by the board of health and which are listed in the current publication of the U.S. Food and Drug Administration Sanitary Compliance and Enforcement Ratings of Interstate Milk Shippers or successor publication with a minimum rating of 90. Fats other than milk fat and the substitution of other products for nonfat milk solids shall not be used in the manufacture of mix or frozen desserts unless approved by the department of health.

7-40-325 Adulteration and misbranding designated.

No person shall produce, provide, sell, offer or expose for sale, deliver or have in possession with intent to sell or deliver, any milk or milk products all or any part of which is ultimately delivered in tho City of Chicago, which is adulterated or misbranded.

Milk and milk products are adulterated (1) if they bear or contain any poisonous or deleterious substance in a quantity which may render them injurious to health; (2) if they bear or contain any added poisonous or deleterious substance for which no safe tolerance has been established by state or federal regulations, or in excess of such tolerance if one has been established; (3) if they consist, in whole or in part, of any substance unfit for human consumption; (4) if they have been produced, processed, prepared, packed or held under unsanitary conditions; (5) if the containers are composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health; or (6) if any substance has boon added thereto or mixed or

packed therewith so as to increase the bulk weight, or reduce the quality or strength, or make them appear better or of greater value than

li y Qrrr

Milk and milk products are misbranded (1) when their container bears or accompanies any false or misleading written, printed or graphic matter; (2) when such milk and milk products do not conform to their definitions as contained in this Code; or (3) when such products are not labeled in accordance with Section 7-40-330 of this Code and applicable state rules and regulations.

All bottles, cans, packages and other containers (including storage tanks and milk transport tanks) enclosing milk or any milk product defined in Section 7-40-310 shall be plainly marked or labeled with the following, and only such other information as may be designated by the department of health:

59

- a) the name of the contents as given in the definitions of Section 7-40-310;
- b) the word "raw" if the contents are raw, and the identity of the producer, or receiving station, as the case may be;
- c) the word "pasteurized" if the contents have been pasteurized; the words "ultra-pasteurized", if the product is processed at temperatures of 280 degrees Fahrenheit or higher in accordance with the rules and regulations of the board of health. The plant national uniform code number and/or the Chicago board of health license number;
- (d) the classes of milk and milk products as designated by Section 7-40-350; - (e) in the case of vitamin D milk or milk products, the designation vitamin D (and the number of international units added per quart) and such other information as may be required by the department of health;
- (f) The words "nonfat milk solids added", and the percentage added, if applicable; - (g) In the case of fortified milk or milk products, the word "fortified" (and the amount of vitamins and minerals added per quart);
- (h) The words "artificially sweetened" and the names of such nonnutritious or artificial sweetener, if such is used;
- (i) In the case of low sodium milk or milk products, the maximum sodium content in milligrams per quart and the maximum sodium content per 100 milliliters; - (j) On all containers of milk products received by pasteurization plants from receiving stations, the date received by the receiving station;
- (k) The common name of stabilizers, distillates, acidifiers and other ingredients, if such are used;
- (l) In the case of concentrated milk products, the specific name of the product shall be substituted for the generic name;
- (m) In the case of flavored milk, flavored milk products, or flavored reconstituted milk, the name of the principal flavor shall be substituted for the word "flavored";
- (n) In the case of cultured milk and milk products, the special type culture used may be substituted for the word "culture" e.g., acidophilus buttermilk, Bulgarian buttermilk;
- (e) In the case of recombined or reconstituted milk or milk products, the word "recombined"
- (p) In the case of the pasteurized concentrated milk or milk products, the proportion of volume of water to be added for recombining;
- (q) The word "milk" shall not appear or be used on any label, cap, receptacle or container for any products except those defined in this chapter as milk, flavored milk, low-fat milk, flavored low-fat milk, skimmed milk, flavored skimmed milk, buttermilk, cultured buttermilk, cultured milk, vitamin D milk, unless approved by the department of health.

All marks and labels shall be in letters of an approved size, kind and color, and shall contain no marks or words which are misleading. Proof print or sketch of the bottle cap or cover, single-service container, can-tag or label, showing the size, content and arrangement of the lettering thereon shall be submitted to and approved by the department of health prior to the use of same. Whenever milk or milk products are packaged in glass bottles, jars or cans, the name and address blown into or embossed upon such container shall not be other than or different from that which is indicated on cap, cover or tag, unless approved by the department of health.

The original tags or labels shall remain on all containers until the milk or milk products in such containers are emptied therefrom for processing or sale. In the case of pasteurized milk and milk products, all of the necessary foregoing information shall be shown in an approved manner and shall be of a design and color which

makes the wording legible.

All vehicles and transport tanks containing milk or milk products shall be legibly marked with the name and address of the milk plant or hauler in possession of the contents;

60

(f) Labels on all cans, bottles and other containers of pasteurized milk shall bear the words "Date Pasteurized" followed by the date of pasteurization and the words "not to be sold after"

the height of the letters of the date to be not less than three-sixteenths of an inch on the label of the single-service

There shall appear on the tags or labels affixed to cans of milk the date of receipt from the producer; however, in the case of condensed products and cream, the date processed shall appear.

