CITY OF CHICAGO

Introduction

The City of Chicago (the "City") is establishing a voluntary property assessed clean energy ("PACE") program to finance or refinance the acquisition, construction, installation or modification of an alternative energy improvement, renewable energy improvement, resiliency improvement or water use improvement that is affixed to real property including new construction (collectively, "Energy Projects").

The City's PACE program, known as Chicago PACE ("Chicago PACE" or the "Program") is available for privately-owned commercial, industrial, multi-family (live or more units) and non-residential agricultural properties in the City (collectively, "Properties"). Chicago PACE is available City-wide, as reflected on the PACE area map, which is attached as Appendix A.

The Program is designed to accelerate private investment in Energy Projects on existing and newly constructed buildings on Properties. The City and its residents and businesses will benefit from the Energy Projects financed through the Program that enables private sector funding for up to 100% of the costs of Energy Projects, at no cost to the City, to further the City's sustainability and economic development goals, including:

- Energy Efficiency and Clean Energy
- Water Conservation
- Climate Change Mitigation

- Improved Air Quality
- Economic Development and Job Creation
- Minority- and Women-Owned Enterprises Engagement

Purpose of the Program Report

Enacted in 2017 and amended in 2018 (effective January 1, 2019) and 2019 (effective July 29, 2019), the Property Assessed Clean Energy Act, 50 ILCS 50/1 et seq. (the "Illinois PACE Act") authorizes local units of government in Illinois to establish PACE programs. The City established a PACE program by adopting an ordinance on October 31, 2018, meeting the requirements of Section 15 of the Illinois PACE Act, including the adoption of a program report as required by Section 20 of the Illinois PACE Act. The City adopted an ordinance on [REDACTED], 2019 approving an amended program report. This Program Report contains a description of how PACE works, its benefits and an outline of the basic design and financing or refinancing structure of the Program.

Description of Chicago PACE

Chicago PACE finances or refinances the voluntary acquisition, construction, installation or modification of Energy Projects on Properties, utilizing a non-ad valorem assessment on the Properties being improved (the "Assessment*"). Record owners can use PACE financing or refinancing to fund up to 100% of the costs involved in Energy Projects, including all related equipment, materials and labor, as well as soft and closing costs.

The City will enter into an assessment contract with the record owner (the "Assessment Contract") in order to secure the PACE financing or refinancing. The Assessment Contract describes the Energy Project being financed, the Property on which such Energy Project will be affixed, and the amount financed. The Assessment Contract will also define capitalized closing costs, the interest rate, the term, the annual installments, including estimated annual costs, and the prepayment terms and conditions. Interest rates are fixed, the Assessment fully amortizes over the term of the Assessment and there are no balloon payments.

City of Chicago PACE Program Report

CITY OF CHICAGO

The Assessment Contract will be recorded by the Cook County Recorder of Deeds as a lien on the property and thereafter will be funded through the issuance of PACE bonds by the City or the Illinois Finance Authority (the "IFA"). In some cases, Energy Projects may also be temporarily funded through a warehouse fund until the PACE bonds are issued. Pursuant to the Assessment Contract, the record owner makes Assessment installment payments of principal, interest, and any other annual costs. The Assessments are either billed directly to the record owner or added to the record owner's tax bill.

Because the Assessment is attached to the Property being improved, if the Property is sold before the Assessment is paid off the balance of the Assessment Contract remains with the Property and seamlessly transfers to the new record owner without any need to approve the new record owner.

Method for Determining Interest Rates, Repayment Periods, and Maximum Amount of an Assessment

Interest Rates. The interest rate that will be charged pursuant to any Assessment Contract will be determined by the capital provider based on prevailing market conditions, subject to negotiation by the record owner. The Program Administrator is committed to scaling Chicago PACE and will seek to arrange capital with interest rates competitive with other PACE programs.

Repayment Periods. The repayment period for an Assessment cannot exceed the estimated useful life of the Energy Projects being financed. The record owner may request, or the capital provider may require, a shorter period.