All vehicles and transport tanks transporting milk and milk products in bulk to a processing plant within limits of the City of Chicago shall be required to be sealed, and for each shipment a statement or bill of lading shall be prepared containing the following information:

4, -shipper's name, address, and permit and/or authorization number;

2, -license number of hauler, if not employee of shipper;

3, -point of origin of shipment;

A, -tanker identity number;

5, -name of product;

6, -weight of product;

7, -grade of product;

8, -temperature of product;

9, -date of shipment;

-name of supervising health authority at the point of origin;

14, -whether the contents are raw, pasteurized or otherwise heat treated.

Such statements shall be prepared in triplicate and shall be kept on file by the shipper, the consignee and the carrier for a period of six months for the information of the department of health.

7-40-340 Delivery, handling and receiving of milk—All milk produced shall be delivered daily to a milk-receiving station, transfer station or a pasteurization plant; provided however, that the department of health may authorize every other day delivery of milk to a milk-receiving station, transfer station or pasteurization plant from dairy farms having equipment approved by the duly certified supervising-enforcement agency by which all milk produced may be properly cooled in accordance with the certified supervising agency regulations and so maintained until collected under procedures prescribed by the department of health to insure production of milk meeting the standards established for raw milk for pasteurization. The department of health is hereby authorized to supervise and conduct scientific experiments and field testing of any method of handling and delivery of milk, and the department of health may authorize the sale of milk produced under such experimental program if it shall determine that milk so produced meets the standards for raw milk for pasteurization set by this chapter.

All milk received by pasteurization plants shall be pasteurized within 48 hours of receipt by the processing plant.

7-40-345 Bulk sales—Notice required.

-Every restaurant, cafe, soda fountain, or other establishment serving milk or milk products in bulk shall display at all times, in a place designated by the department of health, a notice

7-40-350 Pasteurization of milk and milk products.

No milk or milk products shall be sold in the City of Chicago except grade A pasteurized milk and milk products. Grade A pasteurized milk and milk products shall conform with the rules and regulations of the

board Department of Health for Grade A pasteurized milk and milk products.

~~All Grade A milk for pasteurization and all Grade A pasteurized milk and milk products shall be produced, processed,~~

7-40-355 Storage and container requirements.

Except as provided for under the provisions of this chapter, no milk producer or distributor shall transfer milk or milk products from one container or tank truck to another on the street, in any vehicle, store or in place except at a milk plant, receiving station, transfer station or milk house especially used for that purpose. The dipping or ladling of milk or fluid milk products is prohibited.

-It shall be unlawful to sell or serve any milk or fluid milk products except in the individual original container received from the distributor, or from an approved bulk dispenser; provided, that this requirement shall not apply to milk for mixed drinks requiring less than one half pint of milk, or to cream, whipped cream, or half-and-half which is consumed on the premises and which may be served from the original container of not more than one half-gallon capacity, or from a bulk dispenser approved for such service by the department of health.

~~All milk and milk products shall be stored and maintained at temperatures of 40 degrees Fahrenheit or less.~~

~~-If containers of pasteurized milk and milk products are stored in ice, the storage containers shall be properly drained.~~

7-40-360 Time limit on sales.

All pasteurized milk, flavored milk, cream, half and-half, low-fat and skim milk or skimmed milk shall be sold not later than 14 days from the day of pasteurization, and such maximum time limit shall be designated on the label, cap or tag in accordance with the provisions of Section 7-40-330.

~~Milk products processed at temperatures known as ultrahigh heat pasteurization in accordance with the rules and regulations of the board of health shall have a time-limit of sale in accordance with the applicable regulations and such limit shall be designated on the label in accordance with provisions of Sections 7-40-325 and Section 7-40-330.~~

7-40-365 Inspection and supervision of dairy farms, milk plants and stations.

Each dairy farm, milk plant, receiving station, transfer station whose milk or milk products are intended for sale or distribution within the City of Chicago shall be under the supervision of a qualified supervising enforcement officer.

Every milk producer, hauler, distributor or plant operator shall upon request of the department of health, permit access of officially designated persons to all parts of his establishment or facilities to determine compliance with the provisions of this Code. A distributor or plant operator shall furnish the department of health, upon request, for official use only, a true statement of

62

actual quantities of milk and milk products of each grade purchased and sold, and a list of all sources of such milk and milk products, records of inspections, tests, and pasteurization time and temperature records.

It shall be unlawful for any person in an official capacity, who obtains any information under the provision of this Code which is entitled to protection as a trade secret (including information as to quantity, quality, source or disposition of milk or milk products, or results of inspections or tests thereof) to use such information to his own advantage or to reveal it to any unauthorized person.

-During any period of six consecutive months, at least four samples of raw milk for pasteurization shall be taken from each producer and four samples of raw milk for pasteurization shall be taken from each milk plant after receipt of the milk by the milk plant and prior to pasteurization. In addition, during any consecutive six months, at least four samples of pasteurized milk and at least four samples of each milk product defined in this Code shall be taken from every milk plant. Samples of milk and milk products shall be taken while in possession of the producer or distributor at any time prior to final delivery. Samples of milk and milk products from dairy retail stores, food service establishments, grocery stores and other places where milk and milk products are sold, shall be examined periodically as determined by the department of health, and the results of such examination shall be used to determine compliance with this Code. Proprietors of such establishments shall furnish the de

partment of health, upon its request, with the names of all distributors from whom milk products are obtained.

Required bacterial counts and cooling temperature checks shall be performed on raw milk for pasteurization. In addition, antibiotic tests on each producer's milk or on commingled raw milk shall be conducted at least four times during any consecutive six months. When commingled milk is tested, all producers shall be represented in the samples. All individual sources of milk shall be tested when test results on the commingled milk are positive. Required bacterial counts, coliform determinations, phosphatase, and cooling temperature checks shall be performed on pasteurized milk and milk products.

Whenever a phosphatase test is positive, the cause shall be determined. Where the cause is improper pasteurization, it shall be corrected, and any milk or milk products involved shall not be

7-40-375 Milk and milk products shipped from beyond inspection limits.

Milk and milk products from points beyond the limits of inspection of the City of Chicago may not be sold in the City of Chicago unless produced and pasteurized under provisions identical with those of this chapter and approved by the supervising inspectional agency, and listed in the Sanitation Compliance and Enforcement Ratings of Interstate Milk Shippers, as published and amended from time to time, with a minimum grade of 90.

63

7-40-380 Prevention of transmission of infections.

When suspicion arises as to the probability of transmission of infection from any person concerned directly or indirectly with the handling of milk or milk products, the department of health is authorized to require any of the following measures, or any additional measures which it may deem necessary:

1. the immediate exclusion of that person from milk handling;
2. the immediate exclusion of the milk supply concerned from distribution and use;
3. adequate medical and bacteriological examination of the person, of his associates and of his and their bodily discharges.

Notice shall be sent to the department of health immediately by the processor and/or distributor of milk or milk products in whose milk plant any case of sickness, or any infectious, contagious or communicable disease occurs.

Article X4IVII. Violation of Chapter Provisions

suspension of any and all licenses and permits issued to the owner of that particular food establishment.

(c) It shall be the duty of every owner to permit a representative of the Ddepartment of Hbealth, after proper identification, to enter at any reasonable time and make inspections of the facilities, equipment and vehicles for determining compliance with the requirements of this Municipal Code and the rules of the Department of Health relating to health and sanitation and, when required to do so, the owner shall furnish samples of any foods prepared, kept, sold or transported by any such food establishment as often as the Ceommissioner of Hbealth may deem necessary to determine that the foods are free from alteration, not misbranded, do not contain an excessive number of microorganisms or their toxins, and otherwise comply with the provisions of this Municipal Code and the rules and regulations of the board Department of Hbealth. The owner shall answer all reasonable and proper questions and permit the health authority to examine records of the establishment to obtain pertinent information relating to food, water, beverages and supplies received or used and persons employed. Any samples provided shall be examined or analyzed under the direction of the Ddepartment of Hbealth, and a record of each such examination or analysis shall be made and kept in the offices of the department. Upon failure or refusal by an owner to permit inspection or to furnish required samples, the Ceommissioner shall immediately suspend any and all licenses or permits issued to the owner of that particular food establishment.

7-42-020 "Held for inspection" procedures.

a) Upon written notice to the owner, the Ddepartment of Hbealth may place a "Held for Inspection" order on any food which the health authority determines or has probable cause to believe to be unwholesome or otherwise adulterated or misbranded. At the request of the owner, foods so held for inspection shall be permitted to be suitably stored pending analysis reports or voluntarily denatured and disposed of under Ddepartment of Hbealth supervision.

b) It shall be unlawful for any person to remove the "Held for Inspection" tag or seal placed on the food by the Ddepartment of Hbealth, nor shall the containers of such food be removed from the premises or destroyed without permission of the Ddepartment of Hbealth except on order of a court of competent jurisdiction. The Ddepartment may vacate a "Held for Inspection" order or may by written order direct the owner or person in charge of the food to denature or destroy such food, bring it in compliance with the provisions of this Code and the rules and regulations of the board Department of Hbealth or dispose of it for nonhuman use as may be approved by the Ddepartment of Hbealth. Any order of the Ddepartment of Hbealth to denature or destroy food shall be stayed pending appeal if the order is appealed to a court of competent jurisdiction within three (3) calendar days. Nothing in this section shall preclude any court action based upon a finding of unwholesome or adulterated foods.

(c) Upon written notice to the owner, a "Held for Inspection" order may be placed by the Department of Health on any piece of equipment that is believed to be inoperable or that the Department has not approved for commercial use. "Held for Inspection" shall have the meaning ascribed to this term in the rules of the Department of Health.