Assessment Amount. 'The aggregate Assessment amounts cannot exceed 25% of the greater of the assessed value or the appraised value, as determined by a licensed appraiser,' of the property. In addition, the maximum amount of an Assessment may not exceed the actual cost of the Energy Projects being financed or refinanced and closing costs, including the cost of materials and labor necessary for the acquisition, construction, installation or modification of the Energy Projects, permit fees, inspection fees, application and administrative fees, bank fees, and all other fees that may be incurred by the record owner pursuant to the installation and modification of the Energy Projects and the issuance of PACE bonds, including capitalized interest and prepayment fees.

How Assessments Are Made and Collected

The Assessment Contract will be recorded by the Cook County Recorder of Deeds as a lien on the property, until the Assessment, including any interest, penalty and prepayment fee, is paid in full. The lien has the same priority as real estate property taxes and other special assessment liens.

Assessment installments may be billed either by the Cook County Treasurer's Office, which would include the installments on the property's tax bill or by the City, which would issue invoices through the Program Administrator. The installments generally are payable semi-annually on the first business day in March and September. The payments by the record owner are used to pay the Assessment which secure the outstanding PACE bonds or the warehouse fund. The Program Administrator will notify the City, who then notifies the Cook County Treasurer's Office, if any Assessment installment is delinquent. Delinquent Assessment installments are subject to the same rights and remedies as delinquent real estate property taxes or other delinquent special assessments, including a property tax sale.

Plan to Raise Capital

The City may issue PACE bonds under the Illinois PACE Act or the City can elect to have the Illinois Finance Authority ("IFA") issue PACE bonds. Subsection (cl) of Section 825-65 of the Illinois Finance Authority Act provides for the assignment of Assessment Contracts securing such PACE bonds by the City to the IFA. Interim financing prior to the issuance of PACE bonds by the City or the IFA may be provided only by a warehouse fund, except that warehouse funds or interim financing established by capital providers may only hold Assessment Contracts for a maximum of 36 months from the date of recording of the applicable Assessment Contract.

PACE bonds issued to finance or refinance Energy Projects under the Illinois PACE Act shall not be general obligations of the City or the IFA but shall be secured by the payments under one or more

City of Chicago PACT. Program Report

CITY OF CHICAGO

Assessment Contracts on benefited property or properties within the City and, if applicable, revenue sources or reserves established by the City or the IFA from bond proceeds or other lawfully available funds. In addition, PACE bonds may be secured by municipal bond insurance, letters of credit or public or private guarantees or sureties. The maturity of the PACE bonds shall not exceed 40 years from the date of issuance.

The Program Administrator is responsible for arranging the capital to acquire the bonds to finance or refinance approved Energy Projects. During the pilot stage, the Program Administrator will provide capital from two sources to ensure a sufficient funds are available to acquire the PACE bonds issued by the City or the IFA or to establish a warehouse fund. The Program Administrator will provide the capital through its affiliate, Counterpointe Sustainable Real Estate and through capital raised by Loop Capital Markets in private placements. All purchasers of the PACE bonds and warehouse lenders will be accredited investors or qualified institutional buyers that are approved by Loop Capital Markets and the Program Administrator pursuant to requirements that will be set forth in the Guidebook.

After a pilot stage period of 12 months from the closing of the City's first PACE transaction, the Program Administrator will solicit third party capital providers (a "Third Party Capital Provider") to apply to register with the Program to originate Assessments to finance or refinance Energy Projects and to purchase PACE bonds to finance or refinance such projects. Each approved Third Party Capital Provider will also pay M/WBE Outreach Program Fees (the "Program Fees") for each Assessment based on a percentage of the cost of each Energy Project financed or refinanced with PACE bonds purchased by such Third Party Capital Provider. The amount of the Program Fees will be set from time to time by the Program Administrator with the approval of the Commissioner of DPD. The Program Fees will be outlined in the Guidebook. The Program Fees will be earmarked for M/WBE community engagement by the

Program Administrator, including outreach opportunities for the M/WBE contractors and other building professionals.

As Chicago PACE evolves, the Program Administrator will seek to employ , more complex bond structures to attract a broader group of capital providers with different investment goals and risk appetites to further drive down the cost of PACE financing or refinancing in Chicago.

User Fees

The record owner will be charged certain fees and costs in connection with applying for and obtaining financing or refinancing under the Program: The Program Administrator will not charge a fee for contractors or other building professional to apply for, or to maintain, registration with the Program.

Certain fees are categorized as Costs of Issuance, Annual Fees or Application Fees and can be financed under the Assessment Contract. The actual amounts and additional details will be provided on the Program website and in the Guidebook.

Cost of Issuance. The cost of issuance includes:

- 1) A program administrative fee, payable to the Program Administrator.
- 2) A City administrative fee, payable to the City in connection with DPD's oversight of the Program and the Program Administrator,
- 3) A private placement fee, payable to Loop Capital Markets for acting as the private placement agent or underwriter of the bonds issued in connection with the Program,
- 4) An issuer fee, payable to IFA as the issuer of the bonds issued in connection with the Program, but only if IFA is selected by the City to be the issuer.

CITY OF CHICAGO

- 5) Counsel fees (bond and/or disclosure) and trustee fees, payable to counsel and the trustee in connection with the issuance of the bonds.
- 6) Deposits to reserve funds established in connection with the issuance of the bonds, if applicable,
- 7) Recording fees payable to the Cook County Recorders Office to cover the cost of recording the Assessment Contract,
- 8) Capital provider origination fee, payable to the applicable capital provider in connection with purchase of the bonds or the warehouse funds and
- 9) The additional Program Fee required of Third Party Capital Providers, if applicable.

Annual Fees. The recurring annual fees consist of the annual trustee's fee, the annual servicer's fee and, if the Cook County Treasurer bills the record owner for the annual installment of the Assessment, then the fee, if any, of the Cook County Treasurer. "None of the recurring annual fees may be capitalized and all the recurring annual fees are subject to either contracts with the City or approval by the City.

Application Fee. There will be no fee for initial prequalification to determine whether a record owner and the property meet the minimum eligibility criteria of the Program. Once an application is submitted to the Program, an application fee will be charged. If the Assessment closes, the fee will be applied as a credit against the Program Administration fee payable to the Program.

The Term of an Assessment

The maturity of an Assessment may not exceed the useful life of the Energy Project. The expected useful life is determined based on industry standards and manufacturer's warranties. A partial list of types of Energy Projects and their estimated expected useful lives can be found in the Guidebook. When installing multiple Energy Projects, the maximum maturity available is the maturity associated with the greatest financing or refinancing amount. The maturity of an Assessment will generally be in five-year increments, between five and 40 years. The Program reserves the right to approve a maturity shorter than the requested maturity. The maturity of the Assessment will be set forth in the Assessment Contract.

Determining Ratio of Assessment Amount to Property Value for the Program

For the purpose of determining the value of a property for inclusion in the Program, the property will be valued at the greater of (1) the assessed value of the property and (2) the appraised value of the property, as determined by a licensed appraiser. If the proposed Energy Project qualifies for the Program utilizing the assessed value, the Program Administrator may waive the requirement to obtain an appraisal.

Mortgage Notification and Consent

Under the Illinois PACE Act, the record owner shall provide written consent from the holders or loan servicers of any existing mortgages encumbering or otherwise secured by the Property, to enter into the Assessment Contract, together with the maximum principal amount to be financed and the maximum annual Assessment necessary to repay that amount. A verified copy of the written consent of the existing mortgage holder for the record owner to enter into the Assessment Contract and acknowledging that the existing mortgage will be subordinate to the financing or refinancing and Assessment Contract and that the City or, if applicable, its permitted assignee can foreclose the property if the Assessment is not paid has been provided to the City.

CITY OF CHICAGO

Marketing and Education

Marketing Education and outreach activities will be the responsibility of the Program Administrator, who will:

- Plan and execute education/outreach campaigns and informational events
- Develop and provide Chicago PACE orientations
- Create, update, and distribute Chicago PACE educational materials
- Manage and regularly update Chicago PACE website
- Create case studies to highlight the success of the Program

Website Development. Working with the City, the Program Administrator has created the City of Chicago PACE Program website. The website is fully interactive and provides information about the Chicago PACE Program, including links to legislation, online applications, document retention, third party reviewer portal and record owner portal and contact information. www.ChicagoPACE.org <<http://www.ChicagoPACE.org>>

Education and Outreach Campaign. The Program Administrator will communicate the benefits of the Program to all stakeholders by creating, updating and distributing PACE educational materials throughout the City. Chicago PACE case studies will be created and posted on the Program website on recent newsworthy financings that provide details of the financing. Meetings will be held throughout the City to educate all stakeholders, i.e. Mortgage Lenders, Contractors, Energy Professionals, Developers, and Property Owners, on how to finance energy projects using PACE in Chicago. Property owners can visit Chicago PACE website to learn about eligibility requirements, financing or refinancing terms and other details and find approved contractors and eligible Energy Projects, including specific products.

MWBE Outreach and Marketing Plan. The Program Administrator will actively conduct outreach to MBEs and WBEs and educate them on how to participate in the Program and work with the City to register certified MBE and WBE firms as pre-qualified contractors. The Program Administrator will also host lunch and learn sessions for all stakeholders throughout the City.

Additional Quality Assurance and Antifraud

Quality assurance protocols serve to prevent improper or low-quality installation or modification of Energy Projects and protect against fraud and abuse of the Program. The Program will institute quality assurance protocols administered by the Program Administrator and overseen by DPD. Quality assurance protocols and procedures are subject to review and adjustment from time to time by the Commissioner of DPD based on applicable City, State and federal standards. Details on the current quality assurance protocols and procedures are outlined in the Guidebook. Despite the presence of these protocols and procedures, responsibility for the successful operation of an Energy Project is that of the record owner and its registered professionals. None of the City, the Program Administrator, any issuer of bonds, capital provider, underwriter or private placement agent, trustee, servicer or any of their respective directors, managers, officers, employees, advisors, agents shall have any liability for the selection, installation and modification and operation of any eligible Energy Project.

The Record Owner acknowledges that the Financing Parties established the PACE Program solely for the purpose of facilitating financing of energy projects arranged by owners of commercial property located in the PACE Area. The Financing Parties are not responsible for the selection, management and/or supervision of the Project, the Project's performance, the Construction Contracts or any assumed performance guaranty. Any issues related to performance of the Project should be discussed with chosen contractors, installers, manufacturers and/or distributors involved with the Project. d) In the event the Property is divided while the Assessment remains unpaid, the unpaid installments of the Assessment shall be segregated and apportioned by the City or the Program Administrator in accordance with a method selected by it in its good faith judgement.

Section 10. Notice. The Record Owner shall provide written notice to any subsequent purchaser of the Property, or a portion thereof, of the obligation to pay the Assessment.

The Record Owner hereby acknowledges that the Record Owner and its successors in interest to fee title in the Property will be responsible for payment of the Assessment regardless of whether the Project is properly installed, operated, maintained or performs as expected.

c) The Record Owner hereby agrees that the City is entering into this Contract solely for the purpose of assisting the Record Owner with the financing or refinancing of the Project, and that neither the City nor the Program Administrator has any responsibility of any kind for, and shall have no liability arising out of, the installation, operation, financing, refinancing, maintenance or performance of the Project. The Record Owner hereby certifies to the City that the City has complied with the provisions of Section 25 of the Act. The Record Owner hereby waives the right to recover from and fully and irrevocably releases the Financing Parties from any and all losses, liabilities, claims, damages (including consequential damages), penalties, fines, forfeitures, costs and expenses (including all reasonable out-of-pocket litigation costs and reasonable attorney's fees), relating to the subject matter of this Contract that the Record Owner may now have or hereafter acquire against the Financing Parties.

Section 12. Indemnification.

a) The Record Owner agrees to indemnify, defend, protect, and hold harmless the Financing Parties from and against all losses, Liabilities, claims, damages (including consequential damages), penalties, fines, forfeitures, costs and expenses (including all out-of-pocket litigation costs and attorney's fees) and any demands of any nature whatsoever related directly or indirectly to, or arising out of or in connection with (i) the Record Owner's participation in the PACE Program, (ii) the Assessment, (iii) the Project, or (iv) any other fact, circumstance or event related to the subject matter of this Contract, regardless of whether such losses, liabilities, claims, damages (including consequential damages), penalties, fines, forfeitures, costs and expenses (including all out-of-pocket litigation costs and attorney's fees) accrue before or after the date of this Contract.

b) The provisions of this Section shall survive the termination of this Contract.
